A CONTLICT OF OPTIMON.

The totagraph informed us some days ago that the passes of the city during the season of the passes of the city during the season of the passes of the city during the State selection on the days ago that selection on the days ago that selection on the days are provided that the command of the season of th peace, and secure the unrestri of right of suffrage, amply sitted the activity of his labors; and that he has made such thorough and effectual arrangements for the November election as, in all probability, will prevent any outbreak or disturbance. Hayor (urnished these explanations, Hayor Wasse proceeds to vindicate his authority. He says:

ne correspondence. On the 28th ultimo the invertior issued a proclamation to the cit ens of Ballimore. In this document he de-lates that, having failed to receive a satis-cutory reply from the Mayor, and being re-elved to do his duty, he has directed the roper military efficers to enroll and held in proper ministry officers to earoil and held it readiness their respective corps for active service on the day of election. A few word of earnest exhorisation to the citizens to ob-serve and obey the laws, follow this profer and appended are notifications addressed to Major Generals Prevair and Survey comwe do not know, though, as the telegraph reports that the election in Baltimer's was conducted quietly and without bloodshed, it may be presumed either that an imposing military force oversawed the ruffians, or that Mayor iswass's arrangements for malpining public tranquility were effectual.

We notice the correspondence between the two functionaries in order to direct attention to the conflict of opinion that springs from the antagonistic views of their rights and powers entertained by both. The correspondence created intense excitement in Baltimore. The Democratic absets defend and approve of the Governor's course, while the American and independent journals condemn it without reserve. We are hardly aware to what extent the Executive is empowered to interfere in, municipal concerns, uncess upon a requisition addressed to him by the Mayor. This, we take it, is the general union of the condent of the control of the control
