

REPRESENTACION

DE LA JUNTA PARTICULAR DEL COMERCIO DE VERACRUZ.

Excmo. Sr. Gobernador.—Muchos y muy graves males ha recibido el comercio de la república mexicana, y es preciso emprender a repararlos para que vuelva a la grandeza...

De esa obstinación y ceguera de la España han resultado envenenados y ódios a los mexicanos en ella, y de aquí, emigración de personas y caudales, trastornos y desgracias de familias, y un cúmulo de desordenes...

Gracias a Dios se dieron leyes favorables a estos males, aunque debidas a una nación extranjera; pero en ellas, a debido hacerse distinción, salvando y protegiendo al momento, porque a este más de confusión con el europeo, y sobre todo, los que residían de muchos años en la república...

Este ha sido el mayor y mas grave mal que a sufrido el comercio de la república mexicana, pero no es menor el que se ha sufrido a consecuencia de la prohibición de la importación de ciertos artículos...

En efecto, la hacienda nacional, nada ha ingresado de beneficio con la prohibición que se hizo a aquel decreto, por que la decomisado a su virtud no le produjo más que los derechos que la hubiera dado el importador...

La mejora que en efecto tuvieron en otras naciones amigos o neutrales, muchos a tiradas que antes tenían solo de los dominios españoles, y el poco conocimiento que de ellos asista a los empleados que creían que únicamente se producía o manufacturaba en España y sus colonias...

Estas trabas, Sr. Excmo., estos desordenes que son públicos y notorios, tienen encadenado el giro, y él no puede progresar mientras existan. Preciso es romperlas, y frauquear los caminos a la felicidad común...

clasificaciones de los empleados de hacienda, porque con ellas causan los enormes daños que han inferido hasta aquí. Así lo esperamos de V. E. seguros como lo estamos de que concedida esta franquicia propia de la magnánima nación mexicana...

NEW ORLEANS THURSDAY, FEBRUARY 25, 1830.

We have in our office, says the Mill-Edgeville Journal of the 6th inst a beautiful specimen of Sugar made by Gen. D. B. Keshner of Laurens County.

A writer in the Middle-town, Conn Sentinel, speaking of the change in manners and morals, which has occurred in that State within a few years, observes:

In the State of Connecticut, our professional men are generally temperate, and habits have very much altered. It was much more fashionable for respectable people to drink spirits formerly, than at present.

Columbia.—The Journal of Commerce says:—“We have conversed with Captain Davis, of the brig Native, which arrived yesterday from Maracaibo. He left on the 23d December. Up to that time no information had been received of Gen. Paez having declared the separation of Venezuela from the rest of Colombia...”

10th, and left on the 12th. He was expected to reach Popayan on the 20th, whence he would proceed directly to the capital. The same paper contains the Treaty of peace recently ratified between Colombia and Peru.

A letter from Madrid says, the ill success of the expedition of Barradas does not seem to have discouraged those who are anxious to reconquer the new world. The city of Cadiz has offered to the King to raise a corps of 1000 men, clothe them, arm them, and bear the expense of their transport to the coast of Mexico.

Extension of Manufactures.—The manufacturing enterprises of the United States is still extending. The New-England Hosiery Manufactory supplies its neighborhood with excellent cotton stockings, superior to the imported Cotton Hosiery.

The manufacture of Facks is carried on extensively at Arlington, Mass., about twenty miles from Boston, by patent machines, which turn out the best ever made. Great quantities are used in Boston, and still greater exported to other places.

Paul Beck's Shoe factory, on the banks of the Schuylkill, can furnish shoes sufficient for the United States. Six factories are erected on the Atlantic coast since the tariff, and several in the Mississippi. The article is an article of domestic manufacture.

Artificial Flowers are made in a great variety in our towns and villages. A great part of these on sale are of domestic manufacture. Copies are now used almost entirely of American manufacture.

MIGHTY EFFECTS OF STEAM.—It was mentioned by Professor Redwich, in his lecture last evening that during the great European struggle, England employed about 400,000 persons in and about steam engines, and that these engines turned out finished work, equal in quantity to what the labor of two hundred millions of human beings could have effected.

It was through the mighty agency and miraculous effect of the steam engine, England was enabled to sustain herself triumphantly in that long and terrible struggle against the power of Napoleon—and that she found the means of stirring up and subsidizing other nations, until, in the language of the lecturer, “the greatest captain the world ever saw, discomfited and overthrown, was obliged to bow before the power of STEAM.”
