### Do you know how to find the right people?

- Do you spend too much time looking for an expert with just the right skills or knowledge?
- Can you uncover unknown resources across time zones, projects, and organizational boundaries?
- Do you know how to easily find the HR reporting information on your colleagues?
- Would it be helpful to be able to identify the person who is associated with;
  - a particular document
  - a specific activity
  - technical skill
  - or project experience

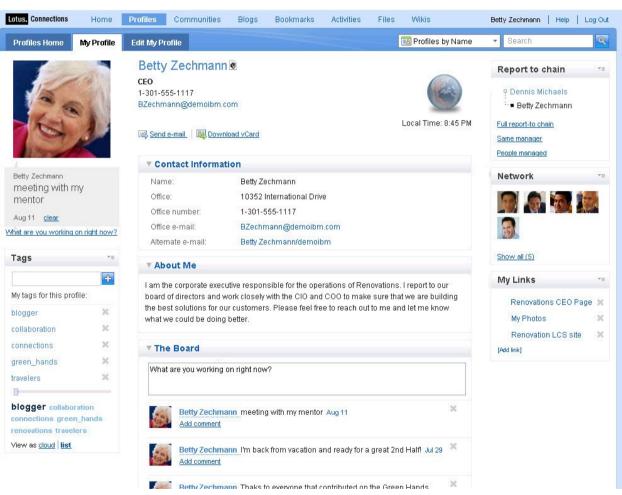

#### Lotus knows ... How to find the right people!

- Identify critical resources to solve urgent problems instantly
- Keep people from spending their valuable time reaching out to the wrong person
- Avoid duplicate work by understanding who is working on what projects

# Do you know how to manage the multitude of projects across your group?

- Is it difficult to keep everyone on the project in synch with the latest updates?
- Do you need help in organising and coordinating who is working on the individual aspects of projects?
- Does your team lose time sharing content and versions of files through email?
- Do you have an easy way for documents to be routed for approval before they get released?
- Can you easily do all of this through your desktop applications and web browser?

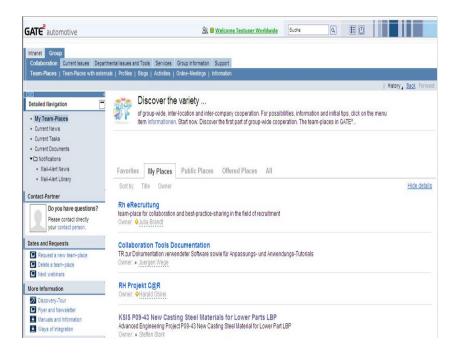

#### Lotus knows ... How to manage projects across your group !

- Use rich document libraries to create and edit your project team content
- Use team workspaces and blogs to enable the entire project team to have access to the same information
- Use templates for immediate, out-ofthe-box value to support common business processes
- Use basic workflow capabilities for enduser notification and document approval needs
- Save critical assets created by the team in your enterprise content repository

### Do you know how to create content faster?

- How many people have to contribute to your documents?
- How many emails does it take to finalize a document?
- How many people are making decisions using incorrect information in old documents?
- Can you always return to a backup copy if someone makes a mistake?
- How long does it take to get a web page updated?

### Lotus knows ...

How to help you create content with others faster !

- Collaboratively create, edit and publish rich content using a wiki
- Quickly create FAQs, newsletters, technical documentation or best practices
- Keep track of old versions and rollback if needed
- Quickly find information published by others using search and tagging
- Get notified of new content, versions and pages

### Agenda

- Introduction
- Work Smarter with Social Collaboration
- Social Collaboration Everywhere
- New Value for 2010
  - IBM Lotus Quickr
  - IBM Lotus Connections
- Fast Adoption Drives ROI
- Summary

#### **Example: ROI for Call Center**

- Customer "Headache" = Need to lower customer support costs
- Value of Social Software to the process of answering customer calls
  - Profiles allows staff to find experts to help handle complex issues
  - Staff can read Blogs, Bookmarks and Activities posted by experts in real time and expedite problem resolution
  - Communities on products allow new staff to get trained quickly and learn best practices from other staff
- Quantitative ROI Drivers
  - Reduces call duration, saving cost per call and raising staff utilization
  - Reduces call-backs and time wasted on hard-to-answer questions
- Qualitative ROI Drivers
  - Improved customer relationship through better customer service
  - Preserves organizational knowledge to mitigate the impact of CRS turnover

#### Example: Short Term ROI Calculator

- Financial services firm
- •
- Estimated that time spent on complex customer calls would be improved by 15%
- •
- Average call time would drop from 25 min to 21.25 mins
- •
- Results = Annual savings of over \$2M
