With a presence across India, TACKER empowers customers in a wide range of industries to meet their IT requirements

REVENUE EARNED

INDUSTRIES SERVED

TACKER Successful Projects

Our success stories are a proof that our customers have benefited from our innovative solutions and services

AMERICAN EXPRESS

When American Express, a leader in global payments and travel company, setup base in Gurgaon they required structured cabling to support the high volume business transactions. With TACKER's structured cabling design of 25000+ nodes, AMEX locations across India were provided with state-of-the-art connectivity.

COMPUTER SCIENCES CORP (CSC)

CSC's newly constructed technology center presented the opportunity to connect the branch offices. TACKER delivered by implementing a solution with 7000 active voice ports, 60+ km of fiber and a complete A/V solution with plasma screens and sound stations to connect the Hyderabad and Chennai offices.

ACCOR HOTELS

To maintain the high standard of hospitality services hotels are required to actively share information, conduct training sessions and deploy marketing campaigns. A complete solution – voice, data, video and boardroom – facilitated Accor Hotels to cut communication costs and grow their bottom line.

FUJITSU

Fujitsu, the world's third largest IT services provider, needs a mechanism to manage access of thousands of the employees and provide surveillance of the offices. The TACKER access control solution with card based mechanism and a high-res CCTV system facilitated 24/7 management of the employees as well security in the premises.

ASAHI GLASS

With a extensive global network, Asahi Glass requires to conduct inter-office meetings, training sessions and carry-on with day-to-day business activities. TACKER's multiparty Video conferencing solution using a bridge enabled Asahi glass to reduce travel costs and enhance company productivity.

TACKER Partnerships

Our strong partnerships with the world leaders in technology and IT ensures the best offering for our clients.
