

**CST 1<sup>st</sup> Quarter 2016  
2nd Addendum (RSU1605)**

**Dated: June 2, 2016**

**Prepared by: CST Team**

**This addendum is based on the CST 1<sup>st</sup> quarter 2016 recommendation (RSU1603 - all service through end of December 2015 not already marked RSU and PE resolution/HIPER/Security/Integrity/Pervasive PTFs and their associated requisites and supersedes through February 2016).**

**The contents of this addendum (RSU1605) are PE resolution and HIPER/Security/Integrity/Pervasive PTFs and their associated requisites and supersedes through the end of April 2016; however, the following products/tools are all service through the end of April 2016 not already marked RSU:**

- IBM 31-bit SDK for z/OS,Java 2 Technolog ! "ition, # \$1%
- IBM & ' -bit SDK for z/OS,Java Technolog ! "ition, # \$1%
- IBM 31-bit SDK for z/OS,Java Technolog ! "ition, # (
