# Friday morning, May 15, 1846. In commenting upon the intelligence of the first contlact between the Americans and Mexicans—that in which a detachment of the former were nearly all

colled, or taken prisoners, the Charleston Courier, speaks as follows.

The General Taylog sustains his position for ten days, the danger of debatt will be over, and then should commence the work of refraintion for the long ost of greenances we have experienced from Mexico of a series of years pas. It is told time that the temporising policy that his been pursued towards her, in only for the weakness, should be dropped, and her government trought to understand her true position.

We have been with Mexico until pateince has ceased to be a virtue. She has refaged to tuiffi her solemn treaty, by which she had agreed to fulfil her solemn treaty, by which she had agreed to fulfil her solemn treaty, by which she had agreed to fulfil her solemn treaty, by which she had agreed to fulfil her solemn treaty by which she had agreed to fulfil her solemn treaty by which she had agreed to fulfil her solemn treaty by which she had agreed to fulfil her solemn the same time of the common neces striesof life, and even inflicted disgraceful corporal pun ishment on them.—She has refused to treat our acknowledged Minister Plempotentiary with the courtery required by the law of nations. The miserable strangly variatished to her army have wayland and murdered our officers and men, and now, enhablement she had been borne, she boddly invades our territory, attacks, kills and makes presented to the course to pusue. Let a sufficient force be at once assembled—no meagre and mellice at body, but a powerful and overwhelming army—invade the Mexican territory, and carry the war up to the very gares of her Capital, not desist in effects of the capital in the dependent of the party of the very gares of her Capital, not desist in effects of the party of the terms."

These are manly sentiments expressed in bold and energed to the wear of the terms." killed, or taken prisoners, the Charleston Courier speaks as follows

These are manly sentiments expressed in bold and nergetic language. We like them the better, and ite tiem the more willingly, that they emanate from a neutral print, conducted with rare moderation, dignity and ability.

To the last paragraph in particular, we invoke at-

tention, endorsing its opinions without the slightest reservation, and commending them to the serious con-sideration of the General Government. Mexico has ay a long series of unprovoked aggressions, brough apon herself the calamity of war—always dire, bu domin'ni, perilone and faint when waged by a superior against an interior power. Our forbearances ill-timed and too tong maintained, has encouraged herairc-gance, and maily filled her with such an over-weenand many mied her with such an over-ween-ing sense of her own greatness, that she has daped to commence hostilities by crossing the boundary of her possessions and attacking our frontier guard. For this She should be made to pay dearly. No slight atomement should be suffered to explain the blow—

Just in proportion to the enduring meekness and mag rated the efficiency, insults and contunely of Mexi-can rulers, should be the sterness of the retribution to be now demanded for wrongs too tamely brooked. and gravances too middy borne. Any other policy towards that besorted mockery of a Republic, would be nothing less than disgraceful to the national diguity, and dishnotrable to the national pride.

Above all, we do most fervently trust that Congress and the administration will upon the receipt of the intrinsic desantibule house acts.

and the administration will upon the receipt of the intelligence desputched hence on the 2d instant, take immediate and efficient measures to vindicate the outraged rights of the country. No mineing war, no miserable second edition of the Florida campignis, caming upthe Treasury, and wasting squad after squad, and swamps and everglades—no preparations for perty skirmishes, and insignificant marches along the border inte—no protracted context with handfuls of mensent in succession to be picked off in detail by proving bandin. Let an army—not the skeleton of one—be despatched to Mexico; letthat country be -be despatched to Mexico; let that country b invaded by a force capable of overcoming any reas-time that Mexico may offer, and let hostilities be carried on beddy and unremittingly until the enem-sic for peace, and proffer due atomenent. Thus an

sale for peace, and protect due atomement. Thus and thus only, will the administration be enabled to re-duce used from the odmin which is gathering around it, for its delay and fallying upon this question. There can be no doubt of the will of the people especially of the south and west, to second the Gov-strandia. t in its most energetic demonstrations. THAT CHABURA.—The charger which has been purchased for Capt. Walker of the Texas Rongers has been at l'attersall's for several days. He is a line powerful brown horse, standing between 15 and 16 munds high, and we yet hope to hear of the gallant Captain doing still further service for his Country, and rising to the pinnacle of glory and renown. The nature of the noble animal is Tornado which is sufficiently significant of what the devastating effects of his charge will be on the battle field. He will no doubt bring to mind the war horse of 30 to whose neck was clothed in thunder, and the glory of his nostrils as terrible.

CARTAIN OF THE GUARD.—We have understood that on the departure of Captain John Youenes with his company for Mexico, that Macoin will be appointed Captain of the Guard pro. ten. They are both excellent men; vigilant, active, and determined in the execution of their duties.

in the execution of their autres.

§ \*\* Three more companies of volunteers were mustered into the U. S. service yeaterday. The work goes bravely on, and the recruiting system is going on so rapidly that there are not sea steamers enough to take them off. There will be several companies ready for embarcation in a day or two. JACKSON GUARDS.—This excellent volunteer com-pany, commanded by Captain John Youenes, was yesterday augmented in number and it is now com-posed of 86 men. The officers were sworn in yester-

posed of 86 incn. The officers were sworn in yester-day, and the company will muster for inspection to-morrow morning, when the rank ane file will no doubt exceed 100 members.

Stabbiso — A. Texier Dupaty, was yesterday arrested by the First Municipality police, accused of stabbing A. J. Duvillier. It appears that there was a dispute between the two, when the latter dapped the face of Dupaty. The fatter then drew a kinde and stabbed Duvillier, the wound taking effect in the head. It is not dangerous. Recorder Genois held Dupaty to bad in the sum of \$1,000 to appear for re-examination.

MURDERER ARRESTED.—Captain Winter and Com-missry James, yesterday arrested a man named Dur-mott J. Brennan, who is charged with murder. The prisoner will no doubt be brought before Recorder Baldwin this morning.

FLAT BOATS SUNK-- During the storm on the evenus of the 13th, two flats were sunk at Latayette—one of them loaded with 3,500 bushels corn, to Fellowe Johnson & Co., the other with coal.

Three Hours Later fram Galveston. The schooner S. Wilds, Captuin-Jones, arrived in our port yesterday from Galveston, whence she sailed three hours after the arrival of the Alabama. She prings nothing new. It was reported at Galveston that a draft had been ordered, comprising one-fourth of all who were capable of bearing arma.

Twas currently rumored that General Taylors had returned to his camp opposite Matamoros. We place little faith in this report, as there had been no arrival from Point Babel at Galveston later than the Alu-buma.

that an Express had arrived from the Government at Washington, fraught with important advices relative to the war between the United States and Mexico. to the war between the United States and Mexico.—We endeavored to trace the rumor to its source, but in vain. There can be little doubt that it is destitute of all truth. The news published on the 2d May, did not reach Washington, until tast Saturday, the 9th, probably after the adjournment of both Houses of Congress. It could not therefore, have been the subject of Legislative deliberation before Monday, and it is scarcely within the limits of a possibility that an express leaving Washington on Monday night, could arrive at New Orle and by Thurday morning

The Commander of the Woolbury, Capt. Winstow

The Commander of the Woodbury, Capt. WINSLOW POSTER, has been ordered to leave his vessed for the purpose of undergoing an investigation of a Court of Inquiry, in relation to certain charges brought against him. For the present the Cutter remains under the Command of Lieut. PROUTY, who has strict orders, which he cannot do otherwise than obey, to remain at his present station—the Balize. at his present station—the Balize.

Capi. W. B. WRITEHEAD, and Lieut. Janes C. Morrison, both of the U. S. Revenue Service, have been ordered on to New Orleans to take charge of the Woodbury, and are now on their way. There is no doubt that as soon as these officers station, the Cutter will resume active service. In the interim every preparation is making to place her in first rate order, with a full equipment of men and munitions, her guns clean and ready for action, &c.

Little will have been lost by the delay, while something will have been gained by enabling the Wood-bury, to be put in good fighting trim.

COTTON SPECULATION .- It is declared in the New York papers that the news by the steamer Cumbria, was in that city some two or three hours before the close of business transactions on Monday, and was not permitted to transpire until near five o'clock in the afternoon. It is intimated that those who had the not permitted to transpire until near five o'clock in the afternoon. It is intimated that those who had the news took advantage of it to buy cotton at the then low prices; and it is supposed that the news has gone South, to be used in the same way. It is asserted that the Cambria's news was also in Philadelphia at noon on Monday.

FROM MONTEGO BAY, JA .- By the arrival at this port yesterday of the achr. Hope, Capt. Mitchell, from Montego Bay, Ja., which place she left on 3d inst... we learn that Captain Frisbie, whose arrest had bee previously reported at Kingston, (Ja.) has given them the slip and left the Island for parts unknown. The passage of both these bills, remarks the New York Herald, may be regarded as a triumph of the Anti-Renters and exhibits the immense influence that a party, numbering about tween ty thousand votes, has on the representative body of the whole State. The bill abolishing distress for rent, if passed by the Senate, will effect a reorganization of the relations that hitherto have existed between landlord and tenant.

We understand that Mr. Looney has recently discovered food on the himsen running between this care and vinewife, and having set several hands to work on the premises, has succeeded for several days past in procuring about one dollar's worth to each hand.
