REFORM HOUSE OF LORDS; ITS ABOLITION NOT DESIRED

POWER OF VETO.

Extracts From Speeches by Lloyd-George and Lord Loreburn.

John Burns Says That the Liberals Are Waging a Winning Fight-His Appeal to His Constituents-Mr. Lyon's Review of the Battle Between the Two Houses.

(Staff Correspondence of The Globe.) London Office of The Globe, Dec. 21.—The English people are about to do something toward reforming the House of Lords. Had the Scotch, ! Year's reception at Government Irish, and Weish people been the dominant partners the House of Lords () Eleven changes made in the City Council would have been mended or ended long ago. It must be remembered that Controller Geary was elected Mayor by the ancient Scottish and Irish noblesa majority of 4,082 over Controller Hocken. the members of the House of Peers of The voters approved the proposal to these realms prior to the Act of Union -do not sit in the Lords. > At the time of the two Acts of Union the Scotch and Irish Lords were, in not a few cases, raised to the Peerage of the United Kingdom for services that really amounted to be-'rayal of trust. Sir Herbert Maxwell

his recently-published work, "A iry of Empire," tells how the E. , of Ely. a member of the Irish Mr. E. In public affairs, at all events, that is unquestionably the English point of view. The outsider would think they either ald not understand the situation or did not care. An Ameri-j writer recently devoted a whole chapter in a book on England and the English to a discussion of the question : "Are the English Dull ?' He proved pretty conclusively that a nation could hardly be counted dull that had learned how to govern a large part of the world and still had day, 29 : difference from time to be great in manufactures,

MAYOR GEARY.

Mr. George Reginald Geary, K.C., who was elected Mayor of Toronto on Saturday by a majority of over four thousand, is thirty-seven years of age, and is a member of the law firm of Macdonell, Me-Master & Geary. His public career began seven years ago in a contest for School Trustee in the Fourth Ward, when he headed the poll. After serving a term on the School Board he was elected Alderman for the ward, serving four years in that capacity. He was defeated for Mayor in 1908, but was elected Controller in 1909 by the largest vote that was ever

east for a candidate for that office. Mr. Geary is prominent and active in the Conservative interests in Toronto.

THE WEST OF SCOTLAND; LIBERALS AND HOME RULE

Many Liberals The Gibert Plains gristmill and elevator until promised that his Irish Earldom here are greatly opposed to Irish Home Rule, except as part of a general scheme to give all the divisions of Great Britain and Ireland control of local affairs, leaving the Imperial Paragrent to attend Mr. Matthew Leggat, one of Hamilton's the Marquis of Elv took toll of the to Imperial affairs.
