A SOVEREIGN REMEDY in diseases of the liver, ulserated sore throat, debility resulting from intemperance and lissipation, scrotula and king's evil, old and inveterate ulcers, pains in the bones, rheumatism, dyspepsia, or indigestion, diseases of the lungs, syphilis, blotches on the face and skin, white swelling of the joints, tetter, mercurial diseas-

es, piles, &c. The certificates of wonderful cures performed tween Maine and St. Phillip's streets, by the Catholico, have become so numerous as to preclude their insertion in any newspaper .--The unrivalled and very extensive character which it has enjoyed, for the last six years, as a complete renovator, and parifier of the blood and humors, both in Los stells and in private practice, is a substantial basis for its future support. It has obtained its present great distinction by the extraordinary success which has attended it in the healing art, while every avenue and track have been searched in vain for its parallel; its discovery is one of the most sacred boons that can be afforded to the unfortunate martyr of disease, and it is most sincerely hoped that the sympathy of the public will be aroused to the roundgation of its inestimable merits. Proofs of the value of Potter's genuine Catholicon:its healing powers: its usefulness as a general restorer of health: the city of Philadelphic alone could furnish thousands of witnesses, to contradict the base and malicious fabrications which daily emanate from the jealous.

What, we would ask, can be a stronger proof of its utility, than its success in the Pernsylva-nia Hospital, Philadelphia Alms House, and the Philadelphia and New-York Pententiaries, and in other public institutions alike serviceable, where the eminent skill which presides over them had been exhausted in vain. "There facts speak trumpet tongued'-and cannot be gainsaid. It is much to be lamented that there are so many spurious mixtures manufactured in initation of this invaluable medecine, some assim ing to possess equal virtue, and vended under the same titles—some have gone to the durit g extremity of refilling the old bottles with the inbels on; whilst others, to filch the public, have published for their benefit the very certificates which the propriator of the Genuine Catholicon had obtained from those who were cured by his medicine, of various distressing diseases.

Thus has he been assailed in every form by envy, jealousy and fraud; and thereby prevented extending the usefulness of this great and long wished for remedy.
