A FISH (MATSYA) – A LUCKY SYMBOL IN HINDU PALMISTRY IF FOUND ON A WOMAN'S HAND - IT ELEVATES A HUSBAND

The above 2 photographs are of a young lady, a college friend of my daughter. A few years ago, after reading her hand, my daughter said that she would go abroad. At that she staying in Mumbai with her uncle and suffered economic hardships. On the hand it could be at period of the diversion on the Fate Line.

At the age of 26 years she left the country for the Middle East and started working there for a few years. She returned to India after four years. In 2011 she returned to India and purchased a flat of more than a crore of rupees.

On 19th Jan 2011 she visit our house with her problems. One question is “will I have enough money and be very rich?” One of her greatest desire is to have tea with the family of one of the leading industrialists.

After examining her palm I found a fish each on the mount of Apollo. On one hand the fish is not clear in the photograph. The line of Destiny too has a small fish.

After recollecting what our sages have said about a fish on the palm , I assured her that she would be very rich and her even her desire would be fulfilled.

Today, after 5 years, she had started her enterprise and employs scores of people. The symbol of a fish, with its mouth facing upwards, and under the ring finger blesses the native with plenty of wealth and luxuries. If found on the hand of a woman, it enables her to raise the status of here spouse. This is perfectly true in her case. Her husband was also serving. Today, he has a office of his own and running a business. The young lad has a long way to go because in most the cases where the sign of a fish was seen, these native achieved their wealth in the forties.

I wish the young lady all the best and pray that she gets her millions pretty fast.
