PARISH COURT.

for the parish and city of New-Orleans, April 30th, 1831.—Present the honorable James Pitot—Hilaire Goguet, vs. His Creditors.—Upon filing the petition in this case, it is ordered by the Court that a meeting of the creditors of the petitioner in this case, take place in open Court, on the 23d day of May next 1831, in order to deliberate upon the affairs of the said petitioner, and to show cause why he should not be discharged, and to the prayer of his said petition and according to law, and in the mean time all proceedings against his person and property are stayed. I do hereby certify the above. T. S. KENNEDY, Clerk, may 2

NOTICE.—The creditors of the estate of the late Jn. Angaud, are requested to acquaint within the shortest delay Francis Ruffice, his testamentary executor, with the amount of their claims. Those indebted to said estate are likewise requested to pay into the hands of said executor, within the delay of one month, otherwise legal proceedings will be instituted against them. F. ROFFIAC, 141 St. Louis street, may 5

RECENT IMPORTATION.

The Hydrocarbon, or Rain Bath. EVERY thing connected with the cleanliness of the body; every thing, which may act as a preventive of disease belongs to the province of hygienic medicine, which Mr. Schneider has lately enriched with the precious discovery of his Hydrocarbon.

The importation into France by Mr. Walz, of the apparatus necessary to the application of this new mode of baths, has obtained for him the approbation of the society of practical medicine, in Paris, to whom he has submitted his process, and ensured him, from the public's general use of his new apparatus, a just reward for the services which has rendered to humanity. These baths, the usefulness of which is generally acknowledged in France, both in a medical light, and markedly in that of public salubrity, present advantages too numerous not to be particularly mentioned, in order to recommend to the public of New Orleans, the apparatus lately imported by Mr. Giequel.

The liquid contained in a reservoir above the bath, and yielding to its weight presses according to the laws of hydraulics, into narrower tubes, fixed in a variety of ways, so as to issue through a great number of capillary apertures, which project it in the form of a water spout on the surface of the whole body, or on one, or the other of its parts, according to the direction of the capillary aperture.

Simple or composed, natural or artificial waters, decoctions, aromatic tinctures, spirituous distillations, can be alike made use of in the hydrocarbon; and the apparatus may be employed, not only in rain but also in shower baths, whether with a liquid or with steam, as applied to the head, trunk, or limbs of the body.

In practical medicine, the use of this bath, from the various modes of its application, has produced the happiest results; physicians have already obtained signal success in a variety of cases, such as gritty obstructions, glandular affections, contractions of muscles, scurvy, tardy digestions, weariness, exhaustion of every sort; tubercular and cutaneous affections; eruptions of every species, even the worst kind; nervous weakness, and in a number of diseases in which it is equally necessary to tonify animal economy.

Considered in the light of a powerful hygienic auxiliary, the use of the hydrocarbon is not only salutary, but produces a healthful vigor, a development of strength, which by no means result from the bath by the immersion process; the perpetual washing of the different parts of the body, by the means of the capillary sprinkling; the constant sprinkling, the general tonic, and the which are the consequences of its agreeable sensations, which it creates, the faculty of transmitting the steam into rain and the latter into the former; each and all of those are qualities of hygiea, too well known to require further explanation on the subject.

The rain bath differs from the immersion bath, in this respect; that in the use of the latter, the pressure exercised by water on the body frequently produces a very great difficulty of breathing; a tendency of blood to the head, and hence headaches and vertiges.

The bath by aspersion, on the other hand, produces quite a contrary effect; the water, falling on the whole superficies of the body in small drops more or less tepid, assists perspiration; a gentle titillation is experienced in every part of the body; the process of respiration is regular; it gradually expands, the pulse acquires liveliness without losing its regularity; and if the expression be allowed, the circulation becomes more vigorous; for that feeling of weakness, ever alien and on the bath by immersion, is never experienced. In conclusion the discovery of the hydrocarbon may be considered as an additional luxury in domestic life, as well on account of the pleasurable sensations, which it creates, as the immense advantages of cleanliness, so very salutary to the body.

Baths, with Mr. Walz's apparatus can be taken warm, cold, or cold; as also medicated; mucous, alkaline, exciting or stimulant and shower baths, the usefulness of which is very great though generally disregarded on account of the high expenses and infinite care attending the establishment of steam baths at home. This new apparatus independently of the little space, which they take up in a room no ways interferes with the service of a household; and if the more trifling details are taken into consideration offers a saving of time, fuel and water. Manufactured in the shape of sundry moveables, this same apparatus can adorn a dressing room, a parlour, or the most modest tenement; in the form of a book case or a press it may be found an indispensable desideratum in a household. Initiated into the secret of the process, Mr. Giequel will take upon himself the setting up of the apparatus after the form and manner, which may be pointed out to him.

MR. JEAN RAPALO respectfully informs those persons whose sight is affected that he shall undertake the cure of that infirmity, and hopes to insure public confidence by a remedy as simple as it is efficacious. His residence is No. 74, St. Peter street. He deems himself in duty bound to publish the following certificates with which he has been favored: N. B. Mr. Rapalo may be seen at his residence, from 10 A. M. till 4 o'clock P. M. He will shortly publish some new certificates.

NEW-ORLEANS, March 15th 1831. My negro boy, Charles, had been labouring under an affection of the eye, which threatened total loss of sight, when I was informed that Mr. Rapalo possessed a cure for the eye: I sent for the gentleman, who, in the course of an fortnight, perfectly restored him to sight, and from that day the patient has not suffered the least. BELEFINE BARBOLE, NEW-ORLEANS, Feb. 7

I hereby certify that Mr. Jean Rapalo, has cured in the space of a month, one of my eyes, which for some time was so much afflicted that I was unable to work. At present I pursue my business without any inconvenience. ANTOINE SEDANO, NEW-ORLEANS, 1st Jan. 1830.

I hereby certify that Mr. Jean Rapalo, cured the eyes of one of my negroes (thirty four years old) in three days; notwithstanding he had been much afflicted for many months, so as at times, to be scarcely able to walk. He has since been exposed to fire, and engaged about different kinds of labor, without experiencing the least inconvenience. FURCY VERRIT, NEW-ORLEANS, Oct. 12, 1830.

I certify that by the treatment of Mr. Jean Rapalo an infant child of mine, whose eyes had been affected more than a month, and the sight of them almost lost, was perfectly cured in eight days. AUGUSTIN PAIRET, NEW-ORLEANS 29th Dec. 1830.

Mr. Jean Rapalo—I am in justice bound to admit your capability as an oculist. Your prescription and advice have succeeded with regard to my daughter, aged 7 years, and she has within the last fortnight completely recovered her eye sight. You are, sir, authorized to inform the public, if you deem it proper, against the fraud that many persons labor under that disease, how amply I confide in the efficacy of your remedy. I am with respect your humble servant. ALFRED McCARTY, NEW-ORLEANS, Oct. 27, 1830.

I certify that Mr. Jean Rapalo has in the course of six or eight days restored my sight. I am 80 years of age and my eyes have been affected for five years. JEAN LOUIS MICHEL, NEW-ORLEANS, Oct. 27, 1830.

I hereby certify that having trusted to Mr. Jean Rapalo the care of my eyes, the sight of which I thought lost, I recovered in three days, and am now (thanks to his remedy) perfectly well. J. ANTOINE, NEW-ORLEANS, Oct. 27, 1830.

BEWARE OF COUNTERFEITS. WHEREAS I have lately understood that a certain individual, is now preparing and now vending throughout the United States, an imitation of my celebrated Catholicon, purporting to possess the same virtues, and as it is presumed it will be for sale in the city of New-Orleans, the public are particularly cautioned against purchasing it. It is supposed to be similar to the Rob of Affettere, or Syrop de Cousinier, which contains corrosive sublimate, and calculated to do much mischief, and is suspected will be on their guard against such frauds, and purchase of no other persons but F. P. DUCONGE and MORGAN & Co. who are my only authorized agents for New-Orleans, and from whom the Genuine Potter's Catholicon can be had fresh from my factory at Philadelphia. WM. POTTER, Ninth street, Philadelphia.

POTTER'S CELEBRATED Catholicon. ONLY TWO DOLLARS PER BOTTLE. The component parts of this medicine are purely Vegetable—it is therefore one of the safest in the world! SOVEREIGN REMEDY in diseases of the liver, chronic sore throat, debility resulting from intemperance and dissipation, scrofula and king's evil, old and inveterate ulcers, pains in the bones, rheumatism, dyspepsia, indigestion, diseases of the lungs, syphilis, blotches on the face and skin, white swelling of the joints, tetter, mercurial diseases, piles, &c.

The certificates of wonderful cures performed by the Catholicon, have become so numerous as to preclude their insertion in any newspaper.—The unrivalled and very extensive character which it has enjoyed, for the last six years, as a complete renovator, and purifier of the blood and humors, both in hospitals and in private practice, is a substantial basis for its future support. It has obtained its present great distinction by the extraordinary success which has attended it in the healing art, while every avenue and track have been searched in vain for its parallel; its discovery is one of the most sacred boons that can be afforded to the unfortunate sufferers of disease, and it is most sincerely hoped that the sympathy of the public will be aroused to the promulgation of its inestimable merits. Proofs of the value of Potter's genuine Catholicon:—its healing powers: its usefulness as a general restorer of health: the city of Philadelphia alone could furnish thousands of witnesses, to contradict the base and malicious fabrications which daily emanate from the jealous.

What, we would ask, can be a stronger proof of its utility, than its success in the Pennsylvania Hospital, Philadelphia, Alma House, and the Philadelphia and New-York Penitentiaries, and in other public institutions alike serviceable, where the eminent skill which presides over them had been exhausted in vain. These facts speak trumpet tongue!—and cannot be gainsaid. It is much to be lamented that there are so many spurious mixtures manufactured in imitation of this invaluable medicine, some assuming to possess equal virtue, and vended under the same titles—some have gone to the length of refilling the old bottles with the extremity of refilling the old bottles with the same; while others have been published, and published for their benefit the very certificates which the proprietor of the Genuine Catholicon had obtained from those who were cured by his medicine, of various distressing diseases.

Thus has he been assailed in every form by envy, jealousy and fraud; and thereby prevented extending the usefulness of this great and long wished for remedy. Just received, direct from the manufactory of the proprietor, a fresh supply of the Genuine Potter's Catholicon, and for sale at the wholesale and retail Drug, Medical and Chemical warehouses of F. P. DUCONGE, sept 21 Corner of Chartres and Coust streets.

MAKER'S CANDLES & C. 150 barrels no. 1 & 2 mackerel, 100 do no. 3 do; 45 bags old Java coffee 29 boxes Imperial tea, 35 boxes sperm candles; 25 boxes chocolate now landing from brig Soule, and for sale by A. GURNEY, no. 62 Gravier street, april 5

SALT—1872 sacks salt, landing from brig Plato from Liverpool, and for sale by GRAY & DURRIVE, 36 new Levee street, april 6
