

Modern Application Architectures for CICS COBOL Developers

Attend one of our free technical education seminars and learn how you can develop SOA applications by leveraging COBOL and your existing application development skills.

The future of COBOL is here today – alive and well – and quickly becoming a key business language in modern Service Oriented Architectures (SOAs). These application architectures enable organizations to extend their infrastructures by leveraging modern interfaces via Web browsers, modern process assembly techniques via Web services, and high QOS business processing – in WebSphere® and CICS®.

Learn how the processing of modern, customer-facing applications are delivered in WebSphere, and how those processes can integrate with and leverage COBOL and CICS. The result is more asset reuse, easier management and faster development and deployment.

IBM is hosting a series of live, half-day seminars in several cities across in North America that are designed for technical professionals, including application development management, and COBOL and CICS application developers, systems programmers and IT managers.

These seminars give attendees a unique opportunity to interact with technical professionals who have in-depth knowledge of CICS and COBOL, especially as they relate to SOA. Attendees also get a first-hand view of the tools that can help you succeed.

In this half-day seminar, **Modern Application Architectures for CICS COBOL Developers**, you'll learn how to:

- *Quickly generate advanced user interfaces for core applications*
- *Use the mainframe's application resource sharing to streamline management of workloads at peak times*
- *Leverage current developer skills to enable reuse existing processing while enhancing the value of new deliverables*
- *Speed application development by standardizing on processes and tooling*

Agenda

Morning

- Introduction to Service Oriented Architecture and common issues
- Service Oriented Architecture drill-down: Architectural details of modern applications
- Live demo of IBM WebSphere Developer for zSeries®

Locations and dates

Palisades **October 5, 2006**

IBM
Palisades Executive Conference Center
334 Route 9W
Palisades, NY
Technical Exploration Center - A220

New York City **October 6, 2006**

IBM
590 Madison Ave.
New York City, NY
Room 1219, 12th Floor

Hartford **October 12, 2006**

Grand Pequot Hotel
Foxwoods Resort Casino
39 Norwich-Westerly Rd.
Mashantucket, CT

Minneapolis **October 19, 2006**

IBM
650 Third Avenue South
Minneapolis, MN
Lake Superior A&B
