W. T. Transpoor vs. Tune.

By virtue of a writed field faculty to me directed by the Honorable G. Pr. val. associate judge of the city court of New Orleans, I shall appear for rale, on trons the cay and eather same side of the river and measuring nineteen arpents, and a few tones front on each side of the Bayou, seconding to a feednt survey made of the interior of the parish by the United States surveyor, the plans whereof are filed with the parish Records and in the archives of the General Government, at Washington, and hav-

ives of the General Government, at Washington, and having the grdinary depth of forty arpents on each side the Bayou; sogether with the horses, horned cattle, carts and other planutation utensits, and such of the cane in matrase as may not have been plasted in the meanwhits. The sugar Mill is worked by steam; the kettles are of copper, with clarifiers of wasoughtison. The engine is of English make and on Bolten and Watt's high pressure principle, it worked and easily managed, and has been found amply sufficient for the planutation, having taken off a crop of more than 500 hogsheads of sugar. To the corphouse is attached a superior grist mill, worked by cattle. The sugar house is of Brick walls with shingle roof, is well attached a superior grist mill, worked by cattle.
