es, piles, &c. The certificates of wonderful cures performed by the Catholicon, have become so numerous as to preclude their insertion in any newspaper. The unrivalled and very extensive character which it has enjoyed, for the last six years, as complete renovator, and purifier of the blood and humors, both in hospitals and in private practice, is a substantial basis for its future support. It has obtained its present great distinction by the extraordinary success which has attended in in the healing art, while every avenue and track have been searched in vain for its parallel; its discovery is one of the most sacred boons that can be afforded to the unfortunate martyr of disease, and it is most sincerely hoped that the sympathy of the public will be aroused to the promulgation of its inestimable merits. Proofs of the value of Potter's genuine Catholicon: its healing powers: its usefulness as a general restorer of health: the city of Philadelphie alone could furnish thousands of witnesses, to contradict the base and malicious fabrications which daily emanate from the jealous.

What, we would ask, can be a stronger proof of its utility, than its success in the Pennsylval nia Hospital, Philadelphia Alms House, and the Philadelphia and New-York Penitentiaries, and in other public institutions alike serviceable where the eminent skill which presides over them had been exhausted in vain. "These fucts speak trumpet tangued' -and cannot be gainsaid. It is much to be lamented that there are so many spurious mixtures manufactured in in. itation of this invaluable medecine, some assuming to possess equal virtue, and vended under the same titles—some have gone to the daring extremity of refilling the old bottles with the labels on; whilst others, to filch the public, have published for their benefit the very certificates which the propriator of the Genuine Catholical had obtained from those who were cured by his

medicine, of various distressing diseases. Thus has he been assailed in every form by envy, jealousy and fraud; and thereby prevented extending the usefulness of this great and long
