

SPECTRUM FILTRATION PVT LTD

We are India's **largest manufacturer** of clean room products ranging from pre-filters, pocket filters, **HEPA** filters, fan filter modules, ventilation packages, modular clean rooms, containment systems and laminar flow equipment and services in collaboration with **Filtration Group-Filtrair, USA**.

We offer custom-engineered, technically sound, high quality, cost-effective clean room solutions to our clients and provide extensive support not only at project implementation but also at the operational and service stages. We have a pan India presence, with **7** sales offices located strategically at Kolkata, Delhi, Pune, Hyderabad, Vadodara, Chennai and Bangalore and **4** manufacturing facilities at Kolkata, Bangalore, Noida and Daman. This results in extensive savings to the client, in terms of reduced freight costs, delivery time, man-hours lost by the client in sourcing, vetting, and co-ordination with multiple agencies.

Moreover, we offer a value-engineered system of documentation for GMP compliance and a Total Filter Management (TFM) Program.
