

THE SULTAN'S HEIR.

His Eldest Brother, Who is Little Known Among the People. The sultan's heir is not his eldest son, by his eldest brother. The eldest male succeeds. Such is the law of Islam, and the fruitful source of dynasty murders in almost every reign since the Turks became a power, says the London Echo.

Rehad Effendi is rarely seen. Every time he drives out he is escorted by a troop, less by way of an escort than as a guard. The few who do know him like him, for he is said to be a courteous, humane, well-informed man, acquainted with current politics and keenly interested in them.

WOOD MOSAIC OF SAWDUST. Highly Ornamental Process for Molding Doors and Floor Material.

In the reports of the Industrial Union mention is made of a new process of floor mosaic, says the Yale Scientific Monthly. Small particles of wood, as sawdust, wood flour and fine shavings, are treated first with a mixture of shellac and alcohol, and then with a cement made of curd and slacked lime.

THE TROLLEY BUZZ. And Something About the Trolley Cars as a Cure for Headache.

"Ever hear of the trolley buzz?" said a Brooklyn resident whose business is in New York. "They say that some people who travel regularly on the trolley cars get the trolley buzz. You know the sound of the trolley, the buzz-z-z that begins low and rises gradually as the car increases in speed, keeping a uniform tone when the car is running at uniform speed, and then declining again as the car slows and stopping when the car stops? They say there are people who travel regularly on the trolley cars who hear this sound all the time wherever they are, except when they are asleep. They call this having the trolley buzz.

ELECTRIC PROTECTION OF SAFES. Listing So Arranged That the Slightest Break Will Raise Alarm.

The latest idea for the protection of money and valuables is to have the safe which contains it made inside a cabinet, says the St. Louis Globe-Democrat. Where a safe is kept in a vault, the vault serves the purposes of a cabinet. In either case an electric lining is used, consisting of strips of metal mounted in connection with thin metal sheets, so arranged that even a pin thrust through the cabinet and penetrating the lining will sound the alarm.

New England's Population. Irish and French Canadians constitute 70 per cent of the foreign population in New England.

Sculptor: "You painter chaps have all the luck. No matter how badly you paint, your pictures always look better after a few years. Now time never improves our things."

Painter: "Well, no, unless—perhaps—it knocks off a head or an arm."

"But what will your wife say?" "Oh, that's all right. I told her I had a pressing engagement at the office."

And Something About the Trolley Cars as a Cure for Headache.

"Well, I must be off." "What for?" "It's getting late." "Where do you live?" "Next door."

"Garn, what's your hurry? You can't go out in that coat."
