ON WEDNESDAY
LATER FROM EUROPE
ARRIVAL OF THE BALTIC
The Crimea—The Baltic
ASIA—RUSSIA.

England and Naples—Difficultly
SPAIN—ANTICIPATED TROUBLE.

The King of Prussia Ill.
FOREIGN MARKETS:

[By the National Line.]
New York, Sept. 20.—The Collins steamship Baltic, Capt. Comstock, has arrived from Liverpool with intelligence from England to the 8th inst., one week later than that reported at Halifax by the Africa. Of course, news from the coast of war and from the continent is correspondingly late.

Liverpool a cotton market.
The business done in the Liverpool cotton market since the departure of the Africa had been but moderate, and prices were ruling in favor of the buyer.

The sales of the week are reported at 50,000 bales, of which speculators took 7,000 bales and exporters 5,000 bales.

Brown, Shipley & Co. gave quotations at a decline of from 1/4 to 1/2 cent, chiefly on Saturday's sale. Other houses report that on Saturday the 8th, the market closed at unchanged prices, and private advices report the Africa's quotations.

The imports during the week since the departure of the Africa are reported at 17,000 bales.

The stock on hand is figured at 55,000 bales.

Headquarters.
In their quotations and reports from Liverpool, there has been no change since last advices.

Wheat, however, is quoted at an advance of 2d per bushel of 20 pounds, and Indian corn at an advance of 1/4 per quarter.

The beef market is reported without change. Pork is reported firm, but also without any variation in prices.

In land and in ocean an advance of 1/2 per cent is reported.

The manufacturing districts.
Trade at Manchester and throughout the manufacturing districts generally is reported as in a satisfactory condition.

Money, Consols, &c.
Money is reported more in demand in the London market, with rates advancing.

Consols are reported at a decline of 1/2 per cent, the quotations at the close on Saturday, the 16th, being 90 1/2.

The Bank of England has advanced the rate of interest to 4 per cent.

According to the weekly return published in the London Royal Gazette of Friday, the 17th inst., the bullion in the vaults of the Bank of England had decreased by £2,000,000.

From the Crimea.
There is nothing of actual importance from the Crimea, although the moment for some great enterprise was generally considered to be at hand.

Gen. Simpson telegraphs that he was ready to resume offensive operations against the Russians.

The Russians are reported to have made a sortie from Sevastopol, and to have destroyed some batteries. They were actively engaged in bridging over the harbor for the purpose of facilitating the removal of munitions, provisions, &c., to the north side, in the event of the south side being taken.

The evils attendant upon the diversion of the command in the Crimea are being daily more and more felt and investigated against. There is a rumor that it is in contemplation to unite all the troops posted on the Tiber under one commander.

The Allies are building more railways, with the object of facilitating the transport of provisions, munitions, &c., during the winter, and are otherwise actively preparing for a winter campaign.

Gen. Simpson reports the occurrence of heavy casualties, in consequence of the constantly increasing proximity of the Allied works to the Russian defenses.

A Russian torpedo boat has been burnt in the bay of Sevastopol, having been set on fire by a shell.

The Baltic.
There is nothing whatever from the Baltic of interest. Russian rumors in regard to the maintenance of the British fleet there, state 20,000 sailing a day.

Admiral Napier has published a correspondence showing that he only carried out the orders imposed upon him by Government, not attacking Constantinople.

The Turks are reported to have destroyed the Russians at Kars.

Reports of New Negotiations.
Reports still continue current that negotiations for peace are about to be resumed at Vienna.

Insulin.
A great fire has occurred at Moscow which lasted a whole day. The destruction caused by it is reported to have been immense, and the sufferings inflicted on great numbers of the population very severe.

At Odessa a want of the necessaries was prevailing.
