

REMOVAL.

SULPHUROUS BATHS.
DOCTOR REYOU, has the honor of informing his colleagues and the inhabitants of New-Orleans and of Louisiana, that he has removed his establishment of Sulphurous Baths from... Street, No. 122 to Barak's Street No. 156, at the corner of Burgundy in the house lately occupied by Dr. Formento.

It is generally known, how much benefit is obtained by sulphurous bath in cutaneous diseases, rheumatic complaints, psoriasis and other serious complaints, it is needless to quote here the numerous instances of immediate cure and relief afforded by the application of that remedy.

Mr. Renou has availed himself of his removal, in constructing a new apparatus and making his establishment free from any kind of reproach that could have been made to the former one.

The room for the reception of white people is totally separate from the one fixed for negroes.

His new lodgings afford him the means of receiving certain number of sick persons wishing to board at his house.

He has provided a spacious hospital, and his house being situated in a retired part of the town less crowded with houses than elsewhere, makes the situation perfectly wholesome.

The treatment of negroes per day, . . . Doctor Renou will however take with the persons who will apply to him all possible arrangements.

During the last year of his practice in Paris, Doctor Renou has been intimate with the celebrated Dr. Ducamp inventor of the most efficient method of curing ischaemia (retention of urine,) and he had especially addicted himself to the treatment of that disease; he has now in his possession a complete collection of all the instruments necessary thereto. He may ensure to those persons affected with the above complaint, who will apply to him, a prompt and safe cure from his method of treatment. dec. 24

HELVETIC INSTITUTION.

In order to give greater latitude to his system of education, Mr. De Fernoz has invited, as a partner in his Seminary, Mr. J. W. Wheelwright, of Massachusetts, a young man recommended to public confidence as well by his talents as his personal qualities. Having been graduated at a college in New-England, Mr. Wheelwright will be enabled to take charge of the whole course of English instruction. The institution of Mr. De Fernoz will thus offer to young men the double advantage of preparing some to be admitted into the colleges of the United States, and of furnishing to others a complete course of education adapted to the commercial and ordinary pursuits of life.

Old regulations, but rigidly adhered to, will give to this seminary the character of an Helvetic school. In the proposed plan of teaching, the connection between the memory and judgment will always be kept in view, and no pains spared to facilitate the attainment of different branches of study by the most simple and familiar illustrations. In a word, the object of this seminary will be the communication of valuable knowledge, and the formation of those mental and moral habits in young persons, which shall carry by the foundation for their respectability and usefulness in subsequent life.

The institution is already in progress, at the house of Mr. De Fernoz, No. 116 Royal Street. Jan. 22

THE BEE.

PRINTED DAILY, BY P. DUBOIS.

NEW-ORLEANS, THURSDAY, FEBRUARY 21, 1828.

The bill relative to the removal of the seat of government to Baton Rouge, was discussed in the House of Representatives yesterday, it was rejected by a majority of 21 to 19; it is to be taken into consideration to-day.

New-York, Jan. 26.

Cotton.—The demand for this staple continues fair, and the sales, for the last three days, amount to about 700 bales—consisting of 175 New-Orleans, at 10 1/2 a 12 cents; 60 handsome new crop Mobile at 10 1/2 on time; and the remainder Uplands at 9 a 10 cents, including 150 bales of old crop Georgia at the former price. We continue without any arrivals of moment, and the stock is now reduced very low—holders have in consequence been enabled to make better terms, and sales in some instances have been effected at an advance of 1/2 a cent on the rates which governed previous to the receipt of the last advices from Europe. Our lowest quotations are advanced in conformity.

MATANAS, Jan. 4.—Molasses is now coming in more freely, but the stock is still small, compared with the demand. These are a number of vessels waiting for prices to come down. There have been but two or three small parcels of Muscovado Sugar received yet, the last of which brought 9 1-2 rs.—A lot of rather better quality, came in yesterday, is held at 10 rs. In two or three weeks hence, there will be fair supply at market, when we think a 9 rs. will be the current prices for fair to good fair qualities. Coffee is coming in, in small parcels, and prices remain as per our last, 7 1-2 a 9, as in quality. The crop will fall short of the last, at least one half. No brown Sugar has appeared yet, and will not be offered in quantity until next month. The stock of old is considerable, and almost nominal, at 11 15 a 11 1-2 15 1-2. We quote Lard 14; Hams 16 a 17; Butter 16 a 17.

CONGRESS.

In the Senate Jan. 18, a memorial of individuals who have suffered from French Spoiliations since 1800 was presented by Mr. Smith of Md. and committed. A similar paper was presented by Mr. Marks of Penn. The bill to abolish imprisonment for debt passed 25 to 16. The appropriation bills from the House were passed to a second reading. After some discussion of the bill to regulate process in the Courts of the United States, in States admitted into the Union since 1789, The Senate adjourned to the 21st.

In the House, the navy appropriation bill was twice read and referred to the Committee of the whole. A bill to authorize the licensing of vessels to be employed in the mackerel fishery was read twice and committed.

A resolution contemplating the abolition of the office of appraiser was referred to the committee on commerce. Appropriation bills for the support of government and for the payment of the Revolutionary Pensioners were passed and sent to the Senate.

The bill involving the right of compensations for a slave impressed into the U. S. service was taken up. The principle of the bill was advocated by Messrs. Everett, Hale, Southerland and Kerr and opposed by Mr. Allen—when on motion of Mr. Dwight the House adjourned.

From the Richmond Whig.
The Baltimore Republican and Philadelphia Sentinel, [the Boston Statesman might have been included,] represent the nomination of Madison and Monroe by the Virginia Convention on the Electoral Ticket, as an "enormous fraud," intended to deceive the people by representing those gentlemen as friendly to the election of Mr. Adams. A man who should thus speak of that Convention in Virginia, where the character and standing of the members of the Convention are known, would be silenced by the frowns of all who heard him—abroad he is more excusable, and we must find the apology of the Republican and Sentinel, in their profound ignorance of men and things in Virginia. Suffice it to say, that no fraud was practiced in using the names of Madison and Monroe, and that whether they act as Electors or not, they are decided friends to the cause. Their immediate representatives in the Legislature, and personal friends, know this to be true, and will not deny it.

The "veteran and eloquent" Mr. Randolph talks, in the debate which we published to day, of "that sense of decorum, which ought always to have its influence in the House, and elsewhere." We wonder where was the honorable gentleman's sense of decorum when he was in the Senate, and what influence it had over him there.—Alexand. Gaz.

ITHACA, (N. Y.) Jan. 16.
Calamitous event.—A house situated upon the west hill, in this town, and occupied by Mr. John Welling, was burned down on Wednesday evening last, and three of his children perished in the flames, and a fourth was so badly burned that it expired the next morning. The parents were absent on a visit, leaving their house, as we understand, fastened up. On their return, their attention was attracted by the light of their own dwelling in flames—the father rushed forward, entered his dwelling through a window, but was unable to rescue but one of his children alive, to tell of the heart-rending cries of the remainder, and then expire.

Utility of Newspapers.—By a recent act of the Legislature, the time of holding the December term of the Court of Common Pleas in this county, was made a week earlier than heretofore. We published the act at the time, and subsequently published a notice of the alteration, so that most persons interested were duly informed thereof.—But on the assembling of the Court, one of the grand jurors was missing, and he did not appear till the next week, after the jury were dismissed. In consequence of not taking a newspaper, he was not aware of the alteration, and was obliged to lose two days-time and the expenses of his journey, amounting in all, probably, to not less than 12 dollars, a sum sufficient to pay for a paper three years.

[Worcester Spy.]
The doubloons and jewellery agreed to be delivered up by Eliza Lyons, have been transported to New York, and she has been liberated. One of the conditions of her liberation was, that she should give evidence against certain persons, who, it is alleged, won large sums of money from the suicide; that they so won it, and won it unfairly, was expected to be established by Eliza Lyons, and the money recovered for the benefit of the Insurance Company. Means to arrest the persons suspected of having the money had been taken, and its recovery and their conviction certainly calculated upon, when it was discovered that Eliza Lyons had decamped. The most diligent inquiries have been set on foot, but as yet nothing satisfactory had been heard of her.—Press.

Murder.—A murder of an aggravated character took place in Powhatan county, Va. a short time since. Robert Mendum having had an illicit connection with the wife of Elbert Mosby, the guilty pair formed a design of destroying the injured husband. By the assistance of a negro, Mosby was decoyed near a pine thicket when the negro fired a gun at him, but missed. Mosby stabbed the negro and left him for dead, but the negro pursued him and held him until Mendum came up and knocked him down with a piece of rail. He stabbed Mendum slightly, three times, but was at last overpowered. The murderers are in jail. Mrs. Mosby is the mother of several children; one a daughter nearly grown up.

Accident.—Mr. William Eddy, respectable master-carpenter, set out on Monday evening last on horseback, to go from the house of Mrs. Jones, Staten Island, to Richmond. Mr. E. and his horse, which was a high spirited animal, were found dead in the road about half an hour after, about a mile from the house. The horse was lying partly on his master's body, and it is supposed that he took fright at something, ran and fell while at the top of his speed.

Extract of a letter dated Rio de Janeiro, Nov. 17, received at Baltimore.

"Gentlemen, I enclose you a Gazette containing a copy of the Emperor's speech from the throne yesterday, on the occasion of closing the sitting of the Assembly. It Means nothing, and every one here says, that the desire therein expressed of the members remaining, in anticipation of a peace, may be attributed to the reluctance he has for the Deputies returning to their respective provinces, fearful of their spreading ideas subversive of the actual order of things. The idea of a peace at present is illusory, and in my opinion there is not the smallest ground for such expectation. I have letters from Buenos Ayres to the 15th ult. which do not make mention of the matter, and the individual I allude to, is so deeply interested as to make it well worth his while to ascertain the fact. At all events, within four months it appears to me impossible that it can take place. Our exchange, since the promulgation of the speech, has declined one penny, which gives some idea of its tendency."

PORTUGAL.—The Infant D. Miguel having been appointed his majesty's *locum tenens* and the charter, according to which he is to govern, requiring the regent to take the oath contained in the 97th art. of the same, before the president of the chamber of Peers, and in the presence of both chambers; General Cortes Extraordinary have been called together, and the members invited to repair to Lisbon on or before the 20th inst. that they may attend the royal sitting in which that solemn act is to be performed. Notice will be given, in due time, of the day and hour when it is to be holden.

(From the Lisbon Gazette.)
Foreign Department.—Dispatches have just been received, by the packet which came in to-day, from the Portuguese Ambassador in London, and from the Ministers in Vienna, and, together with them, a letter (of which the following is a copy) addressed by his highness the Most Serene Infant D. Miguel, to her Highness the Most Serene Infanta Regent.

My dear Sister—Although I suppose, that you are already acquainted with the Sovereign resolution actually taken by our august brother the King to appoint me his *locum tenens* and Regent of Portugal and Algarves, for me to govern those Kingdoms in conformity with what is laid down in the Constitutional Charter given by our August Brother to the Portuguese Nation; yet I cannot but let you know, that I have received the Decree of the 3d July of the present year by which I am fully authorized to assume the Regency of the same Kingdoms and their dependencies.

Determined as I am to maintain in full force the laws of the kingdom, and the institutions legally granted by our August Brother, and which we have all sworn to maintain and cause to be observed, and to rule the said Kingdoms conformably to the same, it is fit that I should declare it so, in order that my sister may give the requisite publicity to this solemn declaration, and at the same time make known my firm resolve to put down the factions which may under any pretence, attempt to disturb the tranquillity of the country—it being my wish, that past errors and faults be consigned to utter oblivion; and that concord and a perfect spirit of conciliation may succeed the deplorable agitations which have disunited a nation celebrated, in the annals of history for her virtues, valor, loyalty, and respectful attachment to her Princes.

In order to carry into effect the Royal intentions of our August Brother, I am preparing to return to Portugal, and therefore, request, that my Sister will, without loss of time, order a frigate and a boat of war to be fitted out to sail for Falmouth, that I may be enabled to depart to that of Lisbon.

May God preserve my beloved Sister as many years as wished by her Brother who dearly loves her.
