L'UNIVERSITE DE RENNES HONORE UN AMERICAIN

Rennes. M. James Hazen Hyde, diplômé de l'Université de Harvard...

ASK any doughboy who was "over there" and he will tell you that American railroads are the best in the world.

He saw the foreign roads—in England and France, the best in Europe—and in other Continental countries—and he knows.

The part railroads have played in the development of the United States is beyond measure.

American railroads have achieved high standards of public service by far-sighted and courageous investment of capital...

We have the best railroads in the world—we must continue to have the best.

But they must grow.

To the \$20,000,000,000 now invested in our railroads, there will have to be added in the next few years, to keep pace with the nation's business...

To attract to the railroads in the future the investment funds of many thrifty citizens, the directing genius of the most capable builders and managers...

American railroads will continue to set world standards and adequately serve the Nation's needs if they continue to be built and operated on the American principle of rewards for work well done.

This advertisement is published by the Association of Railway Executives.

These desiring information concerning the railroad situation may obtain literature by writing to The Association of Railway Executives, 61 Broadway, New York.
