MISSOURI IRON COMPANY.
Capital Stock $5,000,000.
QUESTION OF THE CHARTER 50 YEARS.
THE Missouri Iron Company was chartered the past winter by the Legislature of Missouri for 50 years with a capital stock of $5,000,000, for the purpose of "manufacturing from the ore of its own immense beds of iron, and other metals, every description of steamboat, railroad, farm, mining, or other species of manufacturing, which by the interests of said Company may be promoted."
The Company are the owners of two celebrated Iron Mountains and several thousand acres of land in their vicinity. Their mountains lay 40 miles west of the Mississippi river and 90 miles south of the city of St. Louis Missouri. The same Company have a charter for a railroad from the mountains to the river, and design immediately commencing said road, and erecting their necessary buildings for manufacturing iron, so that several hundred hands may be employed. The Iron Mountains contain ore enough laying on the surface and exposed to full view of the same richness and purity with the specimens now exhibiting in the Arcade and French Exchanges, to supply all the wants of the United States for many thousand years. The ore is the best and equal in quality with the best Swedish and Russia Iron, and coal may be had by the Company in any quantities and at the cheapest rates, so that the Company will be able to manufacture iron at the Iron Mountains and carry on the Mississippi river, any amount of the best bar iron at an expense of not more than $75 a ton, and if there sold $75 a ton, a profit of $20 per cent on the capital of the Company will be realized. Common bar iron is now selling in the west and south from $120 to $150 a ton
The shares in the Missouri Iron Company are $100 each, only 50 per cent of which will be necessary to be paid in for erecting all the manufactories, making the railroad, and putting the whole into full operation, when in operation the lowest amount of dividends that is expected to be made to stockholders, is 50 per cent on each share, which will be 100 per cent yearly on the amount of money paid in.
The stock will be sold at the Arcade Exchange on Saturday the 8th inst at 11 o'clock, by
ISAAC L McCOY.
20 per cent on each share will be required to be paid on the transfer of the stock to the purchaser—and 10 per cent in 24 months, as called for by the order of the Board of Directors.
L. L. VAN DOREN, President.
N. B. The President of the Missouri Iron Company may be seen each day in 3 o'clock P. M. at the City Hotel. (Mr. Richardson) building lots may be be purchased of the subscriber on reasonable terms in Iron Mountain city situate on the Mississippi river, and the Missouri city, situate at the foot of the Iron Mountain. Copies of the charter of the Missouri Iron Company may be had by applying to the subscriber
