From the Galveston News

MONDAY, MAY 18th, 1846. 2 7 The steamship New York arrived about 3 o'clock, P. M., having left the Brazos St. Ingo vesterday about 11 o'clock, being 25 hours from bar to bar. She left New Orleans on the 12th, the Ralize on the 13th, and reached the Brazos St. Iago on the

Soon after the decisive repulse of the Mexicans, on the 8th, General Taylor finding that the enemy had entirely disappeared and left the con cation between his encampment and Point Isabel an obstructed, collected the baggage and plunder which they had left, and returned to his depot at Point Isabel having previously sent word to General Amoudis hat he had permission to send over 200 men to bury his dead.

The news is not important. No further engage ents have taken place. As far as we can learn, the Mexicans appear to have retreated to the other side if the Bravo.

We learn from Captain Phillips that Gen. Taylor s now at Point Isabel, having returned from his en ampment. He is directing his operations against Matamoros, and expediting the march of the troops o that point as fast as they arrive.

On Friday night 15th, a detachment of 1000 Volum teers and Regulars took up their line of march, for the urpose of crossing the Rio Grande at the mouth, in ending to enter the city of Matamoros. The were to be joined by 500 seamen in boats. The steamer Vesta left on Sunday morning for the mont of the Rio Grande, for the purpose of assisting the roops in crossing the river at that place. The steamship Telegraph was to leave last even

The bill which has passed Congress prothe bill which has passed Congress providing the prosecution of the existing war between the United States and the Republic of Mexico, does not specify in distinct language the manner in which hostil-ties are to be conducted; neither does it clearly and unequivocally state whether the war is to be surely defensive on our side, or whether, following the usage of belligerent nations, the party attacket shall retaliate to the best of its ability upon the foe b avading their territory and seizing and occupying

common sense construction of the bill will authorise the latter course. It would be absurd to suppose that Congress had appropriated ten millions of dollars and ordered the levy of fifty thousand men, for mere from the defence. Recent intelligence has conclusively down that researches a conclusively hown that one twentieth this number was sufficien to drive the Mexicans from our border, and to state of an army of thy thousand along the line of the Ric Grande for the single purpose of preventing the encroachments of the enemy, would be the most perfect and unmitigated waste of money, men and means, that our Consensations is sufficient to the control of the control our Government could devise. Moreover, we question very seriously whether the U. States could raise 50,00 groups for so contemptible a warfare. Certainly is could not be done by voluntary enlistment. Ou people are eager for the war, but wish to see it prose cuted in no halting and impotent fashion. The have had quite enough of irontier detence, and ar tion, on the banks of the Rio Grande, befits neithe the character of our people, nor the policy of our Gov rvices for purely defensive movements. Give t uch a war as the crisis and our own outraged he lemand, and fifty thousand troops will be raised is hirty days ready and walling, it needs be, to peril life

In the SENATE on the 13th, a Message was re ceived from the President communicating further cor-respondence from the officer in communication for the Ar-my of Occupation, which was ordered to be printed. After the presentation of memorials, Mr. Niles. submitted a bill supplemental to the act to provide for the transportation of the mail between the U.S. and

which he explained by remarking that we had a treaty with Spain, in the 11th article of which it was stips lated that neither power should permit private cring to be carried on from their ports against each other. It be carried on iron their ports against each outer. As was thought that Cuba might be the place from whence privateers might be fitted out. The article subjects the parties to the panishment of piracy, and although treaties had been regarded as the law of the land will it had been thought by Indea Story that land, still it had been thought by Judge Story that they ought to be accompanied by some Legislativ ent to give them full validity. In view of this

G. Shew for mutiny on the high was, during her passage from

Thindelphia to this port.

Arrist or Gamblers—Captain Winters last hight, gave a rare instance of his perspicacity and zero in arresting three gamblers, in a certain botel in Common assest. The names of three persons are John Otto, Thomas Barnes and William Boyden.—On searching their rooms, a variety of implements were found, auch as paraphermalies, about 200 packs of cards, silver dealing boxes, checks, fare clother, gambling table covers, card racks and card cutters. From the great variety and quantity of implements, machinery, &c., &c., ct. took five men to carry them to the police office. While there, the prisoners were naxious to give bail for their appearance, when \$5,000 each was demanded. William Hoyden has been arrested in our city before on a similar charge, so that bail in the som of \$10,000 was required from him.—Without hesitation, the paid down the amount in bank notes, and he was released. We wonder whether some arrests of a similar nature could not be made in our municipality?

BURDILARY — Jacob Bugio made an affidavit yester-day before Recorder Genous, that his house in Der-bigny street between Conti and Bienville arreets was entered on Sunday night and two trunks containing a quantity of wearing apparel stolen thereform.
