ERNET India

National Knowledge Network

32nd APAN meeting being held from 22 to 26 August 2011 at New Delhi India is the first ever meeting of APAN in South Asia.

This 5-day event jointly hosted by ERNET India and NKN will consist of tutorials, technical presentations and demonstrations covering advanced network technologies and applications. There will be plenty of opportunities to interact with researchers and practitioners from Asia Pacific and beyond during this meeting. The programme spans network and application technologies, as well as case studies of advanced networking in areas such as:

- **NETWORK TECHNOLOGY :** IPv6, Wireless & Mobile networks, Optical networks, Adhoc & Sensor networks, Security and Future Internet

- **APPLICATIONS :** Medical, High Definition TV, Middleware and e-Culture

- **NATURAL RESOURCES :** Agriculture & Environmental Sensors, Earth Monitoring

APAN

ERNET India

National Knowledge Network

Asia Pacific Advanced Network(APAN) refers to both the organization representing its members, and to backbone network that connects the research and education networks of its member countries to each other and to the research and education networks around the world

An Autonomous Scientific Society under Department of Information Technology, Government of India operating ERNET - an Education & Research Network

NKN is a state-of-the-art multi-gigabit pan-India network being implemented by National Informatics Centre (NIC) for providing a unified high speed network backbone for all knowledge institutions in India
