(From the Boston Patriot, Dec. 22.)

Every mail brings us the record of some meeting, held in one or other of the states, for the purpose of expressing approbation of the policy and measures of the administration, and adopting means to secure the re-election of JOHN QUINCY ADAMS. Of late, accounts of such meetings have been borne to us from the south and west and from the middle states; and they have some as prompting to the steady republicans of New England, to be up and doing.

In New-Hampshire, the friends to civil government and to our highly talented administration, have stepped forth, and measures have been taken to frustrate the machinations of the Jackson leaders in that state. At Portsmouth, on the 18th inst. a meeting of citizens friendly to the administration of the general government, and opposed to the election of the Gen. Jackson, was held in JEFFERSON HALL, Hon CLEMENT STOKER in the chair, HANDEEN CULT, Esq. Secretary. After the appointment of ten gentlemen as delegates to the country convention for the nomination

of State officers, the following preamble and resolutions, submitted by Mr. John Rice, were read and unanimously adopted.

It is not less the duty than the privilege of the people to assemble and openly and freely to discuss the policy of measures, and the merits and qualifications of candidates for office, and the present time exhibits one of those junctures in the political affairs of this country which renders the exercise of this privilege and the discharge of this duty imperiously necessary.

Scarcely three years have elapsed since the electoral vote of the state of New Hampshire was given for JOHN QUINCY ADAMS, without opposition, and with the entire and unqualified approbation of the people;—and when shortly afterwards the election of this New England statesman was consummated, according to the provisions of the constitution, the even afforded unmingled satisfaction.

This unequivocal and undisputed preference was not founded solely upon local feelings—it grew out of a well settled conviction that Mr. ADAMS was man of great moral worth, that he was endowed by nature with pre-eminant talents, and that to these he added, the fruits of long political experience, a knowledge of the characters and designs of foreign nations, and a mature acquaintance with the necessities and resources of our country.

The wisdom of Mr. ADAMS, administration has been such as fully to justify the expectations raised by a knowledge of his qualifications—and his conduct since his election evinces the most entire self devotion to the good of his country, a just apprehension of his high responsibilities, and a familiar acquaintance with his important duties.

After abundant experience of these truths, we, as citizens of the town of Portsmouth, feel it incumbent upon us to say, that JOHN QUINCY ADAMS has proved himself to be entirely worthy of that unanimous vote, which it is our pride and our pleasure to remember was awarded to him by the people of New Hampshire;—that we entirely approve the principles and measures of his administration, and that, in our opinion, the honor and interests of our beloved country will be promoted by his re-election.

These opinions we should not suppose have thought it necessary to express under ordinary circumstances; but a letter the only alternative to the election of Mr. Adams is the elevation of Andrew Jackson, merely a successful soldier—without experience as a statesman, and without the evidence of possessing such merits as would justify a purely military election;—we deem it our duty, to protest against such an event, and to use whatever exertions are within our power, to prevent its occurrence;

It is therefore Resolved, 1st.—That in the opinion of this meeting, JOHN QUINCY ADAMS is eminently qualified to discharge the duties of his present office.

Resolved 2d.—That JOHN QUINCY ADAMS, by his knowledge of the peculiar interest of our country, and in particular by his timely & energetic defence of our rights to the fisheries, has entitled himself to the confidence and gratitude of the people of New England.

Therefore, Resolved 3dly.—That we will use all fair and honorable means to effect his re-election.

Washington Dec. 15

**CONGRESS.**

In the House of Representatives, a petition was presented by Mr. Stevenson, of citizens of the city of Philadelphia, setting forth that at a general Election in October, 1826, in the State of Pennsylvania, for members of Congress, upon counting the votes in the Congressional ballot box, there was found to be an equal number of votes for John Sergeant and Henry Horn, upon which it was declared that no choice had been made; that in counting the votes contained in the "Coffers," and other boxes, there was found a number of votes in favor of Henry Horn, over and above those given for John Sergeant.

Under these circumstances the memorialists submit to the consideration of the House, the propriety of instituting an investigation into premises, and of deciding the important question, whether by design, accident, or neglect of the Inspectors or Judges of an Election in misplacing, or suffering the votes of an elector to be misplaced, they may discharge the elector, pervert the intent and meaning of the constitution and laws of our country, and render nugatory the inestimable right of election.

The memorialists submit the opinion that no subsequent election can in any manner affect the important principle involved in the first.

This memorial was referred to the Committee of Elections.

The petition was signed by Stephen Simpson, and twenty other persons.

The Georgia State Engineer advises the Legislature to purchase as many slaves as the nature and extent of certain proposed public improvements in

that state may require. He says—

The number of negroes should be proportionate to the extent of the improvements; and if I am permitted to express an opinion on this subject, I think the number should not be under two hundred—Such a gang of young healthy, and vigorous hands I presume, could be purchased in Maryland or Virginia, at a sum not exceeding 80,000 dollars, delivered in Georgia; the annual expense of food, clothing, and superintendance, would probably amount to 25,000 dollars.—The original cost of the negroes may be considered as so much money loaned out of the Treasury without interest, for when the State has accomplished such improvements as may be thought necessary, the negroes may be disposed of and the money returned into the Treasury.

Emigration from the North of Ireland to America has been going on for the last fifty years, to the extent of from 10,000 to 15,000 persons annually, and to that fact alone may be attributed much of the peace of the peninsula of the Northern Counties over other parts of Ireland. If we encourage the removal of 100,000 in three years, by means of public emigration, there is hardly a doubt but that nearly an equal number would voluntarily accompany them, free of any expense to the public, and we may fairly assume that in ten years 500,000 persons would be removed.—London Courier.

**THE STOCKHOLDERS of the Library Society.** are notified that an Election of the Directors for the year 1828, will take place on Monday next, the Twenty-first inst. from 10 o'clock A. M. to 1 P. M.

# AUCTION SALES

BY ISAAC L. MCCOY.

**SUGAR ESTATE.**—On Wednesday the 16th January next, at 12 o'clock, at the Exchange Coffee House, will be sold the valuable Sugar Estate called "Mango Grove," situated at Terre-aux-Hauts, about 16 miles below New-Orleans, and about 4 miles from the Mississippi, containing 1200 superficial arpents of land, having two fronts, each 19 arpents upon the Bayou Terre aux Hauts, by 40 arpents in depth; together with the improvements thereon, consisting of a frame dwelling house of 6 apartments, kitchen, sugar house with one set of 4 kettles, mill house with an excellent english iron mill, purgery capable of containing about 200 lbs sugar, farming utensils, consisting of carts, ploughs, &c. negro cabins, stable, garden; together with a stock of horses, mules, oxen, cows, sheep and hogs, and fifty-four SLAVES. The land is well situated, well drained, easily to be cultivated, and celebrated for the production of fine sugar. A crop of 300 hinds of sugar was made last year, and with an adequate force it is supposed would produce 100 hinds more. The supply of wood is ample, and there is a small canal to facilitate its transportation. There is a small portion of the land (which forms a drain for the other parts of the estate) that might be profitably employed in the culture of rice; for the next year's crop, there are 90 arpents of rice, and it is supposed a sufficiency of plants to plant 250 arpents. This estate possesses the great advantage of not being subject to inundation by rivers, and no expense is incurred by the creation or repairs of levees.

Conditions—Notes at 1, 2, 3, 4, and 5 years, with interest from the day of sale at the rate of per cent per annum, secured by mortgage on the property, together with such other additional security for one half the amount, by endorsement of otherwise, as may be deemed satisfactory by the vendor. Also, at the same time and place, will be sold separately, on a credit of 12 months with approved security, 23 valuable slaves, who have been employed on the above plantation for several years past.
