REMARKS.	
Corporation.—The sales which have come in our knowledge, since last Friday, amount to \$10,775 per bale, as a result of a reduction from last week's price of about a cent per lb. We have advised a day from Liverpool to the 20th inst., and yesterday from Havre, that the market has advanced 10 cents per lb. in prices; the former is represented to have recovered the decline of the last week, and the latter to have advanced more than the former, attributed more to the reduction than to actual want of manufacturers. The sales have been as follows, viz.: 81 bales Manufactured at 175; 307 bales at 174; 120 bales at 174; 130 bales at 173; 130 bales at 172; 58 bales at 171; 81 bales at 170; 72 bales at 169; 40 bales at 168;
