THE BEE

TRINTED AND PUBLISHED DAILY BY LARONA MATON. ERAUS POSTURE.

THE UNION OF WORTH PRESERVED. HATURDAY MORNING, FEB. 21, 1885.

Mr. F. Bursson, was appointed yesterday, by the govern and senate, sheriff for the city and parish of Oricans, in the

lace of Geo. W. Morgan... Mr. J. CHARBOKHET, sheriff of the parish of Jefferson, an Mr. A. Lununais, shoriff of the parish of St. John the Baptist, have also been confirmed by the Senate-

We feel it to be a duty to publish in our paper of to-day the following latter, addressed to us by Mr. A. Graithe, in which he rectifies the error we committed in reporting th proceedings of the city council on Wednesday evening last. upon the discussion that took place in regard to the guaranties which the corporation wished to obtain from th company. We feel sorry that the remarks of Mr. Grailhe were so incorrectly rendered, and with a view to preven similar errors, we shall take measures against their recu rence for the future:

New Orleans, February, 1889;

LOUISIANA ASSEMBLY. TWELFTH LEGISLATURE - First s Friday, Feb 20th, 1835. SENATE. ed a bill further to regulate the dutien

of inspectors of floor, beef, &c. Mr. LACOUTE presented a bill regulating the electoral pre-

einets of the parish of St. Bernard. Mr. Resp presented a memorial from the Clinton an Port Hudson Road, and a bill to amend the charter of that company.

Mr. Bossier presented a report with a bill from the com mittee to whom had been referred that part of the report of public works, which relates to comtemplated ameliorations on the bayou Lafourche. The bill was to autorise the board to make a break-water at Donaldsonvillejon the bayou; and to have purchased a dragging machine—for which purposes an appropriation of \$5000 was mit de.

Mr. TETE of the Lafourche district, said that the repor was not of the committe, only of the senator who presented

Mr. Bossiss said that the member from Lefourche had refused to act as a member of the committe, althu' appoint-

A friendly dispute followed between these gentler which coold best be sketched in narrative form.

The senator from Lafourche had been absent with leave when the commutee had been appointed by the president; as he was therefore more immediately interested in the subject; and more intimate with it, the senator appointed a frend of his as chairman—the senator from Natchitoches, who made the report. Yet the president of the senate appointed Mr. Tote also on that committee. This gentleman made some suggestions to be introduced in the report and bill—particularly as regards the deepening of the sen and of Liberty. There was something remarkable in the history of the latter days of this poor creature, and her life is not without its moral. She, who was taught publicly to blaspheme her creator, and to dishour the sen, and the that it was necessary only to establish the break-water at Donaldsoville, where the levee was excavated. Tete was chargined at finding this neglect and thought it are not the levee was excavated. The chargined at finding this neglect and thought it are not the level was few lucid intervals were filled up by the most heart rendchagrined at finding this neglect; and thought it not right that a senator not representing the district in which the which the bayou is situated, should have been appointed chairman, to report on its interests. He therefore wished that he should be withdrawn from the committee. wished that he should be withdrawn from the committee, as he did not wish his constituents should believe him to h derelict of his duty in neglecting their interests-as would appear by the report; otherwise that the report should not be considered that of the committee; and that it be laid on the table.

The president of the senate believing that the assertion of Mr. Tete, relative to appointing the committee, reflected on him, stated his reasons for the appointment as made.-The senator from Lafourche was then absent-for what length of time; whether 3 or 4 weeks, he could not conjecture; and that as he considered it his duty to appoint com mittees from whom might the soonest be expected the most correct report; and as the chairman of these committees generally make and present the report, he could not have been warranted to appoint an absent member as chairman. He has always discharged his duty to the utmost of his ab hty without fear or favor. Mr. TETE answered that when he got leave of absence

it was only for three days.

The president feeling himself aggrieved without an ex planation having been made, resigned and retired.

The senate then unanimously resolved that they did not think that Mr. Tete meant-as indeed he specifically denied he intended to dispurage the conduct of the president; and also that a committee wait on him, requesting him to resume his duties as president. Mesers. Moore and Hos an cordingly waited on him. He seemed satisfied with the explanation given; and agreed to act again as presidentthanking the senate for this repeated proof of their esteem

There is but one—there can be but one—feeling in the senate, as respects the industry, ability, and impartiality with which Mr. Danheuv has invariably discharged h duties as president of the senste, during the sessions he has been elected to that office. His compliance, courtesy, and gentlemanly conduct towards all, have deservedly mented

and meet their approbation and esteem During the above debate, Mr. Naconas moved an amend ment to the bill—that the board of public works shall purchase a dragging machine; and that it shall first be employed in deepening the mouth of the bayou Lafourche, at the wea end. He remarked that it is evident-with or without the advise of an engineer-that if the waters be admitted at the river end of the bayon Lafourche, without having pre. viouly deepened the bayou at the sea end, the lands at the sea end would be inundated and destroyed. It is essentially necessary to prevent such an avent—as seemed desired by the senator from Lafourche.

Mr. Terz said that this was precisely the suggestion he had made, to be incorporate in the report and bill. He therefore accepted the amendment.

Mr. Rans presented additional sections to the bill as from the other, heave, altering the stated periods of heavest the course in the 8th district—which were that the periods should also be changed in the 6th district; and Mr. Laboure added another section, that they should also be ellanged to

Mr. LARATUR presented a bill to exact that the least in gambling shall be allowed to institute seits agrees the wis-friends and restater. They solicit the ners to recover the sums so lost, bearing intenset at 16 per fair of the public in general. ners to recover the same so lost, bearing intenset at 16 per cent from the time of payment; and that all who lose prepared in generally and that all who lose prepared in generally and that all who lose prepared in generally and that all also be parmitted to institute enter their fields, that one of these being about to go to their recovery of the property wind; electropically provided that there suits be brought within 10 paper.

Mr. Thomas presented a report and bill from the Judiciary committee, establishing the right of John T Puells to live. They will also fill any order given to them.

They hope, by their endeavours and unrembling atter tion, to deserve the continuation of that share of public participation. They will also entirely they precisely beautifure.

Mr. Prownson presented a petition of Daniel T Waldon raying that four children whom he had by a white woma be legitimated. With whom he had not been married, [400] presented a bill for that purpose, but a of which were referred to the judiciary committee.

Mr. Moons presented a report from the committee whom had been referred the subject of gambling-and a bil macring that all laws licensing gambling shall be repealed; that the sonvicted of keeping, or being accessary to keeping a gambling house, shall be imprisoned for 2 years;those convicted of keeping gambling tables, to an imprisor ment for one year; and those convicted of gaming or hazarding hets shall be fined in a sum of 500 dollars. It also has additional sections relative to the recovery of property lost in gambling.

The act relative to the city court of Lafayette, in the parish of Jofferson, was made the order of the day for Monda

The senate went into executive business-having receive hree messages from the governor.

From the Philadelphia Inquirer.

The ingratitude of Republics is proverbial, and hundreds of instances in the history of this country might be pointed to in confirmation of the proverb. Look at the case of Robert Morris—that of Fution and his heirs—that of the widow of Decatur, and many others that might be meaticeed. The provention and litherative of congressing cases of this chart.

INTERESTING EXHIBITION.
TRENTON, January 29, 1838

A very interesting exhibition took place last evening in the Assembly Room. You probably know that Mr, Friedland, a German gentleman; has within two years past established an institute in the city of Philadelphia for educating the blind which, through the exertions of the principal, sided by be nevolent gentlemen of Philadelphia, and the patronage of the Legislature of Pennsylvania, has acquired a very respectable standing. exhibition took place last evening in the

standing.
It is and there are in New Jersey upwards of 200 bind persons, and the particular object of Mr. Friedland, in making this exhibition before the Legislature, is to turn their attention, to the subject, and to induce them to make an appearance. propriation to assist the education of this numerous class of unfortunates.

CREONIC RHEUMATISM. - We are not ready to the number CRRONIC REPUNATION.—We are not ready to the municipal of remedies which have been prescribed for this painful disease, without a certainty that such addition will be valuable in practice. This certainty, we are convinced, will attend the remedy, it is the object of this article to bring before the profession. It is a mixture of equal parts of the balsam of sulphur and spirit of turpentine. Six drops of this mixture may be given morning and evening, and the dose increased two drops a day until it produces stranguary, when the dose should be diminished a little and continued until the disease be removed. We have been recently informed of the good effects of this mixture in a great number of instances, and effects of this mixture in a great number of instances, one very remarkable case line fallen within our notice was not of the committe, only of the senator who presented it; and was the chairman. He therefore moved that it be laid on the table.

Mr. Bossisa said that the member from Lafourche had

> The Goddess of Reason .- In the Paris papers of Angust , 1817, we find among the obituaries the following announcement: "Died, within these few days, in the hospital of pauper lunatics of Saltpetriere, where she had ing lamentations. She died at the age of fifty seven.

cossibly cannot exert themselves, may be got along with; out a person who is forever tinkering about something, and will be constantly delving at this, that and the other with desperate industry, and yet flinching when he ar-rives at some difficulty ne cannot see through, such an one we desire to have no acquaintance with; give us the man, who having made up his mind to arrive at a given point, dauntidasly pushes on through every obstacle. Resolution is the talismanic mystery of getting rich.

MUMAN LOVE .-- By N. B. WILLIE Oh ! if there is one !aw above the rest Written in wisdom - if there is a word That I could trace as with a pen of fire Upon the unsured temper of a child;
If there is any thing that keeps the mind
Open to Angel's visits and repels
The ministry of ill's, 'tis Human Love!
God has made nothing worthy of contem
The sinaitest peeble in the well of truth,
Has its peculiar meaning, and will stand
When man's hest meanurement wear test When man's best monuments wear fast away. The law of Heaven is love; and though its nai Has be n u-urp'd by passion and protein d
To its unholy uses through all time,
Still the eternal principle is pure,
And in these deep affections we feel
Oranipotent within us—we but see
The lavish of his measures in which love is given, And in the yearning tenderness of a child, For every bird that sings above his head, And every creature feeding on the hills, And every treature feeding on the hills, We see howevery thing was made to love: And how they err, who in a world like this Find any thing to hate but human pride.
