*Camera sepolcrale inventata e delineata conforme al costume, e all'antica magnificenza degli Imperatori Romani. Vedonsi in questo Nacchio e Vasi, ne quali collocavansi le ceneri de' Servi, de' Liberti, e di qualunque altro della Famiglia. Vedonsi ben conservato il sepolcro, in cui stanno riposte le ceneri dell' Imperatore e Imperatrice di lui Moglie. In qualche lontananza comparisce ancora una Piramide, la quale potè forse servire di sepolcro a qualche altro riguardato le Persepoli della Casa Imperiale. Il Ponte poi e le Scale che offerivansi dai gran Finesfronti, davano l'ingressò ad ogni angolo della Camera suddetta, e per le stesse discendevansi al più basso piano, ove i Tavoloni di cotto coprivano l'Osca della più bassa Famiglia.*
