

## **System z Update**

Florence Hudson
VP Marketing and Strategy
IBM System z

### **A New Era for Business**

24x7

Global

Highly networked

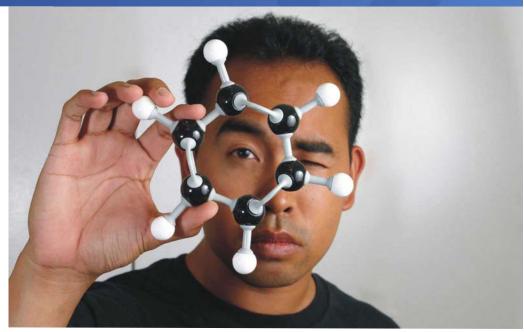

## **Key Drivers**

Innovation explosion

Collaboration requirement

India, China

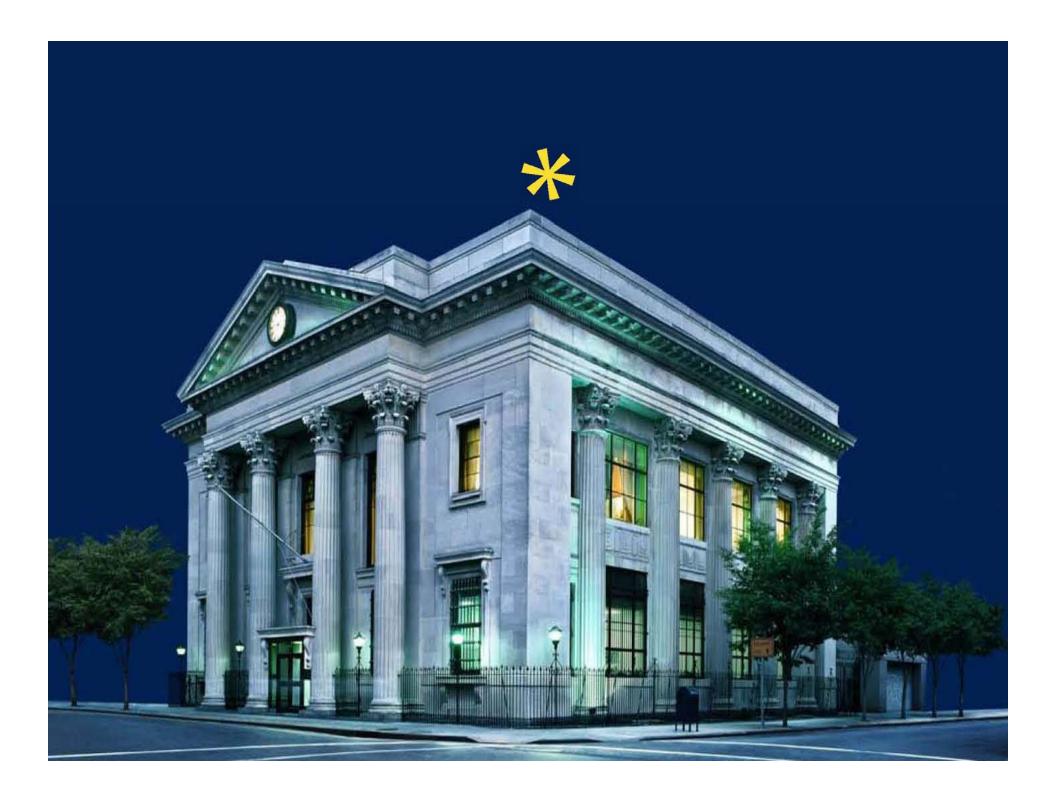

Trust

## Do you suffer from these symptoms?

Increasing complexity

Rising costs

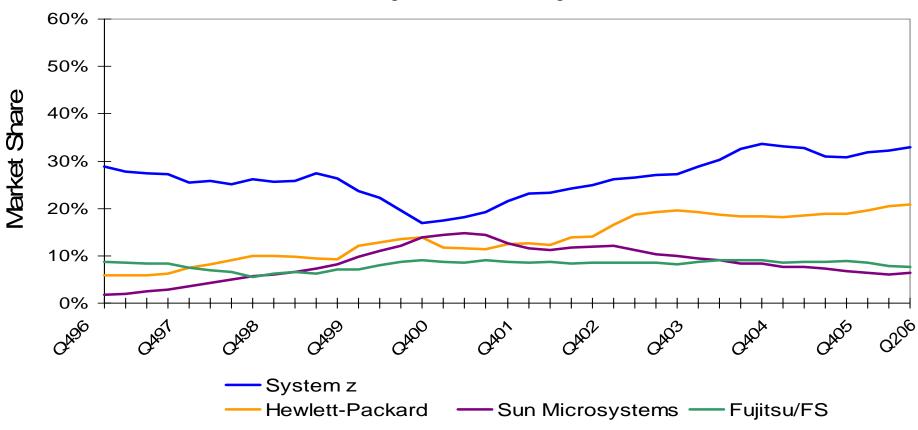

Security threats

### **Market Momentum**

\$250K+ server market share Source: IDC 2Q06 Server Tracker

### LER

## **Integrated Security**

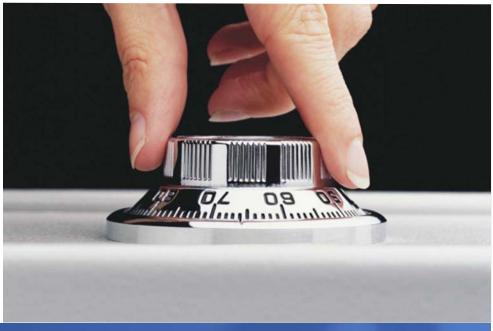

**ID** Management

EAL5

**Encryption Facility** 

**Key Management**

### System z9 – Managing Growth and Complexity

### **System z9 Business Class**

### **Breakthrough Economics**

## FNBO consolidated on a single IBM mainframe

30 UNIX servers

500 applications

560 Windows servers

### **Results:**

70% improvement in HW utilization Savings: \$2 million/yr average

"It's revolutionary. It paid for itself in a year."

Ken Kucera. Senior Vice President

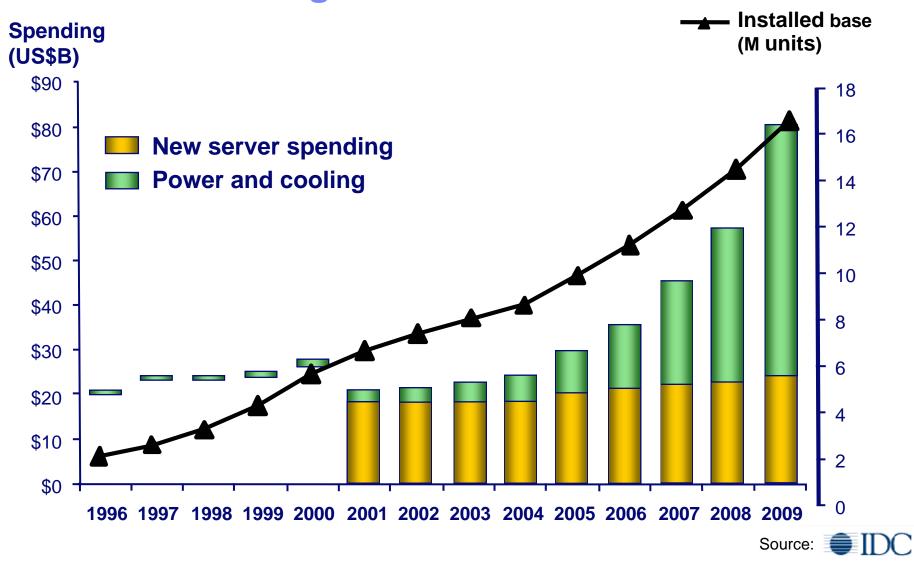

© 2006 IBM Corporation

### **Power and Cooling Costs**

## **Energy Efficiency**

RFG analyst case study: Retailer consolidated 600 x86 servers onto a single mainframe

eliminated an entire floor of servers

reduced the administrative staff by 10

cut power and cooling costs by 80%

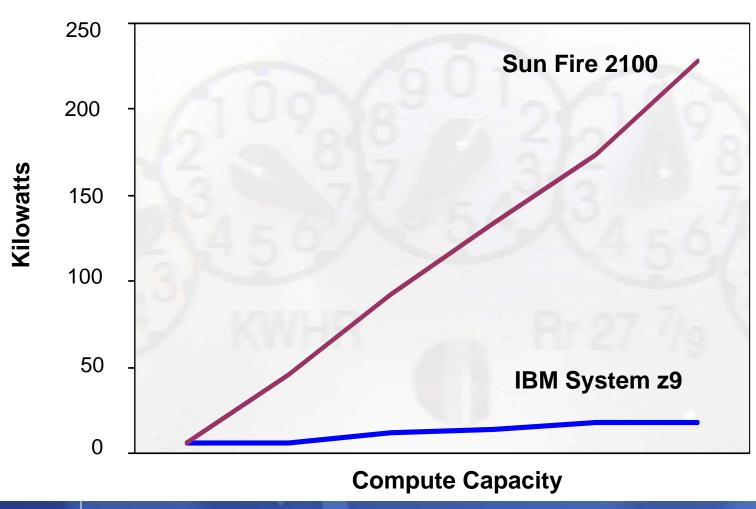

### **Energy Efficiency**

Four times the work, one-twelfth the power

# Nationwide saves \$15M with System z

### TCO: \$15M savings over 3 years

80% reduction in data center floor space needs; power conservation

50% reduction in hardware & OS support efforts

70% average CPU utilization

### Dynamic allocation of compute power

Capacity on demand

Tested 22 times capacity for Super Bowl 2006 Ad blitz traffic

### **Today's mainframe**

Designed for data serving and SOA

Architecturally compatible

Operationally superior

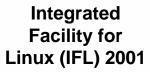

If data is the life blood of the business . . . then your data server is the heart of your SOA

## Mainframe Innovation: Specialty Engines

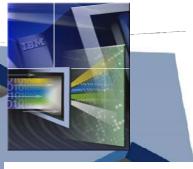

Support for new workloads and open standards

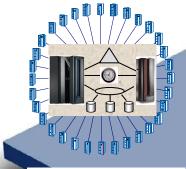

System z Application Assist Processor (zAAP) 2004

Incorporation of Java<sup>™</sup> into existing mainframe solutions

IBM System z9
Integrated
Information
Processor (IBM zIIP)

Designed to help improve resource optimization for eligible data workloads within the enterprise

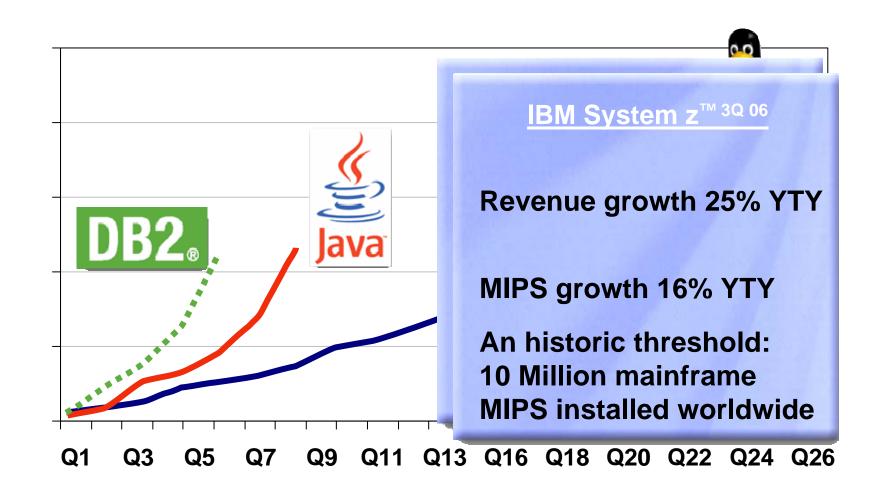

Internal Coupling Facility (ICF) 1997

Centralized data sharing across mainframes

### **Dynamic Growth in New Workloads**

### **Mainframe Ecosystem**

#### **Customer councils**

#### **IBM Academic Initiative**

266 colleges and universities – 400 by YE

### 10,000 students educated already

#### **Partners**

1,350 ISVs

### **Mainframe Headlines**

THE WALL STREET JOURNAL. "IBM Touts Security of New Mainframe"

"IBM has done a remarkable job of renewing the mainframe"

"IBM announces mainframe virtual-tape offering "

"the mainframe is heading towards a much larger potential market"

"IBM offers new mainframe software"

## **Strategic Investment**

### System z9

- \$1.2 billion
- 5,000 techprofessionals

\$40M

\$100M simplification
