The important cause in which Mr. Clay is engaged before the Bapresso Court, will be heard some day during the ensuing week, the bar having evarreously given way, for the argument of the distinguished Counsel. A large assemblage collected yesterday morning in the Court room, soon a floating rumor that he was to seek.

amembing collected yesterasy morning in the Court room, apon a floating rumor that he was to speak. In addition to the denials of the President, Secretary Marcy, and the official paper, that any treaty or project of a treaty had been received from Mr. Triet, the Secretary of State, has positively pledged himself to the sume effect to his confidential friends. Still, there is a decided conviction that an informal consummication has been mide, setting forth the conditions upon which Mexico, would agree to a negotiation. This is the belief of Mr. Cathoua, and of others, who loccupy similar relations to the Administration. Secretismess in the predominating trait of the President; and the has recorded in impressing it upon his Cabinet. I shall seek charge, that he or they have faislified in their reviersted statements concerning the insulfingence of peace, which has been as furely circulated and credited her; but these official contradictions do not seem to have impaired the belief of many, whose positions afford them great facilities of information. It may be set down as a fixed fact, however, that Mr. Polk last determined, neither to recognize, nor to acquiere in any negotiation or arrangement, that Mr. Trist ripay undertake, now, that he is acting without authority, and upon his own well-tion.

The reports which have been sent abroad

ine without authority, and upon his own velicion.

The reparts which have been cent abroad from the pibrit, some of which I have noticed from the pibrit, some of which I have noticed in one of the New Orleans journals, in reference to Mr. Clay's nonsition, are stretty files, and have been manufactured to make up "Washington letters." I speak from the heat authority, and cannot by possibility be mistaken. Mr. Clay came here, resulved to take some course, by which he would be relieved from all enpharaments tooching the Presidential question. This purpose, he indicated to his searces frends, before leaving Kentacky. He has been prevented from making a public declaration in this subject, solely with the view of perfecting the organization of the party, and of securing to the nominee of the Convention the foll and condial support of his inflaence. He has given no encouragement to those friends he in the first of the control of the mean of the mean that we have not to the control of the mean of the subject of the mean of the mea

It is within my personal knowledge, that the individual who circulated this statement is his correspondence with the New Orleans paper, has no intercourse with Mr. Clay, or with those who are intimate with he New Orleans not the same thing in the Philodelphia Ledger and Baltimore, han, with which he also corresponde two of the gankest Locofoes sheets in the Union, under the gard to neutrality.

At a proper time, when it will be most advantageout to the Wing cause and to his own dignity. Mr. Clay will, in some public manner, signify his determination of retring to private station. It is any thing class but reputable in those precises which have permitted such callumnes to find circulation in their columns, to thus awan the motives of one, whose life and services have been given to his country.
