Appropriation by the Twenty-fifth General Assembly:

For general and current expenses, annually.....	\$15,000
For building an experimental barn	4,000
For building a ladies' hall.....	45,000

Established 1858. The college domain consists of about 900 acres, of which the farm proper contains 640 acres.

In 1862 congress passed a bill granting to each state, public lands to the amount of 30,000 acres for each senator and representative then representing the state, the money derived from the sale of such land to constitute a fund, the interest of which should be appropriated to the endowment, support and maintenance of at least one college where the leading object should be to teach such branches of learning as relate to agriculture and mechanic arts, in such manner as the legislature of the state may provide.

This grant of land was accepted by the legislature of Iowa in September, 1862, and appropriation was at once made for the erection of suitable buildings, thus the college was opened for the reception of students in October, 1868.

In August, 1890, a bill for the more complete endowment and support of these colleges was approved by President Harrison. For this purpose the bill appropriated \$15,000 for the year ending June 30, 1890, and provided for an annual increase of the amount of each appropriation thereafter for ten years by an additional sum of \$1,000 over the preceding year, the annual amount to be paid thereafter to each state and territory to be \$25,000, the same to be applied only to instruction in agriculture, the mechanic arts, the English language, and the various branches of mathematical, physical, natural and economic science, with special reference to their applications in the industries of life, and the facilities for such instruction.

The college embraces the following courses of study:

1. The course in sciences as related to the industries, of four years, leads to the degree of Bachelor of Science.

2. The course for ladies, of four years leads to the degree of Bachelor of Letters. Ladies may take any other course desired.

3. The course in mechanical engineering of four years leads to the degree of Bachelor of Mechanical Engineering.

4. The course in civil engineering of four years leads to the degree of Bachelor of Civil Engineering.

5. The course in electrical engineering of four years leads to the degree of Bachelor of Science in Electrical Engineering.

6. The course in mining engineering of four years leads to the degree of Bachelor of Science in Mining Engineering.

7. The course in agriculture of four years leads to the degree of Bachelor of Agriculture.

8. The course in veterinary science leads to the degree of Doctor of Veterinary Medicine.

9. Special under-graduate and post-graduate courses are provided along the lines of these respective courses; also short courses in dairying and agriculture.

The college is thoroughly furnished with improved laboratories and apparatus. Machine shops with large equipment afford excellent facilities in mechanic arts. The museum and library are selected with special reference to facilitating studies in the courses specified. Tuition is free to students of Iowa.

Total.....	\$5,100

The College for the Blind is not an asylum, but a well-appointed school, equaling, in the amount of its apparatus, the thoroughness of its instruction and the fullness of its curriculum, the best public schools in Iowa. It was established by the citizens of this State, in order that their blind children might enjoy educational advantages similar if not superior to those afforded their more fortunate sighted children. During the forty-two years of its existence it has received from the State treasury and paid out again, for improvements and repairs, clothing for pupils, support and current expenses, over \$1,000,000.

The school term begins on the first Wednesday in September and ends about the third week in June. It is desirable that the students enter at the first and remain until the close. They may, however, be admitted at any time, and they are at liberty to go home whenever their parents send for them.

The teaching will compare favorably with any locality. The principal branches taught are raised print, point system, arithmetic, spelling, geography, history, grammar, natural philosophy, algebra, rhetoric, physiology, zoology, chemistry, moral philosophy, civil government, political economy, geometry, English and American literature. The kindergarten is well supplied with the latest and best facilities. The exhibit of wire work, card drawing, paper folding and clay modeling, the work of little blind boys and

girls—many of them under eight years of age—excites the surprise and admiration of all visitors.

The department of music is supplied with twenty-three pianos, one pipe organ, three cabinet organs and a sufficient number of violins, guitars, bass viols and brass instruments. Every student capable of receiving it is given a complete course in this branch.

In the industrial department, the girls are required to learn knitting, crocheting, fancy work, hand and machine sewing; the boys, netting, mattress making and cane seating. Those of either sex, who so desire, may learn carpet weaving and broom making.

These advantages are free to every person, either blind or of defective vision, and of suitable school age and capacity, in the state. All that the friends are expected to do is to pay the traveling expenses and furnish clothing. If they are unable to clothe the pupil, the necessary clothing will be furnished here and the bill sent to the county from which the pupil comes.

The pupils are treated, free of charge, by superior oculists, who visit the college several times during the term.

The food is abundant and wholesome. The trustees prescribe the bill of fare for every meal.

Many intelligent parents allow their little blind child to sit idle most of the day, and to contract all sorts of improper habits. After a short stay here those habits would be corrected, the child would eat properly at the table and would run and jump on the play ground with as much vigor as its stronger-sighted brother at home.

Two classes of parents are especially hard to reach. One is the "well-to-do" man, who will not send his child to an institution, supported by the state. Such sentimentalism is absurd. Some of the best families in Iowa have children here. The other is the ignorant man, who will not send fearing that his child will be starved or abused. A secret or open visit to the college will dispel this foolish belief.

In different neighborhoods there may be old blind people who would be happy if they could find something to do. This institution can make them happy by sending them books and papers in raised print or point. Adults who cannot learn the raised print easily learn the point. Religious and secular literature, in either print, will be sent free to any blind person in Iowa who will pay the transportation charges. These books do not cost the state a penny.

It is to be hoped everyone will send to the principal of this school the name and address of every blind man, woman or child within his knowledge.

The whole number of new students admitted during the biennial period was 77; 40 girls and 37 boys.

The whole number of students instructed during the biennial period was 228; boys, 109; girls, 119.

The whole number of students graduated during the period was 11, 6 boys and 5 girls; enrollment of the first term was 180, 92 boys and 88 girls; enrollment of the second term was 197, 92 boys and 105 girls; new students admitted the first term 32, boys 22, girls 10; new students admitted the second term 45, boys 15, girls 30; students graduated the first term, none; students graduated the second term 11, 6 boys, 5 girls.

COMMISSIONERS OF PHARMACY.

Chapter 75, laws of the Eighteenth General Assembly, provides for the better regulation of the practice of pharmacy and sale of medicines and poisons. One of the provisions of said act was for the appointment by the governor, with advice of the executive council, of three persons from among the most competent pharmacists in the state, who shall be known and styled Commissioners of Pharmacy.

Members of the board are appointed for a term of three years, one member each year. Every person who shall desire to conduct the business of selling at retail, compounding or dispensing drugs, etc., for medical use, must first be examined by said board and their names registered in a book kept by the board for that purpose, showing also his residence, together with the date of issuing certificate.

Graduates in pharmacy from an incorporated college or school of pharmacy that requires a practical experience of not less than four years before granting a diploma, may be registered without examination, upon payment of \$2.

Fee for examination and certificate, \$5.

EDUCATIONAL BOARD OF EXAMINERS.

President.—HON. HENRY SABIN, State Superintendent of Public Instruction, *ex-officio*.

Members of the Board—

Charles A. Schaeffer, A. M., President State University, *ex-officio*.

H. H. Seerley, A. M., President State Normal School, *ex-officio*.

Mrs. Alice H. Mendenhall, Fairfield August 15, 1896

E. E. Blanchard, Hampton..... August 15, 1898

The Nineteenth General Assembly passed an act creating a State Educational Board of Examiners, and to encourage training in the science and art of teaching. The Board consists of the Superintendent of Public Instruction, the President of the State University, the President of the State Normal School, and two persons, one of whom shall be a woman, appointed by the Executive Council for terms of four years, and are not eligible for re-appointment.

The Board holds annually at least two public examinations of teachers and a full record of their proceedings, as well as a complete register of all persons to whom certificates and diplomas are issued, is kept by the Board.

Persons holding a certificate from the Board are authorized, for a term of five years, to teach in any public school of the State

Fee for State certificate, \$3, and for State diploma, \$5, fees when collected to be paid into the State Treasury. If, however, an applicant shall fail in the examination, one-half of the fee is returned.

As now organized this department dates from the first day of July, 1892. Its chief purpose is the collection of historical data relating to our own State and the vast territory of which it originally formed a part. So far as literature is concerned, special efforts are being made to collect Iowa newspapers from the earliest dates to the present time—works of State and general western and national history—works on the slavery question and the war for the Union—histories of all our wars from the earliest times—reports upon the census of both State and Nation—works relating to the North American Indians—county histories, directories of cities and towns, earlier and later maps, Iowa pamphlets—biographies of our notable men and women, printed or in manuscript—written or printed documents relating to early settlers and settlements—reports, catalogues, circulars and broadsides relating to the churches, educational and benevolent institutions of the State—in short every species of data which can throw light upon local, State, or western history.

The department publishes *The Annals of Iowa*, a quarterly historical magazine of eighty to one hundred pages, which will enter upon its fourth year with the number for April, 1896. This is made up of original contributions in history and biography. By direction of the trustees it is sent to every organized library in our State. Its price to subscribers is \$1 per year.

Considerable collections of museum materials, military relics and mementoes, specimens in archæology, geology, mineralogy and natural history have been made and placed on exhibition.

The department has secured twenty-one fine oil portraits of distinguished Iowans, most of which have been placed in other rooms of the capitol. As works of art many of these rank very high. Several more are promised for the near future.

The Historical Department is supported by a permanent appropriation of \$6,000 per annum

Up to November 1, 1895, the collection of the department included the following:

Bound volumes of newspapers	1,348
Newspapers and periodicals coming to the department.....	288
Total number of books in the library	3,094
Total number of pamphlets in the library.....	2,236

Also a large collection of autographs, manuscripts and portraits of notable people of all parts of the world.

In 1857 the society was organized under an act of the Sixth General Assembly, making an appropriation for its support and providing that it should be "in connection with and under the auspices of the State University; the object of the society shall be to collect, buy, arrange and preserve in authentic form a library of books, pamphlets, maps, charts, manuscripts, papers, paintings, statuary and other materials illustrative of the history of Iowa; to rescue from oblivion the memory of its early pioneers; to obtain and preserve narratives of their exploits, perils and hardy adventures; to secure facts and statements relative to the history, genius, progress or decay of our Indian tribes; to exhibit faithfully the antiquities and the past and present resources of the State; and to promote the study of history by lectures and diffuse and publish information relating to the description and history of Iowa."

The society has endeavored to carry out these objects and has accumulated a vast amount of material that would have been lost forever.

They have over 700 bound volumes of State newspapers, some reaching back before the organization of and from all parts of the State, which contain more local history than can be obtained in any other form. The *Historical Record*, a quarterly publication of the society, is sent to all historical societies and to the public libraries in the country, and to such newspapers in the State as send in exchange their publications, which are bound as soon as volumes are completed, and placed on the shelves.

This hospital was built in accordance with an act of the Twentieth General Assembly (1884). Clarinda, Page county, was selected as the location, and on July 4, 1885, the corner stone was laid for the building, which was opened for the reception of patients December 15, 1888, at which time there was received from other hospitals in the State 274 male patients. The number of patients at beginning of past biennial period—July 1, 1889—was 242; admitted during biennial period, ending July 1, 1891, 313. During this period 71 were discharged; recovered, 69; improved, 45; died, 61; total, 246, leaving in the hospital at the latter date, 309 patients.

The original plans for this hospital contemplated the accommodation of 1,000 patients, but the buildings are still uncompleted and a number of patients have been returned to their counties for want of room in the hospital. A new wing added to the building for females is nearly completed.

The Fifth General Assembly, by act approved January 24, 1855, established the above named institution, and appropriated for the purchase of grounds, \$4,425, also \$40,000 for the buildings. The institution received small amounts, from time to time, from the Saline land fund.

The institution was formally opened March 6, 1861. The total number under care during the biennial period has been 1,402.

Six hundred and forty-three patients have been admitted, 312 men and 331 women. Five hundred and eighty-six have been discharged during the biennial period, 275 men and 311 women. Of this number 228, 110 men and 118 women, recovered; 107, 58 men and 49 women, were much improved; 97, 47 men and 50 women, were unimproved; 154, 60 men and 94 women died. The number of deaths has been larger than usual, and the death rate was largely increased by the epidemic of influenza or la grippe.

A number of improvements have been added to this hospital, prominent among which is the completion of the Industrial building, also of the completion and furnishing of the new kitchen, ice house, large chapel and amusement hall, with stage and stage settings; also a number of minor, but much needed improvements.

An additional institution for the care of insane was established and permanently located at Independence, Buchanan county, by an act of the Twelfth General Assembly. The building, a beautiful and commodious structure, was pushed rapidly to completion and soon taxed to its utmost by receipt of patients.

At the beginning of the biennial period, ending July, 1889, there were 396 male patients, and 370 female patients, making a total of 766.

There were admitted during this period 328 men, and 289 women, a total of 617 patients. By adding the number at the outset to the number received, we get the whole number treated during the biennial period, which was 1,383.

The average number of patients in the hospital was 800 for the first year, and 820 for the second year of the period.

During this time there were discharged 550 patients, of whom 211 recovered, 161 were improved, 29 were unimproved and 149 died.

The whole number of persons who have been treated in this hospital since it was opened on the 1st day of May, 1873, is 4,064, but on account of the readmission of 706 of these persons one or more times, the hospital records state that 5,014 cases have been received into this hospital up to the end of this period.

The prevailing age of patients at the time of admission is between 20 and 30, but as this State grows older, and as the confidence of the public increases, the number of patients who are over 70 years of age becomes greater.

The Improved Stock Breeders' Association has, as its name implies, for its object the improvement of Iowa live stock.

The association was organized in 1874, and has been in successful operation ever since. They make annual reports through their secretary, showing opinions and experience of prominent stock raisers throughout the state.

In view of the fact that Iowa is rapidly developing as a stock raising state—in several of the branches already standing at the head—the importance of this association is apparent.

The Twenty-third General Assembly created and established the Industrial Home for Adult Blind residing in Iowa, and appropriated money for the purchase of suitable grounds and buildings.

The object of the institution is to provide a working home and means for the blind to earn and provide their own subsistence. Under the provisions of this act the governor appointed the above named board of commissioners for an official term of two years; they were vested with power to select a location and superintend the construction of the home.

Soon after the organization of the commission, Knoxville, Marion county, was selected as the place of location, and suitable buildings, with a capacity for 200 workers, were at once put under way and pressed to a conclusion, the building being completed and ready for the admission of eligible blind persons shortly after January 1, 1892.

The children who are committed to the care of this school are not the hardened, irredeemable criminals, but those who are young in years—eight to sixteen—and whose natures are still susceptible to the influence of kindness, moral training and proper discipline; but these beneficent influences could never accomplish the desired results amid the environments of prisons and penitentiaries.

Our State has wisely taken these facts into consideration, and no less in self defense than in charity, has established these institutions as homes for our unfortunate youth, and has enjoined upon those who have the supervision of these schools the duty of having the boys and girls instructed in morality and such branches of useful knowledge as are adapted to their age and capacity and in some regular course of labor.

INSTITUTION FOR FEEBLE-MINDED CHILDREN—GLENWOOD.

F. M. POWELL, M. D., Glenwood, *Superintendent and Secretary*.
Trustees.—W. H. Hall, Osceola, *President*..... May 1, 1898
 J. E. Wickham, Glenwood, *Treasurer*..... May 1, 1900
 E. R. Moore, Anamosa..... May 1, 1902

This institution was established by the Sixteenth General Assembly and located at Glenwood, twenty miles south of Council Bluffs. The purposes or objects of the institution are to provide special methods of training for that class of children deficient in mind, or marked with such peculiarities as to deprive them of the benefits and privileges provided for children with normal faculties.

The object is to make each child as nearly self-supporting as practicable, and to approach as near as possible the movements or

actions of normal people. It further aims to provide a home for those who are not susceptible of mental culture, relying wholly upon others to supply their simple wants. Although children in this department are classified as non-improvables and possess a low degree of mentality, facilities are provided for such training as may tend to correct improper habits and develop an interest in their own welfare.

In the school department, lessons are imparted in the simple elements of instruction taught in common schools, as well as in industries suited to their capacities. Girls learn plain and fancy sewing and household work, while the boys are detailed to work on the farm or in the garden, in the shoeshop, broomshop or carpenter shop, and to assist in the various departments of the institution. The school year begins September 1st, and closes the last of June. While July and August are considered vacation months, about four-fifths of the children remain during the summer, occupying their time at such work as may be assigned them or in such recreations as may be available. Beautiful groves of timber surround the institution, where much of their time is spent in suitable weather.

The law provides for the admission of children between the ages of five and eighteen. Children may be admitted at any time during the year. By request, a blank application for admission will be mailed to any address, which may be filled and signed by the parent, guardian or county board of supervisors, and returned to the superintendent, who by direction of the board of trustees, passes upon the eligibility of the applicant and notifies the correspondent accordingly.

After admission they may be dismissed at the discretion of the board of trustees, or if there are good reasons why they should do so, they may remain permanently. Each child admitted should be provided with not less than three changes of clothing. If the applicant be of unfortunate or untidy habits an additional number of garments should be added to the list. After becoming an inmate of the institution clothing may be furnished by the superintendent and the bill sent to the parents or to the county auditor of the county from which the child came. The county commissioners may collect said bills if parents are able to pay them. By special request, bills may be sent direct to parents, who may remit to the institution. Statements are sent quarterly to counties and parents.

The State bears all expenses except for clothing and transportation. Persons bringing children to the institution should avoid arriving on Saturday or Sunday. Our limited accommodations and exacting duties render long visits undesirable. By recent action of the Board we are not at liberty to entertain visitors over night. If money, cakes or sweetmeats are given at all, it should be to the matron, who will attend to their proper distribution.

A brief report of the physical and mental condition of inmates will be sent to relatives every month. Letters of special inquiry will be replied to at any time.

The institution is open to visitors every day except Saturdays and Sundays, more particularly from 2 to 4 o'clock P. M. One of our officers will accompany you through the apartments and explain the character and objects of the school.

All communications should be addressed to the superintendent.

The objects of this association are mutual benefit of its members educationally, and the improvement of the schools of Iowa.

Any person engaged as teacher, or as state, county or city superintendent of schools, may become an active member by paying a fee of \$1, and having his or her name enrolled, and may continue a member by the payment of an annual fee of \$1.

The Executive Council is composed of the Superintendent of Public Instruction, who shall be *ex-officio* member and chairman; also six members elected by the association; six members by the County Superintendents and Normal Department; six members by

the Elementary and Graded Department; six members by the College and University Department; six members by the Department of Secondary Instruction; six members by the Department of Penmanship and Drawing. The Educational Council shall have power to elect six members and to fill all vacancies.

The association holds annual meetings during the holiday week following Christmas. At the meeting of 1895 over 1,000 teachers were enrolled. Fifteen hundred copies of proceedings are published by the state and distributed to the members and interested parties.

Historical.—The State Normal School was established by the Sixteenth General Assembly, for the special training of teachers for the common schools of the State. It was organized by the Board of Directors June 7, 1876, and was opened for the reception of students September 6, 1876. The first year (1876 1877) there

were enrolled 155 students, and in the last year (1890-1891) there were enrolled 746.

Course of Study.—1. The scientific course of four years, containing all the subjects required by statute for State diplomas (life certificates). The degree of Bachelor of Science is conferred upon all that complete this course.

2. The didactic course of three years, containing all the branches required by statute for State certificates. The degree conferred for completing this course is Bachelor of Didactics.

3. The supplementary course for high school graduates. This course of study duly recognizes the work done by the public high schools, and adds just such work as is necessary to make a well qualified public school teacher. The completion of this course secures the degree of Bachelor of Science or Bachelor of Didactics, according to the grade of scholarship attained by the student.

4. The professional course for college graduates, giving them special opportunities to pursue studies in professional subjects. After one year's satisfactory study under the direction of the faculty the degree of Bachelor of Science is received.

Admission.—1. Age—At least 16 years.

2. Scholarship—Fair knowledge of the common school branches.

3. Intention—Free instruction is granted by statute to all who declare their purpose of becoming students is to prepare to teach in the public schools of the State.

Expenses.—A contingent fee of not more than \$1 a month is required by statute. For convenience this is divided as follows, into term fees: Fall term, \$4; winter and spring term, each, \$3.

Province of the School.—This school is in no respect a duplicate of the other educational institutions of the State. It adheres strictly to the province assigned at its founding—that of preparing professional teachers for public schools. To attain this object, its courses of study are arranged and provided to meet the wants of all kinds of teachers found in country and city schools. Its faculty is selected with the same purpose in view, so that each one may be a specialist in his department, and all may be thoroughly familiar with the needs of the public school teacher. It sends out annually into the schools over 300 teachers, who are fitted through its agency to do skillful professional work for the improvement and development of public education.

The "additional penitentiary" was commenced in 1872, and has been built mainly by convict labor. It is a fine structure, containing several large workshops, warden's house, dining room, kitchen, laundry, etc. The department for criminal insane is a special feature of this prison, and has been open for reception of inmates for about five and one-half years, and at present contains quite a number of that class of convicts.

This institution has a well appointed and equipped department for female prisoners.

Religious services are held regularly each Sabbath in the prison chapel. The illiterate are taught spelling, reading, writing and arithmetic, so that none have gone out during the past two years who could not read and write fairly well. Sunday school is conducted each Sabbath afternoon.

The prison library numbers about 3,300 volumes. It embraces religious, historical, scientific, humorous and fiction. Over 2,000 volumes are given out per month; this in addition to 2,000 papers per month.

The main building and warden's house of this prison were completed late in 1841.

Labor of the convicts is let out to contractors, who pay the state a stipulated sum for services rendered, the state furnishing shops and necessary supervision in preserving order. Huiskamp Bros., the Iowa Farming Tool company and the Fort Madison Chair company being the present contractors

The prison has an excellent day school, under the direction of the chaplain; also a fine library of 7,000 volumes; a number of newspapers and magazines are sent by their publishers to the prison.

Religious services are held regularly. Night school is regularly maintained. There are 6,543 volumes in the library, including biography, fiction, language, science, travel, etc.

The Iowa Institution for the Deaf is located half a mile from the city limits of Council Bluffs, and is free from the many temptations to which the pupils would be exposed in a city. A healthier location would be hard to find. This institution is free to all too deaf or dumb to be educated in the common schools, who are between the ages of 9 and 25, sound in mind and free from

immoral habits and from contagious and offensive diseases. No charge for board nor tuition. It is a duty that parents owe to their children to give them an education and if true to those with their faculties, still more is it true in the case of the deaf, who need to be instructed in order even to communicate with their fellow men, and to have some safeguard against the schemes of designing persons. The education offered by the institution is free, and no parent ought to stand in the way of any mute child obtaining what is his by right, through unwillingness to part with the child or desire for his labor.

The session of the school begins the second Wednesday in September and continues until the second Wednesday in June. Pupils should come promptly at the beginning and remain until the end of the session.

Pupils should be furnished by their friends with sufficient clothing, but legislative provision has been made to clothe those too poor to supply themselves.

The Institution—The buildings of the institution are heated by steam and lighted by electricity; furnished with fire-plugs and hose on every floor, and the latest improved fire-escapes, reaching from the roof to the ground, are fixed on either end and the rear of the main building. A watchman is on duty all hours of the night and every precaution is taken to guard against fire, so that no anxiety need be felt on that score. A competent corps of instructors of long and successful experience is employed in every department. The older pupils are instructed in such trades as are taught in the institution. The time of the pupils is considered as belonging to the institution, and no compensation is expected by them or their friends. The trades taught are printing, shoemaking, carpentering, dressmaking, farming and gardening, drawing and painting, light household work, plain sewing and knitting are also taught. Shoemaking is taught by an instructor capable of doing all kinds of work in that line.

The name was changed by the Twenty-fourth General Assembly to Iowa School for the Deaf.

This institution was created by the Twenty-first General Assembly, and the main building was completed and opened with appropriate ceremony November 30, 1887. Since that time other improvements have from time to time been added. The hospital is 131 feet in length, 60 feet wide, with two stories above the basement, with spacious verandas and balconies. On the first floor are the surgeon's rooms, dispensary, reception room and matron's room and seven dormitories and dining room, 18x42 feet, in the rear of which is a kitchen 20x30 feet. On the second floor there are eight wards and dormitories. The water closets and baths for each floor are in a tower 18x25 feet, reached by a well ventilated vestibule. Great care was taken to secure good ventilation and to have the

building erected upon the most approved plans for buildings of this character. It is a worthy monument of the gratitude of the State to those broken and feeble persons for whom it was erected.

During the past biennial period \$8,000 was used in the constructing of a two-story brick building, in which there are fourteen sleeping rooms, a dining room, parlor, reception room, and two bath rooms. It affords accommodations for about twenty-eight women. The attic is unplastered. The cost of subsistence on the table from June 30, 1890, to June 30, 1895, averaged about 17.14 cents per ration.

The average number of members on the rolls each year, ending June 30th, is as follows:

For 1888.....	140
For 1889.....	258
For 1890.....	349
For 1891.....	432
For 1892.....	426

This institution was opened for the reception of children July 13, 1864. The Eleventh General Assembly assumed control of the institution, providing a special fund for its maintenance, and otherwise providing for its management and permanent location at Davenport.

The trustees are elected by the general assembly, in joint convention, at each regular session, and hold office for two years.

There is in connection with this institution a school building, pleasant, commodious and well lighted, and it is the policy of the board to have the course of instruction of the highest standard. A kindergarten is operated in connection for the very young pupils.

A library of over 800 volumes of well-selected juvenile literature is a source of pleasure and profitable entertainment to the children, as from necessity the pastimes and pleasures of the children are otherwise somewhat circumscribed; we feel that they should be well supplied with good books and reading matter of suitable character for their improvement and enjoyment.

It is the aim to provide the children with plenty of good comfortable clothing, and to have them taught to take good care of the same. Their clothing is all manufactured at the home, the large girls assisting in its manufacture. The table is supplied with a good variety of plain, wholesome food, and a reasonable amount of luxuries, and when the funds of the different appropriations fail the support fund has to make up the deficiency, which necessarily causes a reduction of the luxuries from the table that are so much enjoyed by the children.

During this biennial period 251 children have been received. Of these 101 were girls, and 150 were boys. Two hundred and one have been dismissed to friends who have become able to receive them, or to carefully selected homes where they will continue to receive such care and training as will fit them for meeting successfully the stern realities of life.

In July, 1840, congress passed an act providing for the setting apart of 45,928 acres within the Territory of Iowa, for the use and

support of a university whenever the Territory should become a State. By the adoption of the Constitution the people of the State accepted this grant of land and the policy was reaffirmed in the amended Constitution of 1857. At the first session of the General Assembly of the State, February 25, 1847, an act was passed locating and establishing the State University. By this act the public buildings in Iowa City were granted for the use of said University. The State, however, reserved the right to use such portion of the buildings as it needed until other quarters could be provided. Although the seat of government was removed to Des Moines in 1857, the United States District Court still retained the use of a portion of the old Capitol building, and it was not until 1860 that the University came into complete possession.

Up to 1860 the existence of the University was more formal than real. Regular meetings of the Board of Trustees were held, but owing to the inadequacy of the fund to sustain the institution, and the use by the State for other purposes of the premises designed for it, a very little of the real work expected of the University was accomplished.

The first session was opened in the Mechanics' Academy in Iowa City, in March, 1855. At that time there were established a Preparatory, a Normal and a Collegiate Department, but almost the entire work was done in the first two. After three years, namely, in June, 1858, all departments were closed with the exception of the Normal Department, and remained so until September, 1860, when the two that had been suspended were again put in operation. Since that time the University has continued its regular sessions without interruption.

The early catalogues of the University show that it was in its first few years practically an academy, and that although a collegiate department was established the instruction in that department was about on a par with that given at the present time in the high schools and academies of the state. For the first few years five-sixths or more of the students were enrolled in the Preparatory Department or were pursuing studies of like grade in the Normal. Even in the Collegiate Department the range of instruction and the facilities for work were extremely limited. But since those days the institution has grown and has become a University in fact as well as in name. The several professional departments have been added, thereby furnishing the youth of the state with

ample opportunity for obtaining instruction in law, in medicine, in dentistry, and in pharmacy. These several departments were added to the University as follows:

The Law Department in 1868, the Medical Department in 1870, the Homeopathic Medical Department in 1877, the Dental Department in 1882, and the Pharmacy Department in 1885.

The government of the University is committed to the charge of a Board of Regents, consisting of the governor of the state, and the superintendent of public instruction, *ex-officio*, and one member from each congressional district who are elected by the general assembly to serve six years.

The Collegiate Department embraces four courses of study: Classical, Philosophical, Scientific and Engineering. Four years are required to graduate in either one of these courses, and on completion the appropriate Bachelor's degree is granted.

In the Law Department the course of study extends through two years, and on completion thereof the graduate is given the degree LL. B., and admitted to practice before the state and United States courts.

The Medical Department and the Homeopathic Medical Department require the student to pursue his studies during a four years' course of six months each, and on completion of such course the degree M. D. is granted.

The Dental Department requires three years of six months each, to complete the course and obtain the degree D. D. S. It is contemplated to require a full three years' course, at an early date.

The course in Pharmacy extends through two years of six months each, and the degree Ph. G., is granted on its completion.

Professors and assistants, 98; students in all departments, 1,250. Library contains 40,100 volumes.

In addition to the above there were 3,481 living in foreign countries, to whom \$695,353 was paid. Of these 1,737 were in Canada, who received \$343,740; 664 in Great Britain, who received \$136,452; 573 in Germany, who received \$117,751; 72 in Switzerland, who received \$14,796; 59 in France, who received \$12,124, and 67 in Mexico, who received \$13,768. The several pension agencies are located as follows: Augusta, Me.; Boston, Mass.; Buffalo, N. Y.; Chicago, Ill.; Columbus, Ohio; Concord, N. H.; Des Moines, Iowa; Detroit, Mich.; Indianapolis, Ind.; Knoxville, Tenn.; Louisville, Ky.; Milwaukee, Wis.; New York City, N. Y.; Philadelphia and Pittsburg, Pa.; San Francisco, Cal.; Topeka, Kan., and Washington, D. C.

In obtaining a pension the applicant must file his claim with the commissioner of pensions, Washington, D. C., setting forth the military or naval service of the applicant, and the nature and character of his disabilities; the application must also be signed by two persons as identifying the applicant. The commissioner of pensions will acknowledge the receipt of the application and order the applicant before surgeons appointed to make a physical examination. If actual disability is reported, the applicant will get a pension, otherwise the application will be rejected. Widows are required to make application in the same manner, and must furnish proof of marriage to the soldier or sailor by a verified transcript from the public record, or by affidavits of the person who performed the ceremony; or by affidavits of two witnesses of the marriage; or by the record of baptism of children. The widow must also furnish proof that she has not married since her soldier husband's death, and that she is dependent on her daily labor for support; also of the death of the soldier; also his identity if enlisted under an assumed name, and if she or her husband had been previously married, the death or divorce of husband or wife must be given. Children under 16 and dependent parents are entitled to pensions, but they must furnish proof that the death of the soldier or sailor was due to his services. Applications rejected by a board of pension surgeons may be reconsidered on the evidence of two physicians that disability exists. Pensions for privates range from \$2 to \$30 a month in most cases, though \$72 a month is granted to those who have lost both hands, both feet, or both eyes.

In Nebraska, April 22; California, September 9; Colorado, on the third Friday in April; Montana, third Tuesday in April; Utah, first Saturday in April, and Idaho on Friday after May 1.

Every Saturday after 12 o'clock noon is a legal holiday in New York, New Jersey and the city of New Orleans, Pennsylvania and Maryland, and June 1 to September 30 in New Castle county, Delaware.

There is no national holiday, not even the Fourth of July. Congress has at various times appointed special holidays. In the second session of the Fifty-third Congress it passed an act making Labor Day a public holiday in the District of Columbia, and it has recognized the existence of certain days as holidays, for commercial purposes, in such legislation as the bankruptcy act, but with the exception named there is no general statute on the subject. The proclamation of the president designating a day of thanksgiving only makes it a holiday in those states which provide by law for it.

REPUBLICAN STATE PLATFORM.

We, the representatives of the Republican party of Iowa, in convention assembled, reaffirm our fealty to the great principles which our national party from its birth has steadfastly proclaimed in the face of an ever shifting foe. We congratulate the people of this country upon the evidences of returning prosperity, and rejoice in each instance of labor re-employed; wages restored and industry re-established upon a prosperous basis. In the record of the building of our industries under Republican policy, their paralysis under Democratic power and their revival with the repudiation of the Democratic party and the dissolution of the Democratic house of representatives, succeeded by one elected upon the platform of the Republican party, the vindication of the policy of protection is complete. The Democratic party is convicted of obtaining power in 1892 under false pretenses. In its platform it declared the principle of protection to be unconstitutional and in its campaign it denounced the policy as robbery. But with complete power in its hands its law makers have utterly failed to carry out the policy to which they were pledged. It is a farcical pretense for the Democratic party to claim credit now for a measure from which nine months ago its president withheld his approval and denounced as a humiliating abandonment of their cardinal principle. The senate bill substituted for the Wilson bill is not a measure which the Republican party would father; it reduces the revenue upon luxuries, a method of levy more effective than any income tax; it restores taxation to sugar, a necessity in every home; it reduces the wage rate in many industries in which labor is the chief element of cost; but it maintains in many of its parts the principle which the Democratic party declared to be unconstitutional. To claim credit under it is to claim credit for abandoning its own policy and adopting the principle which it had denounced.

We deplore the fact that the Democratic party, while professing especial interest in enlargement of our export trade, has destroyed the reciprocity arrangements established by a Republican administration. Its solicitude for foreign trade has been exhibited only

in the admission of foreign goods to our markets without obtaining any reciprocal favors from foreign nations. We believe in the policy of reciprocity as the policy of practical affairs, and the admission of foreign traders to the rich markets of the United States should obtain for our people equal opportunities in foreign markets.

We believe that the compensation of labor is the true gauge of civilization, and the welfare of the laborer has been the constant care of the Republican party from its birth. We are unalterably opposed to reducing the American workmen to open competition in our own market with the poorly paid labor of the old world. We denounce the doctrine that a tariff should be levied with a view to revenue only, and reaffirm the doctrine which has wrought in America the most marvelous industrial development ever known in the world, viz: the doctrine of protection to home industry.

We believe in maintaining not only the highest wage rate for the laborer but the integrity of money in which he is paid.

We affirm the declarations of the Republican national platform of 1892, adopted at Minneapolis, that, "The American people, from tradition and interest, favor bimetallism, and the Republican party demands the use of both gold and silver as standard money, with such restriction and under such provisions, to be determined by legislation, as will secure the maintenance of the parity of the value of the two metals, that the purchasing and the debt-paying power of the dollar, whether of silver, gold, or paper, shall be at all times equal. The interest of the producers of the country, its farmers and the workingmen demands that every dollar, paper or coin, issued by the government, shall be as good as any other."

We urge that the United States exert its influence to establish with the important commercial nations of the world such an international agreement as will enable this country to reopen its mints to the free and unlimited coinage of both metals without loss of one or the other from the volume of our money.

Resolved, That the honest and industrious immigrant who comes to our land with the intent to become in good faith an American citizen is always welcomed. None other should be permitted to come. We favor the amendment and more stringent enforcement of the immigration laws so as to exclude criminal,

pauper and all other undesirable classes whose presence tends to degrade American labor and incite disorder.

The Republican party, ever mindful of the patriotic services and sacrifices of the veteran soldiers of the republic, reaffirms its position in favor of liberality to the nation's defenders. We favor the granting of pensions to all honorably discharged union soldiers and sailors, whose disabilities or necessities justly entitle them thereto.

We congratulate the people upon the fact that the state of Iowa will be represented in the Fifty-fourth congress by two senators and eleven representatives who are zealous and fearless advocates of Republican principles, and whose services in the past we heartily commend. With especial pride do we remember the distinguished services of our senior senator, whose long and honorable record as a servant of the state entitles him to expressions of our full confidence and our enduring affection. We hail with satisfaction the universal desire of the Republicans of the state to continue him in his present field of usefulness until called to the larger services of the nation.

The Democratic state convention met in the city of Marshalltown, Iowa, August 8, 1895.

Temporary Chairman.—Nathaniel French, Scott county.

Permanent Chairman.—J. H. Shields, Dubuque county.

DEMOCRATIC STATE PLATFORM.

The Democratic party of Iowa, in convention assembled, reaffirm the national platform of the party adopted at Chicago in 1892, and points with satisfaction to the evidences of the wisdom of that convention in the results accomplished according to its promises, to the evidences of returning prosperity, the restoration of wages and the re-establishment of industry upon a prosperous basis, conditions which have extorted congratulations from even the Republicans of Iowa. We declare the rescue of the finances of the country from the baleful effects of the Sherman law, the repeal of an un-American federal election law, and the uprooting of McKinleyism, to be works worthy of the history and the prestige of the great Democratic party, and of a courageous Democratic administration.

Second.—We reaffirm the following portion of the seventh plank of the last national Democratic convention: "We hold to the use of both gold and silver as the standard money of the country and to the coinage of both gold and silver without discrimination against either metal or charge for mintage; but the dollar unit of coinage of both metals must be of equal intrinsic and exchangeable

value, or be adjusted by international agreement or by such safeguards of legislation as shall insure the maintenance of the parity of the two metals and the equal power of every dollar at all times in the market and in the payment of debts—and we demand that all paper currency shall be kept at par with and redeemable in such coin. We insist upon this policy as especially necessary for the protection of the farmers and laboring classes, the first and most defenseless victims of unstable money and a fluctuating currency.”

Third.—We condemn the cowardice and trickery of the Republican party in Iowa in failing to meet in its last state platform any of the issues important and vital to the interests of our state and ask upon it the sober judgment of an intelligent people.

Fourth.—We favor the election of United States senators by direct vote of the people. We favor just and liberal pensions to all deserving veterans. We reiterate our unflinching opposition to monopolies and trusts, and call for enactments which will abolish combines of all kinds.

Fifth.—We believe that the mulct law fails to meet the requirements of a good excise statute. It is unfair as between communities, an immense hardship upon property owners, and it compromises the honor of the state in declaring the sale of liquors a crime, and condoning the offense for a money consideration. We repeat our demand of the past five years for a local option high license law, and in behalf of commercial interests of the state we favor a law permitting the manufacture of liquors within the state, thus affording a market for the products of the farm and the labor of our people and saving to our own people enormous sums which are now being expended in other states.

Sixth.—We demand that our state institutions be governed by a single non-partisan board of control which can intelligently comprehend their relative wants and economically and justly apportion among the whole that which their just requirements demand.

Seventh.—We favor the speedy completion of the Hennepin canal and the deepening of the waterways from the great lakes to the ocean, so as to enable ocean vessels to pass through.

The People's party state convention met in the city of Des Moines, June 11, 1895.

Temporary Chairman.—A. R. STARRETT, Humboldt county.

Permanent Chairman.—E. H. GILLETTE, Polk county.

PEOPLES PARTY STATE PLATFORM.

First.—The Peoples party of Iowa in convention assembled reaffirms the principles of the Omaha platform.

Second.—We denounce the late decision of the Supreme Court on the income tax, the recent acts of government by injunction in the interests of corporate wealth, and the issue of interest-bearing bonds.

Third.—Recognizing with satisfaction the expression of individual opinions among citizens, irrespective of party, in favor of the restoration of silver to its constitutional place in the coinage of the country at the ratio of 16 to 1, we extend the right hand of fellowship to all men, who are willing to join with us in the dethronement of the money power of Wall street and Europe and the emancipation of the producing classes of the world.

Fourth.—We declare for the adoption of the initiative and referendum.

Fifth.—We further demand that until such time as a government system of finances can be established, that all banking institutions, national, state and private, be required to give security to depositors for all moneys received for deposits.

Sixth.—We demand that the legislature of Iowa shall provide by adequate legislation, for the inspection of all workshops and factories where more than ten persons are employed, that the physical and sanitary conditions may be improved, and the lives, limbs, health and convenience of the employes be better guarded.

Seventh.—The salaries of our public officers being far in excess of the returns from productive industry, we demand of the next general assembly a readjustment of the salaries of all public officers, on a basis to correspond with the reduced prices received for the products of labor.

Eighth.—We believe that the expenses of government should be borne in proportion to the ability of the citizen to pay them, and to this end we favor a graduated state tax upon incomes, also a state inheritance tax similar to those of New York and Illinois.

Ninth.—We demand a state tax of ten per cent upon all future contracts made payable in gold, the same to be paid by the holder.

PROHIBITION PARTY STATE PLATFORM.

The Prohibition party of Iowa, in convention assembled at the city of Des Moines, June 19, 1895, acknowledging Almighty God as the rightful sovereign of all men, and to whose laws all human

enactments must conform to secure the blessings of peace and prosperity, presents the following declarations and principles:

We declare our sympathies, as a party of reform, to be in favor of whatever tends to make men intelligent and virtuous. We assert our purpose to be identical with that of the national constitution—to establish justice, to secure domestic tranquility, to promote the general welfare and to secure the blessings of liberty to ourselves and our posterity.

We reaffirm the liquor traffic is a foe to civilization and to popular government; that it promotes poverty and crime; that it thwarts the will of the people and destroys our homes, and we declare anew for the entire suppression of the manufacture and sale of alcoholic liquors as a beverage, and that the full power of the government should be asserted to secure this result.

We declare that the so-called regulation by license, mulct or taxation, whereby a revenue is derived from this traffic, is contrary to good government, is complicity with the liquor crime and corrupting to public conscience.

We pledge our co-operation with all organizations endeavoring to suppress the evils of the saloon, but our experience of disappointments convinces us that any political party, not openly opposing this traffic, will court the favor of the liquor interests, and for party success will shape the legislation to secure or retain their support.

We therefore declare for prohibition with the Prohibition party back of it.

We demand that every citizen of the United States shall be allowed to cast a free and unrestricted ballot at all public elections, and that such ballot shall be returned as cast; and that this sovereign right shall be denied no citizen on account of sex.

We declare the principle of taxation amplified in the income tax law to be just and beneficent, and we greatly deplore the decision of the United States supreme court by which that law was declared void, so long as it is necessary to look for national revenues by tariff, we declare for a tariff for revenue only, that shall meet the expenses of the government economically administered, but discriminating with special reference to the protection of our domestic labor.

We believe in the gold and silver coinage of the constitution, and a national currency issued by the general government only.

We demand the return of the free coinage of both gold and silver, without discrimination against either, at a ratio of 16 to 1, and at once, independent of the action of any other nation.

We affirm that railroads, telegraphs, and all work now granted franchise, the right of "eminent domain," and other sovereign privileges, should be owned or strictly controlled by the government for the people, and our opposition to all monopolies by legislation, because they are violations of equal rights of the people.

This country has always been a refuge for all the oppressed, "of exiles" for conscience sake, but is now becoming largely a refuge for the criminals and the home for the pauper population of other countries. We therefore declare for the revision of our emigrant laws, that we may continue to receive the worthy and may be free from the burden of the vicious and indolent.

We stand for the American public school, taught in the English language, and opposed to any appropriations for sectarian purposes or for the perpetuation of foreign customs or languages, and declare that we can only thus hope to become and remain a homogeneous and harmonious people.

We defend the divine right of all to one day's rest in seven.

The armies of the republic are disbanded, we trust never to be marshalled again in battle array, but so long as patriotism exists we demand for the soldiers of the nation generous and liberal pensions, also for their widows and orphans.

We declare in favor of arbitration as the wisest, most humane and economical method of settling all international as well as lesser differences in nation and state.

We favor the adoption of a system of legislation by the people known as the initiative and referendum, with proportionate representation.

STATE MATTERS.

We denounce in unmeasured terms the so-called mulct law of this state, and we arraign the republican party which enacted it for perfidy and treachery to the vote of the sovereign people cast for prohibition June 27, 1882, and we declare that no one, layman or priest, is worthy of the public confidence of the people who aided or abetted the enactment of that infamous statute, or who now palliates its continuance.

We demand that the revenue laws of Iowa shall be radically reconstructed, to the end that the wealth of the wealthy shall bear

its just proportion of taxation; in other words, we demand legislation that shall cause each dollar to pay its own taxes.

We demand that the public institutions of Iowa shall be placed on purely a business foundation and their management be divorced from partisan control.

We demand that legislation shall be had to control the charges for telephones, telegraphs and express companies, as well as to regulate transportation of railways.

We demand legislation reducing official salaries of the state, so that the officers shall be paid in proportion to compensations given similar talent in the other business affairs of the world.

We demand a reduction of legal rate of interest in this state to 6 per cent.
