#### **HARDWARE ASSETS**

## **Operating Systems**

Change	Display Name	Description	Object Type	OS Type	OS Version	Serial Number	Architecture	IPv4 Address
Current			Red Hat					
New			AIX					
Dropped			Windows					

# Management Systems

Change	Display Name	Description	Object Type	Machine Type	Model	Serial Number	IPv4 Address	Software Type	Software Version	Manufacturer	Architecture Managed	HMC ID
			Admin									
Current			Domain									
			Blade Admin									
New			Server									
			Hardware									
			Management									
Dropped			Console									
		·	·									

## Individual Systems

Change	Display Name	Description	Object Type	Server Type	Machine Type	Virtual	Model	Serial Number	IPv4 Address	Software Type	Software Version	Manufacturer
Current			Hybrid System									
New			Power Unit									
Dropped			Server									

## Pools, Chassis, and Power Domains

Change	Display Name	Description	Object Type	Machine Type	Model	Serial Number	IPv4 Address	Software Type	Software Version	Manufacturer
Current			Power Domain							
New			System Pool							
Dropped			System Chassis							

#### **SOFTWARE ASSETS**

#### **Installed Software Assets**

Change	Display Name	Description	Туре	Version	Vendor	Identifying Number	Installed Location
Current			SoftwareComponentInstallation				
New			SoftwareFeatureInstallation				
Dropped			SoftwareInstallation				
			TemporaryFixGroupInstallation				
			TemporaryFixInstallation				

#### Other Software Assets

Change	Display Name	Description	Туре	Version	Vendor	Identifying Number	Installed Location
Current			SoftwareInstance				
New			SoftwareModule				
Dropped			SoftwarePackage				
			SoftwarePatch				

### **STORAGE ASSETS**

## Disks

Change	Display Name	Description	Туре	Primary Partition	Number Of Blocks	Capacity	Free Space	Model	Serial Number	Virtual	Version	Manufacturer
Current			LogicalVolume									
New			PhysicalVolume									
Dropped			StorageExtent									
			StorageVolume									

## **Partitions**

Change	Display Name	Description	Туре	Primary Partition	Number Of Blocks	Capacity	Free Space	Model	Serial Number	Virtual	Version	Manufacturer
Current			DiskPartition									
New												
Dropped												

# Farms, Fabrics, and SANs

Change	Display Name	Description	Type	Farm Type	SAN Type	Fabric Type	VS Count	IPv4 Address
Current			SAN					
New			Farm					
Dropped			Fabric					

# Storage Sub-Systems

Change	Display Name	Description	Туре	Machine Type	Model	Manufacturer	Serial Number	Architecture	Product Name	IPv4 Address	Software Type	Software Version
Current			StorageSub Systems									
New												
Dropped												

### **NETWORK ASSETS**

### **Network Devices**

Change	Display Name	Desc- ription	Туре	Device Name	Controller Type	Pass Through Type	Switch Type	Machine Type	Model	Manu- facturer	Serial Number	Software Type	Software Version	Archi- tecture	IPv4 Address
Current			Manageme ntController												
New			PassThrou ghModule												
Dropped			Switch												
			GenericNet workDevice												

### Ports

Change	Display Name	Description	Туре	Model	Manufacturer	Version	SerialNumber	PermanentAddress	FullDuplex	MaxSpeed	Speed	Virtual
Current			LogicalPort									
New			EthernetPort									
Dropped			FCPort									
			IBPort									
			MyrinetPort									
			NetworkPort									
			TokenRingPort				-	_				
			WirelessPort									

# LogicalNetwork

Change	Display Name	Description	Туре	VLAN ID
Current			ManagementController	
New			PassThroughModule	
Dropped
