Gov. Brown, of Ga., on the Tithe Tax in Kind,

Governor Brown addressed a special messa on the 20th November to the Legislature Georgia, arging the adoption of joint resolu-tions instructing Georgia Senators and Repre-sentatives to procure, if possible, the repeal of the tithe tax, and also to obtain such modificathe tithe tax, and also to obtain such modifica-tions of the impresement law as will seeme the payment of the market value for property im-pressed. He expresses the belief that at least one third of the amount of the tithe tax in kind, of Georgia, will be wasted through the misma-nagement of government agents. He favora direct taxation, saying that it would help the absorption of a redundant currency, and save the people from having to pay the public debt in gold after the war is over. Not withanting these views of the Governor.
