

**Calculate your carbon
footprint when traveling
in Europe** 🚆 🚗 ✈️

Ecopassenger is the sort of practical tool that travellers and decision makers need in order to compare the environmental impacts of different options

Lew Fulton / Senior Transport Energy Specialist at the International Energy Agency

Visit www.ecopassenger.org and calculate your carbon footprint

Understanding the carbon footprint of each mode is an essential building block when developing policies that address the climate change impact of transport

Jack Short / Secretary General – International Transport Forum

Visit www.ecopassenger.org and calculate your carbon footprint
