five most eminent English names in science of and literature, equal to the most eminent of any age or country, are Bacon, Shakapeare, Newton, Milton and Byron. Three of the five Hand of the car lay on her bead and the prospect of the literature was of no University.

Bacon, Newton and Byron. Three of the five Hand was also educated at Cambridge; Milton was also educated at Cambridge, at Christ's College, and shikaspeare was of no University.

The Missouri Legislature met on the 12th but refused to go into an election for U. See Senator. Two Democratic caucuses were held, and the prospects of an election were considered doubtful.

ANOTHER PALER PROFEST.—The Boston correspondent of the New York Sans asys behaved den. Wilson (who deserted the national Americans) state, a few weeks before the beard den. Wilson (who deserted the national al Americans) state, a few weeks before the olection, in a public convention, and take that Rockwell, the Republican candidate, would be elected by 15,000 majority. The University of the convention and the carries of the first was only 30,000 wide of the mark. He had John Van Buren have fully established their reputations as prophets.

Geoverner Menoron, or the Faithless Guardian. We are indebted to De Witt & Davagnaport. It was broken of by the ring, but was affill was broken of by the ring, but was affill remaining.

which is the place where Morrissy and Sullivan fought two years ago.

All reports agree in ascribing the overturn of the cars to the wind, but it seems incredible, as the cars could not have weighed less than twelve or fitteen tons.

The accident was purely beyond the control of human agency, consequently no blame could possibly be attached to any one. An accident of this kind, to our recollection, has never before occurred on any railroad in this country. Mr. Rathbone and Mr. Gaylord were the

a distance of nine feet, when, it is believed, from the jagged condition of the rail that the coupling between the tender and baggage car gare way, and set the cars at liberty to roll down the embankment.

Harvey Gaylord, brakeman, of Chatham, says that he was on the front blatform of the rear car; that the wind blow a perfect hurricane; had never known the wind blow as hard before, and found it utterly impossible to the post be felt the eather cars lifted up the wind, and almost at the same instant the car turned over, and that he wont down the embankment with it, which was the last he had any recollection of relative to the accent, until rescued from the wree feet, and the control when the week of a car
