MEMORANDUM FOR Commander, United States Southern Command, 3511 NW 91st Avenue, Miami, FL 33172.

SUBJECT: Transfer Recommendation for GTMO Detainee, Aiyasan Ollah,
ISN: US9AF-00523DP

1. (S) **Personal Information:** Aiyasan Ollah is an Afghan national born in 1977 in Sarwan Kala, Afghanistan. He is in good health.

2. (FOUO) **Detention Information:** Subject detainee was a farmer in his home village of Sarnkala, Afghanistan, but was conscripted into Taliban service, and served as a guard at a Taliban facility in Nahreen for about three months. When Nahreen fell to the Northern Alliance, he fled and was captured by a Northern Alliance commander in the vicinity of the Chowk-e-Arghande village. Detainee was transferred to U.S. forces and later transported to Guantanamo Bay Naval Base, Cuba, arriving on 13 June 2002. The detainee was transferred to Guantanamo Bay detention facility because of his knowledge of the Taliban leadership in Nahreen, Afghanistan, and about a Taliban staging area in the vicinity of Nahreen. The detainee was cooperative, but JTF 170 considers the information obtained from and about him as not valuable or tactically exploitable.

3. (S) **Assessment:** Based on current information, detainee ISN: US9AF-00523DP is assessed as not affiliated with Al Qaida, and as not being a Taliban leader. Moreover, based on the detainee folder, the knowledgeability brief (KB), and subsequent interrogations by JTF 170, the results of which are available on the JTF 170 detainee database, the detainee has no further intelligence value to the United States, and will not be seen for further intelligence purposes. Subject detainee has not expressed thoughts of violence, or made threats toward the U.S. or its allies during interrogations or in the course of his detention. Based on all the above, detainee does not pose a future threat to the U.S. or U.S. interests.

4. (S) **Recommendation:** In view of the foregoing, I recommend subject detainee be considered for release or transfer to the control of another government.
