NEWSPAPER, SENT WEEKLY, (ONE YEAR \$1.00)
SUBSCRIPTIONS MUST BE MADE IN ADVANCE
AND ARE NOT REFUNDED.

THE DAILY BEE.
Tuesday, Morning, July 3d, 1855.
No. 100.—The New Orleans Mail came through yesterday at the latest date.

TRIALAL PHYSICIANS.

We have received the annual announcement of the Female Medical College of Pennsylvania, setting forth the terms of that institution to public regard, the number of matriculating students—all males, and all but two, from the North West—and the names of the graduates at their annual commencement. These give a little quiet to us down South, who are still in the dark about our own annual commencement.

In consequence of the Quarantine regulations of New Orleans the College did not touch at New Orleans, nor have we heard, do so on her return to New York.

HARRISON RAILROAD.—The abridged notice makes known that the dispensation or authority heretofore given by the National American Convention to Harrison and —— Peary—who were to be the agents of the railroad, has been revoked.

The General had been requested to turn the railroad over to the State of Louisiana.

It is now known that the Governor of Oregon has been appointed to do this.

Mr. Newell, of New Orleans, has been appointed to the post of Superintendent of the school system of the city.

It is now known that the name of the new president of the college is Dr. B. B. BARTLETT.

President of U. S. N. A.: Attest: A. J. DAVIS, Secy. N. C.

A Boston branch of a Business Man.

We copy the following extract of the life of a very prominent man, Dr. Wm. H. Parker, in Boston:

"An illustrious man, a man of great talents, we are sorry to record his death. He was the proprietor of the most popular medicine of the age. The rise and progress of his extraordinary business was rapid, and he became one of the most wealthy men in Boston."

He has visited nearly every Court in Europe, and has been appointed for the sale of his preparation to the Emperor of Russia, King of Prussia, &c.

He has also been appointed to the post of Physician to the Queen of Spain.

The scope of his practice is as follows:

"Dr. Parker's Patent Remedy is a specific for all diseases of the heart, lungs, kidneys, &c.
