Sir :- It is a part of my official duty to cause all white persons residing within the territory of the State occupied by the Cherokees, to b removed therefrom, who refuse to take the outh to support the constitution and laws of the State. Information has been received of your continued residence within that territory, without complying with the requisites of the law, and of your claim to be exempted from its operation, on account of your holding the office of l'ostmaster

That you may be under no mistake us to this matter, you are also informed that the Government of the United-States does not recognize as its Agents the missionaries acting under the direction of the American Board of Foreign Missions-Whatever may have been your conduct in opposing the humane policy of the General Government, or exciting the Indians to oppose the jurisdiction of a cottage bonnet of Tuscan straw. The other is Mr. John West, a young gentleman, and a Cherokee, who is charged with the high crime of using insolent language to the Liuard. These four I saw last night under Guard, chained together in pairs and fastened with locks. Mr. David Vann, a member of the mion of their Sovereign, expressed by an Ameri-Cherokee Senate, and Thomas Woodard, are also arrested, but not chained, who are not al

lowed to know the reason of their arrest until they arrive at head quarters, 70 or 80 miles from their respective residence. The Guard is still in pursuit of other men. They have a wagon along, in which they have a drum, on which they beat, and fife to make martial music. Your friend,

> Extract of a Letter from a Lady in London, May 12th, 1831 .- I saw the King and the whole of the royal family, at what is called the 'private view' of the Exhibition of the Royal cademy. They were there almost three hours. there was an immense crowd outside, and we observed the Queen wipe a tear from her eye on hearing the loud acclamations with which her husband was greeted. She is by no means a handsome woman, and her eyes are remarkably light and prominent. She was dressed in dark blue velvet, with a white chip bonnet and feathers. The princesses were habited nearly alike, in lark blue siik polisses with bonnets of the same Arrived from the 26th to the 2d July 38 colour. When he ordered the state coach to be prepared, word was brought to him that it would be impossible for him to solve Parliament on that day, as it would take twenty four hours to plat the manes and tails of the horses. The King then desi ed a hack to be brought, as he was determined to go at once. However, the state-coach and horses were even-

We have been asked by many English persons if we have heard of the compliment which our minister paid to the King, in speaking of him a short time since. It seems that Mr. M'Lane said, "he had never supposed it possible he could be brought to envy a king, but he would almost rather have had the feelings of William the Fourth, on the day he dissolved Parliament, than those of any other man that has ever lived."

Machine for making Bricks .- A day of two since a Philadelphia paper gave an account of a machine invented for the convenience of bakers. which worked wonders in dough, and turned out several hundred fairly proportioned crackers in a minute. It is not improbable that it may be on the same principle with a machine lately contrived in England, by a Swiss mechanic, for at a penny, but we have understood that one or making bricks. In order that the pleasure of a dance may be enjoyed without incurring the penalties, a certain number of persons must subscribe a paper declaratory of their intention. UNITED STATES TERRITORY .- Bradbury computes the area of the Mississippi territory at 1,331,779 miles, or 860,658 563 acres. The Chiiese Empire itself, taken at 800,000,000 acres, falls far short, in superficial extent, of the Unied States, which contain 1,205,635,830 acres.
