FIRST DISTRICT COURT.—T[he] ... of William P. Howell, charged with m... occupied yesterday the attention of the C... and jury. The circumstances of this case ... already familiar to the reader. At noon, ... was duly empannelled and sworn, Messrs. Preaux and James Foulhoux appeared as counsels for the prisoner; and the Attorney General and District Attorney, for the State. At about five o'clock in the evening, the Court adjourned until this morning, at nine o'clock, when the case will again be resumed.

SIXTH JUDICIAL DISTRICT COURT.—Mr. Paulin Courtades, made yesterday, an affidavit before Judge James Dikman, at Algiers, charging one Louis Brown, with having obtained from him a horse under false pretences. His Honor ordered the Constable of his Court, Samuel Jackson, to arrest the accused. The prisoner was last evening, arrested by the Third Municipality police, and delivered over to the authority of Algiers.

THE MURDER CASE.—The case of Hipolite Lahon, charged with murder, will be investigated before Recorder Ramos, on Friday week, the 3rd of March, at 12 o'clock precisely. Mr. Pierre Soule has been engaged as counsel for the prisoner.

RECORDER RAMOS.—David Dickenson, went up yesterday to Recorder Ramos' Office, and respectfully solicited his Honor to give him a free ticket for admission to the Workhouse. His Honor granted the singular request.

Charles Hall, arrested sometime ago, on the affidavit of one J. Puneskie, who charged him with larceny, was honorably discharged by his Honor, the complainant himself stating that it was all a misunderstanding.

RECORDER BALDWIN.—James McKenna, Patrick Kearnan, Patrick Plunket and Michael Sheehan, charged with creating a riot upon the Levee, on the 21st inst., were yesterday examined before Recorder Baldwin who, after a thorough investigation sent the prisoners to the First District Court.

Charles Carter alias Manley, charged with breaking open several trunks at Bank's Arcade, some days since, was yesterday brought up before Recorder Baldwin. The trunks were found in his room, in Commonhouse street, after his arrest, a large number of articles of jewelry, several of which were identified by A. C. Bullit Esq., as having been stolen from him at the St. Charles Hotel some time since. The Recorder sent him for trial before the First District Court. The prisoner was also sent to the same tribunal, on two other distinct charges of larceny, brought against him by other individuals.

AFFRAY.—Yesterday morning, Augustin, a free man of color, came before Recorder Ramos, to make a complaint against another free man of color, who had attacked him and cut him with a hatchet. His face was all covered with blood, at the time. The Recorder sent him to get his wounds dressed, and he has not since returned.

DEATH IN A WATCHHOUSE.—The police of the 1st Municipality, arrested on Wednesday evening last, a free man of color, named Patterson, charged with disturbing the peace. The person had been drunk for several days past, and when arrested, was in a state bordering on insanity. He was found dead yesterday morning in his cell, having died of delerium tremens. An inquest was held on the body, and a verdict rendered accordingly.

ROBBERY.—Two days ago, Mr. Jacob Reabout, residing in the Third Municipality, was robbed of a sum of $155 in silver. He immediately filed an affidavit before Recorder Seguin, charging a woman named Thomas Ebbert with the above robbery. It appears that she remained for some time in the complainant's house, during a short absence of the latter, who had forgotten the key to the lock of his money chest. When he came back, the money was wanting. A search warrant having been issued, a portion of the stolen money was discovered in the woman's premises. She was arrested and remanded for further examination.

LEGISLATURE OF LOUISIANA.

In Senate.

THURSDAY, February 24th, 1848.

The Assistant Secretary transmitted to the House for its concurrence, the following bills:—"An Act for the relief of Eugene Renondet;" "an Act to amend the 2nd, 4th, 5th, 8th, 10th and 16th sections of an Act entitled an Act to incorporate the town of Donaldsonville;" and also, a resolution instructing the State Engineer to make a survey of the Calcasieu river.

On motion of Mr. FREMAUX, of the 1st District, the Secretary was authorized to appoint a temporary Clerk during the illness of Mr. T. B. Richardson, one of the enrolling Clerks of the Senate.

Several bills were transmitted to the Senate by the Clerk of the House.

The Senate then took up the Act to amend the Act entitled, "an Act for the better administration of the Louisiana Penitentiary, approved 25th March, 1844." The first section provides that on the 13th of March, and every five years thereafter, the General Assembly shall elect a keeper of the Louisiana Penitentiary, for a term of five years. This bill gave rise to a very animated and protracted discussion which lasted till the hour of adjournment.

In House of Representatives.

The House met pursuant to adjournment.—Hon. Preston W. Farrar in the Chair—63 members present.

The Speaker laid before the House a communication from the Governor, transmitting a letter from Mr. DeBow in reference to a certain intelligence of banks and official publication of the French Government, prepared by Mr. Alexandre Vattemare, the author of the system of International Exchanges.

On motion, the same was referred to the Committee on Public Education.

Mr. Duncan, of St. Mary, presented the petition of the inhabitants of Pattersonville, parish of St. Mary, praying for the establishment of a Ferry. It was referred to the Committee on Parochial Affairs.

Mr. Gibson presented a resolution, which was adopted, instructing the Judiciary Committee to report by bill, or otherwise, whether it is expedient and practical to revise and consolidate, in a separate volume, all the laws in force in relation to Justices of the Peace and Constables, together with an explicit fee bill for each of those officers.

Mr. Bowden offered a resolution giving as the opinion of this House, that the article of the Constitution, relative to the number of days that the Legislature shall remain in session, be so construed as to include Sundays and Holidays. It was referred to the Judiciary Committee.

Mr. Cowgill offered a resolution providing for evening sessions, to commence at half past five o'clock. It was laid over until to-morrow.

Mr. Lanne offered a resolution, which was referred to the Finance Committee, authorizing the Governor to appoint some suitable person to make such examination into the settlement of the accounts of the State of Louisiana with the General Government, bearings, &c., as per agreement alleged upon the sales of Public Lands.

Mr. Hunley introduced a bill to amend the 26th article of the Constitution of the State of Louisiana. Referred to the Committee on Amendments to the Constitution.

Mr. Drew introduced a bill to appropriate a certain sum of money for the erection or purchase of a building for a Female Seminary in the town of Malden, 9th of Claiborne. Referred to the Committee on Public Education.

Mr. Womack introduced a bill to provide for the disposal of such slaves as are born, or may be born to sell the slaves of the Commercial Bank. After an animated debate, this substitute was indefinitely laid on the table, and the original bill, introduced by Mr. Wilder, was adopted by 45 yeas to 33 nays. The bill was ordered to be engrossed for its third reading on to-morrow.

The act to, provide for the organization of corporations in the State, was next taken up, and after a short discussion, its further consideration was postponed.

Sundry other local matters were disposed of, and then the House adjourned.

CHLOROFORM.—This new medicine is to be administered to the Queen of England at her approaching confinement, when her loving subjects expect another member of the Royal family. Should chloroform operate favorably on her Majesty under the circumstances named, its popularity in that connection will be universally established.

NEW LINE OF BUSINESS.—We understand that medical students, interested in walking the hospitals, intend to apply for permission to walk the different railways, as from the number of accidents that occur on each line, they expect to finish their surgical education in one half the usual period.—*Punch.*

THE LANGUAGE OF FLOWERS.—Motto for the Lilac in April—Give me leave.

Ditto for the Rose in June—Well! I'm blowed.

Ditto for the Asparagus in July—Cut and come again.

Ditto for the Marrowfat in August—Shell out!

Ditto for the Apple Tree in September—Go it my pippins!

Ditto for the Cabbage in December—My heart's my own.

Ditto for the Aloe at any time—Well, I never, did you ever!—Ib.

QUITE A MATTER OF FEELING.—A medical man, of the very old school, calls all operations that are performed without the patient feeling anything, "sensibleem operations."—Ib.

CURE FOR A "DREADFUL COLD."—How often it is that a young lady, when pressed for a song, is afflicted with a sudden cold. The best cure for that is to ask her master to sing.—Ib.

WATER WORKS.—The readiest water works to turn on are ladies' tears; but the difficulty, when they once begin to flow, is to stop them. Sometimes a velvet dress will check the tremendous rush. But occasionally it is piped on so strong, that it is necessary to send for an opera box to prevent the water works flooding the entire house.—Ib.

NATIONAL CONVENTION.—The Louisville *Journal*, of the 15th, contains a powerfully written article in favor of a Whig National Convention. In the concluding paragraph, the writer reiterates his conviction that Gen. Taylor should be the Candidate of the Whig party of the Nation, and that he will be the Candidate, unless his injudicious friends, by their exclusive movements, destroy his prospects and the prospects of their party. The *Journal* former thinks there is strong ground for believing that Mr. Clay will, before the meeting of the National Convention, express his determination not to be a Candidate, although it is of opinion that Kentucky should not abandon him, so long as his decision is doubtful.

TERMS OF THE TREATY.—A correspondent of the *Commercial Times* gives the following as the terms of the treaty of peace negotiated between Mr. Trist and the Mexican Commissioner:

Five millions to satisfy the claims of American citizens, which have already been liquidated, or remain to be liquidated; three millions to be paid, the moment after the treaty shall have been approved and ratifications exchanged. The remaining twelve millions at such period and in such amounts as may suit the Mexican Government. The capitol shall be evacuated one month after information shall have been received of the ratification of the treaty. The posts to be given up three months after said approval of the treaty, provided always that, in case this should occur during the sickly season, the troops may withdraw into the interior, to a distance of thirty leagues, there to remain until the period should expire. The navigation of the rivers to be unobstructed to American vessels, and made equally favorable to Mexican vessels. The Mexican ports to be opened and closed at the same time as those of the United States. The Mexican tariff to remain in force for such a period as may be mutually agreed on, and then to be succeeded by the Mexican custom-house regulations.

SENATOR RIVAS FOR TAYLOR.—We learn, says the Philadelphia *Inquirer* of Tuesday morning, that the committee for the Buena Vista Festival, have received an admirable letter from the Hon. W. C. Rives, of Virginia, the former Minister to the Court of St. Cloud, in which he takes strong ground in favor of the nomination of Gen. Taylor for the Presidency, and speaks of the Old Hero in terms of the highest eulogy. This letter will be read at a meeting of the committee to be held at Stigman's to-morrow evening.

LOUISIANA AND FREE TRADE AND THE WAR.—The Newburyport *Herald* has the following remarks concerning certain New England Mills:

The directors of the Stark Mills, on taking account of stock, on the 1st January, found that they had lost, during the last six months, upwards of $50,000, or more than one 24th part of their capital, which is $1,200,000.

The celebrated Amoskeag Company, at Manchester, which purchased its land, water, power, &c., at a very low rate, and manufacturing machinery, having been heretofore the most successful of any in the country, are compounding now a capital of $2,500,000, it is said, and unable to make any dividend on the last six months' work.

The Providence Journal says:

We learn that the manufacturers on the Woonsnocket River have notified their help of a reduction of ten per cent on their wages; a measure which has been rendered necessary by the depression in the manufacturing business. The mills in Fall River are still stopped; the reason, we presume, in the present condition of those would prefer that they should not be started even at a reduction of prices. At present prices there is no profit in the business.

☞ A Telegraphic despatch to a merchant of Charleston, received on the 18th, says that the quotation for fair Cotton, at Liverpool, was 4 3-4d., which observes the *Courier*, is 1-8d. higher than the quotation given in our despatch published yesterday. This figure may be predicated on an inspection of the private letters.

Trade in the manufacturing districts was dull. The money market easy.

The writer expresses the opinion that the receipts by the Steamer will improve the New York market 1-8 to 1-4 of a cent.

THE MOBILE TELEGRAPH.—The communication between New Orleans and Mobile is now complete, and the wires may be seen extended along Canal street, and down Exchange Place to the common, at Mr. Lloyd's office.—Every thing is in readiness for the commencement of operations, and as soon as the Engineer arrives, who is daily expected, the battery will be manned, and New Orleans may shake hands with Mobile.

FROM MATANZAS.—The brig *Magnolia*, Capt. Morris, arrived at this port yesterday, in 6 days from Matanzas. By this vessel, we received a file of the *Aurora de Matanzas* to the 10th inst., inclusive.

Prices at Matanzas on the 10th inst.—Rice, 10 1-2 reals, Flour, American, $13 a 14; Lard, 17 a 18c; Sugar, superior Brown, 6 1-2 a 6 1-2; common to good, 6 a 6 1-4; Muscovado, 4 a 4 1-2 per arroba; Coffee, superior, 5 1-2 a 6; Molasses, 1 1-2 reals; Exchange on the North, 2 a 2 1-2 premium.

The Sp. brig *Habanero*, for this port, cleared at Matanzas on the 1st inst., with a cargo of 140 hhds. Molasses.

Three cargoes of Rice had been stored.

We find no news of importance in these papers. The shipping intelligence will be found under the appropriate head.—*Chir. Cour.* 19th.

The Charleston *Courier* of the 19th, says:—The following Telegraphic Despatch was received from our Correspondent, at 57 minutes past 10 o'clock last night, dated:

BALTIMORE, Feb. 18, 1848.

Breadstuffs depressed at Baltimore, Philadelphia, and New York; Corn declined 2 cents Cotton firm, Uplands caction advanced.

SPECIE.—The shipments of specie from New-York, during the past week, amounted to only $60,480, of which $41,890 went to Liverpool, and $18,590 to Havre.

A MONUMENT TO WM. PENN.—The citizens of Reading, Pa., are about to erect a monument with a statue, to Wm. Penn. The materials are to be of native production, namely, Berks Co. iron and sandstone.

ART AND GREATNESS.—A number of the citizens of Cincinnati have employed Thos. D. Jones, of that city, to proceed to Louisiana, and model a bust of Gen. Taylor.

TWO STEAMBOATS SUNK.—The *Sallie Anderson*, arrived at Memphis, reports the steamers *H. B. Day* and *Amulet*, sunk in the Arkansas river. Boats and cargoes entirely lost.

"UNION AND COMFORT."—At the Locofoco State Convention, recently held at Little Rock, Arkansas, Col. Ben Taylor, one of its leading members, made a remark, the truth of which is too remarkable, on the first instant, is creditable to the patriotism of the Whig party. After referring to the alacrity with which in time of war, the citizens of the Republic, without distinction of party, rush to the tented field, to share in its dangers and its glories, he said on—Sometimes I have felt a little jealousy, in looking over the Army roll, to see so many Whigs shouldering the arms and weapons—*because I am compelled to admit they outnumber the Locofocos.* This is a specimen of the "aid and comfort" the Whigs have given to the enemy—sending on the sword to meet in battle the armed Mexican, recruited, equipped and led on by SANTA ANNA, who, by Mr. POLK's orders, was allowed "to pass freely" into VERA CRUZ!

DISASTROUS FIRE AT NOTTINGHAM, MD.—We learn by a letter from Nottingham, Prince George's county, Md., that on Friday night last, there was quite a destructive fire in that village. It originated in the back part of Mrs. Margaret Fowler's dwelling, the whole of which was entirely destroyed, together with nearly everything she owned, including furniture and clothing. It then extended to Quinn's Hotel, which was also destroyed, and also the warehouse adjoining, containing 43 hogsheads of tobacco. Dr. Taylor's stable was also burnt, with a buggy and 100 bushels of oats, and a lot filled with hay. It also extended to Rollins's store house, but was extinguished before much damage had been done.

EFFECTS OF CHLOROFORM IN ASTHMA.—Having been subject to frequent attacks of asthma for a number of years I was induced to try the effect of Chloroform. I had an attack about 2 o'clock in the morning, with a frequent, difficult and short respiration, together with a wheezing noise, a tightness across the chest and a cough. I now came to the conclusion to try Chloroform, and accordingly put about four or five drops of the pure article in one corner of my packet handkerchief, and inhaled it freely, and in a few minutes the construction of the chest dilated, and I began to breathe more freely and easily, which was soon followed by a copious expectoration of mucus, and in a few minutes more I was relieved from every symptom of asthma. I retired to bed and slept very comfortably all night, and have not had a symptom of the disease since. So says the Philadelphia Ledger.

M. THIERS never writes. He dictates. Seated in his cabinet, he leans on a table covered with notes and manuscripts, there, he speaks as though addressing the Chambers, and it is necessary for his secretary to write as rapidly as a stenographer. If by chance the poor secretary cannot keep pace with the rapidity of his thoughts and requests him to repeat a phrase, the ex-minister stamps his foot on the floor in a passion, and remains at least five minutes before he can regain the thread of his ideas. "Monsieur," said he one day to his secretary, "an author is not a schoolmaster. He cannot turn back the page of his thoughts at pleasure. Ideas never flow backwards.

Cleopatra was the first person who drank "early pearl."—Ib.

ABDICATION OF LOUIS PHILLIPE.—The Morning Post; a day or two since came out with an exclusive bit of intelligence—it has remained exclusive ever since—that Louis Phillipe was about to abdicate in favor of the Regency, but would of course, remain active on certain matters being transacted; in the like way that the tallow chandlers retired from business to make way for his son; with this provision—"maintaining perfect right to revisit the shop on melting days."—Ib.

PROVERBIAL PUZZLE.—A moralist recommends us to bridle the belly. Would he have us to be continually putting a bit in it?—Ib.

On motion the Council adjourned for want of a quorum, to Saturday, the 25th inst., at 6 o'clock, P. M.

P. CHS. CUVELLIER,
Secretary

THE ALLEGHANIANS.—Last night was an incident that these excellent Vocalists are to repeat their Concert to-night, in connection with the Grand Moving Panorama of Napoleon's Funeral—which is one of the most splendid spectacles that can be looked upon—true to life and full of instruction. A good house was present last evening, and had it been pleasant, the large Hall would, no doubt, have been crowded. None that hear the Alleghanians, can hear them enough. Remember the Armory Hall to-night at half past seven.

THE ALLEGHANIANS.—Last night was an incident that these excellent Vocalists are to repeat their Concert to-night, in connection with the Grand Moving Panorama of Napoleon's Funeral—which is one of the most splendid spectacles that can be looked upon—true to life and full of instruction. A good house was present last evening, and had it been pleasant, the large Hall would, no doubt, have been crowded. None that hear the Alleghanians, can hear them enough. Remember the Armory Hall to-night at half past seven.

☞ The attention of Grocers, Merchants and Dealers, is respectfully called to the extensive sale of the entire Havana Cigars, made to-morrow, at 11 o'clock, without reserve, at No. 36 Poydras st., by Messrs. ☞ **Invaluable Discovery.**—DR. CONSELO'S MIXTURE for GONORRHEA, GLEET, SEMINAL EFFUSIONS AND WEAKNESS OF THE PENIS OR BLADDER.—No mixture contains so ingenious article whatever, but possesses some properties of real efficacy, and more congenial to the constitution than any medicine ever used for these complaints. Freed from the nesting qualities attending Copaiva and the common mixtures, it is agreeable to the taste, palatable and pleasant to the stomach, and will cure any case of gleet or any refused for it. It is equally good and certain in females. ☞ Sold only by CUSHING, STOCK & CO., 20 POYDRAS street.

☞ **For Havana**—To sail on SATURDAY, 26th inst.—The regular fast sailing A 1 packet brig FAYAL, Capt. Fabra, will have quick dispatch as above. For freight of 300 barrels or passage, having fine accommodations, apply to the Capt. on board, or to fe22 corner St. Peter and Chartres sts.
