FEDERAL APPOINTMENTS.—The appointments of Mr. E. T. Parker to the Surveyorship of the port of New Orleans will prove a satisfactory one to the great body of our citizens, as one fit to be made both on grounds of official capacity and personal worth.

The confirmation by the U. S. Senate of Judge Kellogg as Collector of this Port will be welcomed by the commercial community as ensuring in that important position an efficient and estimable officer.

THE FRENCH DRAMATIC COMPANY.—The corps of French artists, engaged for a season at the new Opera House in opposition to the existing one, will open their doors this evening. We are informed that the company is composed of first-class artists, and that the performances will be conducted in a manner worthy of the patronage of the French population of this city.

We learn from her agents, Messrs. Cromley, Hitchcock & Co., that the steamship Rockwell, Capt. Chipman, from Boston January 20th, bound to this port, put into Norfolk, Va., on the 30th ult., having met with an accident to her machinery.

The pursers of the steamer H. P. Banks, which arrived yesterday from Alexandria and Red river, and the steamer Lodi, which arrived on Feb. 1st, from Shreveport, Bossier City, etc., on going into port, arrested at Pensacola on the 4th inst., had left same duty; experienced very heavy weather, and arrived off Fort a l'Outre Monday A. M.

The life of single blessedness is at a great discount in this community, says the Philadelphia Sentinel of the 31. Even here, in our small though thriving town, a marriage was celebrated each night of the past week.

News From Havana—Execution and Mystery.

By the steamer Morgan we received yesterday Havana papers to the 1st instante.

The latest quotations, found in the Diario, give the following: Exchange on London 16¾ to 16¾ premium; on Paris 5¾ to 5¼ premium; on New York 25 to 24 discount.

The prices of sugar were unchanged.

The steamer Morgan, which, yesterday, left New Orleans for Liverpool, had grounded on the south of San Lazaro, but succeeded in getting off, after being lightened of part of her cargo. She entered the port and was to leave for Liverpool on the 1st inst.

Advices from Nassau of the 25th ult. state, that the steamer Kingston, on the 4th ult., sailed for Havana, Capt. Henry E. Shenton, who came to occupy provisionally the place of Gov. Hoyo. The Commission appointed by the Government to try the political prisoners was to meet at Kingston on the 26th ult. Thirty were 150 such prisoners. The number on board the Corv'ette Vinceremos, brought to Nassau, a Queen's advocate, who came to Nassau Mrs. Gordon, widow of Geo. W. Gordon, executed as one of the insurrectionary leaders.

The Sigle of the 30th ult. has Matanzas news by the steamer Manhattan, from Yara. Quiet in the interior. No events of importance. The month of the 1865. Fer., supplying the duties of the "Shinbone" chief Alcalde, and the rest of Pantaleon Ortega. Another Spaniard, three sub-Prefect of Tabacalera, confessed that 2,000 "Shinbones" were raised at Tabacalera by Gen. Prieto, who killed upwards of 150 and captured a number of arms and horses.

Steamships on Fire—Heavy Submarine and ship Explosions from Fires.

From time immemorial men have looked for monthly fires due to spontaneous combustion, and many more than have made no doubt such cases occur. Many clergymen in the middle of last week, when they heard of the numerous instances of muffling and smothering explosions taking place in Boston, then in a state of conflagration in earth, were disposed to attribute the phenomena to the agency of God, as chemical operations, without question, or such like cause, it is considered that nevertheless the end must be some, or the whole of the fuel, and that the fuel must be the hydro-carbon of the fuel, and that the hydro-carbon of Chemistry should have the same relation to the subject matter of carbon. Up to date, the chemical laws and facts are known, and the whole science of Chemistry should have been reduced to a certain scientific, but more than made to stand in exact hand, rapid gaining, not except a great step. When the Chemistry of Nature is discovered, we, beside all other gain to the economical and morality from the to gain.

Agricultural Address to the Members of Parish.

(From the Shreveport Times, Feb. 1.)

GOING TO WORK.—Of late an extraordinary movement has taken place in our parish. Numerous planters have been engaged in the work of land is being cleared, and every effort is put forth to cultivate a crop. At the arrival of the steamer Morgan, one week ago, we noticed a number of planters, from Caddo and other interior parishes, on board, who had come down to engage in the approaching season. The prospects are favorable for planting and should the spring be without an unusually late one, we have no doubt but that the amount of cotton planted will be largely increased. The land of Mr. Martin, recently purchased and is the finest village in the country, and is of the finest quality for the cultivation of cotton, and in addition to the usual crops of corn, potatoes, &c., the soil is also well adapted to the cultivation of sugar cane. The working cane mill which is now on the place will be worked this season, and give to the planters all the advantages of the sugar mill.

COMMERCIAL, MARINE AND OTHER NEWS.

Washington, Feb. 6.—The Government directors, commissioners and engineers of the Pacific Railroad Company adjourned yesterday after adopting regulations looked to ensure the speedy construction of the road. They are resolved highly encouraging reports from the West relative to the progress of the road.

Boards of medical officers will convene on the 12th of March for the examination of candidates for admission as Assistant Surgeons in the navy. One board will sit at the Brooklyn Navy Yard, one at Philadelphia, and another at Chelsea, Massachusetts. Gentlemen desirous of being examined by these bodies will apply to Secretary Welles, or Dr. Horwitz, chief of the Medical Bureau, at any place of board, and which board they propose to appear before, with testimonials as to their personal character. Applicants must be between twenty-one and twenty six years of age.

The military council, composed of Gens. Thomas, Sherman and Meade has finished its deliberations.

New York, Feb. 6.—Another company of Northern men, who went South with a view of investing money in the cotton crop, have returned disheartened and disgusted from the front. Not more than one in ten, in any instance, were successful, and that one from real property. Even the character of the old seats, especially of the bulls (which showed fight even when assailed with sticks by several of the crew) to the young calves were generally the safer game, and were knocked on the head accordingly. After some months of this wrapped fruitless and marvellous, some of the men grew insubordinate. One Sunday, the 7th February, Mugrove's log has a misanthropic tinge about it. He says:

"Up to the present time the men have worked well, and conducted themselves in a very obedient and respectful manner toward me; but I find that there is somewhat of a spirit of discontent and independence creeping in among them. It is true, I no longer hold any command over them, but I deem everything that has been said from the wreck in common with them, and I have worked as hard as any of them in trying to make them comfortable, and I think gentlemanly conduct would entitle me still to their confidence and obedient; but you might as well look for the grace of God in a Highlandman's face as gentlemanly conduct in a sailor. This is a well known fact."

By a subsequent entry of the 21st of May, he shows how he had successfully dealt with this dissatisfied spirit:

"I have adopted a measure for keeping the men in a state of subjection which I find to work admirably, and it also acts beneficially on my own mind. This is teaching school in the evening, and reading prayers, and reading and expounding the Scriptures on Sunday to the best of my poor ability. We have done this for some time now, and I am happy to say with much satisfaction that I find it has a very beneficial effect. They are getting particularly fond of reading and hearing the Bible read. Some of them can read very well indeed, and I am very glad of it. They are now much more attentive to their duties, and I have not heard a profane word spoken for a long time. So much for moral suasion. I trust that the result be beneficial to all parties."

In another mood, this poor, ex-captain's entry shows us a glimpse of his inner self:

"I am very anxious to be heaven is that I may be permitted to retain my health and reason through the distressing trial."

And so on the log proceeds—a little domestic story, of course, as most diaries are—occupying nearly two pages of the Age newspaper, with the exception of a few days of blank, and which bared they propose to appear before, with testimonials as to their personal character. Applicants must be between twenty-one and twenty six years of age.

A Charge of Attempted Rape.—Lawrence Kaufman was examined yesterday on the charge preferred by Mrs Sherling, of No. 830, Franklin street. Consecutic accuses him with having assaulted her in her own residence, by seizing her by the throat, causing her to fall, all of which is a felonious intent. The case was sent before the First District Court by Recorder Krusbee.

MONETARY AND FINANCIAL.

THURSDAY EVENING, Feb. 6, 1866.

Raingy and inclement weather have materially restricted operations in the general market, to-day, but a moderate business was done in gold, the sales of which comprise 1c from 1500 bales, at a decline of about 1c from Saturday's currency. This will add but little to the supplies of Exchange.

In other portions of the diary are entries which show that the men were totally unacquainted with the habits of the animals, especially of the bulls (which showed fight even when assailed with sticks by several of the crew) to the young calves were generally the safer game, and were knocked on the head accordingly. CITY INTELLIGENCE.

French in Metropolitan Schools.—The Committee appointed by the School Board to select assistant-State schools in which French shall be taught, have designated the following:

The Banks, Phillips, La Fontaine, and Fillmore boys' schools; the St. Ana, Rampart, Bayou Road, Harrison, Le Breton, Bourgogne, De Soto, Washington and McCarty, Washington and Hancock girls' school; and Chalmette boys' and girls'. On the French side of the river will be found the report of the Committee stating the mode and conditions of teaching French in those schools.

Late Frosts.—Last evening, when the bell had rested nine o'clock, the Sergeant of the Police of the Second District was in a man passing up the street, wrapped up in a military cloak, but the official suspected by the gust that there was concealed beneath the folds of the cloak individual it was found that he had a bolt of street brown shooting, (41 yards,) wrapped around his hips. The copyable name for this individual was locked up to explain himself.

Charge of Swindling.—C. Petzle, Sergeant of the First District Police, had arrested H. S. Dexter on charge of having, under false pretences, obtained from the clerk of the St. Charles Hotel's gold watch, valued at $125, and the sum of $175, in United States Treasury notes, which property had been entrusted to the clerk for safe-keeping by Mr. H. B. Thompson. The evidence is strong, that the case was send before the First District Court.

First District Court.—Judge E. Abell.—Conrad Hepps, who killed his brother, when acquitted of homicide, was sentenced to the penitentiary for the natural term of his life.

Che Lafitte, who was convicted of mule stealing, was sentenced to eighteen months penitentiary labor.

COMMERCIAL.

OFFICE OF THE BEE, }
Tuesday Evening, February 6, 1866. }

Cotton.—Not withstanding that the movement was checked to-day by dense rainy weather, yet as factors evinced a disposition to meet the views of buyers, there were some prices than a few bagging were formed and sold at 27c, but as such figures are to warrant us in reporting our quotations remain as before. Ordinary offering sold (Ordinary) 25 to 26 for Low Middling, and 27 to 28c for Middling. Seven brokers participated in the business, which was mainly for account of the trade. Receipts have been light, and those expected by the difficulty of procuring Foreign Exchange, unless at still lower rates. We have further unfavorable advices from New York, and the extent of the arrivals. The Augusta sloop arrive Friday evening viz., Augusta, arrives from Mobile, Florida and Texas, which are included in their respective receipts, amount to 13,532 bales, against 15,730 for the same time in the week before. In revising our yesterday's report we find that we omitted to mention that 1,000 bales more than bought, which reduces the day's business to 1000 bales. The sales of the past three days amount to 3,000.

STATEMENT OF COTTON.

SUGAR AND MOLASSES.—There is no stock on hand, and only 57 hogsheads Sugar and 34 barrels Molasses have been received from the country since our last report. Many weather has operated against movements on the landing, and the sales to-day were accordingly small. Good Common Sugar 13½c. Fair to Good Fair 13¾ to 14½c. Fully Fair 15 to 15¾c. Prime 15¾ to 16c, and Choice 16 to 16½c per pound. Inferior Molasses 65c per gallon. Common 75c. Good 80 to 85c. Strictly Prime 90c per gallon. Several cargoes of Cuba Molasses are on the market, and have been quoted at 55 to 57½c per gallon. The stock of Cuba Sugar on hand is about 5000 boxes. There were sales of 130 boxes to-day, at 15c per pound.

WESTERN PRODUCE AND PROVISIONS.—The stock of ground are very small and the receipts are but 2,000 sacks Corn meal since our last report, to-day and notwithstanding the inclemency of the weather, a good demand has prevailed for the article, and the receipts have been in fair quiet request. We refer to the following details for full particulars of the market:

CORN.—We have again to note a good demand and the receipts being very small prices are still ruling with a further upward tendency. Sales to-day embrace about 2000 bbls.
