☞ The elections take place on this day.

An act relative to two Rail-Road Companies in Rapide will be found on the first part of this paper.

This is the last day of the sitting of the legislature. Several important acts are before his excellency the governor, for his sanction. It is supposed that he will return them to day to both branches of the legislature.

FIVE DAYS LATER FROM THE UNITED STATES.

We had two mails, one on Saturday, and another yesterday. They give New York dates of the 12th, Baltimore and Washington of the 14th, and Charleston of the 16th. We have no news of any interest from that part of the globe; every thing is quiet, with the exception of a few indications of discontents, in the state of South Carolina. But it is generally supposed by persons, well informed in the affairs of that country, that the differences may yet end in a favourable manner.

Loss of the schooner Sea Flower.—By the New York papers of the 12th ult. we are informed of the loss of the schooner Sea Flower, from this port, bound for Port-au-Prince, which was cast away on the island of Abasco, on the 20th February. Three of the schooner's crew had arrived at New York. The vessel and cargo lost—crew saved.

Nearly two-thirds of the columns of the National Intelligencer of the 13th, are absorbed by a report from the pen of Mr. Adams, on the policy of protecting domestic manufactures. It is the report from the minority of the committee on manufactures, on so much of the president's last message as relates to domestic productions. However ably the subject may have been discussed, we cannot help thinking that it comes somewhat "tardy off" in the wake of Clay's bill: *c'est de la moutarde après dîner;* the proverb is rather musty, but no less true, in this case.

South Carolina.—The second day of the sitting of the Convention, at Columbia, presents nothing new in the position of affairs.—The tariff bill is, nilly willy, admitted by the disunionists; but the revenue law, it is evident, from the language of a correspondent of the *Mercury* will undergo the process of nullification; that is, will be declared unconstitutional. The original ordinance, bearing on the tariff, being henceforth needless, by the adjustment of the question, will be rejected; but the military defence law, says the correspondent, must be retained, for the *protection* of the citizens of South Carolina, who may be aggrived by the enforcement law.

We understand that the New Orleans Building company has fixed on which we were not previously aware—have purchased the valuable Daunoy property, at the lower limit of Marigny's faubourg; and that immediately after the purchase was made, the balance of the capital stock of the company, say upwards of two hundred thousand dollars, was immediately subscribed for. The proximate opening of all the streets, in that vicinage, may be expected, so as to allow the communication as far down as Mr. Duralde's sawmill. This property, hitherto, a drawback on the prosperity of a part of the city, will shortly be *divided into lots*, and improved by the company. Taking the vast meliorations, made by the *press company*, into consideration; we think when this property will be put in market, it will deserve the attention of persons, wishing to make good investments.

A riotous attack was made, Saturday last, on a squad of the city guard, by an assemblage, we are informed through creditable persons, of six or seven hundred contemners of the law. This is not a proper time or place to express an opinion on the subject of an armed guard; but certainly an inexpedient, that guard exists, and exists under the sanction of our laws; and, in the lawful exercise of their duty, they should be borne out by the *impassiveness* at least of the community. We are equally opposed to the guards' having down citizens, as to mobs trammelling the guard in the execution of orders, emanating from the mandates of the people. Of captain Penne's prudence and equanimity, in that circumstance, respectable citizens have spoken to us in the most favorable manner.

The brig Belvidere at Alexandria, D. C. from Lisbon, whence she sailed on the 4th February, brings the intelligence of an English fleet laying off Oporto. Captain Fletcher of the Belvidere, reports that a rumor was current, that the English and French intended to interfere—depose Don Miguel—remove Don Pedro from the country—institute a regency, and proclaim Donna Maria, Queen of Portugal. It was expected that the movement would be made in a few days after the sailing of the Belvidere. [We beg our readers to believe, that the date of this paper had no agency in the penning of this article; we condense it from the Alexandria Gazette.]

To L. Boutlieu, Esq.
Representative of the parish of Jefferson:

SIR—It is with the utmost surprise, we have just heard that somebody had taken the liberty of assuring several members of the house, that we wished the bill of incorporation for the Religious, Lafayette, and Livaudais fauburgs, to be suffered to lie on the table until next year. Not only have we not authorized any body to say such a thing, but on the contrary, we are more than ever desirous of obtaining the charter we demanded; and we see with much pity and contempt, the mean intrigues resorted to, to cause to be laid on the table a measure, which was unanimously petitioned for by the persons who reside in the above named faubourgs. Please accept sir, our sincere thanks for the endeavors you have never ceased to make, to promote the welfare of your constituents.

NITROUS OXIDE GAS.—DR. S. COULT, respectfully informs the ladies and gentlemen of New Orleans, that he will administer the *Nitrous Oxide or exhilarating Gas*, every evening, commencing on Saturday evening next, 30th instant, at the hall room, corner of Orleans and Bourbon streets. Doors open at 7 o'clock, the exhibition to commence at half past 7 o'clock, precisely.

The peculiar effects of this singular compound upon the animal system was first noticed by the celebrated English chemist, Sir Humphrey Davey. He observed that when inhaled into the lungs, it produces the most astonishing effects upon the nervous system; that some individuals were disposed to laugh, sing and dance; others to recitation and declamation; and that the greater number had an irresistible propensity to muscular exertion, such as wrestling, boxing, &c. with innumerable fantastic feats. In short, the sensations produced by it are highly pleasurable, and are not followed by debility.

Dr. C. being a practical chemist, no fears need be entertained of inhaling an impure Gas; as he is willing to submit his preparations to the inspection of any scientific gentleman.

Dr. C. has exhibited the extraordinary powers of the Gas in many of the cities of the United States, to audiences composed of ladies and gentlemen of the first respectability—and many ladies have inhaled the Gas at select exhibitions. Those ladies who may be anxious of witnessing the exhibition in this place, may be assured that not a shadow of impropriety attends the exhibition, to shock the most modest.

Tickets 50 cents; children 25, to be had at Bishop's hotel, and at the door, on the evenings of exhibition.

EXHIBITION OF THE

ART OF FANCY GLASS BLOWING & SPINNING,

EXHIBITION ROOMS, corner of Conti street. For more than 22 days only. Mr. Penn respectfully informs the public, that he will exhibit for a short time, his curious and interesting ART; and can assure those who are disposed to encourage the fine arts, that the exhibition will be found worthy of their attention. The process of modelling figures of animals, &c. from glass, in a state of fusion, is so wonderfully curious, as to fill the beholder with astonishment, and must be witnessed, in order to decide on its merits, as no description can afford an adequate idea of the pleasure it affords. The various positions of the metal which are rare and exquisite in their construction, are finely and well executed as presents for relatives of a tender heart. Admission 50 cents—children half price. Season tickets, (not transferable,) $3. Open from 11 A M till 2 P M and from 3 to 9 at night.
