STATE PRINTER. THEUNION -IT MUST BE PRESERVED." THURSDAY MORNING, JUNE 19, 1833.

J. B. DAWSON.

that conveying an idea of duplicity, must have been the primitive of the former. This is langiable, indeed; yet absolutely to put by the science of et mology, would be equally ridiculous. Some are generally satisfied with an etymology, when by chance a word, bearing some likeness to the one which it is sought to derive, is found in the radical formation of the Greek and Latin languages. That i gonious terturing of words is sometimes carried still thisther, even though the roots have no relation with the debated origin.

The word cholera, for instance, is generally thought to be deriv d from two Greek words, chole, bile, and reo, t flow, now many a professor, Dr. Pereyra, for one, of the medical faculty of Par s-has been known to maintain tha bile had nothing or little to do with the disease. Reflect ing lately on the probable existence of this mulady, previcouste our mra, it struck us that in the course of our readings we had met with something sounding very much lik the word chelera; upon further examination we find two texts, in the original bible, which furnish a rather plausible derivation. We prefer quoting from the Vulgate, insteaof our semi-barbarous English translations. Ecclesiasticus, chapter 6th, say at Cmoul-na, est et aliud malam, quod vill au sole of quidem frequent apud homines; it is another disease, also, which I saw under the sun, and frequent indeed smeng the suns of men. The valgate translates the words choli-rd by miseria magna, great suffering; instead of morhas malus, an evildiscase, which is the exact and legitimate ense of the words as they are to be found in Bruckhart s western states. He will be accompanied by his lady to discussed from that it was a generic term by which was designated one of that family of discases, with which God, in his indignation, visited the transgressors of his holy laws. The second example is to be met with, it the 26th chapter of Deuteronomy, 59th verse: Augeli Dominus plagas thus at plagas explaint of the region. lexicon and Gebelin's primitive origins of the liebrew Dominus plagas tuas et plagas seminis tui; plagas magnas et perseverantes, infirmitates pessimas at perpetuas; the lord shall increase thy plagues, and the plagues of thy sord files to the mountains for cool shades, but particularly to great and enduring plagues and eternal and worsest infirmities. The Hebrew words, represented by the Later but what can be do? Gen. Hamilton sits a month on the infirmitiates pessinas, are cholain-raten, accusative case plustal of the expressions above quoted. These loss hints infirmitates pessimas, are cholain-ratin, accusative case plural of the expressions above quoted. These loose hints thrown at random of a warm evening, may lead some o the sevents of New-Orleans to question more closely the nature of this subject, and to give us the result of their researches in the paleography of cholera. If we can't master the effects, why, let us discuss the ant quity of the scourge.

Minister to France - The Albany Argun of the 22d ult states that Mr. Livingston will sail at an early day, in a public vessel for France, to assume the duties of minister to

COVINCTON, June 9. Esports of the parish of St. Tammany.—Upon a view of the annual experts of brick and lumber from this parish, it appears that the business in the above line has increased within the last two years to an extent greatly surpassing pur most liberal calculations. By items from the several brick yards, we find that the quantity manufactured and delivered in New Orleans the past year, saries very little more or less than sixteen millions. Vist quantities of lumbrane also furnished by the different saw mills, but we are unable to state the quantity, from not having received returns from them. The above business of lumber and brick making is daily increasing, and we venture to state, that the unfertle pine barrens of St. Tammany, will one day, not far bence, prove to the recurrence a source of one little not far hence, prove to the possessor a source of profit, little less in value to the sugar lands of the Mississie. Palladium

Laser of the plan on which is in constructed, (Towala.)

Seath of Chern, it far as we have thank to Catalon, great fleatrention to the bridges and reads has been the consequence; and we four the crops on all the combern we ter courses will suffer materially. The mails morth cand south of this, were out of time from eight to twelve hours.

The Camden Republican of the same date has the following:—"Another destrictive in the same date has the following:—"Another destrictive in the first away part of our bridge, and the fourteenth since the first our river planters. The run plat must inevitably follow upon these successive desestations is really-appailing. It is thought to yield a frop of corn. We do not believe a soiting the following the footen will be made on the river lands this year."

It is the planter of the planter in the planter of the chief par. of this population is north of New Jersey or thought to yield a frop of corn. We do not believe a soit, yet man the meant of the Messaciopi, commanding the truth of the south.

to be an old man, appeared much their superior in years.

"Friend," Baid I, according him, "what a be unif I possible to be abled. In winter the white populs ion out nombine between hells." "Very delightful, indeed," in the black. In summer riverers, The nervors a egencial from Virginia, and the Carolinus,—ad, but help follows, who their matters sold, because they could be upon it. Our conversation was kept up for the space of half an hour, by the end of which time we had made a small current, and were again entering the woods. I had learned from him at home. There are here also many I have seen from him that his paper with a dark wreas students of a cold the Southern State. They does not be Soldieth in the Southern State. They does not be Soldieth in the Southern State. circuit, and were again entering the woods. I had learned from him that his young atte dants were students of a college, whose lefty towers I had before observed stretching from the thicket below me, and which had the app arance of an ancient castle. It was the Georgetown college. Being remartably well pleased with the urbanity of my new acquain ance. I thankfully accepted his very polite inviation to accompany him to the institution, over which he had the kindness to conduct me. The library of the college is situated in its western end, and is the most elegantly finished room for the purpose that I have mot with during my travels in the United States. It contains between fifteen and twenty thoused volumes. An apartment in its case

travels in the United States. It contains between fifteen and twenty thousand volumes. An apartment in its eastern extremity is appropriated to a museum. In their kept an excellent philosophical apparatus, as also numerous valuable relice of antiquity. From the library and museum we proceeded to what is called "The Chapel.

Upon entering the door I addressed my conductor, who answered in a soft whispering tone, and sunk on his knees, as it in adoration of the divinity, who, he believed, presided on the altar. He arose after a moment's pause, and commenced his explanations of the various paintings that decommenced his explanations of the various paintings that decommenced his explanations of the various paintings. menced his explanations of the various paintings that dece rated the wal s of this holy place. Several where from the b ush of the most celebrated Italian artists. The dormitoto use of the most celebrated Italian artists. The dormito-ries we next surveyed. Neatness, cleanliness, &c., were their most prominent characteristics. This college, I was told, is in a more flourishing condition at this time, than it has ever been since its establishment. It has shout one hundred and fi ty students. I returned to my lodging, no less delighted with my accident divisit to this, as it were, ac-questered ap t, than with the indescribable grandeur wit-nessed on the heights of Georget wn?"

Tearelling on dile, 4-c .- It is said that the Vice President after having made the tour or New England with the Ere sident, will go down the Mississippi, and see the "great w at the the first time. We believe it.

The Hon. Dani-I Webs er has set out on a visit to the western states. He will be accompanied by his lady to

and the weather or the people quite cool in that region.

Mr. Calhoun, it is said, will visit the Virginia Hot Sulphur Springs this summer. Generally the nullifiers will the sulfibur springs. Mr. Calhoun, is a charming t saisty, and knows better in his heart than to be an

travel this summer, unless it he a flying trip over the Ohio o see how Judge M'Lean tends his crep.
Judge M'Lean will visit all the state of Ohio a little fuher west, and may probably come over the me untains. He

do e things very quietly.

It is also said that the President of the United States Bank w.l. visit the watern states this summer. Apart from all "fair business transactions," Mr. Biddle is a man escience, literature, and fine taste. He has a considerable ortion of a "magician" about him too.

G veruer Cross goes down to New England—he is a nawe of New H ampshire, but no fire e ter.
Gov. Won, it is said, intends to visit Easton soon. ien. M'Keau is still at the north—cooling himsel.

Judge Sutherland and Doctor Burden, are, or were re-

ently, at Washington. They may be in New York soon The Postmaster General is expected to make a visit into riginia in the season of visiting the Hot Sulphur Springs. The Editor of the Harrisburg Reporter has taken a trysomewhere, but we can't tell the directions.

somewhere, but we can't tell the direction.

Several prominent editors will also be wandering short the country soon—they had better stay at home and attendo business. We are going to New York soon to consence actions, and institute indictments for a libel against the editors, proprietors, &c. of the Evening Post and Stanlard—but that's on a "fair business transaction." Mrs. Royall vi-its the editors of the Standard and Post i all the month of July. "Birds of a feather," &c. Pennsylvanian.

Palladium.

We notice with no small degree of satisfaction, the extensive preparations making by the proprietors of hotels in this place, for the reception of strangers and others who may think preper to wist as the appro-ching a saon; and we presume no exertions will be wanting on the part of the properties, to render pleasant and combrable the situations of those who may stop with them. The elevated situation of Covington, with its fine apprings of water, and its present of those who may stop with them. The elevated situation of Covington, with its fine apprings of water, and its present of the second edition of the New York Courier and Enquirer of Saturday, 15th old, we learn that the Bush ship James and Henry Curamings, capt. Jam's Fox, from Liverprobl to New York, went ashore at Patchague, south side of Long Island, a half past 4 oclock on Tuesday afternoon, 21st inst. After scriking on the bar, she back over and stranded in 14 submers water, about her length from the back. The long and july boars were immediately lowered and crowled with passwagers; the sea running high time, the july boars were immediately lowered and crowled with passwagers; the sea running high time, the july boars were immediately lowered and crowled with passwagers; the sea running high passwagers drowned. One of them an English woman named Hughers, and the other a native of heland.

The forenet has left a huband and two children. Ship shade how hole of Mr. Hughes' property, with the exception of his clothes) about the person, which consisted of foreign side of the passwagers remained on board the ship until so the shore.
