Q1: What would be your definition of succes for this project?

Q2: Which are the major risks you see for this project?

Q3: What would be your most wished for features in this project?

1 SUCCESS

1 Usability

2 Actual use by GLAMs

3 Metadata Quality& Attribution

4 More re-use in Wikiprojects and elsewhere

5 More GLAMs daring to share

2 RISKS

1 Lack of Wiki Community Support

2 Too complex to use

3 Feature creep

4 Low/No Uptake by GLAMs

5 Too much data too handle

6 GLAM vs Wiki Community culture clashes

3 Features&Functions

1 KISS!!!

Keep things simple stupid!

2 Statistics fit for purpose

3 Localization

4 Specific input on APIs and formats

(see slide 4)
