

Enlive Education is a joint venture of **Rachna Sagar Pvt. Ltd. (India)** and **Platys Group (USA)**. Our organizations collaborated to develop an innovative online interactive learning management system.

www.paathshalamasti.com is the first CCE-based educational learning portal offering complete grading, life skills, descriptive indicators and more in a single package. It uses today's finest technological solutions to address diverse learning needs in a single environment for learning, teaching and management. This comprehensive learning portal includes English Communication, Mathematics, Science and Social Science for class X (initially for CBSE Board). It makes it easier for teachers to motivate students by providing interesting learning and real-time collaboration to bridge the gap between student and teacher.

As the Internet becomes the primary source of study material, Enlive Education meet both teacher and student needs in an animated, attractive and more attentive manner. In addition to enriching the student's educational foundation, it enhances student skills holistically while improving teacher efficiencies and learning outcomes.

Established in 1996, **Rachna Sagar Pvt. Ltd publishes** books for K-12 and higher education, and has become a leader in India and in many Gulf, South Asian and Southeast Asian countries. More than 12,000 schools use our content to educate students. Our entire team strives to serve students by making every learning moment joyful, effective and meaningful. One of its brand 'Together with' series has proven its name in the field of educational books and is well conversant with teachers and students.

Platys Group LLC is a leading U.S.-based provider of end-to-end IT services and business process solutions for global companies. **Platys Group** is committed to creating long-term strategic partnerships that create value beyond our clients' expectations. Our education professionals have created innovative software and systems that automate both learning and teaching strategies, creating highly enhanced learning environments at all levels.

Conventional and routine teaching-learning methods have been given a brand new insight with the help of technology. In today's IT generation, online teaching has grasped the place of chalk and blackboard teaching. The portal will improve the all-around development of both the teacher as well as students.

About the Product

www.paathshalamasti.com is an educational learning portal that delivers a seamless digital platform for an effective and enriching learning experience. This portal allows students and teachers to easily share, find and reuse content to enhance learning effectiveness.

Enlive Education has developed an extensive pool of innovative educational e-content which can be easily localised and adapted to the curriculum structure prescribed by CBSE and based on CCE for class X. It is the first online educational portal based on the CCE environment for complete Summative and Formative Assessments.

Our Mission

Our mission is all-round development of children and to create online communities to help teachers, administrators, and students collaborates. It also facilitates sharing of best practices among teachers and administrators. It gives record and share grades electronically with students and parents. We feel students should receive regular feedback on performance and progress and they can gauge learning outcome through grade books. We also aim to provide diagnostic reports of test results identify child's strengths and weaknesses through Digital library, Online dictionary and Navigation which articulate the learning experience to achieve results.

Our Vision

The creative use of technology will make school work more enjoyable, encouraging students to excel. We need to develop knowledge and power in the younger generation and to develop and equip children morally, intellectually, physically, socially and aesthetically with the values and skills they need to become responsible and dynamic citizens who will contribute positively to the nation.
