CITY INTELLIGENCE S. Provisional Court Judge Peacody -U.S. Provisional Court Judge Prabady — Wednesday — Ou motion of Mt. Cutler, the case of McPhelan vs. Dr. Knapp and wife was fixed for trial on Theeday Not X. Attawards Mr. Day, for the foodants, applied for a commission in the same case to take testimony in Nassan and Saviannah, returnable in ninety days, which was ordered. The motion for a new trial in the case of Emersor vs. Guillott was argued by Mr. Schmidt in fafor. While discussing the merits of the case, the controversy having grown out of transactions in Confederate times here, Mr. S contended that the Government then and now was let facto, though he would admit it was not de judge the case, how he was let facto, though he would admit it was not de judge to the case in having agained Mr. Da-

contended that the Government then and now was the facto, though he would admit it was not de fure.

The morning hour having expired, Mr Durant said he would postpone his reply to the gentleman, particularly on the point he had laid so much stress upon.

The case of McCherney vs. Barker then coming up for trial, Col. Hield, of counsel for plainliff, made application that it should be tried by a pray, on the ground that as k was a ent for damages, they could be better ascertained and assessed by a jury.

This was venemently opposed by Mr. Barker, on the ground that according to the practice of the courts, it was now too late to call for a jury, when the case had already been fixed and brought to trial. Besides, he was anxious to vindeate without delay his fair fine from the scandalous imputations which had been thrown upon it in this matter.

After further advocacy for the jury by Mr. Roselius and Col. Field, the Court decided that Mr. Barker's argument was well founded, and as the case had been fixed for trial two or three times, it was now too late to ask for a jury. Cdt. Field then amounced to Mr. Barker the forest them to a trial new, he should wrail bimself of the privilege of non suit, and carry the dase into another court where a jury could be obtained.

M. Barker responded to this in the language of Macbeth, "lay on Machdiff"—you have delared war and I am ready to flight it out.

The case was accordingly discontinued by entry of non-suit, the papers withdrawn. and the jarties left the Court as unsatisfied as they came in the parties of the Court as unsatisfied as they came in the parties of the Court as unsatisfied as they came in the parties of the Court as unsatisfied as they came in the parties of the Court as unsatisfied.

The Court then adjoursed.

A Case of Aron — We mentioned in our Provest Court of yesterday, that the case of Henry Henbergen, charged with aron, was, on motion of Col Field, for the prohecution, postponed to Sunesy next. The Col. said the charge reased on solid grounds, and if appears that the circumstances are about a follows: About 3 o'clock Toesday morning a house on Miro street, between Hospital and Harracis, was discovered to be on fire, but it was extinguished before much damage was done. Subrequent livestigation that something was rottening through the fire Impectors led them to the conclusion that something was rottening livestigation of the facts elicited that the occupant, Henderson, had an insurance of \$2200 on the premises and that the day before the fire he had removed his family and friends. Thereupon he was arrested, and will have a chance to prove his moreone on the next. "Lord's Day."

Neither General Van Dorn nor ourselves were suspicious in the slightest degree of enuity in the mind of Dr. Peters, or we wind certainly not have left them alone together, nor would Gen Van Dorn have been shot, sie we found in the winness their sitter in the claim.

have left them alous together, nor would Gen. Van Dorn have been shot, a we found him die minutes later sitting in his chair, with his back towards his enemy in his chair, with his back towards his enemy his between them up to the very date of the unfortunate occurrence.

General Van Dorn had never seen the daughter of, his morderer but objet while his acquaintance with Mrs. Peters was such as to convince no, his staff officers, who had every opportunity of knowing, that there was no improper intimacy between them and for our own part, we are led to believe that there were other and darker motives, from the fact that Dr. Peters had taken the oath of allegiance to the United States Government, while in Kanthille, about two weeks previously—as we are informed by refigees from that city—that he had remarked in Colombia, a short time before. The he bad lost his land and negroes in Arkaness, but he thought he would shortly do something which would get them back! I and finally, that having beforehand torn down fences and prepared relays of horees, he made his escape scross the country direct to the enemy's lines. Such is the simple history of the start, and we breat that in bare justice to the memory of agaliant soldier, the papers that have given publicity to the false rumors above alluded to the dead—will give place it their columns to this vindication of his name.

But now feelings of this character are yielding under the presente of hard experience and to the growing apprehensions of the future. A redistribution of labor is demanded not that fears are entertained in regard to the ultimate extinction of cotton manufactures, but because the number to be idealt with is an edormous that no amount of emigration is likely to embarrase mill owners. A healthful relief is improgress, arising from the gradual transfe of cotton hands to other textile assunfactures, and an absorption of labor by the large districts lately put under collure of cotton, but all these are too tard in liter results to meet the presente exigency. Consequently there is a growing festing in England that something must be done beyond any thing yet attempted, and that very soon.
