Sept. 12.—At 5 o'clock in the mot lells awoke us by the announcem alarm. The batteries of San Anto alarm. The batteries of Ran Antonio Abad and the corresponding battery of the snemy opened a fire upon each other. We have seen discharged by the enemy a multitude of booths, and long before they reached our tronchejs. At the snee hour, a firing commenced at Chappitepee, on the right side of which and in the mountains, whence came the attack, at a short distance from the enemy are stationed our forces of cavalry and infantry, who are watching the enemy.

We opened at helf after six, from the battery of the "garita" of Balen, or it may be from that starting from the end of Pasco Naeve, which is situated in the angle formed by the caseway leading to the villages of La Piettad and Tacubaya. But where the enemy directed all his efforts appears to be the "garita" of Sha Antonio Abad. The servant is at the door, I must close—the alarm-belgetill continues to ring.
