

# Intranet portal - PortalNOW

A brand new & complete portal in 3 weeks is what it takes with PortalNOW from IBM og INOPI

## Good and safe start

When you build your new portal / intranet on PortalNOW, you are guaranteed a solid starting point. The time consuming tasks you know from traditional portal projects like setting up the framework and templates are already done. Thus you do not start from scratch - but can, however, advance to the stage where you decide what information should be available and for whom. This ensures that your intranet solution can go live within the expected scope of time, economy and quality.

**Danske Fragtmænd A/S has chosen the solution PortalNOW from IBM and INOPI as the implementation partner. The Intranet was fully implemented and up running within agreed time schedule, which was 3 weeks.**

With more than 100 years of experience in transportation and 40,000 movements per day, 3,300 employees, 22 cargo terminals and more than 1,500 trucks on the Danish roads they are the largest supplier of national LCL goods and storage.

Danske Fragtmænd A/S wanted to improve internal communication and the flow of information to employees in order to ensure that everyone can hold themselves up-to-date with everything from strategy, personnel policies, events and even basic functionalities like "locate your colleague" and cafeteria menu.

It was also a requirement to have easy access to mail, calendar, Project rooms and on-line chat in one single Intranet solution.

Danske Fragtmænd had as requirement that the solution at a later stage should be able to embrace other software applications and still be easy and fast in deployment.

## Strengthen your organization

A good intranet will strengthen your organization at all levels

- improved cooperation
- employees gets engaged
- information more easily accessible
- business processes will get optimised
- Knowledge sharing becomes easy

PortalNOW is not just your intranet - it is the foundation for a comprehensive portal for all business applications & workflows.

*"The solution we wanted had to partly support our ambitious long-term strategy in the portal area, and yet be quick, easy and straightforward to implement. We have to say that we found all that with PortalNOW and INOPI"* Carsten Appelt, IT Director.
