Sun. Nov. 12,

Dear Freddy:

Another week end partially gone, and oh what a one it turned out to be. The campus was seeming all down to "Chubb's", Ann Arbor's night club, and dancing was impossible so you substituted other things in its place. Really a very respectable party. Jack Dalrymple & Andy Muir stayed at the house last night, there were beds enough, but I don't know how they slept because some of the boys came in at all hours of the night to disturb them. Carl Edema evidently had a date with Jack's notes because I saw them together quite

a bit at Chubb's.

How did Union and Central come out last week. Not having seen the score, and knowing the weather conditions, I think I'd put my money on Union. Strange things might happen, but not usually. Was the snow deep in Gr. Rapids, about 3 in. deep here, but the field was covered with a tarpaulin: so wasn't in bad shape.

Jack Beckwith got caught driving his girls car last night, it might mean getting locked out, but I doubt it very much, they don't do that so much any more.

Be glad to get some Thanksgiving time, do you suppose enough entertainment can be provided in Gr. Rapids. It must be a lot as one gets used to plenty down here. Have to study now so
as we
Jerry
