Compaq SANworks

Installing Secure Path Version 2.1D or 3.0 for Sun Solaris Read Me First

Your Secure Path for Sun Solaris kit contains two shrink-wrapped packages. Each shrink-wrapped package is separated by version and identified with a white label.

See Table 1 to identify which package you should use with your storage system configuration.

Table 1: Package Selections

Secure Path Version	Supported StorageWorks RAID Arrays/Controller Type
Secure Path Version 2.1D	Enterprise Virtual Array (HSV110)
	RA8000/ESA12000 (HSG80)
	EMA16000 (HSG80)
	MA8000/EMA12000 (HSG80)
	MA6000 (HSG60)
Secure Path Version 3.0	RA8000/ESA12000 (HSG80)
	EMA16000 (HSG80)
	MA8000/EMA12000 (HSG80)
	MA6000 (HSG60)

Each shrink-wrapped package includes:

- Secure Path for Sun Solaris CD-ROM by version.

- Installation and Reference Guide

- Release Notes
