the 4th of Bary. It may be as well-tended that the gas-ber of peptitin, which come at hard, we have found May of the 3d and 5th, it touth from New York and Philadellines Had we a "committeential wish the personness, on the several related, we would suggest the propriety of as once scattering away all 4th arrives, and the conveying of the

The Bee deed by mistake rethe Argus is m that misson coirce; for the Bod used the word "agrarian" as a bread, legitimated the heavy public to print out the flattre of Mr. Clay's billy The Argus had a random remainisonnes of nen-customes, and under a mispulsion of sur language, if not of historical fact, imputes error to the Beet to make a fellow being animerable, for one's ignorance is certainly. ungenerous. We presed the word into fervice merely to quelify the laid till; we know, too woll, what the agrarian laws were, in their origin, to have applied the term in a limited signification, to the interdisted not conserving the sale of lands and apportionment of moneys. Will the Areme he schooled, and allow us to inform it that the laws. granting bounties to our soldiers, are the "nearest approximation" sethe forwise laws in the sense of the word, used by the Argell. To totalbou art grown God make incl-ation in these way.

The ex-president fithe United States is following up his auri-masonic letters to Mr. Livingston. The editors of the Name at Intelligencer have declined publishing a continua tion of this builf political, half sectarian correspondence; and the writer has had recourse to the columns of the Bustin Daviv Advers for a promalgation of his episites. Owing to the irregularities of the mail, we have not had an opportunity of perusing the last letter; as roon, if at all received, we shall take due notice of its impute.

The service qualities is a new theme of declamation, now the bank, the tariff, the nullification and force bill are haid at rost. Thehe impolitic agitation of this subject do not produce some evil effect, it will not be owing to want exertion on the part of the Telegraph. That press has, of late, been indefaugable in an attempt to set the north and south at issue on this fearful question.

The Havana papers of last month speak very highly of th success obtained in that city, by the application of Dr. Ha'phan's method, in the treatment of cholera. Upon heain jof the irruption of the disease in the metropolish Cu'id. . Halphan, actuated by a most laudable spirit of philanthropy, wrote to the governor of the island—in his e macity of president of the sanitory junta-to impart to him the composition of his remedy, and acquaint him with the results obtained. His letter, accompanied by docum nts ere similited, by the governor to the royal poto-in idica tribunal, and ailer an accurate analysis of the curativ means employed by Dr. Halphen, the faculty though proper to recommend i.s use to the board of health. The board, in apcordance with this recommendation, in their sitting of the 12th of April, adopted the following resolution, which was officially published in the Diano of the 182

missing think this publication to be necessary, in consequence of the information furnished by the real protone licate on the curative means, proposed in this letter, and also in order that the public, an learticlearly the physicians if er knowing the epinion of the royal proto-moderal relations of the country of the treatment of the treatm and employ it in such cases as they will think requisite; taking care to have the results reported as soon as possible. Havana, 12th April, 1233. Dr. Augel, T. Cowley, sucre-

The proto-medicate after having examined Dr. Halphon's letter, addressed to the governor, had the following report inserted in the same paper:

"Royal proto-medicate of the ever faithful island of Cuba" have read with altention the treatment employed by Dr. Halphon during the prevalence of choloni to New-Orleans; and as well for the favorable results, obta nod in that city, and the reasoning on which it is founded. as because it agrees with observations made here on the application of the same remedy or remedies of a similanature, we think it proper to publish their curative treatment: for though it cannot be considered as a general remedy for all cases of cholora; yet it should be preferred here as most applicable to the character of the epidemic."4

"As the application of this remedy will be left to the di rection of the faculty, they will be able to distinguish the cases in which it will be best to employ it, and those in which it must be modified." "May God long preserve year excellency. Havanna

April (15, 1933. Don Fosé Antonio Bernal Muñoz -- Dr. Simon Vincente de Havia. To his excellency, the president, governor and captain

We are informed, besides, that the governor of Cuba has written himself to Dr. Halohen, to thank him for his reads. ness in coming to the assistance of the inhabitants of that country, ravaged by the dreadful epidemic. H s excellency has communicated to him that the happy result obtained b all the phracians, who followed the indicated treatment and he promises to forward to him as soon as possible, the obsavances arising from the local character of the cholera. That letter is full of the most honorable testimonies. We have this information from an authentic and undoubted

ROLFICC. We have also heard of a letter from Havana, write ten by a distinguished person there, to a respectable gentleman of this city. It seems, that the havou made by the epidernic was so frightful as to intimidate the physicians themselves, and several of them had lost all hope of masteer. The opinion of the proto-medicate, or the board of heith on Dr. Halphen's treatment and the results obtained by experiment, have renewed their hopes.

4 Our readers will, probably, remember that this opinion was omitted by Dr. Halphen himself, when, during the p svalence of the spidemic, he published in the Bee, the mole of treatment he employed. We find it, likewise, in the letter addressed by him to the gov, of Cuba...

Clinton and Hudeon Rail Road.-We have, in some o Content one stateon Rul 11002.— Yet using it some sense remarks concerning the profitable investment of aspitulint to contemplated rail road from this place to the Mississiphi, asserted that an investment of capital in share of stake would be a profitable investment. In proof of our asserted would be a profitable investment. stick would be a profitable involument. In proof of our assertion we will suggest the following, and leave it with he incredialous to culculate the loss and gain. The longth f the road will be 24 miles over timbered though level land; firm this place to Post Hadson fire descent does not except five degrees; the completion of the work will not exceed \$1,000 per mile: traking the sum of \$84,000 for the trak; add \$13,000 for cars, fuel, labor of hands, and remine of the most and senting for the five sent making the sum. pairs of the road and engines for the first year which will imple the sum of oue hundred thousand dollars.

Low for the income.—There will be, at the present rate of aroping in this parish, fifteen thousand bales of hottor of sroping in this parsen, intoon mousand bates of botton fransported to the given by the rail way, at one dollar and thy cents per built dealing the sum of \$27,500 upwards of twenty per cent on the capital invested, exclusive of the bapatal invested, exclusive of the bapatal invested, exclusive of the bapatal invested.

vased proved to be a supplementally blown of from the enemy of the proved to be a supplementally blown of from the enemy of the provent about elever months ago with nuar men unfortunate voyagers notification friting to and fro, the unfortunate voyagers notification making where they were. In the mean time five of the number had died, and the autwives, when the meanth of the full water instant for them unable the following water instant of them unables

The rables was madly spread under temporary booths and splors, and hung with festoons of leaves, and flowers.
Our officers, from the Commodore downwards, were gaily Our officers, from the Commodore downwards, were gaily attired by wreaths and burght to officers, made by the statedams of Madante Roki, and presented by her ladyslip. The whole teast was served up in native style: I should utility say, the food was woked after the manner of the natives, but the tables were spread after the Eighth or American fashion. There were not far-from a thousand of the Islanders sessembled, of whem many were apparently in attendance is waiters, as they took, our horses immediately on our arrival. Many of the fideign residents were also ordered.

on our arrival. Many of the fd.eign residents were also present.

About the middle of the week a more rational leves was given at the king's place by the chiefs. I mean the exqueens. Many of the ladica and gentlemen of the miss on were present, and it was consented this a ton part; in Amorica. At this close of the week com. Downes had n interview with Gov. Adams, relative in the interval, regulations of the listed, and strongly recommended to him it encourage agriculture almong the profile. Mr. Strigham was present; and seconded the plant he proposed,

The exercises of the rext Sabbath were very simil rations of the proceeding, except the baptism of an infant those of the proceeding, except the baptism of an infast child; and that Mr. Bingham presched both in the native and languages. From 400 to 600 were assembled in the Sabhata schools. The teachers were chiefly natives, and the children appeared to recite for lessons with g cat the control of the control of

and the children appeared to recite for lessens with g end the new.

On-Monday and Tursday a council was held by the king and chiefs, for the consideration of topics presented to them by come Downes, and by some of the foreign residents the limit. Their deliberations, I believe, did not produce much beffet. On Thursday we left Ronolulu, and hade a long farewell to the Sandwich Liebus.

The missionaries have much to contend with at Cahu.—The opposition made by the residents is loud and fea fol No names are too bard for them to use against them. The least that most is, missing pret their language, and marrows and it little class than appose and se indalize the characters of the missionalies. The whole drift of the conversation was missionalise. The whole drift of the conversation was reap selective upon them. In fact we had both opinion it as the conversation was reap selective and men on board, who came off. I because with mo of their intent on than to poison the minds of offices against them and their operations; and this see n was continually thrown out, from the time of our arrited we while full ly our at sea, a period of nearly four, week-What this will lead to I cannot tell. It is highly desirable that some effectual check should be put to it. Nothing that some direction there is no set do hear such abuse. In ned not say that my own fellings were sorrly tried with the o. If I ever behaved the missions is to be good men and doing extensive good. I have strong r reasons to b end designize and impressionable may, will in any leg of lesson-their a taniment. They know he missionaries a their friends, and perfectly understand who are of a differ-

"In the extraordinary sitting hell yesterday by the superior board of health, it has been resolved, that the letter, addressed by Dr. Helphen, of New-Orleans, to his excellency, the governor, through the Spanish coasul, of this city, on hearing that our metropolis had been invaded by the choloral cloud be printed and published in their paper. The comsort—tween three and one—how your woman this morning?" "Well, she's prety much was to her, considerin—how's yourn?" "Sie to be crawing I thank you—goo
