## L. MILLER'S
# HAIR INVIGORATOR,

AN EFFECTIVE, SAFE AND ECONOMICAL COMPOUND

**FOR RESTORING GRAY HAIR** to its original color, without dyeing, and preventing the Hair from turning gray.

**FOR PREVENTING BALDNESS,** and in most cases where there is the least possibility of vitality or reproductive energy remaining.

**FOR REMOVING SCURF AND** DANDRUFF, and all cutaneous affections of the Scalp.

**FOR BEAUTIFYING THE HAIR,** imparting to it an unequaled gloss and brilliancy making it soft and silky in its texture and causing it to curl readily.

The great celebrity and the increasing demand for this unequaled preparation convince the proprietor that one trial is only necessary to satisfy a discerning public of its superior qualities over any other preparation ever presented to them. It cleanses the head and scalp of the disfiguring dandruff—the cause of baldness—and imparts new nutriment, and prevents a rich, soft, glossy and flexible appearance, and also where the hair is inclined to fall and turn gray, it will give strength and vigor to the roots, and restore the growth in those parts where it has become bald, causing it to put forth a new crop of hair.

Two hundredweight of ladies and gentlemen in New York and Brooklyn have testified to the use of this Invigorator; when all other preparations had failed, L. Miller has generously and gratuitously given publicity to the above facts, from persons of the highest respectability. It will effectually prevent the hair from coming out, at the latest period of life, and in cases where the hair has already changed to color the use of the Invigorator will soon restore it to its original color, and giving it a rich, glossy appearance. As a perfume for the toilet and a hair dressing it is pronounced to be unsurpassed, having an agreeable fragrance; and the scalp becomes so healthy after using it, that it will never be troubled with the Invigorator, can be dressed in any required fashion so as to preserve the place whether plain or curly—hence the fact that dressers of the hair consider it a *standard toilet article* which none ought to be without, as the poor cannot afford it while the rich all do. Being

ONLY TWENTY-FIVE CENTS

per bottle, to be had at all respectable druggists and per fumers.

L. MILLER would call the attention of Parents and Guardians to the use of his Invigorator, in cases where the children's hair is on the thin to be weak. The foundation for a good head of hair, as it remains any superfluous that may have become connected with the scalp, the nutriment of which is necessary both for the health of the child and the future appearance of its hair.

CAUTION—None genuine without the fac simile LOUIS MILLER being on the outer wrapper, also, L. MILLER'S HAIR INVIGORATOR, N. Y. blown in the glass

## AYER'S SARSAPARILLA,

A COMPOUND REMEDY, designed to be the most effectual that can be made of the kind. It is a combination of such ingredients as will exert the most powerful alterative power upon the blood and the system. Every ingredient employed is of the most reliable character, and such as is recognized by the whole medical profession as proper to be used in the most concentrated form. It is believed that no such remedy is known to the world, which is so certain in its effects upon those who take it, and that will so surely cure those diseases of the blood that require a thorough alterative. Its power to do this large class of cases is unrivaled by any other medicine, and its virtues are so concentrated that it has been proved by experiment on the sick of this world, as few can be found of the following description.

Scrofula and all Scrofulous Complaints, Eruptions and Eruptive Diseases, Tetter, Salt Rheum, Ringworm, Erysipelas, Itch, Scald Head, Sore Eyes, and Syphilitic Affections. Mercurial Diseases, Boils, Tumors, Ulcers, and Pimples. Liver Complaint, Dyspepsia and Indigestion, Dysentery, Diarrhœa, and Bilious Complaints. Disorders of the Stomach, Kidneys, and Bladder. Dropsy, Female Weakness, Irregularities, and Suppressions. Rheumatism, Gout, Neuralgia, Tic Doloureux, or Facial Neuralgia, Heart Disease, Pain in the Side, Chest, and Limbs. Consumption, Bronchitis, Asthma, Croup, and Incipient Consumption.

This compound will be found a great promoter of health, when the system is disordered by the first changes of the season. Multitudes, during changing weather, are suddenly prostrated with disease, which might have been prevented by timely use of this antidote. Many are saved from the grave by the timely warning they receive from the first symptoms of the disease which is fastening its fangs upon them. Relying upon the protection which this remedy will afford, multitudes have exposed themselves to the inclemency of the weather, when, if such were in possession of this remedy, they would have escaped. Keep the blood healthy, and all will be well. Expel from the system the foul corruptions which breed disease, and good health must follow. Hence, when we have a purifier of the blood, we have a remedy for the cure of all diseases, from a common Pimple to the worst Scrofula. Health and beauty depend upon the purity of the blood. Let the blood be foul, and there will be blotches, eruptions, and sores; but make the blood pure, by the use of this remedy, and a healthy appearance will be given to the whole body.

Sarsaparilla has, and deserves much, the reputation of overwhelming those ends. But the world has been deceived. Most of the compounds which have been sold under the name of Sarsaparilla have had little virtue in them, and many of them, instead of containing the full medicinal value of the Sarsaparilla root, have not had enough to impart to them the taste. Hence the general complaint that Sarsaparilla does not benefit like it used to do. This is not the fault of the medicine, but of the dishonesty, ignorance, or carelessness of druggists who have sought to manufacture it. Such men have imposed upon the community mere apologies for Sarsaparilla, and then, when they have failed to benefit, have condemned the medicine itself. But the world has been taught by experience that the Sarsaparilla of these men is worthless for the cure of any disease, and consequently it has fallen into general disrepute. Nothing but the best Sarsaparilla is worth buying, or can be relied on to do anything when taken. Such we supply to the public, and we call it

**AYER'S SARSAPARILLA,**

because we have labored to bring it to the highest degree of excellence attainable, and because we confidently believe it will accomplish for the afflicted all that any Sarsaparilla can do. Prepared by

## AYER'S CHERRY PECTORAL,

Has won the confidence of the people by the cures it has performed, and the unvarying certainty with which it subdues the most dangerous diseases of the throat and lungs. It is the safest remedy that can be employed by the timid mother, as it is the most reliable antidote for the dangerous diseases of childhood that science has yet discovered. It is within the reach of all, and no family should be without it. Keep it by you, and when the first symptoms of Croup appear, or the child becomes hoarse from exposure to cold air, give it a few doses of this remedy, and it will quickly relieve the little sufferer. Colds, Coughs, Hoarseness, Influenza, Whooping Cough, Bronchitis, Asthma, Croup, and even Consumption, yield to the power of this remedy. Public speakers and singers find relief from its use, and military men and others exposed to colds and sudden changes of weather, should keep it by them, as a protection against the attacks of pulmonary complaints. Originating in the most thorough scientific research, and containing the most effectual remedial principles that medical science has developed for the relief of pulmonary disease, it is unquestionably the most perfect expectorant that can be made. Its wonderful cures of Consumption, Bronchitis, Coughs, Colds, Hoarseness, Croup, Asthma, Influenza, Whooping Cough, and Incipient Consumption, are known in every community, and there is no remedy for these complaints which can be relied on with such confidence by the afflicted. Public speakers and singers will find it the best protection against hoarseness and sudden attacks of bronchitis. Many eminent clergymen, who have used it for their congregations, concur in pronouncing it the best remedy for the throat and lungs with which they are acquainted.
