But pre-war reserves not known.

1st Sea Lord.

For week. 15 ships sunk by sub.  
6 " " aircraft  
2 " mines  
3 " F. Gothenburg  
4 marine casualties  
2 Japs in Bay Bengal  
5 N. Atlantic - not known how.

213,000 tons.

Broadus 52,000.

} 50 ships 265,000 tons.

180 - 190,000 tons in the week in N. Atlantic alone.

P.M. How came it 100+ ships sheltering in Calcutta were sent out to their doom.

14/5/42. They were orders out before known Japs were in S. Bengal.

Agreed however that reconnaissance work has helped.

Convoys of N. America. Middle section (Hampton Roads to Key West) 15th introduced by 15/5 May. Southern section in July.

24 ships + 16 escort

Russian convoys. Bad news. Ice unexpectedly - 4 of convoy T

3 ships damaged + returned. Rest of Convoy going on - submarines awaiting them.

Returning convoy 17 + 8 escort. Being attacked by air. One U-Boat -  
+ 3 known to have been sunk.

20 U-Boats said concentrated in this area.

P.M. ? convoy to Russians seriousness of effort we are making - the great risk  
we are running.

Army + F.D. support to see Russians on this, and press for more air  
sea support + co-operation.

Inseala. French (sub) 2 returning Jap transports - (empty).

C.I.G.S. Burma.

(Chinaw)

On E.R.D. 22nd Nov? lost 120 men (heavy).

960.

Chinese expect to occupy Mandalay soon.

P.M. No guerrilla activity going on in China. Their own war is not being waged.  
In Burma they are fighting well.

Libya. 7th A. Div is now Sidi Omar

Subordination in Sidi Omar area.

} change in disposition as fr.  
map.

R. came on 3 columns last few days. If signs retreating north of line  
+ far south

Bur centre (Sidi Bouzid - Segnali) they are holding out. We have withdrawn our last  
line. Looks like reconnaissance in force. We don't want him in South. S.  
he is going back there now.

Russia. No change in line. Now in South attacking fightin'. Operation  
start in May. Gen. indic'g that Spain in Greece.

F.O. Russo-Turkish situation over board.

R. conv. this Germ. plane + man handled on int. basis only. Then to  
see 2 Russians arrested. Turks have rejected this, as they had to do, + R. has  
started with tart communiques.

Turks annoyed with R. attitude - wh. has not been smooth.

M.O. Gloster Aircraft Factory - attack on change-over of shift - C.I. service has  
shown up well.

I. Release of Whidbey C.R. Personnel for War Industry.

H.Q. Element of risk - one need for efficient spirit.

Air - 30% L.D. Civil Service to be released.

Fire Service. Spec. recruitment stopped - induction 1/6th.

Police. Release men under 25. 7,000 in all.

S'Doms. How can they return quickly if war resumes?

H.Q. Rights to give part-time service - this is main substitute in ordinary times.

Recall in City. Duty is highest now. in Home Region + many of these may have to go long way off. Some days to get them back. Rule - but effect by force to require others to give part-time service.

Part of N.F.S. being requested to do own admin work.

T.I. Still short of N.F.S. in Scotland. Need 850 more full-timers for minimum standard on minor groups. Agree with proposals subject to being allowed to recruit these.

Agreed.

II. Anti-Gas Precautions.

S'Doms. No good running intermittent stints. No case in unless ready to keep up all round.

Need however to ensure respirators in good condition.

L.P. a) Better prep? than in Germany?

b) True that G. has new vesicant gas?

H.Q. Rumours on b) - told sometime ago it was O.K.

L.P. Enquiry to be made - homologue of mustard gas; much more volatile + is more persistent. Respirators not good w.r.t. True it will be first case of Vesicant gas wh. is volatile. Need, if true, to review our preparations.

S'Doms. On a) will said G. as well equipped as we in anti-gas groups. Italians are not so well prepared.

S'Doms Agreed to get authentic reports on a) }  
b) { Agreed.

H.Q. Tho' we are reasonably well prepared, we must expect that at beginning of gas attack there will be testing trouble and confusion.

M/Supply afraid of relaxation of precautions in manufg. Plants  
Suggested special warning (S'Doms)

S/Doms. Launderies. M/L I have checked them.

(I.e. prices)

M/H. Our "key" point of this is with W.O. not me.

I am concerned only with civilian decontamination. The W.O. are negotiating with the laundries & the negotiations are now in last stage. Results expected in 2 weeks.

S/Doms. We shall have to put an order on them if we can't get them into line & soon.

S/Doms. Report in a week.

### III. Political Meetings in Factories.

L.P. Summarized memo. General agreement by OPA primarily concerned.

New rule not to prevent informal gatherings to be addressed by UPA of managements or T.Unions.

Adm'y. Diffy about "political" usage - Rep towards returning to national gathering & holding usage.

Agreed.

### IV. Supplies to Russia.

[M/P. Hopkins Mariner proposed for joint study to fix our total ceiling for supplies to Russia. We might get friendly on limit of capacity to convoy & protect. This not to one static element. They got seat, decide tank + aircraft figure, get ready figure of free space & ask Russians how they want it used.

This may throw into what diff's of dealing with this on Protocol basis.

S/P. Adm'y. Will this mean any increase on present quantities? V. doubtful.]

F.O. Americans not anxious for conf. in Moscow. We prefer th. U.S. and th. decide inter nos what we can send. Tell Russians this is all we can manage. Agree early discussion with U.S. people - on what level?

Agreed with Hopkins no comment to Russia to be included agreed inter nos.

Prepare our post: not only your post but also your protection.

M/P. This is being done more by my people - in touch with M/W.T. & Adm'y.

F.O. This must be a joint ceiling for U.S. & our supplies - even tho' we have to do all the conveying.

M/W.T. We see no chance of continuing to convey the numbers the U.S. are laying on.

See  
Int'l Lord. 25 ships in each of 2 convoys a month is our present estimate. But our

experience of 1. heavy escort now accompanying present convoy will teach us  
correctly. Weight U-boat attack now near U.S. coast.

S/Doms. Estimate of R. production and needs?

M/W.T.  $\frac{4}{5}$  ton of the 40 U.S. ships <sup>a month</sup> are carrying non-Protocol material. The  
U.S. are laying on ships for the sake of it and we have to provide the  
convoy. The lack of lifting capacity on these ships means they can't  
lift the tanks & for this reason they are loading food & other material wh.  
R. need less.

M.A.P. 140-ships a month have fulfilled our part of the Protocol.

40 a month fr. U.S. will go well beyond their part of the Protocol.

M/W.T. This 40 a month is at our expense - time on our ships.

Not so far the words of joint discussions.

M/P. We can't yet inform about R. needs won't distort our strategic plans:  
and we shall tell the truth and they won't!

Int Lord. Experience suggests we must expect to lose 20% of merchant tonnage used  
in each journey. And away to cover the convoy by major naval units  
reduces & large measure of risk to UK.

S/Doms. Continuance of specific commitment has our hands elsewhere. And we don't  
know how far it takes precedence over all other needs - even in new situation.

M/P. See where we get to on basis of convoy limitation - what is a reasonable  
rate fr. Admir. point of view. But if they answer 50 ships a month - then  
this wd. carry the Protocol + see SoJ. promised - and perhaps more. So it  
won't much help.

Int Sea Lord. We can give better protocol to 1 convoy of 25 ships p.month.

This wd. half the risk to the Home Fleet (out 7 days vis à vis 14 p.month).

S/Doms. Complete study initiated by M/Poss. + W.Cab. consider it again.

F.O. G/S. War suggested linking this with negotiations on Treaty. Generally agreed  
preferable to keep them separate.

Agreed - consider next week; and tell Americans meanwhile what we are doing.

W.M. (42) 50th Meeting.

20 April, 1942.

Naval - Military Situation.

C.A.S. Bomber 75 days <sup>sorties</sup> lost 5

809 night = 30.

75 tons bombs 232 mines.

Pacific. Bomby loss 7: 22 damaged.

We = 9: 5 "

9th. Receive our admiration of admirable raid on Augstberg. This is quite outstanding.

Germans will imitate this - don't you worry.

Amy. our us & British guns - who must now be returned, as soon as possible.

V.C.N.S.

Reason - Warf ships on their way back to the Straits

Destroyer attacked by sub., when out to pick up an aircraft down.

Convoy to Murmansk in <sup>only</sup> 8 arrived: 1 sunk y/day alone in: 15 turned back.

Fleet back y/day morning. Those undamaged by ice will be in next convoy

starting 26/4. Distribution of cargo - some ships more valuable than others

+ no efforts made to spread. M.W.T. to look into this.

Likely to be bad year for ice.

65 ships loaded or on their way & have joined next convoy. Congestion.

We can't convoy more than 25 - and not more than 3 convoys in 2 months.

Our operations for Home Fleet; & we'd better not give a figure.

F.O. Many ships for us, don't have high priority cargo. Must stop this.

M.L. Who is counterpart in U.S.A. is Armed Supplies Executive. Carry: Munitions Assignment Board, 1 min.

P.M. Diff in getting ships there is a new development.

F.O. My P.R. F.O. How long to meet & discuss.

V.C.N.S. 2 U-boats sunk and 1 probable.

2 Platoons Marine destroyed W/T station at ...

Tonant (sub) got 2 transports (cutter) in Malacca Strait.

Shipping Losses. (103,000 tons. what is lost 2/3s of month.)

166,000 tons lost

31,000 believed | 236,000

38,000. overdue

[81,000 damaged]

Actual loss this week is about 150,000.

E.P.M. Bulk strike on N/Amer. coast. Arranged with President to lay off until U.S. convoys are going. Inevitable necessity. U.S. v. slow in getting this on foot. Enemy may run short in oil & we may go in ships.

B.-Bengal. Why did they send out 100,000 tons without knowing what was on? Did they confer with us?

V.C.N.S. We warned them to reduce traffic on E. Coast. Then was informed it a bit that week was less than the week before.

U.S. Navy expect begin first convoy 1/5

C.I.E.S. Burma: No pt. change. 35 miles back

Chinese moving down in support.

Macau's  
His strength in effect is not likely to be more than 10,000.

Promise to enquire. Air support - about 15 B. + 15 A.V.G.

Taps have landed another Divn. Hard to say how long they will take to reach China frontier.

Refugee between Mandalay India. 70,000 in Mandalay alone & present road takes only 1,500 a day.

Not worth putting more troops in: we can't supply them.

Pacific American reinforcements.

New Caledonia filling up. New Hebrides also

A-East No change.

Russia Little change. Report of German success at Moscow. - prob accumulation of men.

Foreign. F.O. Vichy. Genl. view German anxiety about internal situation.  
Hence put in man likely to give them most help.  
Diff. to make a better guess.

P.M. Fleet turned against us? Adm'y. Not v. easy to guess.

P.M.'s telegram to U.S. F.O. inclined to think sign of weakness.

Conditions of ships at Toulon? Adm'y. Not fit to fight, tho' fit to steam.

P.M. thinks they would scuttle, rather than let Germans take + fight them.

1st Lord. Cap. Admiral is going to Madras station. What does that portend? Base  
for submarine

See/Doms. Vichy people in Dominions.

Canada. [Wallace anxious that they did, stay for the time]

S. Africa. Smuts anxious to throw them out.

P.M. Why do it now, when things are in the balance.

F.O. Vichy man in S. Africa has been up to no good. No harm in sending his  
instructions.

P.M. Tell Smuts we await prosp. Canada and [ ] - but can't tell him.

Home. 40 aircraft in Solent air.

Enemy Attacks. { Saturday 50 killed + 200 injured.  
Sunday 150 killed + 200 injured.

Adm. contr.<sup>ts</sup> fair amount damage.

P.M. Don't make too much of this in Press - we're hitting them 3 times as hard - don't give impression this is quits. H.Q. Communiqué on

<sup>148.</sup> Dilemma. Don't make Beta think we are making light of it.

Myself. Let Air Min<sup>t</sup> bulletin keep in step also.

P.M. M.E.W. say Augsburg not important for fiscal manufacture, and another more important target nearby not touched.

F.B. Can we not announce targets in advance - no matter how long the list.

CAS. Pickle in it. Discourage our crews if they have heavy casualties in attacking a place on the list. Psychological effect. Agreed, however, to examine it again.

Malta 100-150 enemy bombers a day - hit less. Pd. attacks on hospitals - lost  
 in Egypt. We lost 12:30. Enemy <sup>b7</sup> 16:31. On ground we lost

## H.O. Enemy Attack

278. April

Bath. Started 1.27 am, lasted 1 hr. to NE. sea + wind. W. Cig. 26 fms.

470 horses destroyed 5,000 slightly damaged.

For 2 nights 148 dead (20-30 more likely)

Water - not running. Gas - out for week. Receipts - no

$$\beta_{\text{max}} = \beta_{\text{min}} \cdot \sum_{i=1}^n \frac{\alpha_i}{\alpha_i + \beta_i} = \frac{\beta_{\text{min}}}{1 + \frac{\sum_{i=1}^n \alpha_i}{\sum_{i=1}^n \beta_i}}$$

Food supply not v. good.

British. Dead both raids 116 dead, 16 injured 53. Slightly injured.  
For all 3 raids. 60.. 21. 36.

Afghan. Sat. 2 planes damaged + one out :: UNB.

Sund. Francis Hotel out; Pump Room Hotel partly damaged; no. bungalows at Landi Kotal knocked out.

(:: H.A. Knocked out)  
Sat. C.R. Services warned. But Afgh. P.D. worked well.

No. Afgh. Staff homeless. Thinking of bringing 400-450 staff back to India.

No case homeless situation - integral unit of staff. Not to be done in a hurry.

H.Q. These are Cat. C cases - and not so well off for shelter.

P.M. More some rocket batteries? CAS. will acquire P.M. 52 deployed + mobile.

CAS. Egypt. 5:2 against enemy 5:3. Enemy conserving

Burma. 4 enemy v. 1+1 on ground.

Pacific. Rabaul - Enemy: 33% of bombers + fighters of Darwin.

Naval. 13 ships on Atlantic. 3 missed E-coast. 101,000 tons for the week, as

C.N.S. against 236,000 last week. No particular reason - save good luck.

Marine casualties - 2 lost.

A.M.A. Weekly figures not always accurate. 46,000 tons reported lost their mind.

Italians claim to have sunk one sub.

P.M. U.S. Navy not doing much. C.N.S. just back fr. W.F.A.

C.N.S. About King more frank this time - no secrets fr. me. A little luxurious in  
use of words on convoys. They say they are putting all convoys got into it.

Certainly putting much aircraft into it. on N.E. Coast.

Worst feature is no convoy in Caribbean until 15/7.

A.M.A. Bad news they have no fine anti-sub. vessels except destroyers.

P.M. Sinking figures reflect the fact that traffic suspended over large part of N.E.  
Coast. But no comfort in that.

Military Burma. V. change here in E. Route up R. Irrawaddy - most dangerous part of front

C.I.G.S. Taps were pushed up the road - advanced 130 miles in 5 days. b/c Chinese  
Army doesn't look so good.

Strength of our forces. No reply in one voice. But we think about  
9,000 effective + 50 tanks perhaps in action still.

China. Force facing Russians increased by 3 Divisions. May be first  
indication of something important.

Pacific P.M. Any chance of Taps may go S.? C.N.S. Some possibility of it. Next 20.

Force in Bay of Bengal likely to be used as concentrated force - kept together.

Libya. Nothing new. P.M. Why don't we pursue our isolated Italian force?

Answer - we did; at least they didn't stay there.

Russia. No change. Poor weather. Now not before 15/6 - 16th later. No marked indications of movement at all. 7 or 8 announced divisions "lost" to our intelligence for a few weeks. More of these southwards to cover bridge etc. Always in south reported too: but believe that done also in North.

C.R.S. Indications of more troops east in Mediterranean. Those moving fr. Sicily may go past to Russia than to E. Mediterranean.

P.M. Garrison in Cyprus is weak. C.R.S. M/East are considering this.

Foreign Situation. Hitler's speech. Apologia for Russian campaign. Looks as tho' F.D. has a bit nervous, not about Army, but about civilian morale.

Black market in food. Pre-prepared for a pinch.

Much more of this speech directed to us, not Russia.

Russian Convoy. Just seen Ambass. - worried about delay - explained position + said might be. In all is yet 35 in next line.

P.Q.16, they said, ad. go to Archangel.

Guadalupe + Martinique - trying, without success, to get R.S. to take a stronger line. P.M. Don't want U.S. to break with Vichy.

## II. Admiralty Construction Programme.

A.V.A. 5 cap. ships to replace 5 lost.

Main State of Fleet.

Cruisers. - - .

Cruisers 58 + 4 by Allies Lost 18.

Destroyers 249 " 71, but more than made up losses.  
(31 by air attack alone)

Subs. 80 + 22 Allies.

Corvettes. 169 + 9 "

Ships 37 + 6 "

a) Still not proposed to put Lion in, tho' going on with gun mounting.  
Repulse

Interior report of Buckland class on loss of Repulse almost ready.

Vanguard likely to be ready in 2 years.

b) Cruisers. 8 in gun cruiser pos. app? Impostor to go on with them.

Report to go on instead with middle class

c) Destroyers - w. like more but proposals with full all available berths

Will take 3 months more to build - of increased protection + armament.

P.M. raised battleships question - 1 carrier per ship + "convoys"

a) Carriers. 2 big. Ask for 4 intermediate carriers - 3 ordered, will try concurrence. They will be 28 months over big. - but Nav. Staff asked to go into details to cut out refinements + get down to 24 months.

P.M. U.S. are big 20 carriers + 50 auxiliaries.

C.N.S. Many are converted cargo hulls (8) - small carriers 25 aircraft each.

P.M. Tell them only 2 more in next 4 years. But ours are more often at risk. Will you give us replacements of first 2 or 3 we lose. We'd build others for them later.

C.N.S. Presidents now says don't turn over anything larger than a destroyer but instead focus on the duties. Policy and war as supreme naval power.

P.M. Let me have a draft to write to President.

c) T.L.C. Sizable ships. 12½ knots + carry 150 trucks - 150 ft long.

P.M. Don't let them grow them up to the point where you can't get any.

A.V.A. <sup>1)</sup> Speed - <sup>2)</sup> degassified - <sup>3)</sup> crew account for distances. Requirements of C.H.

P.M. On c) let crew live ashore until off again.

P.M. Are U.S. making any? A.V.A. They are bringing on the short ones & putting larger ones off end of programme.

M.P.R.: Raging memo. on this. Canada can do a lot of small ones - 50 ft. b's. 6½ knots. Diesel engines. As soon as these are assembled in our ports they will draw German strength to the West.

C.I.G.S. We shall need 650 at least : and we are talking only of 450 by May

M/L. Work will have to be spread over more yards + simplified. We like to see a quick decision. Hope some work is done in I.D. - so simplify C.D. release problem. Want also to know designed so that we can begin training the men.

How can we put some in Severn. If Chelston - ships built opposite <sup>in last war</sup>

More Portheads.

P.M. C.B. V. Chiefs look into this + report to Defence Ctr. - 1 with C.H.

F.O. R-class battleship is still un-modernized? P.M. Floating coffee. Unable to face any modern vessels or air attack. C.N.S. If you increase their armament + add big bulges you will reduce speed to 15 knots : and this w. reduce their value. As ocean going ships try her.

K.W. No ships to programme.

A.V.A. Merchant shipbuilding was proceeding at rate of  $1\frac{1}{4}$  m. gross tons in the year.

W.M. (42) 5th Meeting.

4th May, 1942.

P.M. welcomed Evans.

C.N.S. 114 ships (9 by sub. - 5 cause unknown) - 81,700 tons.  
(23,000 tons)

P.M. 2 Tankers lost off Trinidad / C.N.S. Not stopped all traffic - they are  
courtesy to Agnes but big loss to us in return to Trinidad. Hold some

services must be continued to meet urgent commitments. No general re-opening of these services. Admitted no defense or man-in to Trinidad.

C.N.S. 6,000,000 tons for April - total losses.

P.M. McGovern's speech - incl'dg reference to shipping losses over 800,000 tons p. month. Myself. He said "I can say publicly announced..."

P.M. Assumption at this based on P.M.'s speech in Secret Session.

Invited L.P.J. to look into this as breach of privilege.

C.N.S. Russian Convoy. Attack by T.K. 88 fought off. Later by U-Boat, 1 ship torpedoed. 4 day attack by 5 subs. Convoy out. Germans were engaged 3 times - but we confirmed. They are now 1 $\frac{1}{2}$  days out of Murmansk. 13 escorts (6 destroyers)

Returning. 10 escorts (5 destroyers) incl'dg Edinburgh. Latter torpedoed, had to return to Murmansk - with 3 destroyers towing. Enemy attacked them - Ed. <sup>destroyed</sup> attacked one destroyer & damaged one. Ed. subsequently sank.

Gra. V in collision Pranjaki. Latter sank & her depth charges exploding damaged Gra. V.

Not worth returning convoy will have lost 1 ship

" " outgoing " " prob .. 2/ships. - of 25.

V. important to say nil att. Gra. V. Major poss. to put her right in course of 6 hrs. wh. she was to undergo.

P.M. Telegram F. Roosevelt about supply of American ships - protests about our re-loading & re-arranging cargoes so as to concentrate in available ships the high priority munitions supplies. Various interchange engg. with proposal by Adm King to. in the. take 10 ships off Atlantic convoys. Read text of his reply on this point.

F.O. We can pack our Protocol requirements in 24 ships in 2 months. This leaves 26 for U.S. - ample. Reason for U.S. supplies now is outstanding. arrives, and also desperate of useful non-explosive cargoes - e.g. food.

Evans. Last Wed. at Pacific Council Washington R. spoke on this point in a sense Mr. indicated that he now accepts P.M. view.

Stringing on the Protocol? P.M. Yes. We can alter our views.

### Military.

C.I.G.S. Burma. Last wk. fighting on E-W road: main force was on Lashio. Rapid progress made - Taps. were in Lashio by 30/3. This forced retirement on Mandalay front. 29/30<sup>th</sup> withdraws more heavily - no complete news of our present dispositions. Given account of best estimate we can make f. hex.

Certain Chinese forces will have to conform with this withdrawal.

N.E. of Lashio new Diom from inside China.

Heavy sea-coast evacuation of Malabar ordered.

Advance on Lashio not carried out in gd. force. - done with tanks and M.T. Feared b/w Ch. Army didn't fight well.

5 Inf. Divis. active in Burma.

P.M. Telegram to Govt. Burma, who is out of Fr. Alexander.

I have ordered him to return by air to India, as soon as he feels he can do no more. Now heard that he has left, by air.

As regards Alexander, I have told Wavell that when his force falls below size of Divis. he should return to India. Wavell, <sup>up to</sup> can't get him out until he reaches ? Kalwa.

C.I.G.S. Further east, no more signs of movement. with Manchuria.

Libya. Bad sandstorms & little change.

Reparis going well, or better. <sup>and spans</sup> ~~BBG~~ has improved.

Russia. V. little. Minor operation at Murmansk - landed British German Divis & moved down S.W.

Still no sign of big offensive. Inclined more to think about start until 1/b. And even so no sign yet. In ad. do anything v. big.

Malta. Change of Govt. Report by My State favoured change, + appointment of Govt.

P.M. Reported on action taken. Read Telegrams sent.

C.O. I have wired Dohle about public? - ascertain his views.

Told my Govt shd. take over at once on arrival.

Agreed - no announcement until Govt has arrived.

F.D. Can we justify the weight of the attack?

Agreed - FD, T.O. to consult with other DPs a substantial statement. On Malta for release of Press on Dohle's resignation <sup>help</sup> announced. - by statement in Glamorgan press on Thursday.

Wavell approved P.M.'s action.

Tankers. (M/W.T. and Sec/Pordham attending).

M/W.T. No final stoppage. Complete at U.S. seaboard - considerably unlikely to Caribbean. But we can stop etc. Certain amount of re-routing - mostly Freetown convoy as far as they can. We must do this, to meet commitments

places where no stocks. When enemy gets to know, we must reshape our course.

Sure order for stopping off given 3 yrs. ago forces have the much less.

Face it. we lose one here & there mustn't be taken as reason for complete stop.

Scy/Pt. No tankers a <sup>month</sup> lost in March - April. Down now to b.

Stoppage in Caribbean to a week will mean loss on our stocks of 200,000 tons.

What we did like is make shuttle convoy fr. W. of Trinidad to E. of Aruba.

This is now under consid' by Admiry.

P.M. Accepted the case put forward by Adm/W.T.

Scy/Pt. Supplying Australia from Trincomalee.

Only way in wh. we can supply U.S. needs in Australia was to run down stocks in Trincomalee. Those stocks were 850,000 tons.

C.N.S. Convoy off U.S. Coast. Have just had Signal fr. Adm. King to say that convoy for Central Section - Hampton Roads to Key West -

Ready by 15 May, but think won't be able to start until 15 June.

Troubles : Miss Adm. King still not wholly convinced of value of convoy system. This was being cleaned up.

Foreign Affairs.

F.D. Giraud. Did go to Vichy. Naval wants him to see Petain - so Adm. letter d. urge him not to play heroic part! We believe he is still in Vichy. Germans have asked for his surrender - Dr. Vichy been refused.

Australia

Evatt. twice by P.M. to speak - said kept good wishes of his Govt. & P.M. who has no object other than to advance the common cause.

Prod: improved but that doesn't mean our Army is well equipped.

To-day short even in small arms. Increased output - overtime - labour getting into - due to danger spot in North.

MacArthur and his Directive. Disturbs by "priority plan" of dealing with Germany first Japan later. Japan was shown to MacArthur very slightly skilled in use of all 3 arms. On outbreak of war with Japan we had not one fighter plane in Australia. We now have aircraft "of full of Dutch E. Indies.

MacA now gives orders about his duties, incl'dg. attack on Japanese.

Most training supplies are not sufficient. With U.S. we putting in 700 aircraft there are 13 squadrons of R.A.A.F. who have nothing better than Harvard Trainers.

Tendency to compute the requirements of the 3 diff. services.

Aust. Govt. think it necessary to have a re-assessment of the Strategic situation. We understand that we are only one part of the world situation - but we fear a certain tendency, here and in U.S.A., to underestimate the Japs.

Magnuson feels that, subject to grand strategy, one Australian Division might be left in M-East but not might come back.

We don't want it to appear that Australia is the responsibility of the U.S.A. Our allegiance is to H.M. the King.

P.M. We will facilitate your enquiries into requirements - details but v. important. Let me know if you want any help.

See at Admiralty what our strengths & commitments are.

But in principle Jap's next move is uncertain. Got all he wants in Co-Prosperity sphere, if we can hold it. Is he more going to make another move - if so where? Signs v. possibly they may go v. Russia while she is in death grapple with Germany. Do we then go up into China & liquidate that? And, if either, what resources for attack on either India or Australia. Our view, on the whole, is that he is unlikely to make a heavy attack either on Australia or on India. For why hasn't he done it earlier?

E.O.S. is working itinerary - it was decided, via R.A. Airforce Divn. en route for India how we. They proceed is. Then land + where go from.

Overall. We suggest small expenditure of aircraft now might serve to prevent the Japs from attempting invasion of Australia.

Fact is. America has taken operational responsibility for defence of Australia does not for one moment mean that we shall lose jot of our determination to see that our people in Australia are defended to the utmost of the power of the United Nations.

C.I.G.S. Burma. Our forces more withdrawing over border into Assam.

7/ Remnants of 2 Chinese Divs. also moving into Assam.

Bols of Chinese forces more back in China - but elements still holding out much further south. Taps operating well inside China.

S.S. India. Telegram fr. Assam indicates Chinese at 7/ are stable, tending to fort.

Suggested disarming them. P.M. Consult F.O. about this.

6-8,000 B. and 25-30,000 Indian are <sup>still</sup> with Alexander's force.

C.A.S. A.Y.Q. we think have gone to China. We have nothing now in Burma and can only bomb over the mountains fr. India.

Madagascar. F.O. - do we go on cleaning up when S.Africans arrive? P.M. Depends how long it will take. Don't want to lock up for too long troops wh. might be going on to India, or M/East. Political negotiation may give us the guarantees we need. Choice to be made when Union Brigade arrives in Madagascar.

Russia. Koch offensive has pushed Russians back with fairly heavy losses.

Khartoum. Russian attempt to widen base of salient to get K. Today looks as tho' they are carrying on. G forced to turn in a fresh Armored Div.

(Koch) Otherwise no indications still of major offensive - this / is not the beginning of a major push, wh. now cd. not start until 15/6/42.

## I. Convoy to Russia.

P.M. 22 out of 25 got thro' - but st. does not reflect true risk. Convoy at 8 knots will in b-7 days be in range of air attack fr. Norway - if ice still further south & no longer pose. to go N. of Bear Island.

Lost Edinburgh one convoy to Trinidad the next.

Next convoy now due - and C.N.S. believe more may be lost than get through. The G air reconnaissance is v. good in this area. Not only was Trinidad spotted & sunk. But the covering force of cruisers also spotted this none hit.

Opn is v. this to suspend until July - i.e. missing two convoys. We don't have to inform Russians to Roosevelt.

C.N.S. Suggest put to Stalin the slender chances of an 8 knot convoy moving within range not only of Th. 88 but also Th. 87, + ask wh. he wd. prefer to lose a lot now or

or wait b weeks and get much more strength.

C.A.S. G have 100 bombers now, of which 70 are long range, & v. fine reconnaissance.

Only chance of getting made through is bad weather.

C.N.S. Weather prospects - on average of last 14 years - in 2 months much inferior weather. But Trinidad was smoke when visibility at sea level was poor.

M/H. Can convoys be enlarged after July? C.N.S. Yes. But diff to make up the full loss - & limit is what Anchorage can take.

L.P.S. Ask Stalin who is desperate need - & if so will he tell us what - we will try to run a convoy in.

M/W.T. Mackay saw me to-day + urgent need for trucks as well.

F.O. We must decide - & put all risks to Stalin even if we decide to send it.

C.N.S. By end May 102 ships will be piled up waiting.

We might in July put up the convoy to 50.

F.O. We had grave doubts about the last, but 32 out of 25 got through. It may be difficult to persuade Americans & Russians that we are wise.

L.P.S. & M/H. Suggested putting facts to Stalin before convoy sails. P.M. Not much time.

P.M. Our duty is to fight our way through & get as much as we can to those who are fighting this fearful battle against the German Army.

1st Lord. There is the risk to our naval strength, as well as numbers of merchant ships.

C.N.S. If we are going to do this, we are inclined to put in 35 in the convoy.

L.P.S. Try to get as steady a convoy as possible. M/W.T. We have selected the ships already & it's difficult to change them now.

L.P. Send this convoy - tell Stalin all about it + say <sup>if losses heavy in May</sup> we may have to defer the June convoy until July. My P.M. Agreed.

P.M. Persuade Stalin at same time to send up his heavy bombers to help.

Agreed. Send convoy - tell Stalin we are coming, but explain risks urge him to send his bombers to attack their aerodromes & put the warning suggested by L.P.

### III. Defence Arrangements in W. Africa.

C. Govt Conference in W. Africa lately modified by giving Chairman overriding powers. But even so not satisf. Govts. & G.A.C.'s often in disagreement & no one person to decide. Agree : with C.O.S. recommend?

Draft Directive - not to exercise operational control over Services.

Service man - so as not to prejudice post-war aim of closer union of W. & E. African Colonies.

We are here at Lagos. Exact machinery to be worked out after arrival.

L.P.S. Support need for co-ordination. But it is essential a lot of civil co-ordination.  
Feel strongly : need is for a good civilian.

M/P. Agree with this - and in so far as necessary to coordinate Services more difficult  
still for a Service man.

P.M. Some minor M/State - who can coordinate relations with Belgians, U.S. etc.?

M/W.T. Support suggestion for co-ordination, of which a great need.

Agreed - that for civil, not military, man.

T/P.M. But said there must also be a centralised military command.

S/S.W.A.C. I believe it must be military man with [latent] operational control, as Layton has  
in Cyprus.

C.I.G.S. Agreed with P.M. at 1/1, whatever decision about the other man.

F.O. Two quite separate jobs, both of which should be filled.

Fair Lord. We like military man because of difficulty of finding civilian unimportant to British  
interests.

W.M. (42) before Meeting.

29th May, 1942.

Coal - Reorganisation - Production Programme 1942/43 - Fuel Rationing.

L.P. Summarised statistical review set out in W.M. (42) 226.

Leaving out economy in domestic consumption, we have deficiency of 3.2 m.tons & have made no allowance for contingencies by Bofers.

On this - do not recommend withdrawal of men from Field Army.

What we proceed with rationing - where have b.m.tons?

This turns on decision about re-organisation. Summarised proposals.

Regional organisation - complete control over operation of mines - no interference with financial structure of the industry.

If good will exists it, this re-organisation should arrest decline in output and in addition give us some net increase in production.

That being so, plan to put the emphasis on increased production - but get ready to introduce points rationing at short notice & move to voluntary economy.

B/T. On the rationing scheme. Many comments - widely concurring with local Fuel Officers.

Conclusion - v. diff. in applying any scheme without points + coupons. Alternative schemes would involve more staff (for enforcement) & persons of higher calibre.

Original scheme simplified & modified. Total staff level reduced. Overriding limit of 23 1/3% to reduction would relieve anxieties about the large houses.

Householders apply form - v. simple - we give a simple assessment. We discuss stocks held. Provision to claim supplementary ration.

Agreed with some reluctance to, if re-organisation can be got going with good will, we need not introduce rationing at this stage. This we are running very risks - some of the reductions in L.P.'s memo are risky.

L.P. Other unanimous view, if rationing has to come, this is the best (and indeed the only practicable) scheme so far devised.

Restrictions on deliveries will be maintained meanwhile - under control.

W.W. Certain people are now doing without their basic allowance while others are getting supplementary allowances. B/T. We will look into this.

B/T. If we wait till autumn, the scheme can't differentiate between those without stocks. Much of the domestic winter coal will be already in stock, & that would be outside rationing control.

P.M. Main Power. Short-term. Release proceeding satisfactorily.

Long-term. Foster etc? Report and True.

L.P. Wastage - must be checked. M/L. hope to check unless

on medical grounds by re-habilitation scheme. Experience at Mansfield great success. Great man-power gain both ways - can fit men who stay in mining, but those not fit enough for mining can be re-used for other work before it is too late.

Attitude of owners? K.W. No great diff. expected.

Wages? T.B.T. <sup>owners</sup> Miners & their ~~need~~ to see Ministers on wages.

P.M. Present system of ascertainment must be disturbed lightly. But new factor introduced by direction to retention in mining. L.P.S. And you have also fixed prices - Govt. is controlling the amount available for distribution.

P.M. On this account Govt. should give something additional in wages.

K.W. We shall have to hear what they say. Advantage in relating increased wage to increased output, if that is possible. P.M. Consider, yes, but we must open that door. Miners are a special community - if you have taken them fairly away there is a case for differentiating them from men in other industry. Something apart & apart to what is paid under the ascertainment procedure.

K.W. All financial questions left over for discussion with the parties.

P.M. Part in White Paper of First the C.R. + long-term intake.

b) Finance, wages, to be subject of consultation.

S/Doms. Bear in mind psychology of industry. Agree with intention now with the financial structure of industry. But we can't say something about the future - to show that Govt. will not let the industry down after the war. I.e. this is immediate wartime effort, we shall consider the future as part of post-war problems.

M/L. Two points on wages. a) minimum. This affects my direction of men to return. I am with miners & cannot be deal with this first & quickly. Men returned have been out of mines for some time, or a little while before they can earn their money. This lag is difficult for me. Settle it quickly.

b) Govt. is keen on output bonus. V. difficult.

Experience of datum line in last war not v. encouraging. This is sound in principle, but will take some time to work out.

K.W. Even on a) we must consider repercussions.

P.M. If there is one trade you can pick out from all others, surely mining is that one.

K.W. Economy. Sustained publicity will be needed. Prepared to see Edlins and get them right. Also get there to lay off criticism of rationing.

M/L. Wages. No reference in White Paper. No diff. to reference in speech to willingness to discuss wages with industry.

P.M. White Paper. Statement on Tuesday that Debate will be held on <sup>Wednesday</sup> ~~Tuesday~~ week -

L.P. to open and L.P.S. to wind up.

lay White Paper on <sup>Wee-evening</sup> ~~Tuesday~~ - show is to both sides on Wednesday (earlier).

After Debate (Sunday evening) I will be ready to broadcast.

C. Whip. WJC will want 2-day Debate. If so P/Bd. of Trade should speak.

L.P.S. May I arrange the order of debate? P.M. Yes.

Crawford. Unnecessary to have Debate in H/Lords.

P.M. We'll decide when the time comes - meanwhile you not know on reviewing this doc.

S/P.A. The Labour Party resolution does affect our position. But for that, I don't favour the immediate removal of the ban.

Agreed - <sup>say</sup> no intention of change, and let it run until September.

### Milk - White Paper.

M/Food. During winter milk scarcity - hence need to control districts to ensure that it reaches right people.

Trade v. difficult - full of disagreements - but they are agreed more or less outlined in W.Paper.

Plan - M/F. with outcome between producer + seller, who will technically buy a little then direct distribution.

West-Kings association of distributors. Agreed - provided smaller men get their.

Maps showing orderly distribution - as opp. present chaos. Eliminates v. long hauls.

Only stage - think someone may run out on it. D.Express campaign state this will kill the small men. Have written to D.Express and they have stopped their campaign.

### A.N.A. Social insurance?

M/F. " " for production with remains to be paid by M/Food.

" " " delivery will not remain.

A.N.A. Individual consumers who wants pasteurised milk.

M/F. Most will be pasteurised. Consumers who wants ht. milk will be able to get it.

Approved.

### Care - White Paper.

S/Doms. / Para. 7. More industry attraction to towns - don't give impression of downgrading them into the mines.

Para. 12. State reasons why you can't nationalise : financial structure of the industry (wages). And indicate w. Part. will consider <sup>long term</sup> future.

K.W. But this is not the only reason. If you mention one, you'd better mention others.

B/T. Raise these points in debate.

M/L. / Point on para. 5 - comment to B/T.

Para. 17.

S/Mines. Para. 10. True figures. Positive only. They may raise controversy. Generally agreed.

Agreed - L.T. B/T. As with final draft.

W.M. (42) 7ma Meeting.

8a June, 1942.

### Foreign Affairs.

A.E. a) Remained about need for F.O. to see in advance draft speeches on foreign affairs - particularly now we are getting near the point where post-war post is being envisaged.

Wolmer's speech in H/Lords Debate unfavourably noticed by P.M. - who asked Cranborne to keep an eye on him.

P.M. Military matters (not concerned only with his own Off.) - Ministers outside War Cabinet can + the. consult Treasury.

Secretary to prepare a minute for circulation.

A.E. b) Talk with Sikorski - v. pleased with new Russian Treaty. Arranged to meet Molotov on return. V. good thing that he should.

M.H. Caprini (Polish Minister / Trade) tells me that morale of Russian Army is being well maintained by regular arrival of our convoy supplies - less well informed with American performance.

P.M. Appreciation by T.I.C. to be circulated by War Col. (but not seen out of country)  
(of Russian chances) with covering note by L.G.S. warning nature of this is slightly optimistic.

A.E. c) Negotiations b/w Turkey & Germany: Not good - need watching. Perhaps try to get Molotov to talk with Turkish Ambassador.

a) Telec - telegrams. Purely political. P.M. Essential to give them something to keep them in good heart.

### Yugoslav Army Crisis.

A.E. Military people in M/East incline too much to military view + pay insufficient attention to our political difficulties.

Army. These offrs. were associated with Simovitch + the decision to capitulate. They carry no conviction among their countrymen. They have got support fr. M/East mostly + made friends with our military here.

A.E. Right course is to ship them home.

C.I.G.S. 1200 men leave upst the whole of the M/East. Clear the lot out.

A.E. Handed round copy of draft telegram.

P.M. Too interventionist. Civil power predominates. The Govt. has the right to appoint their C-in-C. + we must accept this & it must be done. Our offrs. has no right to encourage the dissident elements.

L.P. Some of these offrs. are bad lots - 2 were in Russia + suspected of espionage.

W.O. See para 11 of Tel 1147 from M/State. "Get Yugoslav Govt. to accept a reasonable solution or

I will ship the lot home?

C.I.G.S. Then transfer them to some quiete Front. of India or S.Africa.

A.E. Why? There is no trouble over those who are actually in the field.

P.M. more shortly and more strongly.  
Telegraph for saying that these 300 men are to be sent to this country at once.

[There is no principle it is followed except to support the national Govt.]

Agreed.

### Policy in Madagascar.

P.M. Turns out Mr. Barnett hasn't got Amrak's authority. V. diff. pair of shoes.

A.E. Three courses - a) stay put + let Vichy Govt. move

No more troops. But Smuts against, + indecisive.

b) capture the whole Island. Advantage obvious.

Disadvantage - troops needed, long campaign.

c) make terms with Vichy man in Madagascar.

Tell Smuts what has happened, put alternatives to him, + let Platt Sturges + Smuts get together + make proposals.

Meanwhile Barnett and carry no message back.

P.M. Let Platt go to M. + discuss with Sturges. Then both go on to see Smuts.

Bounce. If Smuts indicated at. he didn't have this plan even if it were backed up by the Govt. P.M. Not since he saw my fuller explanation.

P.M. Smuts diff. - his advisers were against sending the Brigades.

Tell Sturges to Smuts - it isn't for Govt. + we'll do no more - we will send P.S.

To talk it over with you. Had it come from Govt. it had the basis of consistency wh. we have been satisfied. in view of our anxiety to free our troops.

C.I.G.S. May the Govt. be behind this?

A.E. Too thin, esp. if Smuts is hostile.

W.O. Remember Platt favours doing a deal at Tidbits. He may be inclined + be favour of finding a modus vivendi in Madagascar.

Retribution for German Massacre of Village

P.M. Conversation with Bruce about possibility of retributive reprisal for savage atrocities now being practised by Germans in Czechoslovakia. Suggested wiping out German village (3 for 1) by air attack.

View of A.D.U.C. Bomber Command. 100 bombers will be required. Low attack 2/3rd incendiaries.

Bright moonlight not so good. Objectives & reasons will be announced afterwards.

F.O. in favour.

If thought worth while, give R.A.F. discretion to fit it in when they can.

L.P.S. Is accuracy of report beyond doubt? P.M. Germans announced.

S/S.Air. Dislike it. Division of effort for military objectives. Risking aircraft + crews.

W.L. we must be led on to do it more + more - if Germans know we wd. answer thus.

S/Domestic. Doubt if it is useful to enter into competition in frightfulness with Germans.

H.D. We like to consider - reprisals on English villages, where no shelter, + lone-stale a.t.g. Public wd. say "Why did you draw this down on them?"

C.A.S. If they came in low + not far inland they wd. run a small risk.

F.O. Even so, there might be a deterrent element in this.

M/H. Germans respond to brute force + nothing else.

Bruce. It might lead to even greater atrocities in Czechoslovakia.

General view that it wd. be wise to think this over.

L.P. Danger is that it could be something + then nothing. Against it.

General feeling of Cabinet - against doing this. (i.e. L.P., M/H, C.O., H.D.)

P.M. - my instinct is strongly the other way.

F.O. Strongest argument against - want of a moonlight night. Bright diversion from [had thought]

Anney. Why a village? why not a quiet residential town?

L.P.S. Operational argument against is v. strong.

P.M. I submit (unwillingly) to the view of Cabinet against.

India.

Viceroy increasingly convinced Ghandi means real mischief. Won't act until after mtg Congress Working Ctr beginning July. Report circulate memo - so that Col. may consider its line, so as to inform Viceroy.

W.D. If need to act v. g., speed essential if effect on India is to be produced.

Won't do to wait until quite abundantly clear that action must be taken.

L.P. Act quickly when you do - but not precipitately. And take him right out of India.

### The Levant-Caspian Front.

- C.I.G.S. Basic now : R. have asked us to help to mend some of the roads in North. Possible : we, R. may agree to propose reconnaissance.  
We-F.D. take it up.
- M.Y.L. Are our people in Persia dealing with Russians in the spirit in which we adopt? We, we not get it straighter if taken up on higher level?
- I.P.S. We have the foolish in our approaches, over N. Persia + Caucasus - e.g. trying to push people in without permission.
- P.M. Awkward moment - they recent inquiries etc suggest this front may crack. And won't be strong - we've only 2 men + a boy there, and Libya has lost us some face again.
- F.O. Why not start talking to R.-general who is here with a broken leg. If we do, there must be clear understanding that, while we are negotiating this, our people must not swoop around on their own.  
i.e. we'll see what can be done ; but meanwhile our soldiers must behave.

### Report on Public Feeling.

- P.M. Likely news for next few months will cure undue optimism.  
No practical chance of the Second Front etc. new opp. think so easy.
- M/I The Second Front decision is now to be celebrated at meetings organised all over the country.
- P.M. Cairo is helped. But Ministers and Dr. careful - the less said the better on qd. of not saying anything about forthcoming operations.

### Re-organisation of Colonial Service.

- C.O. Comin. advance already made trade unionisation. a) Post offices still paid by C.O. Govt - & poorest, who need best men, often gets worst. b) Rapid fluctuation in demands, acc. to Col. boom + slumps. c) Power to remove passengers. Ask only for approval in principle + leave to proceed with detailed scheme.  
Accepted.

### Empress Hall Demonstration.

- H.Q. Mdg. discussed spontaneously. Inside control by Communist Party.  
250 C.O. workers in uniform asked for - diff. for me to refuse, as Colleagues Great Britain + the U.P.S. are going.  
But for future, Mdg. Col. decide to <sup>w C.O.</sup> mil. forces Mdg. not abuse functions unless

organized by State or L.A. or for charity.

W.D. We asked T.O. and they said they were in favour. P.M. This was political  
issue and we have to dealt with them. Ministers

L.P.S. Dr. better still, organize this sort of thing ourselves.

P.M. Important thing is to make it clear that close relations with Russia does  
not involve cuddling our Communists.

This point is to be considered by War Cabinet - W.D. being present.

Message to the M.P. Agreed - L.P.S. is going but no need for other  
ministers to send messages. Representing the Govt.

18th June, 1942.

Air Operations.

C.A.S. Weather - only raining Wed. thru. nights.

M-E. Convoy. U.S. aircraft did quite well, did nothing like what they claimed in Press. They did materially better than over Pechora oilfields.

Air losses in M-E. We started ahead more so far have been equal.

II. Report of Arrival of American Forces.

V.C.I.G.S. Leaks - inevitable. Genl. Glenny agrees can't do more than avoid disclosure of date &amp; place of arrival.

M/H. Americans main source of leakage.

Propose to take no action on times of arrival. The date &amp; place of arrival are covered by general D Notice. But will ask for general damping down of publicity.

Agreed.III. Carriage of American Troops in B.Vessels.M/W.T. Genl. Lee is keen on stepping up the rate carried - both in large & small ships. If we will sanction it qua ships, they will adopt it at once qua troops. Out of public interest so far as large ships concerned.

I.C. Lord. Risk of subm. attack not v. great, with these large ships. But there is always a chance of an unlucky find &amp;c. Also signs of increased air attack in W. Approaches. W.D. favors no increase.

W.D. 120,000 short by March 31st '43 - this measure will reduce the shortage by half.

H.Y. Speed of their arrival will affect civil problems. Unless militarily necessary to get them here as quickly as possible, better to have them in steadily.

W.D. No phased plan. But Americans want to push them in as fast as they can - politically PM. would not wish to stand in their way.

Accountant will not be a bottleneck.

M/H. Don't like idea of 15,000 on these ships.

I.C. But even 10,000 raises that problem. And it is the Americans who want this.

M/W.T. W.D. W.O. do it with B. Troops?

H.Y. W.D. depend on the operational agency. We have no comparable problem. But we have stepped up our storage by 30% for a 2 month journey.

L.P.S. Cd. not charter the ships to them - &amp; leave the whole responsibility to them.

M/W/T. To rule or under our flag + we shall be responsible. Our flag + our crew -  
whether we "chartered" or not.

M/L. Difficult to insist if Americans press

M/W/T. In the end they put it to us on the basis - not the crews mind.

L/P. This is not a thing we wd. do ourselves. Make this plain to them  
+ say our role is only the crews + never leave the responsibility to them. This  
this in writing.

W.O. You can say that W.O. didn't do this except for reasons of operational  
necessity. <sup>extreme</sup>

Agreed.

## II. Parliament.

Statement on M-East on Tuesday. Auditorium to be asked for statement.

### III. Prit's Offer to Lecture to Troops.

W.O. Prit's offer at having his offer refused. Threat to make public statement.

Propose to let him talk if he wants to. Shall not give him any reason.

W.O. The answer is "P. is not a suitable person to address the troops". Better to keep  
that answer until extracted from you.

L/P. Disposed to give a reason at once.

22nd June, 1942.

I. Naval Military & Air Operations.

C.A.S. Mainly mining. Heavy appre. effect.

Bomber { 750 sorties - 25 missing.

Coastal. New searchlight attack technique - promising.

Fighter. Success on three engines causing trouble to Germans.

3,100 sorties - lost 11. 10 : 11 : 13 for loss of ?

17 : 4 : 2. total. enemy loss.

Malta. Destroyed 21 : 4 : 16 for 15 : 10.

Claims to damage to Ital. warships (2 + 1 hits) not confirmed.

Libya. Activity mostly v. ground troops. Over Tobruk much concentrated.

Now concentrating all available aircraft in W.Desert - some air superiority gained - increasing supplies at expense of other theatres.

W.E.: Direction of Spitfires to Australia. We ad. send 42 Spitfires now being embarked for Australia - this wld. mean delay of 1 month to Australia + gain of 1 month for M/East.

Bruce. They won't like this. Course of course hasn't changed. But Aust. Govt. will have to give clear picture of diff's in M/East and proposals for dealg. with it - make it clear these aircraft won't be thrown away there.

A3. The squadrons will go to Aust. as planned - all that will happen is that their machines will be a month late.

Bruce. Give also assurance to them. This is only a one month delay - not to be repeated.

Agreed - Aust. to be asked, on basis of full statement.

Libya. 46 : 16 for 25 : 9 : 18 enemy.

Only 5 damaged on aerodromes - as against over 400 aircraft picked up in our advance. Tributary to salvage + removal organisations.

Pacific. 211 8 : 10 for 18 : 4 of ours.

C.N.S. Losses. 52 Total

261,000 tons. Totally 559,000 for month.

Plus British imports 144,000 tons for previous months.

U.S. Convoy in Caribbean to start on 31/7 (or 1/7).

Then U.Boats will swing back to Atlantic convoys - wh. we don't back up so much now.

W. Med. Convoy. 43 aircraft destroyed. + 22 probable.

E. Med. Convoy. 22 " "

V.C.I.Q.S. Russia. Centre. Partisans being eliminated.

South. G. bridgehead slightly extended at Donets. Russians say G. attack definitely held up. Air support decreased.

Crimea. G. now v. close to bay itself. V. heavy losses. Reference offensive in S. Sector delayed until Sevastopol stand up.

Libya. W.D. asked for report about circ. attacks. our loss of tanks. No confirm. of two story of tanks running into tank trap.

Tobruk - V. little report. Attack began with air-midnight. G.O.C. asked if was given leave to fight his way out. Not know how many have, or will get out. C.H.S. Punishment of traitors carried out effectively.

F.D. Marmarostk.

Air Raids. 50 aircraft v. Soton.

14 killed 29 seriously injured - Nos. may increase.

4 destroyed : 4 damaged - enemy aircraft.

Libya. Telegram from P.M. to Auchincloss. Read out.

## I. Statements on Libya and Malta Convoy.

S/Doms. Much is to be said for following. last precedent + reading out only or mainly Auchincloss's statement. Add - Tobruk has now fallen - no full report - and then something on basis of P.M.'s telegram to Auchincloss.

No doctoring of A's communique. Give it as his, + add brief comments of my own.

M/L. Express fighting confidence wrt. situation will be restored.

S/Doms. This is not the end in Libya - battle is still on.

Must be a discussion - the question to have it now.

L.R.S. Awkward day - Comint. Fund Bill + on 15. they can debate this issue if they want.

U/C. reply on this - want Somer's block.

## Convoys.

A.N.A. Read draft statement.

Suggested this shd. be limited to factual statement - omit policy appreciation of the diff.

S.P.S. Wat. There is suggestion false in this statement.

Certainly likely to be "over-optimistic communiqué" - partly in My Best.

Some substance in this. And this statement is disingenuous.

Agreed 1) rise "not without some loss" read "admittedly with serious losses".

2) Amend to show Mr. E. Conway turned back for lack of fuel.

3) Statement to make by S/Dono together with Libya Statement.

### III. Miners' Wage - Effect of increase on Stabilisation Policy.

K.W. Nothing to add to meed.

No great difficulty so far as concerns cost of living, which dropped a point this morning.

I.P.S. Understood that this rise was to make no difference to cost of living.

S/Dono. Agreed - this was my impression.

K.W. No. I said I understood it didn't affect stabilisation policy - i.e. I would see that we didn't break <sup>over 20%</sup> the £10 limit.

M/L. I said - C.y.l. reviews every month; and we will adjust to make sure we don't go over a y.l. ceiling.

K.W. Will prepare a statement - keeping to basis of I.P. Council.

M/L. Keep away from any Party debate or statement on wages.

Parliament.

1) In answer to Ques or affida.

Agreed - Say in answer to that I will make a statement at end of Ques.

Then you can't adjourn the house first.

2) Can I say Mr. I'a in making this statement? Agreed. No.

## I. Debate in H/C Commons.

S/Doms. Labour Party not likely to support any motion of Censure - but want an enquiry - designed to safeguard future rather than incriminate above 'pool'.

W.O. Material or personnel?

Whitley. First stressed rather than second.

S/Doms. Diffy. in doing this w/out the Govt. in the Field.

W.O. On equipment we reasonably satisfied w/ our tanks & anti-tank weapons will likely to be ready our troubles in about 6 mos. time. Arrangements made for production policy in U.S. relative to minimum no. of types etc.

L.P.S. Say to-morrow - "we propose if Mot. of Censure put down to allow time Wed. etc. If not put down, we will have a debate on salary of M/Defence - with a vote."

S/Doms. If W-mine Motion not put down, unlikely Mr. Labour Party wd. table Motion asking for enquiry.

P.M. Shd. speak on first day - so Mr. Labour Party can meet between the 2 days.

L.P.S. I shd. like P.M. to wind up also, answer criticisms & get the vote. We can speak twice if it is Supply Day.

S/Doms. Developing as personal attack on P.M. Important: shd. be able to speak early.

Crawford. Danger of talkg. it on M/Def. salary is focussing whole attack on P.M.

Whitley. We wd. put 2 or 3 Vots down, inclg. M/Defence to get the necessary breadth of debate.

Conrad. W/Lds. Addison's Motion Thursday & intends to go for Govt., not general. (next week)  
Will not press it to a Division. Will not suggest anything like Censure Motion.  
Will ask for enquiry.

## II. The Tank Position in Middle-East.

M/S. Past history in narrative.

Hardly does justice to Mech. & Aero. Facts are as set out - but cumulative effect does them less than justice. They have done v. good work on tanks - b'd in this part. tank there were faults due to engineering which were not tackled early enough.

For future, organisat. keyed up to catch these defects earlier & quicker. Duty of Tank Design Offr. is follows up complaints & see tht. modified carried out.

These old models will always give trouble if engineering not in original designing was not good enough.

Committee I will be regarded as reliable engineering job from the start. V. diff. matter fr. adapting faulty de designs. We shall then have better tanks than Germans.

Remember st. tanks now being used by us were designed in 1935. i.e. they had this degree of start on us.

Committee I begins late summer. Will be free of this type of defect.

" " end of '42. " " a really superior article.

L.P.S. Mar. '41 - Feb. '42 who was Dir. of Tank Design? M/S. Durand. He had enough staff - he assumed Nuffield's engineers who have been at the trials. He still is Director; but is supervised now as he wasn't then.

L.P.S. See top of p.3. We left simple remedy unapplied for 1 month.

M/S. Disagreed. Capable of palliation but not remedy w/out fundamental design change.

M/P. In fact, it isn't easy to remedy. W.O. And doubtful if it's right even now.

L.P.S. Was system of info<sup>n</sup> unchanged? M/S. Noting much wrong there. These defects were mostly <sup>not</sup> revealed in test. - only M/Fast brought them out. You'd never get profit if made more info<sup>n</sup>. Present test is pre-profit model - and we'll get more of that in future.

M/L. Complaints of excessive info<sup>n</sup> met by leaving much to the firm. Was this the cause of their trouble? M/S. No.

L.P.S. Do arguments at Farnboro' & Lulworth correspond to those described in memo? The defects found at Lulworth ad. surely have been found in the trials at Farnboro'?

W.O. Many of the defects in tanks disclose themselves after long time.

M/S. These were operational tests - not the sort done at Farnboro'.

L.P.S. But didn't these be done simultaneously with other tests? To avoid this delay.

S/Pause. No one person who throughout was looking at the tank as a whole rather than a collection of parts each of which has to be tested individually.

M/S. Right method - now in force - is to test all yr. components before assembly. Truth was that

M/P. These things do happen. The American light tank had v. many operational defects of this kind.

M/S. Originally D/Fort<sup>n</sup> was responsible for design. When at M/F. earlier I separated them + app'td. a D/Research, Development & Design.

M/L. When under test, are reports taken fr. men themselves? M/S. Yes. Soldiers - known as testers.

M/L. This is what engineers often do.

- L.P. Design - too highly specialised and too much sub-divided.
- W.D. Crusader ch. is being modified to take b.pdr. The alterations make it very difficult <sup>"uncomfortable"</sup> for the crew - but quickest way to get these b.pdr. tank.
- Recall also circ. after Dunkirk - decision to concentrate on numbers of the only available design.
- L.P. Why was Valentine the only satisf. tank then?
- W.D. Because it was infantry tank, only type considered proper, & worked out by one man in one firm.
- M/S. Lesson of this is - don't press us, when we've got a result, to rush into prod's before we've fully tested them out. Or, if we have to rush it, don't expect to avoid <sup>all</sup> those troubles.
- Policy in past has been to devote full energy to improving existing designs and to go ahead rather more quickly with new designs.
- F.D. Reports on a-conditioned Churchill?
- W.D. Show - > useless in Egypt. Don'ts in sand.
- M/S. Amendments of wording of App II. Handed in for incorporation.

#### Part I of the Report.

- L.P.S. Who failed to pass the report on? 2nd para. of Summary on p.5.
- W.D. Well known in W.D. Only complaint can be that W.D. failed to pass it on to Defence Cte & War Cabinet.
- S/Dom. Last para. in Part I of my Rpt.
- W.D. Point is - wh. Govt. officials have been postponed if more had been known about the German guns.
- M/P. If that is the point, what happened in Nov. We can bombard out of Libya.
- S/Dom. But Auchincloss' statement, as quoted, was not quite correct.
- M/L. Who wh. knew of this at W.D.?
- W.D. Telegrams to W.D., copies of which went to P.M.
- M/L. Who at W.D. was responsible for not bringing this specifically to Defence Cte.
- W.D. When Def. Cte consider a particular operation, they take the advice of the Commanders on what they feel able to undertake it.
- M/L. This is vital. (controversy in War Cte. about 6 pdr. - revealed for first time  
{ lack of tank space. in War Cabinet.)

This was followed by controversy between P'brook & Margesson.

The comparisons of strength were put to War Cte. while sp'ts were being considered & at no material time was the danger of the 4½ pdr. disclosed to us.

W.O. Remember Mr. Andrianov wanted the hearing postponed.

M.F. In the M/East we were told to go on, tho' we knew they had some 4½ pts.  
Nov.

It was not until after the beginning of the offensive that it was realized, even in the M/East, that the 4½ pts. made such a difference.

W.O. Once informants had gone automatically to P.M. no one in W.O. wd. think it necessary to bring it specifically to the notice of War Cabinet - Def. Ctrs. S/Divs. The lay members of the War Cab. (or Def. Ctrs) thd. have all the material facts.

L.P. 2 points. 1) Telegrams went automatically to P.M. & Staff.

Is that sufficient for purpose of bringing informant as such to Def. Ctrs.

2) When this informant came in, ~~the~~ <sup>of the gun</sup> worth was to be appreciated.

It is clear that up to March, tho' knowing of it, he did not think it so important.

On 1) I add. man said tht. if the informant was relevant to a question under discussion by Def. Ctrs., W.O. wd. be responsible for seeing tht. it was brought to the notice of the D. Ctrs.

W.O. What about informant recently given by C.I.G.S. about relative merits of Spitfire v F.W. 200.

F.O. What is clear is tht. no-one has appreciated the significance of the 6½ pts. qd. qm.

M.F. What I want to ensure is tht. any significant change in reliability is appreciated brought to notice & acted upon.

W.O. Assurance tht. we have set up an organization with exactly this duty.

L.P. There is, in each Service Dpt. in an organization responsible for picking up all this informant - appreciating it, working on it, and in add't considering what circulation this informant shd. be given.

S/Divs. The significance of the 6½ pts. was appreciated - because action was taken to counter it. But W.O. evidently did not think it worth while to bring it to the notice of the Def. Ctrs.

M.F. Is specialist treatment a enquiry by experts carried out while operations proceed?

W.O. Yes. M.F. Qd. the appreciations of reliability - weaknesses + strength - be circulated to War Cabinet?

S/Secy. Isnt this the responsibility of the C.I.G.S. + Ch. of Staffs.

A.C.I.G.S. Two quds. 1) What informant did C.I.G.S. have put to W.Cab.

2) Had W.O. appreciation b/w diff. wd. poss's of b pts. been given quick

If C.I.G.S. did not see this factor as W.Cab. it was ? he didn't think it was of primary importance. Noting wrong with the system. Our judgment may have been wrong - and may be again.

On 2) W.O. as matter of course were developing new weapons. Two on hand : 6 + 7 pds. And we realized then <sup>full</sup> the significance of this factor. It not, how much no diff? to rest of prob' of cities of their qual. This as it happens is true. But remember that we are always working ~~that~~ ~~the~~ Germans - apart fr. our knowledge of what Germans have S/Downs. Position of w.cab. Minister. We are ready to take risks, but ad. like to take them with our eyes open.

M.H. Don't accept the statement tht. we didn't know accelerations the b.pds.

M.S. r.W.O. Disputed.

"Take note of memo"

25 June, 1942.

A.N.A. August 15 shows 10% at this stage shipping is so critical that it can't be met only by  
a) relying on Bldg., incl'd. American and b) limiting consumption of imports.

Adm. See 10% in this Ppt. is optimistic. Unless we reduce imports less will be more  
than 6.5 m.tons.  $3\frac{1}{2}$  m. already by enemy action this year. Other causes, marine  
losses etc. will be 650,000 tons. The gap will be 7.5 m.tons, or something  
like it.

Expectations for next 6 mos. Losses for half of year due largely to UBoats in W. Atlantic.  
2,221,000 tons = losses since 12/41 off N.E. coast & in Caribbean.

513 ships convoyed. Total losses 3 all ruined - Records of Key West Convoy.  
120 " " " " 3. - Aruba convoy.

Convoys still improving the pos' - but this only means 10% UBoats will more dangerous.  
Assist' to N.E. has recent rearrangement of our convoy groups in N. Atlantic & and  
when U-Boats move there we shall be less well equipped to beat them off.

Expected UBoat strength. In 13 German ports 271 U-Boats Bldg. or fitting out now.  
By March 500 will be available, 140 will be always training or fitting.  
Unless we can sink a good many there will be 500 working against us by July '43.

Losses of escort vessels & destroyers v. heavy in first 6 mos. - 30 destroyers alone.

Replacement of merchant vessels. Much depends on fulfilment of original programme.  
Division of U.S. effort to Bldg. of escort ships reduces their programme of merchant ships.

Vital: to concentrate attack on UBoats at sea.

We can't guarantee 10% loss won't be increased losses in next 6 months

thus, too dangerous to <sup>sink to</sup> risk pos' only by a) and b) at outset.

Extended help fr. RAF during last few weeks shows how much more  
can be done with greater air attack.

S/Divns. Three points for review -

- prospects of building
- efficacy of convoy system
- Opinion v. U-boat as opp. with defensive action by merchant ship.

(a)

U.S. Bldg. Prospects v. good.

My Pos': / 30,000 tons a.mt. over schedule in May.

8 m. tons a.mt. in 1943. Shortage of steel might reduce it to 7.5 m. tons.  
20 m. tons in 1943.

M/W.T. Much of this will be taken away for other use - eg aircraft carriers.

S/Doms. Cd. Kasius's methods to apply here?

M/P. No. Pre-fabrication carried is an effort not feasible in this country.

Export vessels. Optimum = 20 : 100 merchant ships. See p. 7.

Our programmes provided figures for only 5 : 100.

A.V.A. The export vessels won't affect the port until at least end 1942.

S/Doms. The rest of this year will be very tight. What will port be in 1943?

Does M/T. want me to say U.S. building will offset our losses?

L.D. Only if we get the tonnage of that tonnage. M/W.T. We can get no indication of that.

Danger is margin of error, on the balance sheet - 3 m.tons either way.

This is the significant factor :: it cuts not into margin but into essentials.

M/W.T. Our calculations were on U.S. building of 14 m.tons for '43

M/P. I am pretty sure that they will get their big increase on this, apart from diversion of yards to escort vessels which means 2 m.tons d.wt.

U.S. Production.

A.V.A.  $1\frac{1}{4}$  m.g.tons + Canada = 1.7 m.g.tons.

7.2 m.g.tons incl'd. U.S. production.

And losses maybe anything up to 7.5 m.tons.

So there will be some loss in a year when we want to see increase in shipping available for offensive purposes.

S/Doms. Will there be any compensation :: new ships are faster?

M/W.T. We have gone as far as we can in this direction. Can't push speeds for transports.

U.S. Standard speed for transports 11½ knots

A.V.A. In last war considered this. Now again been considered grain losses from fast ships

$$\begin{array}{l} \text{11 knot / 15 knot convoy} = 4 round voyages = 77,000 tons cargo } \\ \text{15 " " " " } = 5.5 " " = 19,000 " " } \\ \text{Because of limited capacity in relation to cargo space. } \end{array} \quad \left. \begin{array}{l} \text{11 knot } \\ \text{Worse off.} \end{array} \right\}$$

S/Doms. Is the 15 knot safer than 11 knot, in convoy? M/W.T. No.

M/W.T. Our losses of over 15 knot would independently be less in respect to type of ships in convoy. And we are getting an increasing no. of these

A.V.A. Large add's to convoy losses :: of course in context with visibility operations.

Double the distance wd. be <sup>much</sup> in favour of independent sailing if these excluded.

L.D. From pt. of view of cargo-carrying capacity, do you favour fast ships?

M/W.T. I don't altogether agree with A.V.A.'s view on this.

- M/L. Why have you stood aside from sailing - as done in U.S.A.
- A.Y.A. We wait our laid time out in our shipyards. Only 3-4 yards ab. do it.  
And labour required. Adm. doing something in this way - as much as they can.
- M/L. Don't agree. Ship-builders have held it back : it doesn't fit in with their future.
- L.P.S. Why not get Kaiser over? M/P. First await results of investigation into ship-bldg. methods - by Panel of M/P's appointment.

- S/Doms. Replacement 1943. M/W.T. Everything depends on what we can get from U.S.A.  
Hopkins has said they'd give us 24 million of imports - keep up at this rate.
- L.P. But the M.C.B. calculation is based on running down stocks on assumption of a much increased rate of imports in second half of '43.

### (b) Efficacy of Convoy System.

- A.Y.A. No indic<sup>n</sup> of decrease in U-boats fr. June to Dec. - increasing - yet losses post was improving. " effective escorts.  
Post deteriorated since Dec. " entry of Japan into the war.  
If U.S. entry into war hadn't opened W. Atlantic to U-boats we did. have expected to do more better against continuance of attack in W. Approaches.
- S/Doms. Cd. you give us figures for nos. of unsuccessful attacks?
- A.Y.A. Yes. But you'd have to allow for deterrent effect of large escort strength.
- M/P. 17% of nominated ships for Biscay already sunk!
- M/W.T. When U.S. convoy lines completed, we shall expect improvement " bulk of res. vessels will remain w/in the protect<sup>s</sup> - only a small prop<sup>t</sup> will have to go on outside the convoy. But this is what I wd. try to estimate that the present rate of 7.5 m. losses wd. not take us overall above 6.5 m. from the year.

### (c) Offensive against U-boats.

- A.Y.A. Many come fr. Biscay - > you can get them there more easily.  
They stay out 6-8 weeks - of wh. 12/14 days on target station.
- M/W.T. Americans will now press us to do more to stop them coming out.
- S/Doms. What can we do? A.Y.A. Nothing. more than increased air attack.

- L.P.S. Methods of increasing cargo space. Towing cargo shells up. Have all been considered?  
M/W.T. Studied & abandoned " of danger to ships. Now being considered again - made of glass.

S/S. Air.

Ready to cooperate.

Diverted 4 squadrons F-Bomber to Constance.

84% of Udg. capacity for K-Boats is in each of Bomber Command at the year round. And we think the best way of keeping down the K-Boats is to hit them in the places where they are being built. 64% are based in Bremen Kiel/Hamburg.

Raid on Emden was particularly successful. K-Boat yard hasn't yet to morale.

L.P. If you do deal equal destruction at sea and at yard, balance would be in favour of attack at sea: then you kill the crews also.

## C.I.G.S. Russian Front.

Nov. G. claims of captures at Leningrad.  
 " " " 18,000 before Moscow } nothing serious.

From Kursk continue signs of definite offensive. R. holding on at Slobod. delayed  
 move of air force re. for major offensive. New attack at Kursk started to-day.  
 Götting, at Poltava. This looks like first stage of major offensive.  
 Up to now 3-4 armoured + 8-10 infantry divts have been doing these attacks - no  
 indic'g of strength comparable with last year.

Air Raids. Wed/Mon. 50 of 1st. 35 on Nizhniot.

Fri/Sat. Novosibirsk (30) - fire + serious damage.

Sat/Sun. 40 - 32 overland in S.W. countries including Western S. Marx.

Sun/Mon. Weston - 40 overland - 70 fires, many serious.

Western - aerodrome, B. aircraft factory, R.A.F. training estab'g.

C.A.S. Sun/Mon. 2 destroyed.

Foreign Affairs. a) Evacuation of Civilians fr. Egypt.

F.D. Lampson has this m.s. not in discussion by telegram.

Agreed - Details to be arranged with M/State if nec. War Col. will support.

b) Removal of civilians fr. Iraq.

Agreed - stay where they are.

c) Foreign Visitors - Norwegian, Dutch etc,

Ministry to tell F.D. what & said: wif possible consult F.O. in advance.

d) Moscow - Arab. rep. like to come home. Let him come after he  
 has finished with Molotov conversations.

Agreed - subject to P.M.

e) Imperial Policy Group - poisonous public: esp. about Russians.

K. as County up to mischief. [M/F. will consider calling him up]

H.Q. Public not wise limits of what can be suppressed.

### III. Evacuation of Families of Service Personnel from Malta.

C.D. Backyard - decided months ago.

Military - now decided by Govt.

We were against it " effect on Maltese. We still are. If now we do

relative of B. and do nothing about Maltese, unfortunately nations.

Suggest a) notice to voluntary basis; or

b) offer facilities for vol. evacuation of M. dependents.

W.D. Unless quota basis, this will mean more chgs.

C.O. Offer 50% share of available facilities.

Sgt. Maj. a) moral claim of those who have gone in higher than that of indigenous pop.

b) If Malta [etc., public opinion w/ concern action would be B. being left behind  
[Lat. dissented from (b)]

C.O. 1200 British. Many more Maltese.

C.A.F. Any aircraft ready. Malta Fr. Gib. Not go back at once.

Any increase in traffic means increased fuel consumption fr. Malta.

Only a trickle at. for brought out.

No regular air traffic fr. Egypt.

K.W. In fact v. little will be done. Why not give 50/50 facilities, for the little that will be worth. Let it be voluntary for the Maltese.

F.O. Don't like it. We prefer to tell everyone to stay where they are.

S/Dom. Any priority at all shd. be given & then needed elsewhere.

I.P. If there cd. b. evacuation, we think it shd. be shared. An item could be any, put a stop to all of it. Govt. to be so instructed.

A.V.A. Can we bring out children of Naval ratings. Cabinet - No.

Agreed - As in I.P. view. Bring up again if becomes possible to undertake large scale evacuation.

#### IV. Anchimleck ifc SIC Army.

P.M. proposes to announce in H/Congress at noon to-morrow.

Prov. agreed not to announce. But now leaving via U.S.A.

C.R.B. to inform Anchimleck.

#### V. Representation of Baltic States.

Agreed.

Foreign Affairs.

A.E. By Madagascar. Genl. there won't easily get off. To continue & my man to never leave him. (Brig. Ladd) P.M. approved (7/5) sending my man out.

P.M. Settle this with S.S. War - not for Cabinet (?). I will settle if you can't agree.

Czechoslovakia.

A.E. Want genl. Bruce all he wants - he once resigned & there isn't a same continuity in his Govt. But it will clear the point about Munich.

I.P.S. Para 7. What does dict' man?

A.E. Subdivs are takg. like they won't go. I want to make it clear etc. They can't rely on that - either the other way round.

P.M. Make it clear etc. It is population not territory.

S/S. Doms. Smuts prov. asked Mr. Dom. P.M.s who. to be consulted before changes made.

P.M. Necessary? S/Doms. Smuts felt strongly.

Agreed in principle : A.E. to talk to Bruce on these lines : Doms. etc. consulted & then in a few days don't care to make public.

Treatment of War Criminals.

P.M. Idea of my paper - you don't pass judgment but collect facts in multi<sup>st</sup> manner. Make a big show of it. Publicists etc. have to turn to this to hot up the fire of well. Fact-finding Committ. only. Flourish of trumpet. Washington will initiate.

Simon. Similar the app<sup>t</sup>. Sept. 1914 - Bryce, Pollock, HALFinde, Wood Cox, Alfred Hopkins. But contained no names of offenders.

P.M. Contemplate etc. if Hitler falls into hands we shall certainly put him to death. Not a sovereign who etc. is said to be in hands of Ministers, like Kaiser.

This man is the mainspring of evil. Instrument - electric chair, for gauntlet, no doubt available on horse-head.

A.E. "Talkg. appo. & interrogating eye-witnesses" } Names suggested } need revision.

I.P.S. They must be "official" body. App<sup>t</sup>. by Govt.

P.M. One to work out details} - Lt-Chancellor : I.P.S. : F.D. : AG : M/Inform<sup>t</sup>. of both W.P. Papers.

A.E. Ops. with minor points can send them to the Ctee.

Debate on Shipping Situation - deferred.

Policy in Relation to Gandhi.

L.S.A. G. will encourage resistance of peasants to troops - non-compliance with salt law

P.M. Why go on with salt tax - v. little money in it. S/P/War 10% of present revenue.

P.M. But universal requirement - like taxation etc.

L.S.A. Congress now says - by now next we shall know

L.S. G is on the wheat supply : latest speeches suggest v. little fire in India.

L.S.A. Statement on 30/3 is fairly strong.

P.M. Back to salt. Get rid of it.

S/P/War. What of Viceroy's prof. for holding G in India?

General feeling in favour of removing him from India.

Otherwise - soon note.

Debate on Shipping Situation.

L.S. Debate is on M/F.T. Vote : but they have said they want to talk abt. shipping.

P.M. Our practice is in Secret.

Ch.Whip. Sec. Session gets popular. Two Press cases arises fr. it.

P.M. We can't make our case in public.

A.Y.A. Policy of U.S. Navy 1917 - public sinking only where survivors land on Am. soil and even there no mention of name or tonnage. Nothing is in claim to. we are withholding while U.S. are publishing sinking figures.

Gobale regularly publishes figures wh. are wrong but not deliberately inflated.

We don't want to give him the correct figures.

Therefore dead against amending so present claim in H/C for publ. of losses.

P.M. I suggested to President Mr. it was inconvenient to let U.S. publish more about losses than we do. Weekly publ. enables them to check their U-Boat reports. But also for public to have its publ. so frequently.

I didn't know how limited their publication was. I have asked Hopkins that we know at once their final conclusion on my request.

A.Y.A. Press conference accepted my view of this.

L.S. You won't satisfy H/C unless you give them the figures in Secret Session at end.

Chairman Disagreed.

M.L. Stand on our existing practice.

L.S. But you can't explain in Public Session why U.S. figures are not satisfactory or full.

Chairman. Why can't you explain publicly reasons v. publ. - as Churchill did in last war.

M.L. Go back to what U.S. papers say in ref. to Am. publ. with value.

M/L. Don't satisfy Shimura + the critics in W/C. at expense of confidence of the sailors.

A.Y.A. No kick in the last debate.

P.M. Our losses are not so v. bad.

Craub. Advisor wants debate in W/Cords. \* But he is concerned rather about B. building.

S/Doms. W/C don't want a Secret Session.

A.Y.A. But you can't deal with \* in public session.

P.M. Pig it have more-mongering public debate, then answer it in Secret - Agree.

S/Doms. They want to talk of methods in shipbuilding + possible need for further belt-tightening.

P.M. My diff is it's a really good answer (even on this) can't be given in public. Leader will explain why we don't intend to publish figures of losses.

W. Figures are on a diff. basis: [but they are so designed b/c it doesn't give info to the enemy.]

L.P.S. Bear out []: it will lead to argument.

In spite of losses arrangements made with U.S. will make war to be carried on, enough shipping. Want full debating power - can't have it save in S. Session.

If you want it - you must have it in Secret Session.

C/Whip. We have had one Secret. We don't want - nor do they - audience.

No need to have it in Secret if we aren't going to give the figures.

P.M. Then the Govt. can't make its best case.

K.W. They will walk out of a Secret Session.

Craub. W/Cords won't look at a S. Session.

L.P.S. Trouble is uncertainty + rumours built up on the Am. figures.

P.M. This can be met by us saying b/c we can see our way thru' with U.S. assistance. If you want this fairly debated, it must be in Secret.

L.P.S. Then if they raise losses we shall have to go into Secret - not afraid of facts but + info. inform't to enemy.

P.M. We like to be able to take W/C. into confidence - + give them all we can.

Halifax. Hope care will be taken to avoid impression in U.S. that things are all right.

L.P.S. I will tell them then b/c we can't have losses discussed in public Session - we will discuss the other matters.

### Select Committee on Expenditure - Enquiry into Tanks.

A.E. Proceeds of Govt. S/S. War: G was spec. com + Govt. has gone into

W.M. (47) 89th Meeting.

8a July 1982.

Shipping Debate.

L.P.S. If these Votes are down you can't say talk on losses is out of order. But this or not Govt. will answer is ministerial. You can't answer in public. Now, if the House at outset to if they talk on this we'll go into Secret Session. Even then, still we give the losses?

P.M. I don't mind giving them a picture, in Secret.  
I don't dismiss K/Commons.

K-W. Indications - this may back the enquiry.

P.M. Much smaller risk. Real trouble is pull in Press.

A.E. No indication yet anything has got into the Secret Session.

P.M. Don't take too late a view of K/Commons.

L.P.S. View of you can't have this in public. Apart from other things, it would be press in public to give any explanation of US. post which might be interpreted in US. as criticism.

P.M. What you are really discussing is American affair - their losses & their potential gains fr. N.Y.C.

K-Y.A. This will slightly - we'll debate anywhere if allowed to give the figures. I have a v. good case - but am not allowed to make it in public.

P.M. We give full disclosure rather than have criticism in public & answer in Secret.

C.W.H. Labour Party have asked for debate in public - but they haven't asked for losses.

L.P.S. Govt. dismiss & Secret Session. Labour Party have asked for it; and a general feeling in K/Commons against Secret discussions.

M/L. People think, now we have been giving too much information - endangering the lives of our men.

P.M. Say "we will not take this in public" & if they protest [move into Secret Session and say why.] K-W. Unfortunate public effect. P.M. Two or three newspapers will write what they want anyway.

Cannot be discussed satisf. or thoroughly except in Secret. If House decides will move into S.Session is certain reason.

L.P. Give the reasons for not holding it in public to start in ~~public~~. You can't give all the reasons - but surely you can say enough to satisfy the House.

Agreed - withdraw K above.

L.P.S. I will draft statement on business & show it to P.M. tomorrow again.

M/L. If we talk abt. N.Y.C. how much can we say about naval programme? P.M. Use the figures give global results - "in every category we have replaced our losses."

P.M. See I.P.S. explain reasons why we hold it in Secret. Then let Mr. Salter open.

Salter. Difficult for me. W/G. was complained before of not having good background. stated at outset. We <sup>recently</sup> ~~recent~~ <sup>opened</sup> by person known to have been out of the house for 15 months.

Great feeling Mr. Felt look this open.

P.M. Well, I.P.S. on Procedure

Felt he open on merits.

Salter is wind up.

W.M. (42) 8pm Meeting.

26 July, 1942.

I. Post-war relief.

P.M. As in his memo. Part of the nation we know before we tried ourselves to make a far-reaching commitment.

F.D. We say only (1) their will be a system of rationing after the war.

We shall then be dependent on U.S. They intend to continue laissez-faire.

T.M. We shall then have greater home production etc.

K.W. Gratifying effect. Post same as regards stocks.

F.D. Disagreed as regards stocks. Ty. policy is now what it was when it promoted this war.

K.W. Don't bind ourselves now. See how we stand then.

M/P. Stocks. Opin is who we shall do better by putting ours into pool with U.S., or by selling them against gold.

M/L. How will you get over when the chaos is on us unless we begin to plan now.

Not afraid of promise - so long as we don't bind ourselves to any specific level of rationing.

There must be orderly relaxation after the war; we must let people begin to plan it now.

P.M. We can't tie our people up in this suffering - bureaucratic machinery.

Hartley. If there are starving people in the countries we've been fought to liberate, we can't people hesitate to accept rationing in their interest.

Anyhow you will have to do it in any event.

We'll have to live on U.S. charity for some time after the war. And this sort of thing is the only contribution we can make to international relief after the war.

Snow. Position is that we are saying now that after war we shall immediately stop all control & engage in unregulated scramble. We will maintain a system of rationing, to control the position.

P.M. Canada cd supply us if we needed it.

M/L. Yes - as after the last war. And 2-3m. unemployed followed.

F.D. For some yrs. after the war there will not be enough food or shipping to allow us to resort to system of rationing food by sale of goods. We shall have to continue a system of rationing.

P.M. At the end of the war I will submit to no inequality with U.S.

B/T. Our proposal is consistent with your Minut. Quoted from Annex.

Our standard of living will remain, for all this, above that of European countries.

B/T. advise that in any event we shall have to maintain rationing for some years after the war.

M/W. Shipping. By end of '43 U.S. will have more shipping than B + B-controlled.

L.P.S. We want a plan to be made for relief. What other contribution can we make. And if we make it, we shall be protecting ourselves from being put on a level with other "distressed" countries.

M/P. Textiles. After war there will be no stocks of clothing in Europe at all. Unless you maintain rationing for 2 yrs or so, the prices will go so high that the poor won't be able to buy a shirt.

Halifax. U.S. will be supplying most of the food etc. That will mean v. heavy taxation. That will be their contribution.

P.M. If we contribute, let our people do so as a generous gift.

S/S.Air. European Allies are working out relief plans for their countries which contemplate rationing. In Washington they are bound to ask what we are going to do.

F.O. The Allies Govts. are already trying to buy and to clear the shipping. We must avoid this competition something.

M/P. I favour this: I believe the poor will get a better share that way in the period immediately after the war.

Toront. This means only - Some system of orderly delivery to avoid waste. We can't give much in the way of food. We may i. e. we won't indulge in luxury while the rest of the world is starving.

F.O. The whole thing is governed by "as part of a common plan". We are not committed unless we like the plan.

L.P.S. Referred to P.M.'s statement of June 1940. This implies that we are going to do something to build up supplies. K.W. is now saying don't do anything about it now.

P.M. Position has deteriorated since then.

L.P.S. If we are going to plan, to enable us to redeem that pledge, we must make some contribution now.

K.W. <sup>common</sup> \* / let us at least avoid public declaration at this stage, until we have seen the plan.

M/L. Favoured M. So long as L-Ross knows where he is.

K.W. Can we agree to <sup>y</sup> of cuts into no commitment

y introduce L-Ross on <sup>if</sup> see to it no publ<sup>c</sup> of this.

This line - <sup>make it clear that</sup> c) where we see the plan as a whole we will make up our minds.

M/P.S. We have no assurance of getting a share post-war of the surplus of U.S. shipping.

K.W. Further telegram to L-Ross - in light of further discussion in Cabinet - to effect of y/.

P.M. Remained of opinion that we should not do this unless U.S. equally tried themselves to rationing.

Telegraph

Let K.W. prepare a draft & bring it to the War Cabinet.

{ [Mac<sup>?</sup> need to consult Ministers above the line.]

in consulta<sup>t</sup> with F.O. and B/Trade.

W.M. (42) 92nd Meeting.

20th July, 1942.

## I. Foreign Affairs.

### French Ships at Alexandria.

A.E. Godfrey's attitude - war of self. F.O. and Admiralty to investigate.

Evacuation of civil popl. fr. Alexandria.

A.E. Bad plan - and bad moment.

Agreed, subject to C.G.S., lay off this.

### Madagascar.

P.M. C.G.S. asked to consider further clearing up - in view of unsatisf. attitude of Govt.

## II. Air Raids.

H.B. Nothing much - save indications of low daylight attacks increasing - e.g. Leamington and Dagenham.

## III. Conscription of B. Subjects in Egypt.

H.B. Why not (a)?

C.O. Because local leg<sup>y</sup> can deal with Colonies - not necessary for them.

H.B. Canada? M/L. Now they have conscription, same plan as in U.S.A.

L.P.S. When will it be introduced? A.E. Before recess if possible. L.P.S. Wait till we voting for this. Simon. If introduced & not taken, some ad. volunteer.

L.P.S. Might take a day. Go away on Friday via Thursday. P.M. Or sit later on Monday. Agreed.

## IV. Polish + Greek Refugees fr. M/East.

C.O. 60,000 p. perwar } Total 88,000. Have been accepted by E. African Colonies.  
13,000 It. citizens } They can take no more - a) food. b) no accomodat<sup>n</sup>.  
1,000 others etc. Until the newcomers build, no more can be put up.

S/Doms. D.D.O. for S. Africa + Rhodesia. Ask, but don't expect favourable answer.

F.O. How can I get the Polish Doms. - if I can't accommodate their families.

C.O. 1,000 - 1,500 b. fortnight after mid-Oct.  
with W.O.

P.M. x/ F.O., C.O. + D.O. / meet & decide what can be done.

A.E. And I will press the U.S. Govt. to take more.

M/W.P. I cd. carry many in returning ships.

S/Doms to convene & report back only if necessary.

Ministers and I to be brought in.

VI. Camping of Recipients by Members of Public.

- K.C. Need for economy much greater - rubber shortage, large res. sent abroad.
- P.M. When last brought up I opposed it 't we were about to make one treaty about 6.1m of gas in Russia.  
No diff now. Couple it with increased precautions to ensure safety in order.

VII. Report on Home Opinion.

Para. 1. Agreed - cd have been better handled.

Take note.

VIII. Parliamentary Recess.

L.P.S. b/e - 8/9. Then after 3 days adjourn again to end of Sept.

As last year.

Criticisms likely - we cd find time to discuss a) Army pay b) Air co-operation  
wh. some members want to debate + we've said "no time".

K.W. Cd. P.J. see an leading Conservative MP's & quieten them down. on (a).

L.P.S. Lib. Nat. whip has asked for (b). Cd. they do it on Approp' Bill?

S/F.Air. Diff. time to discuss it - organisation now under review, with the Americans.  
Now thinking of drastic re-organisation. Can't discuss that now.

P.M. Open day for that in Sept.

W.M. (42) qba meeting.

27th July, 1942.

### Air Raids

M.W. Thurs/Fri. 40. inland - scattered.

Sat/Sun. 20. " Middlesbrough. Considerable damage to Mdg + commun<sup>ts</sup>.

1.C. Birmingham - prob<sup>t</sup> wire to held up.

Morn. a.m. 5.45 a.m. S. Coast. 7 a.m. E. Anglia. 7.30 N.E.

25 in all. Every Region except Scotland + Newcastle had warnings + in most bombs dropped.

Derby - R.Royce central machine store shop.

2nd ret. R.Royce works.

Witton - Critical.

Swindon - GPO works + gas holder.

Noticeable how widespread the attack was. Worrying - need to get them down.

Active defence out. to as lively as possible.

C.A.S. We scattered them. But weather was v. diff. for us.

Precision bombing by isolated aircraft v. diff. to stop.

RAF claimed damaged one - only, tho' fire opened at many places.

### Eic Officers at Battle Schools in N.Ireland

9.a.m. W.D. propose they std. attend. Americans will be at these schools as well as British.

Situation changed as apd. 2 yrs ago - no risk now of invasion of Island + at least R.R. danger has receded.

S/Downs. This would affect Eic neutrality. If attacked she will fight. Important to make them as efficient as possible. And also encourage them by supplies (Hm<sup>t</sup> 11) <sup>3 on Agenda</sup>

Comp. small amounts. Mil. auth. in Eic + co-operation.

We have given them small amounts fr. time to time.

9.p.m. Doubtful about giving them mines. - to lay in Eic harbour: against whom? Don't mind the other things so much.

S/Downs. ATA guns + predictors.

S/P.M. Surely we shd. do with them ourselves.

H.P. Eic can't defend herself: we wd. have to do it. They have untrustworthy elements.

S/Cdr. Good thing to back up mil. auth. esp. Malaya (?)

A.V.A. 1st Sea Lord: I am opposed to supply of mines.

P.M. ATA guns + predictors - don't we need them cf. Biggin Hill. Surely those points shd. have priority over Eic.

S/Gen. That this was passed by V.C.O.S. as what we can give if you of policy  
decided. This would be useful to let Eirs have these, for support of their  
military authority, if no political objection to sending them.

P.M. C.O.S. to examine afresh.

S/Gen. Yes - quite apart from any political question.

P.M. Courses - discuss separately.

No suff. obj. is that.

S/Gen. Does this connection that if they are taught to handle weapons they will want the  
weapons the more.

S/Cdr. Shall not N.Ireland Govt. be consulted? W.O. Yes. I will look into this.

#### IV. Power of Punishment in Indian Commissioned Officers.

S/India. K. Comm. Offs. have the power.  
The Ind. + - was not given that power. } Small matter, but causes v. great  
diff. in rank form + great resentment.  
Matter raised 3 mos. ago, as matter of urgency, by Viceroy. I put <sup>W.O.</sup> obj. to Viceroy  
and have now had his view of C-in-C. - as in result.  
B. Offs. throughout Indian Army wd. support their view.  
This is a distinction on ground of colour.

W.O. King Comm. off. V. few were appointed after last war - but died out. Viceroy's  
Comm. is now normal practice.

Not a small thing.

Sooner or later we may have to do this. But face of white man in East is  
low enough + this is not the time to do it. Gandhi's likely movement.

A.V.A. Navy - no real precedent :: no mixture of black + white crews.

S/Air. Matter of discipline, not principle. Off. has right to go outside his unit  
to find some other off. who can punish. The post in R.A.F. is the same -  
we wd. be willing to change, but wd. need legislat.

C.I.G.S. How to do it ultimately - but not now.

L.P.S. If they are fit to command, they should not be denied the attribute of command.

L.P. Why is it more degrading to be punished by an Indian than to be ordered about by  
one?

S/Gen. Really logic of W.O.-case is opposition to Indianisation.

L.P.S. Draw attention to x/ in Meuse.

P.M. But political capital will be made out of it in India.

S/India. No. Will encourage our friends.

M/L. Can't India do it or some other body ascertain the facts. Particularly, who legal is involved. / How many offrs have arrived at this point etc., /

[<sup>9</sup>] India. Viceroy wants statement made this week.]

Warning to Congress.

P.M. ① Report to Cabinet drawing no. of offrs. who {have } K. Commt & / /  
{ have not } who, it will involve legal?.

② On larger issue, circulate the text and I will see who it need come to (ab). If any member of War (ab) has an offr we can inform Sir EB.

#### V. Reduction of Hours of Broadcasting.

W.M. (42) 92<sup>a</sup> meeting.

28th July, 1942.

### The Shipping Situation.

L.P. Report to U.S.A. At least 3 m. tons of imports in first half of '43.  
Even so factors up? large margin of error - a) sinkings b) military demands  
c) Bolero.

A.E. As in P.M.'s memo. Base demand on full employment of our seamen.

M/P.T. We prefer to put it quantitatively first.

In Bolero negotiations I am seeking assistance in first 9 months/which will give us  
[help us to get additional months] 500,000 tons gross shipping  
margin. (7 - 7½ m. tons imports for a period of 18 months)  
25 m. + 1942 = 27 m. = 1943. (and 1,500,000 tons 1st-12-43 - 31-12-43).

L.P. This is a diff. method of bridging the same gap.

M/P.T. Charkow now wants 28 vice 27.

P.M. I said as President "27 or 28". Stand by that.

M/P.T. 500,000<sup>gross</sup> t. shipping was additionally; and up to 1.5 m. at end of 9 mos/  
This is what I am asking Americans for.

If we get this help on Bolero, we shall benefit by reparation.

1.3 gross tons remain as contrib. to the Bolero.

We more firmly we can ship less than 1/2 of U.S. original demands for Bolero.

Even if they reduce their scale to 9 tons to 6 tons per man we can't do it.

Sinkings in first 9 mos./on first 6 mos. of 1942 less 25%.

Turn-round. Less good: military stores. 4 voyages vice 1-7.

Better to have this 1/2 m. + 1/2 m. in the 2 9 mos. + get [ ] extra imports.

P.M. Bolero is subject to delay - fixed for April but can be put back.

M/P.T. Estimates based on 23 m. as. bldg. programme. The M/P more optimistic,  
their programme was since Mar. cut. Can we help them with steel?

M/P. Not if we have to cut ourselves.

P.M. Let me 25 + 27 m. as fixed figures - & Bolero variable, in time. Bolero must  
carry any contingencies - cf from sinkings.

### Consumption Economics.

P.M. Rationing bread. Why not? of great value.

Hence - new regulation will mean that people will find their bread.

M/P. Rationing means equal distribution to all. Important to preserve one commodity free  
for ironing out personal inequalities. Bread maps up individuals' variation.  
Fill up on bread.

Doubt how much waste of bread there is - don't believe there is much.

With rather little that can risk people going hungry.

Dificult - v. difficult.

I can save 300,000 tons of shipping without rationing bread.

P.M. Price of will stop waste of saving in tonnage a) bargaining point with U.S.A.

M/F. Straight rationing of bread wd. increase consumption.

Point's wd. help that - but wd. involve loss of variety.

And burden wd. fall most heavily on heavy workers, whose need for bread is greatest.

P.M. You might save 300,000 t. imports by this means.

Agreed - L.P. Chs to consider. Not worth doing unless it brings Yn tons.

Dilution. Agreed : as in L.P. Chs conclusions.

[Waste of Potatoes. New machinery for reducing to a minimum]

U.S. Army Requirements. What scales are U.S. Army working on? Red. excessive.

M/P. said his people were looking into these points - a working <sup>from</sup> ~~out~~.

M/P. Press them to use our equipment + ship items direct to theatres of war.

P.M. Waste of space by Services in shipping space allocated to them.

Chowne. 1100 vehicles landed in April = 80,000 tons sand.

1100 " " May = 100,000 " "

No. ships required is defined by no. of vehicles - then search room for cargo.

Shipping waste of space in past: position is now much improved.

Scale of equipment for M.T.

S/S War. Promise of 20-30% reductions - now come down to 10-12% in view  
of change in role of Army.

P.M. Circumstances more concerned the Chs's Rpt. not in W.C. today.

P.M. Only way of getting results here is to impose over-all cuts + let Dept's work out how they will operate them.

We can't press U.S. to cut down w/out doing it ourselves.

Services have been completely uncombed for man-power. Need for searching enquiry into use of man-power by R.A.F. + Army. Service Ministers must help.

S/Air. We've tried hard. But new strategic demands - moving Air Forces from one theatre to another.

A.E. Wastage rates (rice) v. high in N/East + India.

P.M. We must lighten our establishments for overseas service.

M/P. We ought to have a go at it - it had to be done in 1917 + again in 1918.

M/P. You will have to do it if you expect production to keep up.

Need for concord, not opposition. Everyone says that can't be done.

M.L. You call up only grades 1 + 2. Yet you use them on "tail" at 1 : 1 Army.  
} 1 : 1 R.A.F.

That is surely a waste of fit men.

I can only ring the changes on priorities.

W.O. Taking troops abroad will mean an increase of our tail - not a decrease.

P.M. Women drivers on home service?

W.O. We can't get enough women.

And can they be directed into searchlights? P.M. Yes. This doesn't involve use of lethal weapons.

### Phosphatic.

M/Aq. Now has to come fr. Gulf. We are now 2 mos. short. U-Boats off U.S. coast.

If we have sinkings, then we shall be able to keep factories going after June. 40,000 tons must be moved in winter & and this is v. unlikely.

Apatite fr. N. Russia is #!

We haven't enough in country to last beyond Christmas.

M/Prod: is helping me with this: and I can wait for 2 weeks.

### Tractors.

L.P. There is a plan for stocking them as below. W.O. and M/Aq. Total to coordinate.

P.M. Let us have a memo. for Cabinet. on this. (?) Not present in this request.)

L.P. Facilities for service & repair can also be improved by poaching.

P.M. This was exploratory.

But - a) Drivers - need. logistic.

b) 25 + 27 for 42 + 43 are fine.

c) F.O. to focus up to U.S.A. for firm guarantee on shipping required to meet b)

d) Economics - U.S. economy app?

e) Bread rationing - U.S. like to consider.

f) Service man-power - Cab. like a R.A.F. and Army.

Count tail and sharpen teeth. Beach Divis. to be made fully effective.

g) Vehicular economics. Report to come to Cabinet.

S/Doms, L.P.S. + F.O.

h) Packing of vehicles.

W.O. May this on (f) proceed in such a way as will not involve detailed scrutiny of port establishments.

P.M. Has held one review already.

Only way is do it in a fix global figure + let Army work out details.

S/Downs. Food supplies of expeditionary Force shall be as far as possible doled out.

I.P.S. Other aspects for discussion -

Shipbuilding in this country.

Anti-U-boat campaign.

A.V.A. Admir. have in view the problem of concrete ship or other variant for economical bldg.

M/L. Civil engineers Adm. is allowed to try.

P.M. M/W.T. to obtain report F.U.S.A. on their new methods of bldg.

M/L. T.L.C.s being built like 1st class ships: not rough & ready.

Super accommod'd on crews quarters - too much amenities.

P.M. Let Cab. have a view. on this - w.o. - Admir. in consult.

3rd August. 1942.

## I. T.M.'s Visit. Leakage.

S/Downs. Fri. night history - then in continental Russ. Telegram from T.M. fr. G.B. i.e. before answer rec'd. fr. Moscow.

M/P. Bullitt? Talking ag. about Torch.

EEA. Reports prevalent in history pm. 3/7. Then on Transcauc 5 a.m. 1/8.

Exports say cipher break unlikely

Read preliminary report on enquiry.

S/Downs. 1) Enquiry into leak.

2) Where thd. we now announce? Read terms of T.M.'s note + telegram sent to him: suggesting we thd. now disclose visit to Moscow

L.P.S. Diff. between off. announcement and mere rumour. Second much less certain. May be a "fish" to elicit the announcement.

S/Downs. Trouble if we hide it.

L.P.S. Don't assume they know for certain. Announce it in Secre Session only. And do it Tuesday. i.e. no public announcement about Moscow part of visit.

M/L. Leave it to P.M. to decide what he announces about Moscow.

F.O. Public announcement - give info now to P.M. on C.R.'s telegram.

M/L. Draft Statement for S.Session. Don't refl. to Moscow (or even Russia).

Cm. Whip. WA. force it done Tuesday. In any event, before Wed. adjournment.

L.P.S. & Cm. Whip to meet S/Downs 10.30 a.m. on 4/8.

Bullitt's indiscretion. AE agreed to speak to Whiatt.

i.e. speaking to M/P. about Torch in presence of Layton.

Leakage: enquiry.

S/Downs. By "C" - or if more formally someone else of A.G.

## II. Service Pay &amp; Allowances.

(Layton and S.E. Davis)

W.D. Two questions Tues. / 10/8. One on pay. Don't want to give a stalling answer without knowing mind of lab.

Seen Berkman file (as sugg'd by C/E). Want more figures. No poss. comply US file. Always some anomalous comparisons possible. He nevertheless said he wd. press for another 1/2 a day. 1922 also. However, not thought to have any definite ideas.

Last time C.R. decided to give something, the Secr. Minister thought a few minor concessions wd. do.

Post: looks like slipping. D. Harald has said increases wd. be made.

Non-ministerial Member of Army Council (pros. against increase). Marries soldiers  
small balance in favour of civilian. Small intrinsic case is for some rise. But P.M.  
has led troops to think they're underpaid - psycholog. diff. Recommended:  $\frac{1}{2}$   
a day rise, privates, grading down with higher rank. Notg. more on allowances -  
tinkering with fam. all<sup>th</sup> will give same result. Officers - pros? to Lieut. at  
b mos vis 18. If that done, no case for qual. increase - tho' some case for increasing  
marital allow<sup>th</sup> - outfit allow<sup>th</sup>.

Answer sugg<sup>t</sup> by Ty. won't do if there's any sign of standing pat. "Await debate"  
answer will invite cont<sup>in</sup>. Press agitation.

A.V.A. Qual. ques - no time to consider.

(April) Last time, we were willing to stand fast. Cab. gen way - at cost of £M. bds.

Agitation growing. We like to have more time for details.

Pay of offrs. (junior) we are anxious about; and already in cont<sup>in</sup> with Ty. on this.

V. little demand in R.H. & ratings - except for qual. background.

S/Air. Agree about junior offrs. Feels lit. they are underpaid. Wd. like that considered  
pilot offr. & flying offr. Born? (priv) at b vis 12 mos. ad. help.

Want not to discourage young offrs. fr. marrying Champ. families. Consider a  
increased allow<sup>th</sup> for offrs. with children.

Allow<sup>th</sup> while living with families - but opt "consolidated" allow<sup>th</sup> if they move  
away from families. This is hard on families. Wd. suggest R.A.F. if "consolidated"  
all<sup>th</sup> abolished.

But can't do this for offrs. + not for men. Admit no pressure for increased  
pay fr. ranks. / <sup>Propose:</sup> increase  $\frac{1}{2}$  p. day for M/Cs. Reluc. to b<sup>th</sup> p. day for sergeants.

K.W. Last increase. Cab. Offr. app<sup>t</sup> is consider. At opening each Serv. Min<sup>ister</sup>  
said no demands for further increase + that they didn't ask for any. Partly true  
of W.O. When I said some increase necessary to meet P.M. the W.O. objected v.  
strongly + put it in writing lit. There was no case + demand std. he resisted.  
Non-Servicemen Ministers on the thought something std. be done (partly = of rel<sup>th</sup> to industrial  
workers).

When our Rep. considered, thought so important lit. P.M. said he wd. announce it.  
Reasons a) concession important b) avoid continuing pressure for more: final award.  
We have since said? Quite in this sense.

Since then - arrival of US troops + many more to come. About 6 weeks ago  
P.M. asked what was being considered about US soldiers. I have talked to Winant.  
Hoped some of their pay might be retained in USA. Winant said this was out of ques-  
solved by Congress + jealously guarded by them. Any sugg<sup>t</sup> fr. us wd. be v. ill-received.

No hope of Congress legislating now, when elections pending - little hope therefore.  
Mitigating action taken two Bills - <sup>military</sup> by authority co-operate well in these.

In (Sect) N.Ireland the men are in fact rendering a lot more, & own free will.  
80-90% were doing the right thing.

No hope of taking out pay on US Standard.

This really is only material change in costs since last decision.

Views in W/Commis.

Conservative: "agit" engineered by Taylor M.P. + one or two others with little influence. Taylor got cold welcome from 1922 Ctee. If anything to be done, not on basic pay.

Labour. Saw M/Lab. (Chairman: Sub-Ctee on Service). Impressed mainly with allowances - tho' they wd. have to ask for 1/2 p. day on basic.

Morale.

W.O. put forward nothing much but agitation in Press + its unsettling effect.

V. pressing reasons for increased expenditure £1.85 - 100 at 1/2 p. day (including C.D. Service).  
And a new level set <sup>way</sup> when war is entered into the peace - when armed forces of some size will prob. have to be maintained for some time. Effect in reducing our capacity to afford some re-construction plans.

Anyhow advocate White Paper setting out comparative position.

Officers.

Adm. have asked for increase for all offrs up to Admiral - + no rise for ratings.

W.A. or ready to agree to statement giving no encouragement or expectations more radical. Can Ctee to engine. Put out at same time W.Paper on facts.

U.S. Say we'll lay a White Paper on facts + say no more, save you'll have a debate after. If anything said about "considering", we shall not be able to avoid concessions. settling out facts as to Serv. remuneration  
W.P. { Gt. misapprehension as to Serv. conditions + how they compare other walks of life and W.Paper will show it.

M/L. Take care not to draw too sharp contrast betw<sup>including</sup> Civil + Services.  
L.R.C. formula wd. do better.

M.E. W.O. to agree terms of answer with L.P., + M/L. + Treasury.

{ "settling out all material necessary to enable judgment to be formed."  
Refers to misunderstanding as in L.P.'s phrase.

M/L. Cf Exchequer to answer this Ques as it affects all 3 Services. - Agreed.

M/L. W.A. like statement on expenses wh. offrs. more to invent. / Service Dept. + Ty. after consultation with M/Labour.

### III. Russian Convoy. Statement in Parliament.

S/Doms. P.M. thought would be make public statement.

L.S. But all I want to know is this, if pushed for report in Secret Session, I should say something on the basis of the Press statement.

A.P. Last para. Tully scattering this is not v. good. Reverse order.

S/Air. Third para. Yet when threat materialised they withdrew.

Ch. Whip. Vague - no indic<sup>n</sup> how serious losses were - House unlikely to be satisfied. General feeling that the statement cd. be improved - in detail.

L.S. If Strainwell gets on to this, we'll move into Secret Session + make some such statement as this. Prob. Thursday.

A.V.A. I will prepare another draft (for consider<sup>n</sup> Trust) bearing in mind Sat<sup>y</sup>'s decision and to-day's discussion. Agreed.

### IV. Statements about Second Front.

S/Doms. Don't see that much can be done. Radcliffe not in favour of seeing Editors.

A.V.A. This kind of thing does "impinge on security".

I.P. But you only check statements of fact - not expr<sup>n</sup> of opinion.

A.E. You cd. tell Editors now that one sentence came into the communiqué.

As Capt. Maistly saw him - he promised stringent instructions so that nothing more will be put out by Embassy.

W.O. These demands are doing much harm - to spirit of nation + Army.

K.W. Too tall + too dangerous to touch this.

L.S. D'brook M.P. No good dealing with this on "Press" lines.

Radcliffe has entered the meeting. Said - noting as usefully to advise Editors unless you cd. tell them definitely that it wd., or wd. not, take place.

### V. Foreign Affairs.

A.P. of Russian convoys Re-routing reqd.<sup>n</sup> We have Agreed noting p. here to be shipped via Persian Gulf that can go direct fr. U.S.A. Politically disadvantageous - economically sound. Except - 4 ships via 100 Hurricane etc.

①) Second Front. Soviet News Sat<sup>y</sup> "Hitler is back to June fr. West". Spk<sup>y</sup>. to Maistly on the Agreed

②) Evacuation f. M/Brat. Stay-put - some modif<sup>n</sup> wanted in Persia Palestine (Eng<sup>y</sup>)<sup>\*</sup> Other Sov. Spk<sup>y</sup>

③) Telegram fr. Seymour. Can Air Min<sup>y</sup>/Min<sup>y</sup> again for more help to China. Agreed.

ed. we sweep with American squadrons. S/Air to consider.

L.S. The loan? A.P. No. What they really want is to have this for post-war. We won't do that even for Doms. Seymour is sending another telegram on this. We'll consider when that is in.

4th August, 1942.

Foreign Affairs.

A.E. Known to-day. Rus. had told him to be available for any journey. Wd. it be useful for him to go to Cairo & on. advised him to write Rus. and invite him to visit his views to P.M. - if he favoured it.

L.P.S. Doubt whether his contact with Stalin was partly good.

I discouraged it, when P.M. mentioned it to me.

Leakage.

A.E. Told today at a.m. Put out. As a loss to explain. Started theory of cipher. (R)  
He has learned he is not to go back to Moscow for the visit.

S/Doms. P.M. on telephone has said he doesn't want R.visit to be announced publicly.

II. Publicity for Dominion and U.K. Troops.

S/Doms. Troublesome partly to correspondents in theatres of war.

M/Inf. 18 English newsps. correspondents (accredited) in Cairo.

W.O. Their standards said to be low.

M/Inf. Generality are poor.

W.O. These visits will be sent several times to M/East.

In last 10 days attacks were primarily infantry - they are mainly Done and Indian.

M/Inf. Name done throughout world to England has been incalculable.

Press. Both Amer. Press + returned Amer. soldiers have criticised this.

M/Inf. Ban now withdrawn on mention of names of B. regiments. W.O. now giving reasonable facilities. W.O. 6 months ago.

M/Inf. Content of hand-outs f. Cairo is what matters.

W.O. D.P.R. W.O. has spoken to Press many times on this point.

L.P.S. Then let someone go out + try to straighten this out.

M/Inf. The D.P.R.'s job in Cairo is impossible. He's always wrong. Only way is to leave it to the off. communiques on one hand and on the other to journalists alone. Cover in off. communiques the point about U.K. troops - by instructions - and leave the background to the avoided efforts of the journalists.

M/Inf. I will be content if U.K. troops mentioned in communiques.

Then I will round the journalists out of the Cairo bars and go well informed. I can then stop them f. hanging about for background from D.P.R. talk in Cairo.

Also - the good journalists are all in the Army.

Town note.

### III. Use of Psychologists and Psychiatrists in Services.

L.P.S. I can assure Cabinet on this.

Nash. Para 22.  
P.D. despatch of battle-minded men to M/Easte last quarter of 1941. This was  
proportionate. General feeling (strong) in agreement.

L.P.S. No selection technique applied to draft? W.O. No. But if selection is on its  
leg., they won't get into (or stay in) Army.

S/Dom. Selection for drafts. W.O. to consider how it cd. be tightened up.

M/L. Welcome report. Pleased so long as this is kept under control.

W.O. On Appendix, my advisors think too heavily loaded on the conservative side.  
We prefer that this sit on the left for discussion.

L.P.S. There were suggestions of McNaught & Tameason.

A.V.A. My people think their selections v. bad - fr. st of view of working together. Great deal  
of controversy return. Partick & Lewis v. Service psychologists.

S/Air. I think L.P.S. mistaken in theory. Services didn't agree.

Agreed - subject to revision of Appendix by L.P.S. & Service Ministers.

### IV. Supplies to Russia. Statement in Parliament.

A.V.A. Circulate revised draft.

A.G. Omit para 2 of Note for Supplements - if possible. Agreed.

Ch. Whip. Ministry is in an opportunity for Sh�eville to raise this on Adjournment.  
Otherwise - agreed.

W.M. (42) 105th Meeting.

6<sup>th</sup> August, 1942.

I. India - Possible Action against Congress. (- you heard)-

a) Considering some form of deport? fr. India (Gandhi) who will not involve him in his life.

Destination?

L.P. Prob. best solution to take him to Aden first - by sea. Agreed.

b) Deportation or not?

L.P. I favour deport? : I don't believe Govt. of India will be strong enough to hold him if he hunger-strikes in custody in India.

If more (30-40) who hunger-strike in Andamans had been done as in Bengal, the prob? much more difficult.

I am confirmed in my view by what Vicerey now says about letting him out.

Simon. Then? say to Govt. of India you think you must hold him, even if he does h-strike. Will you be able to? Hence recommend deport? now.

L.P.A. Can you force Govt. of India to agree in advance to hold him over if he does h-strike.

L.P.S. & P.D. with W.D. Disagreed.

A.E. a) You must act. b) C + House + nonsense c) that being so, better surely to take him off now, out of India. We ad. say this to Vicerey now.

L.P. If you get G. away before he h-strikes, good chance the others won't do it. If he starts, the others much likelier to follow his example.

Agreed - a) No C + House. : <sup>mean &</sup> no detention once he gets in, can't be h-striken. b) Tell Vicerey in our view better to take him out of India first - to Aden by sea.

L.P.A. The other 15/20 leaders?

L.P. & W.P. They don't matter if you get G. out.

L.P.S. From publicity pt. given doubtful if wise to isolate G.

L.P. Take 1/2 dozen to Uganda by air - Agreed.

Simon. Send wireless. Offer with him. } Agreed.  
Avoid prison deport?

L.P.S. Publicity - better support of Executive Council.

Make it clear only beginning of big scheme - public documents.

A.E. We like to notify U.S. Govt. + China in advance.

L.P.S. Send details of our plan to President. - Agreed.

M.P. Say we're doing this for sake of United States Nation, not Britain only.

Agreed : Don't tell China in advance.

III. Alexandria.

L.P. Reprisal essential. But prof. perhaps to do it for some other extant purpose.

Telegram approved.

IV. Statements about a Second Front.

L.P.S. Many letters - Press up<sup>to</sup> approach - says that something more had to be said.

Favour statement of what might be done - one brief discord in C.R. this day.

S/Downs. P.M. said "you can say we are going to have a 2nd Front this year." Some Ministers wanted this we said "this year."

"Agree... urgent task" doesn't imply decision to do it.

L.P.S. the communiqué is what causes the diff.

M/L. Why to say anything before P.M. sees Stalin? Anything said now wd. surely prejudice his talk. Best this study is to keep quiet.

S/Downs. Public interest a) Fr. and b) Russia. We didn't know how any statement of ours might affect Russian public opinion.

Now it's only a question of waiting for a few days - and K/Commons not now sitting.

M/L. I told 1,500 delegates of Bldg. trade what this Bldg. was for. The knowledge tht. we are moving is seeping through, surely.

I think that the best way of letting people know. Best form of propaganda is to avoid Pro-Lib. blarney & tell people adding that it's a great front!

Wait 'till we get the text out of the P.M.-Stalin talks.

Agreed - await P.M. communiqué - then consider what we say on wider question.

I. India.

L.P.S. If object is divorce India fr. G., desirable to say somethg. to acknowledge Fr. B... S... movement - help to divorce moderately from G. - + distract thoughts from G.

Draft statement as basis for discussion. - handed round.

L.S.A. No use at this stage trying to do anything to help S's movement.

Clear fr. cont'd with G. W. he has put off his response to this: Nelson has said this for this is past.

Congress isn't interested in constitutional ques - only in creating insolut. moment.

Futile & also bad effect on mod. opinion in India + on Fr. Council. Some members of that Council are beginning to weaken. This wd. tend to make them wobble even more.

Tel. 2315-5. We can't make such a move after Congress went passed.

Firm action essential now.

V.  
Convention of agreeing with Ex-Council grows rapidly. We must to gain every chance of carrying them with him.

L.P. Don't give Sopru any ice. This will be taken as sign of weakness on our part.

Acc. to Russ. If we said publicly nothing drastic will follow hard on passg. of resolution.

Pr. he isn't so sure of his ground - pr. he wants more time to prepare.

W.O. Agree. Saw on statement "we will support him in any action in agreement with his Council". We must make it clear that he must act for good of India, who Ex-Council can be carried along or not. Some of the members are certain to turn out. But it's his responsibility not the Council's.

M/L. We can give way no further. Too late.

M/P. Agreed.

S/Drone. "

L.P.S. I agree W.O. Congress won't accept such overtures.

I agree to strong action v. Congress.

But I suggest this only qua effect on public opinion world-wide as well as India. For we must not behave as tho' G. = India.

L.O. Yes. But way to treat Indians at this stage is "polite but firm". Don't under-estimate their real respect for firmness in Govt.

L.G.A. Dispose of Ex first. Then seek ways of encouraging Sopru.

W.O. Will S/S India convey to V. impression tht. this in acting will not be lost for sake of carrying Council with him. This can be fought beaten; but delay at the start may lengthen the struggle.

L.O. Don't be overworried by signs of wobble in individuals. They can be nursed into collective firmness.

L.S.A. Must [not sacrifice vital importance of show. firmness + determination in this crisis] to advantage of carrying Council with him. Attach v. great importance to prompt action. Will call to V. in that sense.

L.O. Every sympathy with his desire to carry his Govt. with him; but feel sure he will [ ] he will have the War Cabinet behind him.

L.G.A. Pressure for Finance + Home Dept for Indians. None dismissed - continuity preserved - Indianised by increasing portfolios - no need now to turn out 2 Europeans to appease Congress elements.

S/Drone. No movement or change in this crisis. Agreed.

L.S.A. Report of G. V.'s reply to telegram sent last night.

W.O. This telegram confirms my disquiet in V.'s capacity to govern in such a crisis.

He is putting too much weight on carrying his Council with him.

W.J. In this part you must allow V. to be swayed by his Council's view.

I favoured report: I doubted capacity of Govt. of India to handle him. If they give a firm assurance to hold G. even tho' he h. strikes we must accept their view on report. But we must get this assurance.

L.P.S. It's beyond expediency. For acts in India, with all its implicit, will strain the competence of the Council to breaking point.

L.S.A. Will G. fact if told in advance W.O. he won't be swayed if he does?

W.O. Trouble - of V.'s weakness.

Becoming necessary to telegraph to him that he, and not his Council, is responsible

A.E. Sorry he has taken this decision. But can't over-rule him.

L.P. Yes. Say - we change report so. have made his pos<sup>n</sup> easier. If he strikes further, well - but we must ensure it. he will hold G. in spite of h. strike.

No Car & Horse etc., Agreed - as in RFB's notice.

## VI. Mr. C. Taylor, M.P. Proposed Visit to Middle-East.

+ others at Air Min<sup>t</sup>.

S/Doms. Taylor M.P. invited by Mr. Balfour to go to M/East to see for himself. Provided he gets P.M.'s consent. Cause is to see.

S/Air. Let me investigate.

S/Doms. Any real time about M.P.'s facilities? Shall this be a general policy?

W.O. Nothing moved about distant Fronts. There was one tour to France. But not by self-selection.

Anyhow, he's a military officer & and did get W.O. consent.

Agreed. S/Air to enquire. Permission must be refused in this case. Worse prejudice to future conduct of the general case.

Directing A.T.S. to Searchlight Duties. Part Head.

Myl. Anticipated Party diff'ren.

K-W. +/ Do it now & announce it by this time Part. in assemblies. Sept. 8.

Myl. Thought this wd. cause trouble.

K-W. Then you'll have to wait till Aug.

L.P. HQ. are directing women to fire-watching, wh. is more dangerous.

LPS. Surely no trouble over this.

Agreed as at 7.

W.O. Then individuals at only small no. wd. be affected before now Sept. 1st make now moral.

S/Dom. Then can't we wait until Sept.?

W.O. None will be on the job by then - tho' some may be being trained.

Alcohol Policy in W.Africa.

C.O. Better to distil good stuff than sit back & watch growth of traffic in hooch.

Diff'y. is Convention. But its object was to ensure that they got good gin & not too much of it.

Myl. What mind if it were a State monopoly.

C.O. Willing to give that to Govts. If it all, must be done by Govt. action.

A.E. Willing that Convention had to be breached temporarily.

Malta. Us. were signatories. Will FO tell them the reasons?

A.E. I will tell all the respective signatories.

Fried out what French & Belgians & Portuguese are doing about this - & trying to concert a common policy.

S/Dom. S. African gin? C.O. V. high class: not potable by W.Africans: no interference now with their importing it, but they can only sell it to Europeans & the r. richest W.Africans.

Nash. You cd. keep inside the Convention if you manufactured outside W.Africa & imported it. E.g. if S. Africa were willing to distil a cheaper gin.  
(Not much enthusiasm for this).

India.

I.G.A. Little off news of trouble, cur voting in Bombay Presidency. Police only tho' they need nucleus. RSS however report troops called in (Bombay).

<sup>to Govt/India</sup>  
Supply limitation on cattle to I.G.C. - detailed stuff. Not tel. right night to

applied also to U.S.A. U.S.A. willing to suggest further damping down of sensational message.

Halifax. Balance of evils. Damp to give info in U.S. till we are authoring rep. Can't Govt/India damp them down by persuasion.

### Imperial Conference - War Conference.

S/Dom. Telegram Fr. P.M. Mr Smuts likely to come here early Sept. & suggest i. bnp. War Cab. discussions, and get Curtiss etc.

Am Dom. P.M.'s.

Nash. Fraser will be in U.S.A. next week. But has to return N.Z. 16/9. to open Parl. Possible 1st. opening night to deferred.

Bonca. Curtiss not intending to go to U.S. just yet. But wd. try for this.

S/Dom. Will write all P.M.'s suggesting early Sept.

L.S.A. Two半天 up<sup>th</sup> due 8-10<sup>th</sup> Sept.

### U.S. Forces.

W.P. What is being done about social side?

M/Huf. All rel. soc'ts under one hat. Likely to get smaller organ'z going before winter. They will segregate blacks. Contingents of negroes coming to care for them. Negroes weigh - too late in the day.

W.O. F. Stewart at work on some of this. M/Huf asked to get into touch with him.

M/Huf. Liaison with W.O. and Airc Min<sup>t</sup> will be arranged.

M/Huf. No offer to W.P. if we funds differ.

Differ about black troops. M/Huf. Found still more wd. come (up to 200,000).  
of black troops  
Police undertake to use experience in Australia.

### India. Gandhi.

L.S.A. Viceroy consulted Govrs. on w.Cab view. Their views (with one exception) are strongly against allowing G. to starve to death.

Govr. W.P.

W.P. Don't talk about jail. When in prison clear diff'ren' on govrs officers etc, no look after. When under detent<sup>s</sup>, diff'ren' is v. different.

L.S.A. Punjab. favours release when dangerous.

Punjab. less bitter if he dies outside

Bombay. great point. Blunder to let him die in detent<sup>s</sup>. In Bombay wd. then have few friends in any class of community.

C.G. Local reactions most unfavourable - no friends in India.

Hunting (via Ward) No effect on Moslems. Some on Hindu & Sikhs. The opp. class as a whole w.r.t. to v. critical.

Assam. Similar view.

Sindh. Only one is take opposite view.

Viceroy can't disregard the unanimity of Govs. Attach part. report to Hunting's view?

W.O. Viceroy told us everyone was against deport. Waller's telegram shows not only tht. he favours deport., but also tht. he was not consulted on that point. H. being one of the few Govs. <sup>has</sup> had experience of civil disorders.

Ward. We have no doubt myself tht. it will be mistake to let him die in detent. whatever the disadvantages of letting him out, his death in detent w.b. worse.

I.S.A. We like to wait for Viceroy's final opinion.

L.P. What you must do is to prevent ff. carrying on his campaign. - No greater degree of detent than is necessary for that purpose. Shd. be possible to devise some method of detent wh. while securing that object, will leave on others the responsibility for his health etc. And much is to be said for arranging that now - before he starts to hunger-strike - at least don't wait till he is so ill that he has to be moved.

W.O. I wd. leave him to die when he is - i.e. at Poona where he is in a Palace not a prison.

S/Poona. It is up to Viceroy to tell us how he proposes to meet the L.P.'s condition. Put that condition to him & ask him how he will meet it.

I. Provision of Aircraft for the War at Sea. Tari heard.

S/Air. Bomber Command is short of all for aircraft.

M/L. Someone else deal with (c) in memo. L.P.S. Sinclair means (d) is not a priority.

S/Mir. Aircraft does exist to satisfy all.

L.P. A lot re: over-simplification. Bound is in some switching.

M/L & L.P.S. Not prop? re: max conc? on these data.

S/Dom. We need facts to support S/Air re: 1st bombing of Germany is overriding priority.

L.P.S. This paper says we are sacrificing minimum needs for bombing.

S/Air. This puts too much emphasis on minimum.

L.P.S. Report of Bomber Fleet - was it to same effect?

M/T. Need whole picture, include wastage ratio. But deprecate automatic removal of (B) if (b).

L.P. Paper showing what aircraft used for (c) & what can be used for (d) - showing why not diverted.

After mtg. a/b, how are aircraft under (f) being utilized.

S/Dom. EEB formula + wastage. Agreed.

Brice Para 19. Further parts. on air - what types dealt with, why not others. Agreed.

II. Burma.

S/Dom. Can't make decisions, but wd. like to have more.

D-Smit. Returning to: tomorrow is similar: wd. like some genl. guidance.

Great debt to Burma: we don't defend them. Flight of peasants - who will suffer  
consequently. Starvation. Future - economic + political - split road.

Country in trouble before war. Poverty (esp. Upper Burma). Little chance for employment for  
Burma, either in Indian or European firms. Debt - rural moneylenders. Constant  
hostility between Burmese & Indians: almost worst feature of all. Completely corrupt  
politics. These are the abuses we want to tackle on our return.

Period of direct rule after our return, so that we can build new Burma on more  
solid foundation. Economic reforms - abolition of moneylenders (38% is lowest rate  
of interest now!) - medical services - education (essential if there is to be any form  
of democratic Govt.) - legal code. These things do not get carried through by the  
Burma themselves. During the last days, when heavily supervised, the Burma  
Ministers admitted this to me.

Want on my return to begin thinking out a plan. So that when we get back to  
Rangoon we shall know what we want + how we propose to seek it.

L.P. Worth while considering aspects of Burma's situation which appear to

re-introduce C. Col. Govt. This will enable you to associate some Burmans, in more than advisory capacity.

Govt. as Chairman with 4 or 5 Members including 2 Burmans.

L.P.S. What about including Americans & Chinese?

A.F. Difficult internationally to appear to go back to direct rule. You don't really want to go back.

M.P. Philippine model. Direct rule + definite time limit.

M/L. State firms to call upon to make greater contribution to welfare of Burmans.

We shall conserve mineral + other assets for benefit of inhabitants.

D.S. Propose not go into this.

M.P. Bevin's suggestion is fantastic. The big firms have made the largest contribution.

Agreed. Authorise D.S. to study and work up programme for submission at a later stage to War Cabinet as specific proposals.

D.S. to enlist services of experts on this study.

### III. India.

M/L. Labour Party, who are quite supportive of Govt. policy, are disturbed by Press code of proposal to use censors.<sup>is</sup>.

I.S.A. Lumley has re-introduced his Ordinance in Bombay. No off. informed.

May be only one provision in the code - + no intention to use it specially.

I.P.S. V. unfortunate publicity. Can't Viceroy handle the Press more intelligently.

I.S.A. 3 telegrams already sent: no answer.

S/Divine. Find out what<sup>is</sup> attitude of Govt./India towards control over Press.

Say Govt. take a serious view: tidy up undisciplined position.

Also see Editors here, in consult M/L/P.

Find out about whipping Ordinance.

W.M.(42) 112 on Meeting.

13th August, 1942.

## I. Russian Warships and Merchant Ships in Black Sea.

[ Malta Convoy - latest news.

Yesterday. By 1pm, Gauleiter Fuehrer

36 Spitfire flown into Malta + carrier with 600.

1 merchant vessel hit.

6.45pm. Air attack. Heavy hit by bomb.

Destroyer damaged + not to fight.

8.30pm. C.Bom. U-Boat. Damage Nigeria : turns back to Trip.

Cairo torpedoed + sunk by us.

9.15pm. Kenya torpedoed or missed. Prod. turns back.

4 ships of convoy sunk.

10.15pm. Devastation inflicted.

Italian surface force - turned E and went home.

Today. 4.30 am.

+ 16 destroyers + 1 ship 20 m. hit and destroyed.

7.0 am. 5 ships / 130 miles off Malta at daylight = under Spitfire cover.

But fighters didn't miss in tracking + R.A.F ships sunk or damaged.

Out of 14 ships b survive - prob 7.

2 Italian cruisers prob. damaged.

2 U-Boats sunk + 1 probably.

Main losses due to U-Boats + V. heavy attack by E-Boats throughout last night.

If we get 5 ships in, it will give 9 weeks' supplies.] Losses of 7 ships now two + under fighter cover.

A.Y.A. Considerable fleet in Black Sea. Acc. to law, nothing. But to man them interned (if R. don't destroy them). V. unlikely to. Turkey not common at trade of law.

Hence war possibility is the next stage in view.

Submarines might break through.

\* Some months ago we helped them to get 4 out of 5 out. Subject to same could they might do same again.

Some tankers might be Fleet oilers. They wd. have to turn into tankers.

A.E. Approach to R. diff. : assumes they will lose last base.

Turko-R. relations not so good now as %.

We, not encourage R. to run warships into : Turks wd. fight. Don't encourage them even about submarines. Tankers wd. fight by. Merchant ships no diff.

Wd. like 1. 12 send telegram to Clerk Kerr. / Terms of draft nad.

Wd. repeat telegram to Hugesson & get his comments on Turkey's re-actions.

Agreed to amend H. of war of Gr. U-Boat to Spaniards.

L.P.S. Shd. telegram give instruction to - in favour of intervention via destruction?

If we have a preference, we shd. let C-Kerr know what it is.

Halif. This depends on estimate of Turkey's re-actions. Prob. more likely to come in our side than theirs. If so, wd. prefer intervention.

A.E. Unless it made <sup>other</sup> temptation to Germans to attack Turkey. Or to demand their surrender of the ships.

Halif. Say to H. "we've come down on side of intervention : of our view of likely T. attitude." Get his views on this.

L.P. If you can't <sup>indicate</sup> & add para - <sup>probable</sup> if you believe Turkey will hand over the ships - then are you right in saying intervention is better?

A.V.A. Turks wd. surely resist pressure to surrender them.

L.P. They wd. thus put tremendous weapon into G. hands.

A.E. Wd. sooner see the ships sunk than bring ground of controversy.

Genl feeling - prof. is since the warships & not the subs. out.

Agreed. Make it clear to. politically this wd. be easier course.

## II. French Fleet at Alexandria.

A.E. Disappointment - but agree with conclusion.

Had hope that the sailors' interests wd. help the sailors' attempt while F. French or Americans got possession of the ships.

S/Doms. Cd. Laval's recent pronouncement. to make occasion for protest v. use of w/t for comment" to France.

A.V.A. We can't physically stop them.

A.E. V. uncomfortable position.

L.P. But worst poss. poss. if we do anything implying dishonor of G.'s honour.

## III. Shipping Situation.

S/Doms. Const<sup>n</sup> were "provisional". But action is procdg.; and we cd. regard them const<sup>n</sup> now as final.

L.P. Broad retarding - discussed by L.P. C.R., who decided against it. But this on record.

L.P.S. Yes. But keep it under progress Rpt. to Cabinet. Say in 2 weeks' time.  
bulky reports on cuts in materials <sup>import</sup>

II. India.

S/Doms. L.S.A. spent time now propitious to see Editors :: tone improving.

Reason to believe now that trouble is mainly Reuters. Prefer to see them.

Agreed - Easy to deal with them. LSA to see them + or - Reuters.

W.M. (42) 113 in Meeting.

17th August. 1942.

Press interviews by Senior Officers Abroad.

M.L. Statement in Sunday P. by Air M. Lloyd in U.S.

a) Opportunity to cut Rommel's supplies not taken. Report on this.

b) Possibility of taking Tunis.

Dangerous. Serving Ops. abroad without engage in this sort of talk.

S/Air. Must know first if mis-reported.

At worse only Lt. Col. Frank qui interviews dont permission - M/L "is co-operating".

In this case was at B. Embassy got him to open the talk - whom up. is Minister.

One up. abroad T.D. to tell now to give such invitations.

L.P.S. No objection if we had stuck to facts about Malta.

Agreed - S/Air to obtain full report on what he said, who asked him etc.

Halifax. Hope we rule Lt. Gov. Ops. abroad not saying w/out up. home.

E.g. Bill was too asked often to speak - I have said "Yes" if I saw brief. The up. abroad and be in poss. to judge w/out reference home, etc. w. involve delay.

K-W. Unwise for Ops. to enter "political" arena at all.

S/Air. Usually arises "asked questions, wh. they are forced to answer.

If Mal. supp. adopted, I don't mind but I can't then take responsibility.

L.P.S. Diplomatic up. don't always know military background. But I have Joint Staff Mission to advise me.

Statements on - but interviews with Press + much more diplomatic.

Halifax. Rigid rules about interviews. But give some latitude for set speeches.

S/Doms. Statement "I voted can be passed by B. up. abroad. But no Press interviews.

Agreed.

Nash. True young hero types don't have scripts in advance. They just talk. Don't stop them doing that.

L.P.S. Junior Ops. in diff. posn. One ruling shd. be limited to senior officers.

Exceptions can be made in particular cases - e.g. Mountbatten - with permission of War Cabinet.

"Officers who have held high command"

Report on Women's Service.

L.P.S. Suggest Lt. women<sup>1/2</sup> have been, or are being, implemented. Can you publish statement of what is being done.

W.O. Say at publication a great many procomm<sup>nt</sup> have been, or are being, carried out.

Agreed.

M/Haf. Will M/Haf. lead Press on disposal of the rumors + vilification.

M/Haf. Yes. If W.O. will give her a hand-out. Agreed.

M/L. So. 21/212. Immobile women. I think much more can be done. Cf. some the consider in detail. Agreed - also till consider merits of P.R.

W.O. There is a C.R. Ch. will take this in its stride - it is unlikely how work in mixed stations can best be divided between AT3., soldiers, civilians etc.,

### Carlton Hotel as Officers' Club for U.S. Forces.

L.P. U.S. auth<sup>ty</sup> now don't want it. Ops. no against men.

Read letter fr. Gouvernor. Action dictated solely by interests of U.S. Forces.

Took note.

### India.

#### a) Situation:

I.S.A. Generally, better. Most serious in Bihar - interference always continuing at Patna and scattered violence.

Widespread attacks on commun<sup>nt</sup> indicate premeditated purpose : but results indicate lack of organization.

No serious communal trouble so far.

L.P. Report est. Police in Bihar are cause for anxiety.

I.P.S. Publicity in India leads to spread of disorder. Can't that be stopped?

I.S.A. Viceroy is "considering." War Cab. He seems a bit slow. W.O. But really he has decided not to do it - L.P. agreed.

Haldap. Inhabitants of these Ordinance before rule in voluntary cessation of politics of Nat. Press. Then rumors produced an almost worse situation. Pro-Govt/India are thinking of that.

I.S.A. Give Viceroy time + discretion.

I.P.S. Press here can play it down - but not to suggest it. The thing is all over.

#### b) Assurance to Viceroy's Council:

I.S.A. Personal notes wh. members had given

Viceroy's approval to draft art<sup>9</sup>. Since then - amended to meet I.P.S.'s criticisms.

Amended draft approved.

c) Gandhi's Fast.

L.S.A. No alternative but unconditional release or let him die.

Maitree Govt. nor F.C. in C. nor Council will face record.

L.P.S. Why not let him out as soon as he begins to fast.

L.P. This is case. Let him out when he is likely to die. Who will judge that?

The M.D. He will take no risks. What would you give to M.D. - You can't do it. Either responsible professionally or not. He can't accept <sup>what</sup> v. his prof. discretion. With a man of this age, he will take no risks.

Maitree. Then M.D. will let him go as soon as health goes back.

L.P. It's a mockery then to talk about detaining him until health is in danger.

Maitree. Will you eat a mouse?

L.S.A. Original plan - <sup>With Cal.</sup> India didn't like it.

Maitree. I was in no choice. have G. die on my hands. Reinforced by Debs dying.

That being so, we bear handling of it to Viceroy. Make up your mind on the fundamental qn.

L.P.S. Once you've made up v. mind not to keep him to death, let him out the moment he begins to fast.

W.O. Moral of this is to our original decision to deport was right.

L.P. Not going v. Viceroy if you accept my view.

My own experience. I've insisted <sup>that</sup> of <sup>what</sup> to M.D.

You can say "we'll tell him whatever happens" you do what for him - he can cop.

But given this situation, M.D. will play for safety.

Unfair to ask M.D. that. Say "Tell me when my judgment it is unsafe to keep him". Doubtful policy to put G. in, if you weren't going to do him.

V. dangerous to yield to hunger strike.

I did. put him in a ring fence - but take no responsibility for him <sup>except at G.'s request.</sup> his health. No Govt. M.D. / No rules above foot. Then I wd. see it thro'.

That prop<sup>n</sup> has never been put to G./India. This is what I did with Indians in Bengal. Made clear tht. they were responsible. Then let him starve.

W.O. agreed - wished to be so recorded.

Modified form of statement of "Home domicile" in Bengal. Much more well-known in India.

W.O. Quite aware when I was in India. Viceroy asked his Council & also Fida - who said people in India wd. soon get over his death.

L.S.A. L.P.'s prop<sup>n</sup> didn't meet diff.

S.P.D.M. Agreed with L.P. K.W. and L.S.A. learned this the Viceroy.

L.P. Effect of it. dying w. or considerable, in my view.  
Halifax. Tell Viceroy we don't like his S. telegram. But W.P.'s proposal to him. We w.  
withdraw - our only cont<sup>n</sup> being prevent<sup>n</sup> of his revolutionary course.  
Agreed.

(4) Whipping Ordinance.

L.S.A. Telegram P. Hamley. Act v. useful - welcomed by large sections of community.

Spanning road - 39 cases in quells riot.

Priest, q.b.h act only.

1) Asked to find out nature of this instrument.

M/bnf. Why did Hamley broad-cast?

L.P.S. 2) Issue some r-assuring statement.

Agreed - 1) and 2)

W. Hope they won't do any whipping. Agreed { Convey that impression to Viceroy.  
i.e. Don't withdraw, but don't use.  
Strong caution against.

(C) continued.

W.O. Will it be made clear in telegram to us about importance to G. not winning  
or scoring by fast. Issue is who G/India or G. are going to win.

Express grave disquiet about this issue.

North American Supplies.

Took note of W.P. (42) 353.

M. Nash.

Expressions of farewell.

## I. Service Pay + Allowances.

K.W. Debate live - people want a put now, let's do it. Govt. W.Paper said "matters with Govt. will know all about it." We can't consider + announce decision later.

Conservative - division of opinion likely.

S/P/R. No comment.

L.P.S. V. dangerous document - will provoke demands for increase. Shows soldier much lower paid than industrial + p.a. workers.

K.W. You are comparing raw recruit with worker who has been in industry for long time.

L.P.S. Wrong to make the comparison at all. Confine to statement of Servicemen's pos'.

K.W. Face fact Mr. comparison has been made or made. This puts it in proper perspective.

L.P.S. The nearer an comparison the greater the danger. Close enough to provoke argument that the narrow gap shall be closed. But put the facts, w/out comparison; and don't i wish Mr. comparison can properly be made. Only true comparison is what spending money has each left.

L.P. I.e. purpose of Paper is to show what would be consolidated rate yielding all allowances if he were in civilian life. This is the equivalent of an income of X in civil life.

W.O. Necessary to bring out diff' in system - e.g. differential pay of married men. "No comparison can fairly be made" vice "consider before comparison is made."

Parliamentary. Is Lord Ward right of L.P.S. Promise of W.Paper was explicit expectation in that: avoid + giving for materials for argument.

K.W. Remarkable that, when last addition made to pay, Adm. said no occasion for it. Then, a few weeks ago, Adm. asked for increase for offrs. and nothing for men. Then they heard W.O. suggests another 1/- a day. Then suddenly Adm. finds Fleet + much disturbed by announcement of W.Paper and advocates increased pay for ratings!

H.O. Repercussions on C.D. pay. We have rejected industrial analogy; and stuck to cash value of entitlements of married soldier + 1 child. If you prove your case for Army pay too well, C.R. will ask for more! W.O. like further chance to consider W.Paper.

S/P/R. W.Paper did not appear to make out a case. Factual + objective.

Chairman. Off. class "especially favoured" in income tax. K.W. Modify working to avoid that.

L.P.S. Benefit of pensions not mentioned. W.O. Other than regular, don't get any care disability.

L.P.S. Cheap goods at N.A.A.F.I. H.P. Mention these as further indications off. you can't make precise calculations.

Halifax. Last para. to foot of p. 3. K.W. This has been done already.

K.W. Let me re-cast, in consult with H.D. and L.P.S. Service Minister to see final version. Publish end of next week. Agreed.

W.O. Tactics in debate. Shall we not make up our minds in advance.

K.W. Better, as they want to air views, to listen.

H.D. But Govt. is losing its initiative then. Tendency to consider will only mean concessions. Sooner you make up your mind & say so, the better.

S/Air. If we are going to make a concession, K.W.'s tactics are right. Otherwise, not. Generally agreed - decide before debate what concession is to be made.

W.O. If you make it, do it on pay not by bidding with allowances.

K.W. Then Cols. Chs at once.

Ch. Whip. Agree with, if we aren't going to consider concession, better say so at once.

Brentif? Our pos' has been changed - of rise in mercantile marine pay.

L.P.S. You will never get this right w/out having a wages policy - for not of war.

H.D. Quin of policy on Service pay to go to L.P.Chs? Agreed.

## II. Participation of de Gaulle in Preparations for Operations in France.

A.E. Troublesome - no ideal solution.

We all agree 1) F.F. is to arrest "in absentia" in Madagascar.

2) F.F. not to be used at all in Torch.

Sorry they know so much about it. Heard from Bullitt  
& quin G. Phillips (U.S. Embassy).

France itself: The more you intend det. in air, the easier to keep him out of Torch. I recommend fullest practical use of mis in Round-up &

S.O.E. in Met. France - as a way of keeping him out of Torch.

I don't have as much hope as C.O.S. of Vichy Army.

C.O.S. W.P. 349. para 2. Re-considered.

(1) Kill of Army: but now agree to return of Air Force.

(2) C.I.G.S. has talked to de G. about co-ordin. of sabotage etc. with plans:

esp! Lt. S.O.E. is general staff for this. We wd. like S.O.E. to go on co-ordinat. & be on line with us.

Selborne. de G. was no secret organist in France. Various units work on their own use him as symbol. We will go on co-operate with him & will help him. But don't want to hand this over to him in France "he has no organisation there."

S/Doms. Long-term position. A.P. Don't know what de G.'s future pos' will be after Torch.

L.P.S. Difficult with French gov't? if 2 diff. organiza'ns working in parallel w/out co-ordination.

Silberr. Many independent groups etc. came to life independently - & now de G. only as symbol.

Please suggest of working this as key in with de G.

L.P.S. This not now, de G. will soon be working a separate organization of his own.

S. Germans can treat organiza'ns in France much more easily than in Norway.

A.E. Consider closer co-ordination - S.O.E. being channel for contact with C.O.S.

S. We must maintain our own d.G. contacts - wh. he wants us to reproduce.

C.O.S. (4) in para. 2. Strike fact v. dangerous to let F.F. HQ. be known plans. But no diff to d.G. being assoc'd with plans for administration in France.

W.O. U.S. if they command M.D. is responsible for admin'. And let M.D. responsible for [ ] out One taxes view to de G. this not to do.

A.E. Tendency for U.S. politicians to encourage de G. overmuch.

L.P. [ ] is an impossible view.

S. We expect bitter civil strife in France when Beche goes. Our contacts are with the people who have been sitting on the fence.

A.E. Surely you'd keep yr. Vichy contacts quite separate from yr. organization in occupied France.

W.O. On (4) dilemma. In military occupied territory source of info is military commander, whom object will be to restore civil Govt. In France, there is no constituted Govt. to restore - as in Holland or Belgium.

L.P.S. Isolate occupied fr. unoccupied France for S.O.E. + admin' purposes. And broadly, bring de G. in on former while excluding him fr. latter.

S. and S/Doms. Not so simple. Unoccupied is base for work in occupied F.

A.E. 3 (admin') - postpone till after Torch.

2. S.O.E., S.I.S. etc. Bring this in for occupied F., and leave ourselves a free hand with unoccupied.

1. Operations. What do C.O.S. say?

C.O.S. We don't disclose until late stage, for security reasons.

W.O. What wd. you say to this. Afraid of them flying off the handle if told nothing. Mr. Fisher is tell them outline + put them on honour not to disclose.

V.C.I.C. They know we have plans. We can say v. little w/out going into detail. Some  
Any detail passed on to people at de G. HQ. is gone - no security at all.

If we begin & then have to refuse to go further into detail, we are worse off than ever.

S/Downs. Can you bring him in as technical expert - e.g. on tanks?

W.D. Adding would be injury.

L.P.S. Can't keep him fr. knowing what we are at, can you?

V.G., G.B. Agree fr. British, yes.

A.E. I think he knows already.

But I wd. be ready to rely on 2/ + hold up 1 + 2 until after Torch.

My problem is to prevent an explosion when he hears about Torch.

L.P.S. What is option no 3?

W.D. It runs back into 1. Also U.S. has the lead on this.

S/Adm. After Torch you really can't keep him out of prep'g on Round-up.

S/Downs. Impose. to give him info. about op'. plans far in advance.

Impose. to keep him out of consid' of admis' problems.

Needs looking into.

Wolff. Can't discuss open' plans.

Cave talk is him about S.O.S. activities. Explore & discuss + gain time.

Admis' - discuss with him principles or hypothesis not plans.

Principle - gain time, talk, tell him nothing about plans.

L.P. Face it. C-in-C is American, <sup>Citizen</sup> does not mean that sole source of all political power is American. He is i/c on behalf of U.Nations.

W.D. V.well. Then my drift still stands : the Americans take this line. I'm not saying it's not our affair : I'm saying only that it may be diff. to carry US Army with us on this point.

Agreed. Approach US Govt. on 3 + get their consent (F.O.).

A.E. Beware of developments after Torch. Someone else may come fwd.

L.P. Consider trouble by keeping d. & G. at arm's length.

Agreed - { Do 2 + 3 (subject to US consent)  
                  { Leave 1 alone.

### Death Sentence in Belfast.

S/Downs. 6 men condemned to death in Belfast for shooting policeman. Appeal now pending.

Reply from Env. to US Govt.

Has we any locus? Ordinarily p. of mercy is for Govt. N/Ireland: but clause in instructions st. he personally with advice of his Ministers shall consider any case in which national interest involved.

L.P. Only <sup>one</sup> incident. Prison warden in Londonderry Gaol killed by accident in an escape. G/N Ireland favoured execution. Fitzalan inst<sup>d</sup> by HMG. So. on political grounds he must recommend <sup>opinion</sup> mercy & did so.

L.P. Intent<sup>s</sup> guilty - enable Govt., who ordinarily is constitutional sovereign bound act advice Ministers, to exercise personal discretion. Not intended to put Govt. in post that he must do what U.K. Minister advises. He must take adv<sup>c</sup> of advice fr. N.I. Minister: but he carries a personal responsibility too. He is not bound to take advice of U.K. Minister.

Put no test in Fitzalan's case. It was up to him to him that large interests of Empire & only be saved by upriev. After much anxiety, he decided himself to follow that advice, or take that view.

S/Doms. Considering We cannot <sup>concerning</sup> avoid/tacitly our advice.

H.O. If a case arises when Empire or foreign country are involved, Govt. must take their adv<sup>c</sup> & we may wish to give him our views.

Does this case come w/in that category? Eric + U.S. raised qu<sup>s</sup>: but doesn't follow that we are obliged to give advice.

Gang violence - policeman was Catholic, brav man, awarded Police medal.

Eric bound politically to raise it. If we don't give way to him, doubt if anything will happen.

U.S. have only conveyed to us info by Eric Minister, without comment.

But if we advise contrary to N.I. Govt. trouble.

My view is <sup>likelihood of</sup> is that of repercussions not such as to require our intervention.

Seriousness of gang murder.

War Cab. did not ask me to intervene at all. Not a case of the character which calls for any intervention by U.K. Ministers.

S/Doms. I am told a) promiscuous shooting.

- b) we don't shoot b men for 1 death in this country
- c) bound to have trouble in Eric if we don't upriev; and some influence in U.S.

a) U.S. troops in N.Ireland, whom Govt. is not judiciously minded.

A.E. I went thro' this over Coventry murder. And I will now admit I was in the wrong. There was no trouble in Eric, or America.

L.P. Gave particulars of Coventry case.

On qu<sup>s</sup> of 6 people killing one. 

Name	Practices of govt. to reduce no. hanged by reason smallness no. killed.
of 6 people	Might discriminate on basis of degree of complicity.

Agreed - insufficient ground to intervene. Side is stated in terms of "Ministers have" or Cabinet <sup>Non-Parliamentary</sup> - not personal responsibility as in case of murder in U.K.

W.M. (42) 11b&c Meeting.

22nd August, 1942.

Middle-East : Division of Command.

C.A.S. C.O.S. consider. Welcome unity of Air Command. On splitting Army Command nothing as yet to advise esp. to W.Cab. on 7/8.

V.C.I.G.S. Welcome Wilson's appointment.

S/Doms. We can only endorse - Agreed : S/Doms to telegraph accordingly.

V.C.I.G.S. Estimated strength of Rommel's forces.

C.A.S. More 100 up on us in aircraft - but some are Italian.

L.S.S. Tunis article to-day - ill-judged. Can't trust to give guidance? - Cd. we not have more time to prepare ground for the next announcement.

Ismay. Myself did see Editor's info announcement & Ambassador.

Agreed - Myself to see Tunisian Editor.

W.M. (12) 117th Meeting.

24th August, 1942.

P.M.'s Journey.

Sir Home announced P.M.'s return. No one to be told until arrived in U.K. Then other Ministers, High Commr., Wizard & Maistly. In advance War Cabinet + C.O.S.

### I. India.

L.S.A. Misses advised in 5 Provinces.

Last Telegram 2658-5.

Hence not worth discussing till Govt's news known. Agreed.

Tendency is suggest Govt. not in Council should exercise greater influence in Province.

Moderate to overrule on Prov. autonomy in name of Indianisation.

Assam will now return to democratic govt.

General Situation.

(now an only castle of trouble)  
Loose better. Even in Bihar improvement in most parts - still actively in some areas.

Loyalty of Police (except in Bihar) striking.

S/Doms. See Column not Congress?

L.S.A. Telegram - some movements unlike Congress inspired. May be engineered by forces directly by enemy. Money behind it - prominence of students (the Muslim students have held aloof).

M/L. Need for labour policy for India at present stage. Political strikes : only people organising labour or politicians. Standard of life too low for state of production. Viceroy shd. consider development of social + industrial policy for India.

of Indian seamen : paid less than Chinese. Obstacle to improvement = big business in India. Insurance contributions paid into pool for B. seamen : if they wd. own an Indian Seamen, we cd. let them bear the contrib' in respect of labour.

L.S.A. On seamen, M/L, M/W.T. and I.O. considering post now - hope something will emerge.

L.P.S. A good man shd. be sent out to India. M/L. Looking into that now.

S/Doms. Cabinet is having a report on progress.

Gandhi.

L.P. Viceroy in recent telegram S - strongly in favour of letting G. starve to death : + added all Muslim members of Council ad-hoc same view. Yet after time of decision we were assured that all opinion was solid against that.

This was a relevant point on Mr. Cab. He had had information at the time. We are told now : but not told at the time of decision.

Gave us a partial opinion - without telling us it was a partial opinion. Disturbing.

L.P. Intelligence in India etc. We can't find out who anything more behind the disorder - e.g. attempt to cut Bihar off. Important that, if this is so, we should show it up & make full use of it.

## II. Machinery of Government.

L.P.S. Re-consider in light of war experience + post-war needs.

Small Ctrs - L.P. in Chair - co-opting as necessary - report to Cabinet + decide then whether publication is advisable.

K.W. "Other central auth" in +. govt. L.P.S. Semi-Govt. Bpts: not local govt. except its relation to central govt.

S/Doms. Civil Service. L.P.S. Yes. "machinery and management"

M/L. Distribution of functions? L.P.S. Yes.

L.P. Haldane Ctr procedure inappropriate for domestic govts such as super minister. Hence liberty to call in outsiders but not giving them responsibility + not necessarily publicise all the results.

Merits - agreed.

Procedure - agreed better to do it "domestically." Against "outside" bodies.

Too much work? L.P. Steady: and skilled Secretariat.

Method in memo: agreed. Personnel to be decided by P.M. Either S.O.S. smaller the better.

## III. Parliamentary Business.

S/Doms. Shd. Parl. meet earlier than 8/9, now that P.M. is back; for statement by him. General feeling = public content to wait + give P.M. a rest.

Ch.Whip. Heard nothing. Pres. don't now expect it. P.M. averse from it. "We shd. have little to add."

S/Doms. Then hope P.M. won't broadcast.

Ch.Whip. When return known, put out idea that he shd. have a rest.

Programme - agreed as last year. Meet + sit 1 week: adjourn 2 weeks later; then clear up outstanding business; need a few days recess before new Session.

## IV. Foreign Affairs.

visit to day.

A.E. Argentine Pres. / Pres. do? in view of Brazil's declaration. "If Brazil wants us in they had better ask for our help" i.e. better way than U.S. bullying us in.

W.M. (u2) 118 in Meeting.

25th August, 1942.

### Foreign Affairs.

A.E. Visit to Turk. Prob. fear of pressure on Turks - if R. fall back in South. Emphasized lack of armaments - where we. do offer to help to supply them. We had taken American supplies en route for Turkey. Particularly, need anti-tank guns.

? 2½ pds. C.I.G.S. Share of arms for Iraq-Persia front.

Cd. P.M. see the Ambassador? P.M. Yes.

### Talks with Stalin.

P.M. 4 Mdg. will be added to of circulation. True opinion - large man: great sagacity. Exploit some past mysteries. Re-war message of our Mission to, "certain B. didn't intend war - we - frame-up with French." Confirmed by our offers - F. So Davis and B. 3 Davis. Sure H. wasn't blufing. At Munich an effort might have been made - after lot. will with our armed strength.

When Molotov there in June '40 you raided Berlin. Ribbentrop took him to shelter. Effect on M. of his visit here has been permanent - never stops smiling - now thought in Russia to have a B. orientation, whereas of old he had a German orientation. Public statement. If battle in next few days, will broadcast on that - & swing in some references to these other matters. If not, then I will wait until Part. in assemblies.

Stalin did not exaggerate his plight in order to exploit or extort help from us.

S/Downs. Expresses gratitude of War Coll. to P.M. for his great efforts.

P.M. State of Persia - v. good impression: thought well of him.

Khediv - didn't care for him. Liked Nahas Pasha.

Reference to need for memorandum (?) to keep our rep'ns cool in last despatch.

Will send telegram to Stalin to-night, thanking him.

### Air Services to M/East.

P.M. Everyone wants better services, but what is the cost?

C. V. da problem - Nov '41 - Air Min? were doing their best <sup>from</sup> 12,000 lbs. a month April '42  
But apparent to G.P.O. did not get v. little of the increase. 16,000 Sept. 42.

When 16,000 lbs. total, G.P.O. wanted 7,000 lbs. Secr. Mpls said impossible.

Failing agreement, asked COS. to fix priorities - they preferred urgent freight to mail.

S/Min. Promised 14,000 lbs. to end Aug. when 16,000.

Average already 16,500 in last weeks - in spite of great diff. Doug & Whittys.

Better than our promise already. But we like to do still more. Reciprocal morale point.

Now considering <sup>(a)</sup> taking 1 Sunderland <sup>from production</sup> a month for 6 months beginning Oct.  
(out of 7 a month)

(b) (reluctantly) taking Warwicks (6000 lbs. for 800 miles range) - 10/12

night to provided - at expense of Bomber Command. 2/3 in Sept.

rising to 10/12 more next few months.

Result: from 16,500 <sup>increase</sup> - by 10,000 by end of year.

P.M.G. Substantial increase in aircraft capacity - already - but no increase in allocation of space for mails. That static for 2 yrs. This p.c. + airograph not enough in view of (ours). Demand for scaled <sup>air</sup> letter (b.d. a time). But I need 6,000 lbs to start it. No prospect, not only of getting that, but even of mailing. P.C. + airograph. 4,000 lbs. had recently to go by sea to W. Africa & thence on by air. 1,500 + will have to go in end Aug.

Army grows + little chance of maintaining existing facilities, still less provide more.

Feb. '42 p.c. <sup>lead</sup> = 953 lbs. a week } Due to increase in Army strength  
last week = = 3,106 " . . . }

M/L. If capacity is raised by 10,000 lbs. can't you get some of yr. extra 6,000 lbs?

W.D. Port we must have a large + steady allotment before we can start a new venture.

P.M.G. More than allocation - shortage of capacity. I can't ask for priority over tanks etc.

S/Air. We can put extra staff on for special crises for eg. tank spars.

P.M. Matter of high military importance to ensure that the Army gets its letters.

Let Coastal Command + Bomber Command (1:2) provide the aircraft needed.

Morale of that Army must be maintained.

A.Y.A. Crisis of U-Boat war a bad time for me to give up even one more aircraft.

P.M. See what can be done. And remember this is a military objective. The men's minds are more important than their bodies.

Reading matter (by sea).

P.M.G. I want 6,000 lbs a week on a definite basis.

S/Air. I accept that ruling - if we can work up <sup>space</sup> fr. Oct. onwards.

P.M. ① Mandate to produce a scheme for 6,000 <sup>lbs. a</sup> weeks to start in a month. If the cost is shown to be too great, we'll re-consider. But vital military objective.

② W.O. to submit scheme for reading matter. Heldg. re-printing in Cairo.

W.M. (U2) Night Meeting.

3rd August, 1942.

Air Raid Damage.

- H.O. High-level - single bomb attack. B.M. 48 killed + much damage.  
Survivors 5. 6 seriously injured.
- P.M. Importance of avoiding announcement, indirectly, would. Why not make up announcements.
- H.O. No casualties issued. Will look into issue of giving it away to Press.

China.

- A.E. Air & Instructions sent. Part Mission (2 M.P.s + 2 Peers) are being sent. This will help.
- P.M. Why send 2 good men away for 3 months? A.E. They will do good. They were chosen by Speaker. Churchill knows.
- L.P.S. Announcement in Press today that S.A.F. will be there. Looked official. Where came it? S/Air. Received info sent to Paris. Myself promised to enquire.
- A.E. Groundstaff already there - doing nothing - bad impression.
- P.M. Favourable sending a squadron. S/Air - considering only what it can be done. Are in favour of it, if practicable.
- P.M. Received air broker v. Party mission; and indicated that he would like at least to be consulted in advance before anything like this is done again! Home to China.
- A.E. Third C/E is right. Can't be pressed further.

India.

- Gandhi starving.
- L.S.A. Vicroy's latest telegram - his suggested conditions seem acceptable to Vicroy.
- L.P.S. Put the issue as it presents itself primarily to Cabinet. Issue = who is to be responsible for his health and welfare.
- K.W. Against letting all his friends visit him.
- L.S.A. Showing no signs so far of wanting to starve.
- P.M. Indian show-down v. satisfactory. Reciting v. favourable. Congress shown unable to move the masses - a great flop. They have come out as a revolutionary movement: influenced or working with Japanese: and have failed. Show that Congress don't represent India - only Congress caucus and Hindu priesthood.
- L.P.S. Tell L.S.A. that this impression has been done by Indian Economic Council and 5 Indian Provincial Govts. P.T.P. Go slow on this - the Council may get run out.

H.O. Take the money from the offending Indian rich & distribute it to the suffering Indian poor.  
M/L. Time is overdue for progressive social policy in India.

P.M. Yes - Start an anti-profitless movement. Why doesn't some Indian Party take it up?  
What death-duties? P.E. None. P.M. Why ever not?

Agreed - Suggest to Viceroy that he submits same proposals.

### Disciplinary Powers of Indian Army Officers.

L.S.A. (1) No legislation here.  
(2) Numbers. Mostly junior officers. V. few in command. A few 2nd in command who might command temporarily. Considered L.S.A's suggestion of giving King's Commission when occasion arises. Diffy is lot. need often temporary - awkward to make them permanently diff. in status. Also automatic take over when superior wounded.

Numbers small - but principle important. They may be turned out, as Washington was being put under <sup>junior</sup> B.C. officer

W.O. Worst moment for an inevitable change.

G. was writing about misconduct of B. troops. It will be raised up against you.

S/Dom. You are presenting this with great argument against us.

P.M. pity to raise it now.

Agreed - accept L.S.A's proposal.

### Status of Home Opinion.

P.M. State of morale & good. K.W. Always is when Park is not sitting.

P.M. How long do we sit? K.W. If we sit on the Friday, we may get them to go away for 3 weeks. Two days on the war.

P.M. Statement first day about D/Kent. Follow with general statement on the war.

A.E. Impression in Press etc. 2nd Front is off for this year.

P.M. Important to play up the Germans - not let them draw off troops fr. France.

Took note.

### Re-organisation of A.F.V. Division of M/Supply.

Took note.

Air Min. will now give them a modified system of operational training. S/Adm. we like to tell Ambassador as he had to refuse him before - Agreed.

P.M. May be able to spare some tanks for Turkey if Libya is cleared up satisfactorily. W.O. to look into it. 2 Adm. agrees also.

Russia. Mairits - troubled by recent advance on mobility of Armies. Home to take precedence in over tanks in one convoy. We'll do this. Transport aircraft also. Said, however, that we haven't any. Adds about U.S. output.

No record. P.M. Preparation of another P.Q. Convoy - will have to be considered by smaller unit. Within the next week.

de Gaulle. Syria receives subsidy from us. Propose to hold it up - as pressure.

#### Air Raid Damage.

W.O. Small attacks. Main diff' as in C.A.S. statement. Casualties not heavy.

#### India : Detention of Ghandhi.

I.G.A. Visitors - stand as in telegram.

Armed forces - determine unlikely to go D. to play.

W.O. ask Viceroy to reduce visitors to minimum.

Macaulay no indication to, he will fast.

W.O. Doubtful about visit <sup>in</sup> principle : danger of communication - off with Taps.

Agreed - subject is caution to Viceroy about not going too far.

M/L. Have you <sup>telegraphed</sup> written Viceroy about social policy. I.G.A. Yes / But we can do it in 3 Q.B. Provinces. M/L. But was there not an understanding that protection left off. not to be introduced while interim Govt. in force?

W.O. Something like that. M/L. But 3 years have passed. We really had act on this now. Areas being industrialised.

#### Publication of Documents

F.O. As in memo.

We ought to get out documents now & f. If not, at least prepare for public's + damaging our interests by not doing so. + release at appropriate moment.

K-W. Weight & size. Not 20 people will read them. Only damaging excerpts will be published.

A.E. Also a shorter document draft, we will sell.

S/Doms. No reason why there to be published.

M/Lif. At least prepare for public

H.T. Wh. not object to publ? now of the shorter edition.

Simon. I did read them, at yr. request, + I made a report. No v. decided line - but what advantage will be gained? They show up to. as unscrupulous and treacherous - but all know that. On other hand, the material is offered for those critics who want to pick out damaging documents.

L.P.S. Opinion in K-S. is the most important consid'. This will provide the material for those who wish to support us.

Prepare for publ? (incl. short version)

Cabinet auth' for same to be obtained.

Air Transport Facilities. Note taken.

Scientifics Note taken.

Service Pay + Allowances.

I.P. Double War Pay. i.e. 3/6 in 7/-

Children's Allowances. and other points as settled w/ I.P.Cte

Estimated cost £50M. - incl. increases on C.D. pay.  
{ £34M for  
{ £5M children 3<sup>dps</sup>/pount 3 for offr. allowances.

Agreed.

M/L. <sup>to men - 16</sup> Cd. Rises / top stories about coloured Troops?

Herald to-day. Dance at Eye.

P.M. Discuss it with M/Lif.

Parliamentary Business.India Debate.

Friday

L.P.S. Yesterday adjournment - free at present.

P.M. Anyone can raise any subject in debate. But don't want organised debate India  
(Said: have arranged in order to discuss y'day - at least military situation.)

A.E. Pity to have whole day on India.

L.P.S. If others raise it - shall we then Govt. reply?

C.W.Hip. If debate raised, following P.M. statement, Govt. to make the Statement on the adjournment  
not report it. To ad. rule or statement, not speech.P.M. In that case, I would prefer to make a speech. L.P.S. Better not. We encourage  
a daily Debate.L.P.S. Statement on 9.9.47.

P.M. Why encourage criticism?

L.P.S. Didn't. Required last opportunity to express support.

P.M. Silent support is pro. Govt. W/C. in v. good mood - better to have left them alone.

L.P.S. Govt. effect was bad. P.M. Disagreed.

L.P.S. If Parl. is real, then after a month's holiday then they might wait - at least until  
P.M. had finished his speech.

P.M. Didn't worry me - luncheon engagements etc.

S.Doms. Real diff. in hours of mtg. Lunch breaks first speech - and effect > dinner  
hour in place.L.P.S. House won't agree to meet 2 pm. Ch. Whip. Papers going early to Pres -  
diff. of transport - reasonable W/C. M. want to go on mtg. earlier.

P.M. M.P.'s don't work by mtgs. Speeches: watchdog can be silent.

L.P.S. Diff. view - many Members can debate w/out snatching.

P.M. Country not perfect - getg. on with their jobs.

A.E. q. Maude- Guardian - debate not an anti-climax.

S.Doms. Members with engagements (Ches etc.) "missed" after P.M. has spoken. And the  
Ches etc., who are part of Parl. life now have to be crowded into the 3 days sitting.  
[Torb. Danger of pieces of report being built into a story.]India - no organised debate. Day is free if others raise it.P.M. See. I made my India statement Thursday - in order to separate it from Debate. Then  
leave Friday free for all subjects at choice of members.

"P.M.  
Say today - we make more statement on India tomorrow." If asked about  
Dobie - say "not to-morrow : interference with Soldiers' Pay : but there's Friday  
when any subject can be raised on the Adjournment."

[ Enemy convoy <sup>Mediterranean</sup> / 14 ships. 1 sub. claims one. Liberator claims hit.  
Looks promising.]

I. Parliament. Debate on India.

Ch. Whip. After P.M. statement (adjournment talk + later debate) Conservatives tabled a motion (ib name). Argued w.r.t. this we stop discussion to-morrow, on pdl. P.M. had promised time for formal discussion later. Done deliberately to stop discussion to-morrow.

Ch. Wr avoided by saying no definite date for future debate - S.O. "reasonableness time".

P.M. Don't want benefit by trick. But don't want debate won't division.

Prefr to promise debate w/in 2 weeks of ultm. But ch. bring house back for formal debate Tuesd. + Wed. Much less harmful than sporadic talk Friday.

W. During ult. trying hard to avoid debate. Stop. p. statement wd. clear the air. That statement did however irritate certain sections of House. I sugg. to Speaker etc. we hold main organised debate Friday - balanced views. Then resolution put down. Our policy is avoid Divs - ult. is what I've tried to avoid - eyes of the world on this discussion. I recognise no trick & but can't convince my Party of this? Put down, I think, to meet the challenge given this morning. But I wd. prefer a debate to-morrow, without a Divn.

S'Doms. A lot of steady Labour members wd. speak to-morrow. Balanced views.

L.P.S. If taken on Motion debate will be called in turns.

M/L. Found tempers in W/Commons to-night running v. high. All this among our friends, not the Shirwells - they feel they'd been tricked by the Motion. If debate to-morrow avoided, we may get ult. in Labour Party v. members of Govt. Our out Labour friends who have supported us in the India Congress - must not be allowed to go off the rails over this point of procedure.

Ch. not likely wd. withdraw his Motion? L.P.S. They can't.

P.M. If we say to-morrow full Debate w/in 2/3 weeks of re-assessing, Speaker will call no-one on India. If we don't say that, he will call India to-morrow. Therefore the issue is in hands of Govt.

L.P.S. Care - if said P.M. promised debate, does that stand: answer wd. have to give. P.M. "I won't say anything to-day, it will hamper the House in their desire to talk about India to-day." "On some future date, dependent on events in India." wd. meet Speaker.

P.M. What sort of debate do we have to-morrow?

S'Doms. Solid voice will be espd - tho' some scammers will no doubt intervene.

Gave promise of future Debate in time agreed with Speaker, and then let the discussion on Adjournment proceed.

P.M. Feeling only about Resolution?

L.D.S. Not only that. Some diff<sup>n</sup> in provocation tone of P.M.'s statement.

A.E. If it goes ill to-morrow, we can put a Govt. motion down & get a vote later.

Why did Conservatives give the Resolution down?

Ch. Wh. V. largely : they believed this was not the time to debate India.

L.S.S. P.M. & I have both said they had chance of talking about it on Friday.  
Say - we don't want to take any action w/o. wt. debate discussion.

L.S.A. to speak at about 3 p.m.

---

Right of accession - discussed.

Decision - We would rather to have had fixed debate later. But as expedit<sup>n</sup> raised, we. not to prolong Supt. take any steps wh. wd. make that impossible. i.e. no date for future debate sufficiently precise to prevent Speaker from calling people on India to-morrow.

P.M. Remains only to square the people whom I promised to-day a debate soon after recess. Ch. Wh. to see these Members.

Made it a reasonable Debate to-morrow.

W. Greenwood will begin. Will take line of Labour party resolution.

Eric Waller will follow. Supt. will take whatever names sugg<sup>d</sup> to him.

## II. Citrine's Visit to U.S.A. Statement at Blackpool criticising Halifax.

A.E. Saw Citrine about his visit to U.S. Said hoped he would go. He gave no promises in initiation with us or them.

L.P.S. In telegraphed saying <sup>he</sup> understood A.F.L. wanted him to cancel his visit.

A.E. We had said we wished him to take initiative.

To-day he spoke at B'pt. - disclosing that we had asked him not to go - criticised Halifax for his advice. See account in "Star" this evening. Said to give false impression of what happened.

Supt. I say something in support of Halifax - who was [advised by Tawney & H. Butler] will wait & see what Press play it down. If they don't write him P. Notice Ques + answer firmly to-morrow referring to [ ] & say satisfied with H. advice.

M.L. Say it - whether Press play it down or not.

W.M. (42) 17th Meeting.

14th September, 1942.

### Foreign Affairs.

P.M. Libanon situation : mainly planning.

Worrying about P.Q. If only Y.S.A. get this, is it worth while going on? More radical  
course must be considered.

### Air Raid Damage.

W.P. Light work : but fear we shall get it later on.

P.M. Milestones round necks of our Bomber Command.

M/L Are we May up our AA. Defence for the winter? C.A.S. Borrowed a lot ; but  
we have good allocation of Bofors guns for Sept., with no ad. use.

Current prob' in G. - only 1,200 operational types p. month + training (Transport)

Total potential bomb strength v. us on 1/1/43 only 450. (Intelligence estimate)

That wd. mean only 250/300 on a big night. Allows rather large wd. in Germany  
re fitting etc. V. low - didn't put too much weight on it.

### Supply of Transport Aircraft to Russia.

W.P. Saw mainly Tri : said more in prob' here : > only one type in large scale prob' in U.S.A.

Promised ask P.M. to consider approach to President.

Reckoned to convert Wellingtons : but promised to consider other possibilities - e.g.

Albemarles. There are 445 of them in maintenance units (in 3/4 wd. &

in converted to carry 20 men. There all 20 a month up to 250.

C.A.S. If we have to do it, A wd. fill the bill with least cost to us. But one of  
the dimensions wd. affect Bomber Coastal Command indirectly. They were ~~obliged~~  
to free Hudsons. <sup>operational</sup> 43 Squadrons a year ago now only 32 in Bomber Command.

P.M. It is for U.S. if they will. W.P. Won't <sup>get</sup> up to President, you won't <sup>get</sup>  
it out of them.

W.P. While P.Q. aligned with Russia : we might at least do the 150 for maintenance  
units.

P.M. Give this as interim measure - while we look into possibility of pressure  
on U.S.A. Russians must <sup>I want</sup> press U.S.A. / Agreed. - No decision : W.P. to supply  
P.M. with material for telegram to Stalin.

### Food for Ceylon.

P.M. In Mar. Ceylon Govt. asked for rice. More realistic to military std' - willing to  
supply Ceylon on same basis as India. Indigenous prod' 150,000 tons.

50,000 t. p.m. required. 35,000 tons. April-May to build up stocks. End of April shipping rate deteriorated - only Karachi + country boats fr. southern ports. We did as we do in shipping situation - 16,000 tons in 5 months.

Then it's worsened. Sixth crop lost (1 m acres flooded 800/900,000 tons out of 2b m tons). Normally we import 1.5 m tons fr. Burma.

Transport worsened. I envisaged surplus production in various areas of Bengal  
Orissa <sup>rural areas</sup> brought 3 m tons excess. But, late to send crop to market. Orissa  
was small surplus; Ministry will now be able to send this.

Since then commit to supply Arabian States (on same priority) via Burma supplies lost.

Madras now main source of surplus supply. Trouble here is transport. If we can overcome that, we cd. prob. work up to 30,000 tons.

Reluctance of Prov. Govt. to control price. Since I left, conference indicates likelihood of more price control.

Recommend urging Govt/India to concentrate on this - no Directive yet.  
More effort. In reply to latest telegram.

C.O. When we first supply begin?

R.M. Prob. in October. Wd. depreciate pressure at this stage.

C.O. Ceylon will be out by 3rd week of Oct. We must fill the gap somehow. If

I knew when Indian supply wd. come in, I cd. ask for more Australian wheat. I want current supply + 2 months' reserve.

A.P. Only 1/3rd of Indian requirement will meet Ceylon's needs.

Tan Salab. My area has no rice at all - eating millet.

C.O. Cd. M/W.T. supply fr. Australia to carry us over until Oct.

M/W.T. 30,000 tons in Sept. is all we cd. do. Extravagant use of shipping.

L.S.A. Cd. G/India to asked to ship as much as poss. early in Oct.

M/W.T. We can carry as much rice as India can provide.

R.M. If it is only in 1 month, in advance, India cd. arrange.

Agreed - L.O. + L.C. to agree procedure.

W.M. (42) 13th Meeting.

15th October 1942.

### Foreign Affairs.

Madagascar. P.M. don't want further trouble there for sake of peace. F.Franch.

War Criminals. Stage for public announcement - Lt. Cdr. Tuesday 16th. Propose to say of favour fact-finding Commt: b) prov for and in Amistha. Will circulate memo. to W.Cab.: merely give notice now so War Minister will know what announcement will be made.

### Air Raids.

W.D. Tendency for daylight raids to increase. Ballymange : Petworth. 6 one on Wed: Worthing & elsewhere in Sussex & Kent. Colchester: 10 casualties, 7 fatal.

### Soviet Warships in Black Sea.

F.O. No immediate action - authority to proceed w/out delay when need arises.

P.M. Sideshows: we have 2 destroyers to give to Turkey: do we give them to N.Russia if they give 2/3 to Turkey.

F.O. Difficult give to sides: shall leave it till last minute.

P.M. Best arrangement possible in the circumstances.

Agreed.

### Refugee Children from Occupied France.

W.D. A no. of de facto orphans - we wd. prob. have to yield to pressure - better announce at once something, on us - we don't have to give way. Then I'll stand pat.

Agreed.

### Parliament

#### Chinese Extra-territoriality.

F.O. Text text of proposed Treaty: do they propose to announce 9/10.

Will circulate to-night. May have to ask for special sitting of War Cabinet.

### Parliament.

W.S. Bernays' Ques - motion for discussion of Army in Secret Session.

Has enough to hazard it. Is done on W's Speech. If they voted for S.Session, we'd comply. They wd. accept that.

W.O. Has consulted P.M., suggesting public Debate "of minuscule": Effect on troops in M/East - feeling of lack of confidence at home. Wd. prefer Debate later and in public.

W.W. Can you give your defence in public.

On whip, f. Topics like Bernays, within 6 weeks. Sign of Army in relation to its role. Some promotion for 2/Corporals. Machinery for Party could only admit of Army.

L.S. They feel it awkward to discuss this point in public & of their dual role as M.P.'s and  
junior officers.

P.M. "Say: on K's speech  
to the principle, that is in public. But House can move in & out i.e. we do have a  
part of Debate in secret if desired. Ch. Whip. You can't come out again until topic  
concluded.

No qt. house in secret debate? But W.D. said. have chance of making his  
statement. Why not have 2 Debates on this subject on the Address. Or, why  
not have the open Debate early on the address: > then have the Secret Sess' on the  
amendment to the address. Or, preferably the other way round: debate in  
secret on the amendment then move the open Debate in public for W.O. to reply.  
This matter will be discussed in any event in Debate on Address:  
Then say - if they can raise this matter by putting down amendment to Address  
> this, if House desires, can be taken in secret.

F.O. Soviet Annual Day - doesn't at Empire Hall. I've been asked to speak. H.O. told me  
however (S.) it is provided under Comin. influence. I've refused.

My colleagues the D. know in case they are asked.

P.M. Off. show of our own? H.O. This is anniversary of B. revolution! L.P.S.  
But in Russia it is comparable to the King's Birthday. H.S. i.e. the Gaius (cat) day!

P.M. why not have a smp sometime in Nov. (no specific date) - to celebrate the R.  
resistance. Consider this (carefully!)

W.M. (42) 137th Meeting.

9th October, 1942.

Managing of Prisoners of War.

S/Doms. Below is communiqué, attacking us as much as many B. pris.

Saw Massey + 2 Canadian Ministers + Prince. Don't like pris.

a) Ref<sup>t</sup> we have made to Protecty. Power.

b) Subterfuge in our statements.

If this kind of thing is started, we know where it may stop.

What response B. Canada? Adam. No reply yet.

We thought this was bring G to their secur. It hasn't.

S/Adm. Never thought it was at first. We knew we had to go thro' with it.

M.L. Don't go in for any further appeal yet.

L.P. Distinction between managing men in custody + tying up men not yet in custody.

S/Doms. Canadians think we have put ourselves in a false pos<sup>t</sup> by concealing the truth.

Adam. What we kept wrong was the advance info<sup>t</sup> to the hands in every case to prevent destruction of documents etc or not any need to do so to prevent escape.

S/Doms. Before any other action taken, we shd. invite views of Dom. Govt.

L.P. We did not give more inform<sup>t</sup>, for our own people, about what happens at Diepp. Pow<sup>t</sup> don't manage any more.

Adam. Hope G. Army will put a stop to this nonsense.

The only get-out we have offered them is tht. we will countermand no orders to this effect.

S/Doms. It's not only a question of <sup>orders</sup> fact. It is now a question of fact : at Sault it has happened again.

something is going to happen.  
Must we not say - e.g. we have given orders, but we can't make rules governing conduct in the heat of action.

Adam. They will keep this on for a time & then give up, saying they'd known if we do it again.

M.L. Dom<sup>t</sup> shd. be given full report on the facts.

S/Adm. And? consult them on question of managing equal nos. as Germans, pre. after verifying thro' Protecting Power that Germans have done it.

A.V.A. Explain reasons why we acted y'day w/out consult?

Public criticism if we take no action until Monday.

Agreed. b) Nothing more to do at present. a) Continue with what we have said we wd. do.

(Diepp. + Sault) and our view of propriety  
c) Tell Doms - facts, law of war, + tht. if G carry out their new threat, we <sup>will</sup> do same : invite their views on this, quickly, with views to adj. Sat. night or Sunday.

Statement to Press? "No further statement at present."

P.M. consulted on telephone. Agreed: but asked to see draft of statement.

Marching of Prisoners of War.

W.O. Intercept radio - Germany refusing recognition intervention by Swiss. Besides Diogenes pro.  
 3 times 11,000 add put in chains.

P.M. Doms. soft. If we are defeated on this, treatment of pris. will be used as blackmailing tactics.

What happens e.g. in truck raids doesn't affect relations between Gerds.

No enquiry possible into events in battle - e.g. did a person was killed who might have been taken pris. And business of Protection Power is with events in camps, not in field.

W.O. 240 kick in use. during daylight only. Handcuffs with about 1 ft. chain - taken off at night.

P.M. Nothing to be published to indicate diff'g of opinion between us & Doms.

W.H. No danger in U.K. Press. Danger pris later in Dom. Press.

SDoms. All 4 Doms. are unhappy: not Canada only. While they stand in with us on what we've done, they don't want to go further & wish to explore arbit' by P.Powers.

P.M. Bad ground to argue on facts.

My/P. Begin by differentially return. events in battle & treatment in cage. L.P. Said already.

W.H. In First St. Help. War. in question of atrocities G. bound to win. No criticism (need) about actions taken so far: but don't want to see it pressed further.

P.M. We've each laid up 1,500. G. relative to go up to 5,000. They haven't publicly announced they've done it. <sup>further</sup> No action from us: until off & announcement that they have done so. Wd. say to U.K. to-morrow "no further statement."

L.P.S. Advantage in saying to-morrow enough to catch us to stall for some days.

Canada. Motion in H/Lords by Bishop Trusc.

P.M. Still think no statement unless further announcement by Germans.

If they make a further bid, thd. we go on to march the rest of the 3,000. 1 st. Then G. w.d. have to chain <sup>another</sup> 12,000. Then diff're begin to be great. Then we chain 12,000.

Then they have to go to 36,000. They will find that v. hard. And don't many of them work?

W.O. Yes - in mines, roads etc.

Then 3 times 36,000 w.d. over the Germans out. But we'd go on with Italians.

G. w.d. to at end of tether after the 3rd. round: no more pris. left.

Alternatives. Turn the other cheek & submit. We may have to - if opinion in U.K. - Doms. divided.

Hitler has triumphed - proved B. at fault - w.d. know he d. do what he liked to one pris. w/out fear of retaliation on his.

But even that wd. be equivalent to arbitration by a neutral Power into our actions. Then wd. be the worst solution of all.

M/L. German propaganda stresses a) introf' of Colonial troops & U.S. has led to this.  
B. wait when one has  
d) followed on War-Guilt statement

Shall't of be sent to Doms.

M/P. Another course. If you don't say nos. claimed. G. have threatened to fight but we aren't going to say how many we will claim. Reserve right to manach them 3,000.  
manach as many as we like. This wd. get away from the arithmetical progression. And deprive time of a datum line.

S/Doms. Risk of other forms of blackmail.

A. Shd. we not stand pat & wait for them to get tired.

M/L. Risk to. Doms. won't manach any more.

S.W.O. We ca. then take up the meaning with Italians.

M/L. But will our public opinion support any more.

Germans (radio) don't seem happy about it. Stand pat & await developments.

F. You can't withdraw. But if you make another threat, you invite reprisals.

Fear wd. this may lead to G. shooting P.O. - an example wh. we'dt follow.

P.M. I wd. shoot in those circs. M/L. Doubt if public opinion wd. support that.

Statement in M/L. tomorrow or not. L.P.S. This may be last occasion you can make one. Make it - if G. makes no move before then. P.M. Instinct is to say nothing. L.P.S. Something to be said for updatin' in Parl. in somewhat diff. way the latest statement <sup>to</sup> Press. If G. make announcement 12-morrow morning, then say "no statement".

M/L. Support M/P. sugg'. In reply to criticism WD. Prot. Power wd. find out what numbers, yes but that will take time & meanwhile it will all simmer down.

W.D. What of ultimate release fr. this situation - by whose intervention?

Cadogan. One of Swiss Govt. F.O. wd. answer - "if any wd." you wd. like to make to both sides, no objection." Possible way out. Related of course only to <sup>treatment</sup> treatment in camps.

L.P.S. A proper course.

S/Doms. Public anxiety "how are you getting out of this?" Welcome Swiss help if it affords a way out. What is alternative? L.P.S. Go on till both sides are free.

L.P. Treatment in camps is regulated by Convention & we can't refuse to discuss that with anyone, as implied by M/P. sugg'.

+ Need to explain to our own people distinction between treatment in camps and treatment in course of capture.

Cadogan. Article in convention about disputes between belligerents. Providing for conference of belligerents on neutral soil. Dangerous if we get involved in that sort of thing.

Coombes. There is in MyLords a Motion for Debate: +, alibi I can ask him, I don't who he will take it off.

Carwyn. Valuable if statement can be made in MyLords to clear up X. MyLuf supported this. M/L didn't object, providing no statement of future action.

Unwise to commit ourselves to future action. Also "no worthy discussion" with G.

P.M. Why not reply to Swiss. Read out <sup>offer and</sup> reply in M/L + decline to say more, on cond. that we must await reply.

Say to Swiss - Typing in heat of battle depends on circumstances. WAG not prop<sup>s</sup> discuss counts in field - this is diff. fr. camp - these they are protected by law. You offered to intervene. P. convey to G. our protest at their "invasion" based on counts in field. As soon as they re-achieve them, we will withdraw their pr.

Cadogan. Private offer of help. Embarrassing to them if we upheld in public.

L.P. Make P.M. statement w/out us

[P.M. withdraws to dictate draft statement.]

Statement approved.

W.O. To submit written statement to-morrow. Through now we are chairing the Germans.

5/Downs. C.O.S. warned by Bickerton Lt. Morganthau had to tell nothing: likely to leak.

P.M. Let C/Echiquier know.

W.O. Madagascar. G. Cabinet knows what F.G. has said to de Gaulle?

P.M. I have sent him a minute drawing his attention to Platt's <sup>recent</sup> statement to everything is going + nicely in Madagascar, + advising caution.

W.M. (U.S.) 140 a.m. Meeting.

13th October, 1942.

Munitions Production. Read telegram from Trident.

A.U.S. Coloured Troops in U.K. Mrs. F. Halifax to effect that Hopkins won't come here.

P.M. Looks as tho' M.P. will have to go to U.S., taking Portal with him.

M.P. Ready to go in 10 days. P.M. Ask her we see beforehand what you will say.

Marching of Prisoners of War.

W.O. 240 G. warned 9 a.m. 10th marched 12 noon.

Kreil protocol - acted as Prisoner - who was produced before noon. He said order must have been given by Hitler in person. Found however had cigarette in mouth & hasn't smoked. Sick noted to be chained with convicts.

Handcuffs with 1 ft. chain. Chained 9 a.m. - 9 p.m.

Telegram fr. Ottawa: resistance to shackling order. 1400 only chained so far. Some injured. Enforcement in Ozada Camp not bad to riding. Cd. Swiss find out all Canadians have avoided - what force has to work. Shd. we ask this question?

L.P.S. Ask for informt about cond<sup>t</sup> etc. of shackling & add incidentally "has been brought trouble over it in camp."

L.P. Wait till prompt Germans to make some inquiry?

P.M. Wait - until Canada has rec'd our telegram, anyhow. Wait for next move.

We want to enquire in day or two into cond<sup>t</sup> in Germany.

Doms. Reply to P.M.? P.M. Say we are actg thro' Prototyp Power.

P.M. Read out letter fr. Archbishop of Canterbury. Views of Bishops. Count. I have promised them General Smuts. Speech to Parliament. To postpone his Motion.

P.M. Good timing for S. to speak to both Houses in Painted Chamber?

Count. In favour - but? effect on Mackenzie King & others. Will they be afforded if they aren't asked when they come?

P.M. Smuts is unique. Age: mil. rank: on Doms. P.M. who has fought against us: & only [one who was in War Col. in last war] Let him do it as [ ].

Ch. Whip. Royal Gallery can take 700 chains.

L.P.S. Adjourn House at 4.30. for it - same day before 22/10.

Announce arrangements Thursday (Secret Session) if possible.

Agreed: Ch. Whip to arrange in council with L.P.

A.U.S. Coloured Troops in U.K.

P.M. Views of U.S. Army must be considered.

Nothing to stand between U.S. off. and his troops: we mustn't interfere.

M.P. I accept that. What I want here is B. Police informing their rules for them.

W.O. Eisenhower's rules are disingenuous - prescribes Mr. Roosevelt's doctrines as principles but adds rules of practice which have opposite result.

M/L. Aquist written instructions.

W.O. So am I. The S.Command note has "leaked," beyond those to whom issued.

We won't segregate or discriminate in our canteens.

Printed in ABD (for offc. only) article on history of problem

Other comment in end of memo.

Post-war Anglo-Am. relations will depend on relations w/ us <sup>esp. US</sup> now with U.S. Army in this country.

I.C.B. Test this. a) Victoria St. Canteen. If we conform to US attitude there at this Canteen coloured troops won't be served. W.O. But see my proposal not App. - we won't discriminate in our canteens.

b) Effect on our coloured people.

I think the statement by L.P.S. is v. nearly right.

What I can't accept is we suggest that we conform to US attitude - if last sentence of memo. W.O. I will modify this statement.

S/Air. Avoid "coloured". The U.S. prefer to call them "American negroes."

W.O. We agree: a) if any request U.S. must do it not us. Their responsibility.

b) explain US attitude + ask our people to pay attention to it.

c) There should be a good deal of reserve in attitude of our troops particularly A.T.S. to negroes.

M/L. Educate them yes; but don't try to educate them into US prejudices.

W.O. Cranborne advocates no guidance at all. H.O. advocates not giving even informed

S/Air. Education unsafe unless you include reference to our attitude to coloured people

Craib. Diff' in "not too ready" principle: because we have nos. of coloured people here, cf. coloured Canadians. Change of policy.

Educate both ways: both Americans + British in view of the other: then leave it to common sense.

If it can be said we have advocated "above bar" all the coloured people here & our superior will go back discredited + preach dissatisfaction there.

H.O. With a small amendment wd. support L.P.S. memo.

W.O. Refers to info issued by Eisenhower: guidance about our views.

Cadogan. Eden accepted W.O. memo - save for wording of last phrase of all. Sugg. "adapt" .... so far as may be possible w/out practising unfair or objectionable discrimination."

T.M. L.P.S. document is better than any other. Let L.P.S. (with W.O., H.O.) settle any amendments: and then consider how & to what extent it shd. be published.

L.P.S. Objective - a document which can go down as far as Col. of Regt. Also to scrutinise the article for ABDIA magazine.

Armistice Day. a) As last year. b) Parlo. if needs that day to open at noon.

## Smuts' Address to Parliament.

P.M. All arrangements made.

M/J. Any diff. to announce today on BBC - so do S.Africa can hear?

P.M. Unwise (C.A.S. agreed). Better to make records & stay later.

M/J. It is being stayed - & no one will know in advance.

Agreed - better <sup>record</sup> stay later to S.Africa. No announcement before 1pm, news.  
& no summary in earlier news bulletins.

P.M. Accommodation - is to restricted to B.Commonwealth visitors. i.e. exclude  
Diplomatic Corps.

## Commonwealth Trade Union Conference.

S/Doms. Cities want conf. with U.K. + S.Doms. T.U.C. Sometime in April.

Small nos. fr. all parts of Empire.

Smuts. We have approved; a good thing.

Agreed.

Man Power: Lowering Age to 18. for call-up to Services.

L.P. Last Proclamation affected all who had reached 19 at date.

Instead of waiting another 6 months we propose another Procl. after 3 months  
covering all who became 18 between 30/6 and 22/10.

Further suggestion - amend law so as to enable prohiberation to be got over before 18  
is reached. Machinery proposal: but may be criticised.

L.P.S. Care needed in drafting Bill to make it clear we aren't calling up boys of 17.

W.O. Without we have allowed voluntary enlistment 6 months below compulsory age.  
May we now enlist volunteers at 17½? Yes.

Agreed.

## American Technical Mission to India.

L.S.A. About 16 para 4 of final report in para 9.

P.Mandela. Some recomm'd wait or implement " of some bottlenecks.

V. cautious alt. wh. can be adopted w/out interfering with existing programmes.

Read extract fr. report fr. Indian M/Supply. Think of going too fast, & getting  
involved in large projects wh. will be embarrassing.

\*| No pressure P. here, merely " by our recommendation.

W.O. Endorse S/. U.S. tendency to intervene industrially in spheres hitherto over.

Took note with approval.

Strike in Belfast.

P.M. Losing a Stirling a day.

M.A.P. One has been set up : sitting today. Meanwhile boiler-makers N.W. have gone back. M.L. strikes due this pm. Total now out 8,000 <sup>minus</sup> / 900 boiler-makers.

H.O. By 3pm, little development - slight trickle back to work. Hope more may return to-morrow.

K-W. M.L. strong views - no action which weakens T.U. influence. Stand aside.

Laggett. When Enquiry set up, found large extension of strike. Felt Court wd. help to stop this. Impression now lot. position is improving.

P.M. Disgrace in N.Ireland - hope Govt. feel it.

Weakness there - no conscription in N.Ireland.

L.P. We stand in N.I. departed P. policy to wh. we have adhered in Tyne-side Strike.  
Total strike.

W.M. (42) 145 a Meeting.

26th October, 1942.

### Foreign Affairs.

- A.E. Demand on Soviet Day. We undertook to accept until 16th to send Service contingents + on L.P. decision we did not now send them. If we now withdraw ours, others Africa wd. be in awkward pos.
- L.P.S. Our L.P. decision not intended to be retrospective.
- P.M. Do merits, doubtful about wisdom of sending our Troops to Communist organised affairs.
- L.P.S. Incident if we withdraw now we have promised. F.O. supported this.
- P.M. Not so much if we take Africa with confidence + all withdraw.
- W.O. Original decision by Service Spts. based on rather casual advice fr. H.Q.
- S/Air. Wd. have preferred to stand by firm decision of W.Cab. against Service attendance at this kind of thing.
- P.M. x// This must be discussed by Cab., after notice, + in presence of Home Secy.
- S/Air. But we have withdrawn our promise to attend.
- L.P. Home Secy - wd. have preferred to let it stand, as promise given; but deferred to W.O. wishes to get out of it.
- P.M. Separate military parade.
- M/L. Risk letting them go. Far more trouble by withdrawing.
- x// Agreed: meet Tuesday to decide. Full programme to be submitted to P.M. at least, if not W.Cab.

### Prisoners of War.

- P.M. Stand where we are. No answer to our qns is Ptotely Pow. Wait for it. Hitler's action, not that of German Govt. Staff or admin' of p.o.w. camps, which has been correct. Clear wd. his order is being questioned in off. circles in Germany. He is in a diff. posn fr. wh. he seeks to escape by enlarging area of controversy. See what they do before we act. German Army + F.O. will do their best to restrain him. Even if present imbroglio drag on, no qt. harm will be done. We can wait it off.
- S/Gen. Troubles in Canada - who are disturbed. So is opinion in country + in N/Commonwealth. Await reply, yes, but can't wait v. long.
- F.O. Int. Red Cross telegram sent to us v.g. Some answers req'd. Shd. we answer by referring to our committ' to Ptotely Pow? Generally agreed.
- P.M. "Weekly review" Germany to U.S.A. - "Do Allies intend to upset Geneva Convention?" If that is true they are going to take, our answer is easy.

- Smts. Notify Canada of our decision; Thursday pm.
- S/Doms. They have been informed, as have all Doms.
- Agreed - a) Wait b) Answer B. Red Cross.
- Bruce. Dom. Govt. views. I told my Govt. signature to make any decision before we get reply fr. T. Powe. I hope it need not do so: not clear from D.O. telegrams. Post<sup>o</sup> std. is more clearly explained to Dom. Govt. - i.e. that we are waiting on reply fr. T. Powe, + tht. we can't wait indefinitely.
- P.M. Agreed - D.O. to prepare further statement (incldg. (b) above).
- S/Doms. ? Consult Doms. on (b) F.O. unnecessary. Agreed unnecessary.
- P.M. This crossed D.O. telegram. No need to do more - Sanz explain to Canada tht. they have crossed.

#### Posthumous Awards.

- P.M. What is done in case of V.C. + other high awards might with advantage be extended to other Awards - with limit on number.
- L.S. x/ Ask Ctre on honours for report, with a lead 1st. Cts. wt. like it done/ desired.
- S/Air. Diffy in doing it now: of need for retrospective review
- P.M. Refer to Ctre as at x/ with up<sup>o</sup> to retrospective diffy.
- Agreed.

W.M. (42) 14th Meeting.

27th October, 1942.

Celebration of Soviet Annual Day - Participation of R. Troops.

H.O. When Gen. decided inscription for AE to speak at the mtg., the decision of Gen. M.P. to send contingents was revoked by adj. of offc. representing all corps, reiterated.  
Since then b.f. the decision is as usual of wh. this didn't arise again.

F.O. Dept<sup>th</sup> were at mtg. + were in agreement.

If alone loss of dignity Gen. M.P. cd. agree to let contingents go, this would be the way out.

W.D. V. few + small contingents. A.T.C. could (10). Army + Band only.

L.R. What about taking the salute?

R.N. = none. V invitation never answered. April 1st band unanswered.

W.D. No regular contingents to go. Leave it as it stands.

Agreed. Send note, more time is already arranged.

F.O. To con with Allies in future,  
and see to this now.

Coal. Address in Miners.

P.M. Promised to address miners on Friday, Sat.  
10.30 a.m.

Will talk about coal. Will talk about the war; give them feeling that  
we're on the move. "So give us the coal."

Wd. like Soviets to come with us.

W.M. (42) 148th Meeting.

2nd November, 1942.

Prisoners of War. (part heard).

P.M. Cd. are searching for gradually reduced?

A.E. How cd. this be made known?

W.O. Tell P.Powers revised nos. + revised times.

P.M. Don't let us be seen publicly to withdraw.

[M/L. Any way in wh. we cd. help people in occupied Europe who resist or evade the labour conscription of the Germans. Cd. F.O. consider what any means are available?

S/Doms. It has been considered.]

P.M. Let P.Powers find out - by visits to camps - don't tell them.

Books and Magazines for the M/East.

P.M. Best way to deal with Army in M/East. Papers locally produced - why didn't get proprietor to add another supplement for Army + subsidise the newspaper on that condition.

M/L. a) The B. Ambassador has told us not to interfere with local Press.

b) Paper supplies up-here have to be increased.

Point subject to that + try support we cd. make into a much more lively paper.

Agreed W/Luf. to investigate + submit a scheme.

M/L. Ad. the S.African produced paper - and books also - to make available to Army.

S/Unit. Better scheme is the P.M.'s The addl. paper std. come fr. U.S.A.

W.O. Quite raise in last para. Posting with U.S.A.

Genl. feeling of Cabinet against this. Too dangerous.

I. United Nations Relief and Rehabilitation Administration.

B/T. Ask W.C. authority to reply to U.S. on basis in Annex.

Mechanism - Interim-Plan a Policy Cte (Art 3) U.S. G.B. USSR. China

No committee at this stage in any precise form in as right. etc.

Agreement is subject to one point about Canada being on Policy Cte. We :  
recommend members extended to 7 incl. Canada.

Raise question with India & U.S.S.R. before replying to U.S.A.

P.M. Don't let us drift into attitude that we can't speak to U.S. before consulting U.S.S.R.

A.E. On this occasion we have already had consultation with U.S. ; we are referring to  
U.S.S.R. only at this stage before formal communication to U.S. This agreement  
was initiated by U.S.A.

P.M. May be right as diplomacy - but no rigid rule.

"No obligation on us to consult Stalin before we communicate with U.S." Can this  
maxim be recorded.

L.P.S. Depends on subject matter. This is one affecting Europe. Right not in sub. like U.S.S.R.  
etc to informed of nature of reply when we propose to send.

P.M. As regards Canada, everyone surely agrees.

S/Dom. Diffy: if you bring in all India, it will open the door to many others.

We must preserve our freedom to bring in one or other Dom. without all.

C.O. <sup>III</sup> Para 3. - (a small point not perfectly heard!)

P.M. Will you at least omit [ ] from para 5. A.E. Very well.

Agreed - subject to omission of this phrase in communications sent.

S/Air. Propose that this Body shall deal with p.c.war. Would it not be better to leave this  
to military? B/T. undertook to clear this up with S/Air.

II. Post-War Atlantic Bases.

A.E. Scheme promoted by Norway - after consulta<sup>t</sup> with Dutch/Belgians.

P.M. Why do you want bases on continent? Tremendous departure in foreign policy.

A.E. V. like S.Ireland bases.

P.M. If air is reason - deal with that by international control of air forces, not by seeking  
+ maintaining air bases all over the world.

S/Dom. When we thought in terms of sea-power, we secured bases all over the world. Worth  
considering.

L.P.S. Perhaps: but don't say it has our political support. That, surely, is going much too far.

A.B. This is not national policy - proposal is that G.B., U.S. + countries concerned shall join in this.

L.P.S. Enough to say we are prop'd to support the position.

M/L. Unwise to deal with this piecemeal. L.P.S. Selective, at initiative of Norway, and based on a particular Alliance.

A.B. Americans have already been discussing this with Dutch + Norwegians.

If U.S. went on with this + we were left out it wd. be awkward.

Prop'd however to re-draft para. 6 in light of discussions and circulate as amended.

SOURCE. <sup>original</sup> U.S. demand for bases <sup>for us</sup> was a mistake: now abandoned.

Equally mistaken for us to claim bases in Europe.

We don't know where we'll stand after the war.

And what precedents will you set? Russia will want them, too. And when will it end?

Whatever the small, defeated countries say now, many people will say later on that this was your imperialism.

Policy for Europe should not be initiated by the smaller Powers "as + when". Wait till we are ready to make the right approach. Let this quite be considered by the Big 2 or 3 - don't listen to cries of agony fr. the minor suffered.

Now item like this must be fitted into a larger scheme - we must see the pattern.

L.P.S. Then can we see the menu. Prop'd by F.D.

### III. Malta.

P.M. Present states you until we see what happens in Torre.

Defer this item until Wed.

4th November, 1942.

I. Rudolf Hess.

P.M. Include reference to health, & fall over Saunders etc.,

L.P.S. : Separate statement.

P.M. Why not say on verge of insanity.

L.P.S. He wasn't where he arrived, we can't say he was.

P.M. Add - "medical report follows"; and put an addendum.

"None of this for public" - for Ministry only.

F.O. Will send this to C-Kerr today saying "medical report follows"

Agreed.

II. King's Speech.Controversial legislation.

P.M. We can't have 50/50 Conservatives or Labour members steadily opposing a Bill.

S/Doms. Controversy on Party lines must be avoided - but Bills raising controversy within Parties ad. to taken.

K-W. Must be a <sup>substantial</sup> measure of agreement. S/Doms. Win in Govt. L.P. And K/Comm.

P.M. Controversial for war effort doesn't matter. S/Doms. But some <sup>war</sup> legit?

P.M. Formula for pledge. - as in K.S.(42) 1st May minutes annotated.

L.P.S. Yes - but what do you mean by "gent. measure of agreement".

P.M. Cabinet decides. It means U.D. oppo' by a small group can't add it up.

M/L. Consider my difficulty. Labour Party + 1922 Other Party say no organised oppo'. Then the interests outside say its controversial.

P.M. My phrase meets that. The outside interests won't stop it if "gent. measure of agreement".

M/L. Not concerned fr. Party pt. of view. Concerned about admin' - of demobilisation

L.P. "A substantial measure of general agreement". Rejected.

P.M.'s formula agreed.

P.M. No oblig' to include in K.S. every measure you intend to bring forward.

Before putting a thing into K.S. you shd. have clear idea of what will be in the Bill.

E.g. Education Bill. Nothing better than 10 max concordat. But want to be sure we don't get into religious controversy.

S. Both sides have forgotten the catchwords of 40 yrs. ago. P.A.B. has gone v. far & definitely and is v. near to an agreement.

R.A.B. Part of my plan is ready for Cabinet. Sketch of other third (Training of youth - with Mf/Labour)

P.M. Produced a formula for K-Speech - which was generally agreed.

R.A.B. Memo. to R.P.C.K.C. first - after debate in National Assembly.

Scott - Warwick Report.

P.M. Promised here of legislation

S/Doms. Only on machinery.

P.M. When are the heads of the Bill?

M.W. We may agree at once on machinery + compulsory purchase by L.A.'s.

<sup>from</sup> Prot. off. in para. talks about compensation + settlement etc., wh. arrangements all  
on wh. we are unlikely to make early agreement.

P.M. Vague + general. Will draft diff<sup>ns</sup>.

L.P. Need this to be in the Speech - can't it be dealt with in the Debate.

Catering Trades.

M/L. Trying to complete organ<sup>z</sup> of Trade Boards. Next trade is catering trades.

Can't apply to Trade Bd. to it : too amorphous a trade.

Same principles as Road Haulage Wage Bd.

Genl. agreement or support fr. many sections of the industry. But Hotel Rest.  
Assoc<sup>z</sup> are raising the cry of controversy.

P.M. What about one-man family businesses? M/L. That is matter for the Commt.

If you had a Trade Bd. it wd. have to cover them.

K.W. Can't you appoint the Commt to enquire (non-statutory) + promote leg<sup>l</sup> later to implement their recommend<sup>z</sup> group by group.

3 Enquiries so far led to nothing.

M/L. But same was on slope - the Trade Bd. cd. be applied to this industry.

Chairman. If I'm being asked if is this necessary for the war.

if if this goes into the K-Speech, will get an amendment to the Address.

M/L. The trade is organised in Switzerland + in U.S.A.

P.M. I'm not against negot<sup>z</sup> of wages in these trades. The only question is who it wd. raise distracting controversy wh. we find it diff<sup>ns</sup> to <sup>overheat</sup>. You may get obstruction - eg. by Robert Williams.

S/Doms. What about a Standing Clue? KPS. Let them hear it on the floor. Keep them quiet.

Chairman. Do you need to start the controversy early by putting it in K-Speech.

Agreed - Omit fr. K-Speech: but go on with the Bill (mentioning it in the Debate).

### III. Malta.

K-W. Consultations taken place since last discussion.

F.M. 10 free gift. Available for war damage compensation under Malta leg.  
(K-W)

Agreed.

Statement in M/Lords + M/Commmons/minute

### IV. Parliamentary Procedure.

P.M. At Guildhall will deal summarily with war - & say will reserve more for Parls.

In M/Commmons I will speak: and will deal in narrative with these great events which are now unfolding - & will endeavour not in the right light prev. events of, my visit to Russia. Nearly as least.

L.P.S. must speak on the social ques. Wind up the que. Debate before longest possible Debate on the Address. The amendment.

I.G.S. to make a scheme - 11 or 12 days.

Junior Ministers + Staff Cooper std. speak: 3 ministers for every 2 days.

Ch.Whip. Colonial Development

Army Training

Post-war.

} Subjects already promised for this Debate.

M/L. Since Session later to discuss true man-power position. When the figures available.

Military Situation (part-head).

C.A.E. Air movement. Parachutists (U.S.) Fr. dep. left under Sat. Not yet heard of. Also saw a) 30 aircraft seen over Oran b) report today to go on to Bone.

I Airport Oran taken: Spitfires flown in. Also Algiers: Sp. & Amer. flown in. To-night B. paratroops leave U.S. aircraft.

Casablanca - Fr. fighters attacked: air fighting: no news of airports captured.

Total Air Force strength = 1250 U.S. + 420 RAF. If all goes well, during next month.

P.M. Biggest combined effort since attack on Low Countries. And largest amphibian op<sup>n</sup> ever undertaken.

2b/s suggest to President Mr. Roosevelt when US staffs of political advice. Read our assumptions on. I suggest they did proceed upon. Provided by the event to have been

A.E. Agreed.

P.M. Beg my colleagues & mil. auth<sup>r</sup>s to look on this as a springboard. We must look at once at mil. ops undertaken fr. there. This is the moment for the offensive.

Smuts. We must go ahead at once with planning.

P.M. Tragic mistake to think we can take our time with this war. Hitler is playing now for a stalemate. This is our real danger. Never has there been more need for urgency in the war.

Smuts. This is our first big chance in the war. Move on at once & we shall find it able to strike hard in the spring. Vast advantage in shipping. In N. Africa we have the base for a real victory front - from the South not fr. the West.

P.M. Read exchange of telegrams with Stalin. - on victory in Egypt, Torch, and promise of 20 squadrons (U.S. & B.) to S. Russia. V. friendly in tone.

F.D.R. calls this the Second Front. We won't contradict this.

Foreign Affairs.King's Speech.

A.E. Passage in Opening Speech, about the victory.

P.M. Let me cite next a para. "Prov. has blessed Our Arms with notable victory ... stimulus to further effort." F.O. & G.S. to draft a paragraph.

Inquiring Church Bells.

P.M. V. anxious to do this next Sunday.

Generally agreed - subject to progress during the week.

A.E. Supplies to Russia. To inquire Thurs. Report to give 1. U.S. & British  
2. Américo.

In 12 months - this is <u>assumed</u> .	<u>despatches</u>
2,500 aircraft	3,000
3,000 tanks	4,500
22,000 other vehicles.	50,000
1,000,000 dt-weight tons miscellaneous.	\$31,000.

W.O. This is comparable to what we have sent to M/East. Best not say so.

Agreed - give what was said.

### Persia.

A.E. Best wait until we hear fr. British. Disposed to avoid talking Persia over.

### ✓ Prisoners of War.

P.M. Exchange of Telegrams with P.M. Canada.

Tell Paris - still in negot: the Swiss Govt. - hope in little while to have a statement to make. We are ready at any time to name our pris. if P.P. can get assurance that G. will do same.

Tell Swiss Govt. - why not try asking both Powers what they will name.

A.E. They will ask me what reply I wd. give.

N.S.C. New crisis might make Swiss Govt. more willing to act.

P.M. Was hoping to get away with no further action for a week.

A.E. Then I will ask Swiss if they have any news.

W.O. will reduce the hours. No object to Swiss getting to know this.

### ✓ Madagascar.

W.O. Object to draft statement. Want to omit [ ]

A.E. Price is 12. France will raise Native Force & ask to take over mil. command of the Malagasy State. And add at end "under the terms of the arrangement made with the Fr. Nat. Ctee".

P.M. We saw A.G. yday: - he has behaved v. well.

We can't throw him over. He asked us to prevent U.S. fr. dividing the F. French.

It was in this context that I was anxious to announce app't of Legentilhomme.

A.E. That is why I don't want to refer to arrangement wh. has no fr.

### ✓ Liability of Members of Parliament

N.Y.L. Register: cards kept separately: I write asking M.P. to define his choice: & on hearing his decision enter it on card. This is system for U.S. Acts - wd. like M.P. to assimilate their practice to ours.

Approved.

### Ammunition Day.

P.M. We have had the 2 Minutes Silence & no more.

W.O. We haven't had it since the war. Recent decision already announced.

Agreed - Stat.

P.B. Nationality & Status of Micus Bill.

H.D. We shall not go beyond French & extend to other nationalities.

A.Y.A. French naval off. who has done & dangerous work for us - approved the  
pledge given by P.M. has not been honoured.

Agreed.

Major Marshall M.P. Visit to U.S.A.

H.P. Wants to go to U.S.A. to discuss books with his publishers  
| see U.S. war effort.

No national advantage in letting him go. Shall I refuse?

Agreed - refuse permission: either as a soldier or as M.P. he  
shall remain here.

Enemy Breaches of Rules of Warfare.

P.M. Why not publish this?

W.D. Some of it depends on informants derived fr. pris still in custody.

L.P.S. Deprecate early publ'.

Foreign Affairs - Spain

P.M. things not looking quite so good.

A.E. Agreed: not ground for special anxiety.

Report of H. mktg. demand - not, however, fr. Berlin: only Rome.

Ceylon Rice Supply

G.M. Ambassador leaving for U.S., Canada - till Jan. Wish gr. success in his visit.

Congrats also to M. on visit to Manila. Back to India.

Tam Sabot's visits to naval + mil. stations. Thanks for their work.

C.O. Last time's conclusion - grateful to M's efforts + but situation no better.

Normal consumption 47,000 tons a month: this is real minimum.

Further to G.M. - Q/India 36,600 tons in Nov./Dec.

Gives 60,000 + present reserve. Means no worse at all

X at end Dec.

Thus wage fresh pressure on India. War prof. in Ceylon (nutritive) already beginning to suffice.

Suggest add'l. 20,000 tons fr. India in next 2 months - fairly. ch. corresp'd. increase in cereals fr. Australia.

M/W.T. No alternative <sup>possible</sup> v. tribute fr. Brazil or N. E. Am. is negligible.

R.M. Oct. 6,700 tons. sent. Diff methods calc?

36,500 t. exclusive of tributary allocations in Dec - ch. can't be assessed yet.

Our trouble is poor cont'y. Quantity in market less than estimates of Rev Dpt.

Q/India fully aware of sit' - strat<sup>g</sup>. separate MyFood + Central Govt. will now

trouble further on Provincial Govts. No further prodding fr. here will do good.

Ceylon Govt. shd. expedite despatch of their up<sup>t</sup> to India.

No diff fr. w/cab.: better to have it to present up<sup>t</sup> by us & C.O.

After Dec. new crop will come on + MyF will have <sup>more</sup> power to acquire.

C.O. Reluctant to press: but want w/cab realize X.

R.M. The area nearest Ceylon is the deficit area for rice, unhappily.

A.E. Importance of nutritive prof.

L.P. Rice is only practical solution. Wheat <sup>supplies</sup> v. diff. to increase.

R.M. The rice isn't on market - the farmers are hoarding.

W. If Q/India v. allows commercial firms to buy - buy & get it fr. the borders.

Q.M. We have exploited the comm. agencies v.t.'s: they have failed. Let us have put the job to Poor Govt.

[C.O.] of will injure our India great importance of getting the \$6.500 by end Dec.

P.M. Magnitude of India's crop by inf. is this small need.

Strategic imports Ceylon as naval barrier v. attack on India. Vital interest of India to buttress the people of Ceylon.

G/India did i make a strenuous effort. Will M. convey one v. strong wish that further help be given.

I.G.A. Vital importance - need \$6.500 - hope for more in New year.

R.M. Only 2 m. tons in India now - end of season.

### Publication of Beveridge Report.

M/L. B. has asked us to fail. This conf. enable him to publish his Rpt. to English Press.

B also proposes to have conf. Lally Compt<sup>ee</sup>? 2 who before publ?

Work up political campaign. { To disclose not only contents of Rpt. but his views on it.  
Propose no facilities at M/L or B.B.C.

W.A.T. Saw B. tonight & told him improper to discuss before present?.

K.W. Special interview (26/10?) D.Telegraph. "Half way to Moscow"

gave details of B's nomination.

P.A. Pity of such a comprehensive scheme failed to get fair chance : of propag. of its author. Cab. will have to consider - small Ch. of Ministers. He will spoil it all if he pushes it ; will arouse opposition. W.A.T. said tell him so. Let us have a little order + discipline.

Endorse M/L's proposals.

W.D. Shall we suspend publ? also. Or B. will say we are depriving him of a chance to expound his own Rpt.

M/L. Shall accept his date for publ?. Tell him for present + Govt. decides publ?. Then fix a diff. date. Recounting in W.C. if B. goes round extensively.

M/L. W.A.T.'s permit reqd before B. expounds.

P.M. The Rpt. is Govt. property. B. must be told he is not to expound the Rpt. - Mention him with (Privilege)

R. Comms procedure - Accusian presents and Govt. expounds.

P.M. Promise to lay as Cmd Paper - say until time protected as Cmd P. or.

At same time defining our attitude to it : "like it, or not like it, or haven't made up our minds about it."

W.M. (42) 155th Meeting.

19th November, 1942.

## I. Migration to Dominions.

S/James. Ask for audit to count down on qual. quin.

Counting with Senate + some other Dom. Ministers.

Bruce. Agree - sooner or later.

This approach will provide enquiry on post-war economy - if expansionist, this will be soon day. Helpful start made in big discussions on economic quin. But this enquiry will not satisfy Dom. curiosity about their quin. No train in that. Migr. fr. Euro. countries shd. also be opened.

We want, most, people fr. here. But problem: people willing to sacrifice their rights but not home

% | Means will have to be found to get over this. E.g. reciprocal system, wh. will work in favour of Dom. "more of our people go out."

Difficulties of this shd. be tackled.

Agreed. (including demobilisation in Dom.)

D.O. to consult via Ty. on %.

S. Rep. in Dom.

Bruce. I won't take part in yr. domestic disc't. But may I speak to S/James. later + have your conc'nt for consult to Aust.

## II.

P.M. Future review of re-count work. Disc't in w. lab. every 3 months. To verify that work is properly on right lines. Periodic stock-taking.

Agreed.

## III. Progress Rpt.

M.H. Survey - no decisions yet? Review of qual. economic sit' post-war.

Para. 6 - 7 summary. Background for our study of detailed problems.

S/James. Next report - means to avoid sudden deflation.

M/L. Only way through will be All-Party Govt. for 3/4 years after war.

W.W. Post-war credits - sudden increase of purchasing power - need to continue savings. v. unpopular; can be done only by united Govt.

M/L. Inducement to convert into capital goods. E.g. bonus if they put the money into houses. 1 & m. marriage w/out houses.

A. Big trade war be reduced to put up a training scheme. We like to announce a 20 year big programme; but who will announce M/H. or M/Planning. V. big thing if big will train at rate of 100,000 a year. V. important to us that it longer term in re-training (12/18 mos.). Big is first line of defence v. unemployment.

R.A.T. to convene C.R. to decide of demarcation between M/H. + M/P. on honoring of training scheme. of post-war big programme.

Training a) 3/6 mos. course for élites  
b) longer period for craftsmen.

B. Importance of setting agricultural policy. We. like to retain 1 m. in ag. for some years.  
This is less dependent on external affairs.

W.A.T. Report more being considered by R.R.Chr.

P.M. What prospects of getting our export trade back? What likelihood of US agreeing not to have high tariffs?

L.P.S. India - will demand goods v. their accumulated credits.

K.W. You'll get no return for them. K.W. has "borrowed" the credits already.  
Controlled currency: the only w/in limits.

K.W. Increase of consuming power + steady price level: this will give us better hope.

M/L. Price-level 1 we aim at is about present level. This wd. enable you to recover the export trade. Aim: 30% rise in c/living as above the war. There was a slight fall in prices, & this wd. relieve the Parliamentary cost of stabilisation.

K.W. First step of all is to begin our talks with US. Hope we shall begin soon.

M/L. Better understandg. than ever before of value as against money - & real fear of depreciation.

L.P.S. V. anxious to do it before gd. landslide in US

K.W. Govt. approval of paras. b-8 of W.P.(42) 347. ? Agreed.

#### IV. Demobilisation.

P.M. Based on length of service (40) + age (40)! The young men won't wait. Experience of last war. "First out, first home" is the only principle they will understand.

M/L. But this time they're to be called in by age-group: this means reversing the way they come out. Age is a good criterion, now. Length of Service introduced "benefit to territories" - those who volunteered early.

Explain it to Army in advance - so they will understand.

Para. b of W.P.(42) 498 - Approved.

Para. B. L.P.S. how far does (1) go? W.A.T. See para 12.

S/Air. Para b(a) 4. Will this be made public now. W.A.T. No. Public statement is para. B.

P.M. # War Cabinet, not C.O.S. to decide.

Paras. b and 13. Agreed.

#### V. Statement by Pay-master General.

K.W. This surely is O.K. Agreed.  
Reference to p. 1. - can't go too fast.

#### VI. Central Planning Authority.

K-W. First alternative : Ctre of Ministers + Commission for planning.

Second " : planning to be responsibility of a M/Planning.

Planning to be looked after by a Ctre of Ministers.

Commission for some purpose - semi-judicial etc.

By this compromise we did hope to meet Part V. feeling v. ultimate Rf.

Set up : Planning a Ctre of Ministers

planning = Minister + Commission to help him.

This is going to help, esp. with dissident Conservatives.
