# INTRODUCTION ABOUT THE CTE

- Management of Teacher Education is one of the most important activities of DSERT department. Teacher Education has two components - **Pre service** education and **In service** education.
- The DSERT coordinates the management of all the secondary teacher education colleges in the state, it gives web induction trainings for only 7 Government Colleges of Teacher Education from this year.

# Why AIFT is taking part CTE Training?

The AIFT implemented the DE program in 200 Government High School, spread across in 11 districts of Karnataka, these schools are provided with computer lab under ICT Phase-2 initiative of the GoK. There is enormous learning in implementing the program in these schools, interestingly the crux / focus of the program aims at teacher training and facilitation of the computer related skills to the teachers. The current program attempts to deal with the following

- Building the capacities of the teachers in usage of computers and internet
- To make the teachers cognizant and sensitive on concepts like levels of thinking, types of intelligence, Project-based learning, etc
- To integrate the technology based pedagogy in Teaching learning processes and there by enhance the learning level of the students
- The Content and the gadgets are identified to promote self (paced) learning for teachers
- To encourage the teachers to integrate the ILTM concepts and technology optimally in TLP
- To automate the school administrative work
- To encourage students to work in groups under PBL methodology and research on topic and present the finding to their peers
